one, of the chief ingredients of violet pewder; many others are well acquainted with the strangely shaped pieces of white root, that seem like dried ginger, which give out the delicate and subtle scent of the violet, and perhaps the privileged few know that it is made from the roots of a kind of iris.

"Never have I seen the cultivation of the iris and the preparation of orris root to such perfection as this summer in the Tuscan Apennines, where Vallombrosa lifts its pine covered head," says a writer in the Queen. "On the sunny side of the mountains lies the whole district of the Val d'Arno and between Saltino and Pian di Sco the entire neighborhood is given up to the cultivation of vines, olives and iris.

"Indian corn, wheat and millet find a place; but wine, oil and orris root are the three commercial industries. Pergolas of vines stretch along as far as the eye can see; vines with clusters of purple or white grapes, olives laden with green berries, and under them and between them little plantations of iris

"The iris, or giaggolo, as it is called] n Italy, is planted thinly, and allowed to grow for three years, when the been no need of a governess for three would build houses and homes, and Mr. Grump (a savage bachelor)-I roots are dug up and tied in big bunput into it.
