

Hear the best talent at its best

through the Edison Phonograph

The world's best entertainers, the head-liners of the vaudeville shows, the stars of the operas, the good composers, band leaders and orchestra conductors are making Records for the Edison Phonograph. All of them are represented in our catalog.

Why do they consent to make Records for the Edison Phonograph? Because they believe that the Edison Phonograph will do them real justice, giving them the most artistic reproduction.

When you listen to an Edison Record played by an Edison Phonograph, you hear the original just as it was sung or played. Can you do this with any other instrument?

Edison Phonographs can be had from \$16.50 to \$162.50
Edison Standard Records 45
Edison Amberol Records (play twice as long) 45
Edison Gram-O-Phon Records 85c. to \$12.50

There are Edison dealers everywhere. Go to the nearest and hear the Edison Phonograph play both Edison Standard and Amberol Records and get complete catalogs from your dealer or from us.

MODERN MARTYRS!

The age of martyrs is not passed. There are thousands of women all over the country enduring physical torture and mental anguish almost beyond description. They are not victims of persecution, like the martyrs of old, they are not called on to face the scaffold or the stake, but their sufferings—borne in silence and hidden from the world at large—are scarcely less intense.

These ladies, as a rule, are women and girls of refined and sensitive temperaments. Knowing that their sufferings are due to a disordered condition of the female functions, their native modesty deters them from seeking relief in the earlier stages, and when they do consult a physician, they usually get some "drug mixture" to take internally, which is not more effective for troubles of this kind than it would be for a toothache, a headache, or any other strictly local ailment. The seat of the trouble being in some one of the female organs, the remedy, to be effective, must act on this portion of the anatomy.

This is the secret of the success which always follows the use of ORANGE LILY in disarrangements of this kind. It is a perfectly local treatment, it is absorbed directly into the parts that are inflamed and congested and its beneficent soothing influence is noticeable from the start. The irritation of the delicate membrane is relieved, the congestion is overcome by the discharge of the watery mucus which served to oppress the nerves and cause mental depression; the nerves are relaxed and invigorated; and the sunshine and joy of a new life again becomes part of her being. Read the following letters:

Archdr., Ont., Feb. 1, '09.
Dear Mrs. Currah—I received your kind letter some time ago, but was feeling so well, and not needing medicine, that I neglected replying sooner. I must say I have more confidence in ORANGE LILY than in any other thing I have ever used. Before I knew or found out anything about this medicine, I doctored away hundreds of dollars, and when I thought I was free from pain in the womb and ovaries, a box of ORANGE LILY was sent me through the mail from a friend. The first suppository I used I was greatly relieved, and in a few months completely cured. That was nine years ago this winter, so you can imagine with what esteem I hold the ORANGE LILY. I am thankful there is such a relief for poor, suffering women, for I have been one of them and can sympathize with others.
Your sincere friend,
Trenton, Ont., Dec. 4th, 1909.

Dear Friend—I feel it my duty to write you a testimonial as to what Orange Lily has done for me. Last winter I was feeling very miserable indeed. I could scarcely do my household work during my menstrual period, and for two months or more I was never free from pain in the womb and ovaries. The pain began going up the back of my neck to my brain until I hardly knew what I was doing at times. Life was a burden indeed. I finally could endure it no longer, so went to our leading town doctor and had an examination. He pronounced it (I forget the word) a rigid condition of the generative organs, produced by repeated attacks of inflammation. He said I would have to take a course of treatment, and that that failed to overcome the rigid condition I might, in time, be compelled to have the ovaries removed. I objected to that, so I called on Dr. Coonley's symptom blank and forwarded it to him, and he diagnosed the disease the same as my local doctor, so I decided to take Dr. Coonley's Treatment. I have used two jars of Cerate Massage, two packages of Herbal Womb-Tonic and six boxes of Orange Lily. It is eight months since I began the treatment, but I feel like a new woman. I can do right through everything now. Hardly know a pain, even during menstruation now. I often say, "I would not take \$100 and be in the state that I was last March." I feel that Dr. Coonley's Home Treatment is a Godsend to suffering womanhood, and shall continue to sound its praises whenever I have an opportunity.
Yours gratefully,
MRS. T. H. HATTON.

ORANGE LILY as a remedy for these ills, as well as for leucorrhoea, painful periods, irregularities, cancers in their earlier stages, tumors, displacements, lacerations, and all ovarian troubles, has long since passed the experimental stage. So confident am I of it that I will send ten days' treatment, which is worth 35 cents, to any sufferer ABSOLUTELY FREE. The treatment is inexpensive, used at home, and no physician is necessary. Send at once for the

FREE TRIAL TREATMENT
which will demonstrate that ORANGE LILY will cure these ills, and address MRS. FRANCIS E. CURRAH, WINDSOR, ONT., Can. Rep., County Med. Inst. Delays are dangerous.

Washington, D.C., March 4.—For more than an hour the House of Representatives listened to an illustrated lecture on the high cost of living. The lecturer was Representative Augustus P. Gardner, of Massachusetts, one of the insurgent leaders and a student of political economy. No matter what is the cause of the increase in this country it is not the tariff, in the opinion of Mr. Gardner. He asserted this with the greatest possible emphasis and then proceeded to demonstrate it with a pointer and the aid of two enormous charts placed before the Speaker's rostrum. One of the charts showed in a graphic way the fluctuations in wholesale prices of staple articles in the United States and Great Britain from 1875 to 1909. The other showed the actual prices paid for foodstuffs by the Massachusetts training ship Ranger in the summer of 1909 in Boston and more than half a dozen large European ports. He said the first table proved that

number of different kinds of bacteria in the numerous eggs examined, he reports finding none of a disease-causing nature, although he admits a rather remote possibility of such germs finding their way into eggs. The conclusions drawn from his report on the subject are: Ranger, that to produce a good egg it is necessary to have a healthy, vigorous fowl; and, secondly, that to keep such an egg fresh and appetizing for even a comparatively short period, it must be given protection from bacterial contamination, and from weather conditions which may make it susceptible to infection, at the earliest possible moment. In other words, no matter how clean the nest, eggs should be gathered frequently and stored in the coolest place available, this advice being especially applicable to the warm season of the year, when germs of all kinds are rampant.

Tips For The Farmers
BY UNCLE JOSE.

It is a sad commentary on Canadian poultry production that we must import eggs from Russia for home consumption says the Toronto Globe. Six thousand dozen eggs were recently shipped from Riga, Russia, to Montreal. They travelled more than 6,000 miles. Previously we had imported eggs from China to British Columbia. It is not a compliment to Canadian farmers that our dealers must look abroad for a sufficient supply of eggs to provide for home requirements. Our farmers are allowing a splendid opportunity to slip through their fingers. Not only have we ceased to export eggs, but we cannot supply the home demand. These conditions should prove a stimulus to poultry-breeding and poultry-keeping throughout Canada.

Bacterial Infection of Eggs.
In these days of advanced scientific research it is not surprising to learn that even the contents of an eggshell are subject to bacterial infection. A careful study of egg infection and preservation, supplemented by laboratory tests and observations, was made during the early months of last year by an able bacteriologist. His work led him to the conclusion that most eggs contain some form of bacteria at time of production, or very soon thereafter, and that the development of these organisms, and the consequent decomposition of the egg, is influenced largely by the conditions under which the egg is placed, in other words, that the infection is naturally present to an extent sufficient to quickly cause decomposition under conditions favorable to the rapid multiplication of the bacteria. Prompt and proper handling of the egg would, therefore, appear to be the only means of retarding decomposition. While this investigator found a

seemed to be deficient, and I grew pale and depressed. I was dizzy nearly all the time, and pimples broke out on my face. I was altogether in a miserable condition and it seemed impossible for me to continue my studies unless I found a speedy cure. I tried several tonics prescribed by the doctor, but they proved useless. My mother urged me to try Dr. Williams' Pink Pills, and I finally consented to do so. I had hardly finished the second box before a change for the better took place, and the use of a few boxes more fully restored my health, and I have since been well and strong. I feel that I cannot say too much in favor of Dr. Williams' Pink Pills and I strongly recommend them to other ailing girls. You can get these Pills from any medicine dealer or by mail at 50c. a box or six boxes for \$2.50, from The Dr. Williams' Medicine Co., Brockville, Ont.

New Health and Strength for Weak and Ailing Girls

Can Be Had Through the Rich, Red Blood Made by Dr. Williams' Pink Pills for Pale People.

There comes a time in the life of almost every girl when sickness attacks her. The strain upon the blood supply is too great, and there comes headaches and backaches, loss of appetite, attacks of dizziness and heart palpitation, and a general tendency to a decline. The only thing that can promptly and speedily cure these troubles is Dr. Williams' Pink Pills. This is the only medicine that actually makes new, rich, red blood, and a plentiful supply of rich blood is the one thing needed to maintain the health of growing girls and women of mature years. The truth of this statement is proved in the case of Miss Esther E. Sproule, Treasurersville, N.S., who says: "At the age of sixteen years I left my country home to attend high school. The close routine and long hours of study nearly broke me down. My blood supply

PEOPLE use M.L. Floorglaze for the hulls of sailboats and motor-boats, and are satisfied with the way it looks and lasts.

That proves M.L. Floorglaze is water-proof. A good all-purpose finish, therefore.

PEOPLE use M.L. Floorglaze on vehicles, too, and find it looks better and lasts longer than any kind of varnish or paint.

That proves M.L. Floorglaze is fade-proof and weather-proof. The perfect protector for all woodwork, therefore.

PEOPLE find that M.L. Floorglaze helps housewives keep floors dust-free because the surface stays glass-hard and glossy.

M.L. Floorglaze doesn't mind wet, sun, scuff of feet nor dragging of furniture across it.

M.L. FLOORGLAZE is the best thing you can get to help renovate the whole house. Fine for all woodwork, indoors and out. Makes old furniture look new again. Goes farthest, too—gallon covers 500 square feet.

Choose among 17 pretty colors in solid enamel—seven Lacs to imitate hardwoods—and Transparent for natural finish. Comes in little and big tins. Easy to put it on right. Ask at your dealer's or write us for news of the hundred uses you could make of M.L. Floorglaze. The Imperial Varnish & Color Co., Limited, Toronto

Recommended and Sold by all reliable dealers, including W. A. MITCHELL & CO., H. W. MARCHALL, and J. B. BUNT & CO.

You Are Invited to Visit This Place.

This is a view of the laboratory in Lynn, Mass., in which Lydia E. Pinkham's Vegetable Compound is made. There is a sign 5 feet long and 2 1/2 feet wide attached, permanently, to the front of the main building which reads as follows:

Public inspection invited—from 8 A.M. to 4 P.M.—
—Lydia E. Pinkham Medicine Co.

What does this sign mean?

It means that public inspection of the laboratory and methods of doing business is honestly desired. It means that there is nothing about the Pinkham business which is not "open and above-board."

It means that a permanent invitation is extended to anyone to come and verify the statements made in the advertisements of Lydia E. Pinkham's Vegetable Compound.

Is Lydia E. Pinkham's Vegetable Compound made exclusively from roots and herbs?

Come and See for Yourself.
Do the women of America continually use as much of it as we are told?

Come and See for Yourself.
Was there ever such a person as Lydia E. Pinkham, and is there any Mrs. Pinkham now to whom sick women are asked to write?

Come and See for Yourself.
Is the vast private correspondence with sick women conducted by women only, and are the letters kept strictly confidential?

Come and See for Yourself.
Have they really got letters from more than a million women?

Come and See for Yourself.
Have they proof that Lydia E. Pinkham's Vegetable Compound has cured thousands of these women?

Come and See for Yourself.
This advertisement is only for doubters. The great army of women who know from their own personal experience that no medicine in the world equals Lydia E. Pinkham's Vegetable Compound for female ills will still go on using and being benefited by it; but the poor doubting, suffering woman must, for her own sake, be taught confidence, for she also might just as well regain her health.

Hundreds of thousands of people who have not used OXO before will be delighted with the new

OXO Cubes.

Once you realize its many advantages you will never be without OXO in the house.
