AND LESS SHIP REPAIRS FOR THE UNITED STATES.

A Good Shipyard Is Needed Here for Large Vessels—Vote for the Dry Dock Exemption By-Law and Get One.

There are only two places along Canada's wonderful chain of waterways where ships of any size can be built or repaired, and these are, Colingwood and Toronto, and upon these depends the responsibility of making and maintaining all the freight and passenger boats used in the trade of the River St. Lawrence and the lakes from Ontario to the head waters of Lake Superior. The result is that most of the new work, and by far the largest part of the repair work, is now sent out of Canada, thereby causing financial loss to our own country, the loss of employment to our citizens, and a serious reflection upon the intelligence and commercial instinct of Canadians in general. A lot of the new work goes to England, with a big share of it to the states, whilst the repair work is nearly all done in the shops of the big centers, like Buffalo and Detroit. A few years ago some of the small ship repair shops of this country petitioned the Canadian government to impose a heavy duty on all repair work done in Canadian vessels, whilst in American ports, and this was vigorously opposed by the transportation companies, on the ground that it was impossible to have such of this work done in Canada for the want of facilities to do it expeditiously, if it could be done at all, which was very doubtful to their experienced minds. This application for a duty on repairs was an attempt to force all such work to be done on this side of the line, but it would have failed to afford a remedy for the evil against which they were working, because they were on the wrong track altogether. Now the Kingston Shipbuilding company has found a real solution of the problem, in starting a large shipyard in this city, which will be able to take care of

most of it, and in a few years will take care of all of it, and make it unnecessary to go to an American port for repairs, and only get just enough repairs done when necessary to bring the ship into a Canadian port where every detail can be attended to by Canadian workmen, and a Canadian shipyard reap profits. Fancy just two places in all Canada where ships of any size can be built and launched, or where they can be repaired. But let the present by-law pass, and we shall see the many Kingston on the stern of a name fine vessel, and scores of the biggest boats plying lake and river will come here to have machinery installed and repaired by Kingston workmen, and all the profits of such an industry will flow into the coffers of Kingston business houses.

We have some of the best mechanics to be found in the whole of Canada, and we have been known for our ability to engineer the most difficult undertakings. Our sons have gone out, and made fame and fortune in other places. Why not give them a chance to do it right here at home? On the 21st of this month every taxpayer will have a chance to vote for a by-law that will give existence to one of the finest and most complete shipyards on this continent, and the by-law will compel the paying of \$30,000 in wages for the first three years, then an increase of \$10,000, making it \$40,000, maintaining a plant valued at least at \$50,000 in the finest working order and paying school rates on \$50,000 more. Why, we never had such a proposition put to this city by men who are in every particular responsible financially, and who are well-known as men who have stamped every enterprise they have equipped with the mark of marvellous success.

Let nothing keep you from the polls on the 21st, and allow no man, remarkable for the use of the hammer in knocking every thing launched for Kingston a good, to affect you in the least. If you want light or information, ask for it, and it will be supplied by the general secretary for the by-law, as appointed by the Board of Trade, T. D. Minnis, in whom everybody has the most implicit confidence, and whose word is worthy of acceptance in all matters with which he may be identified.

THE HALLS OF QUEEN'S.

Well, Just Listen! New Seats For Old Convocation Hall! From Our Queen's Correspondent. Year '12 science held its final meeting, Thursday afternoon. A splendid programme was rendered. The members of arts '12 were the guests of the science men.

The benches which have seen service in Convocation hall almost since the beginning of things, were, yesterday, discarded for up-to-date chairs, such as those occupying the Grant hall.

Mr. Burton, who has been absent from his post for the past few weeks on account of illness, is again able to be about the corridors of the old arts building.

On Monday afternoon final year meetings will be held by the Queen's Western Association and year '12 arts.

THE SPORT REVIEW

QUEEN'S WILL DO BATTLE THIS EVENING

With Ottawa Cliffhiders in Defence of the Allan Cup—Queen's are the Favorites on Kingston Ice.

Everything is ready for the big hockey game, this evening, that will decide whether a team from the north or a team from the east will hold the Allan cup. The ice at the covered rink has been carefully nursed, since the Frontenac game, and will be in good condition for the big game. Queen's is of the opinion that they can hold the cup on their own ice, and all the players are in condition for the battle. Cliffhiders have had a series of very hard games during the past three weeks, being defeated a few nights ago on their own ice by Victoria's, of Montreal. Ottawa and Queen's are by no means strangers to each other, as Queen's took the cup from them last season in Ottawa.

No word of any officials was received up to Saturday morning, Queen's expecting two Montreal men to be appointed by the trustees. Neither was any word received by Queen's about what action the trustees took in the Darragh-Broadbent protest for playing with two different clubs in two different leagues in the same season.

The advance sale of seats for tonight's game is very large, the Ottawa contingent taking a few hundred.

I.M.C.A. Basketball League.

The teams to play for the handsome George B. Meadows cup, were chosen last night, from the business men's class, and are as follows: Irishmen—R. Day (Capt.), D. Pound, J. Gillespie, R. Ward, H. McFaul, G. Sargent, R. Harris, G. Swan, L. Knowles.

Galatians—J. Stagg (Capt.), H. Singleton, M. Lemmon, R. Atkinson, D. Wightman, G. Stagg, V. Green, J. McCartney, E. Summers.

Saints—J. Rutherford (Capt.), V. Gilbert, L. Barry, G. Birch, R. Clarke, R. Berry, G. Howie, F. Newman, L. Marchant.

Bohemians—H. Edgar (Capt.), S. McCarty, C. Moxley, F. Partridge, R. Edgar, R. Derry, D. O'Neill, J. Sowards.

Saw Bones—F. Moxley (Capt.), W. Bearance, P. King, S. Parkhill, H. McCarty, R. White, F. Freeman, J. Campbell, H. Howie.

The following is the schedule: Irishmen vs. Saints, Galatians vs. Saw Bones, on Monday, March 14th; Bohemians bye.

Winner of Irishmen-Saints play Bohemians, March 16th.

Winners of March 16th play winners of Galatians-Saw Bones, March 18th.

Last year these games furnished some good sport, and judging from the interest taken thus far, there promises to be "some game" on the local floor this coming week.

Stratford Greets Frontenacs.

The Cosby cup will take a long journey from Stratford this year. Stratford extends congratulations to the Limestone city champions. This is not Kingston's first experience in winning the junior championship by any means. In the very first year of the junior series, 1893, the trick was neatly turned by the Limestones. Again in 1904 the Frontenacs-Bosch groves won the honors and the year before they were runner-up.

Sporting Notes.

Westport defeated Seely's Bay by 8 to 5 for the Taylor cup.

A Boston despatch says that twenty-five Canadian runners are expected down for the Marathon April 19th.

Toronto Globe Young Millan, the Kingston junior star, was discovered playing "shiny" on the river.

The Renfrew hockey club has received an invitation from New York to meet the winner of the Ottawa-Wanderer series in that city on March 19th.

At Oakland, Cal., "Jim" Barry, of Chicago, sent a right uppercut to "Gus" Smith's chin in the 10th round of their scheduled ten-round fight, and knocked out the sailor.

The Gleggery hockey team of Williamstown, landed the Stormont League championship, and the Macdonald cup, by defeating the Rough Riders, of Cornwall, on the latter's ice, in a sudden-death game, by 6 to 5.

At Utica, N.Y., Arthur Cote, lightweight champion of New England, fought a hard ten-round draw with "Bobby" Wilson, the Canadian champion, before the 28th Separate Company Athletic Club. Wilson had the best of Cote in the last three rounds.

Toronto Telegram: "The championships for the year '12" is the ultimatum of the O.H.A. for the first time since 1902. No medals for the hockey net to the west of us. Frontenacs in the east, Collingwood in the north, and either Parkdale or St. Mike's in the midst of us, are the ones to do the honoring.

Preston's junior hockey team got a hearty welcome home. The Preston silver band, Mayor Reeve and aldermen, with fifteen hundred spectators, met them with carriages, and a torch-light procession was formed and marched down Guelph street and up King street, to the Preston Mineral Springs, and back to the opera house, where a demonstration was held.

THE QUEEN'S.

Toronto, the Queen City of Canada, has much of the beautiful. It is found in the many handsome churches, artistic public buildings, imposing offices, public drives, parks and gardens. Its government buildings are fine. Of hotels there are many; none, however, approaching the Queen's for perfect service, quiet comfort, and homelike surroundings, and the peculiar excellence of its cuisine. Its fame is far-reaching, and many remember with pleasure the hours spent within its hospitable walls. The charges are based on the American and European plan, and are as follows: Rooms without bath (American Plan) \$3.00 per day up; Rooms with bath (American Plan) \$3.50 per day up; Rooms (European Plan) \$1.50 per day up.

IS NEED FOR ROOM TO ACCOMMODATE CHILDREN AT ORPHANS' HOME.

Lack of Space Has Caused Needed Cases to be Passed By—Why an Appeal is Made to the Public.

Kingston, March 11.—(To the Editor): Through the kindness of the press of Kingston there has appeared in the columns of the papers reference to the intention of the directresses of the Orphans' Home to enlarge their building on Union street west, and commending the appeal of this one of the most excellent of the charitable institutions in this district—to the favorable consideration of the citizens of Kingston and county of Frontenac. Doubtless, few know of the inner workings further than that it is the "Orphans' Home," where small children are taken care of, but just how it is financed, how managed, and the immense benefits which the community derives, is not, in the least, understood, for the reason that it has been so carefully managed that sympathetic appeals have not been required.

During its existence a very large number of children of tender years, orphans, children deprived from various causes, of parental care or support, or otherwise destitute, have been taken in, fed, clothed, educated and made useful members of the community. Within the last few years the demands upon the home have been far greater than the accommodation could afford, and refusals for the admission of most deserving cases, regretfully had to be made. Further there has been a demand made for increased school accommodation by the public school authorities in order that the children might have the required air space, and for the division of the classes into regular and kindergarten work. Still further, the play room, the room so much used by the little children in inclement and winter weather, is dark and ill-ventilated, besides being too small.

To keep pace with the present requirements and make room for expansion three things are absolutely necessary: More dormitories, largely increased school accommodation, and a larger and more hygienic playground. Besides these there are other minor requirements, chief of which are improved sanitary conditions.

To meet these the directresses have had plans made for such an addition to the home as will fill present requirements, and have a little for future expansion. To do all this requires money, and before settling on what shall be done in the way of increased accommodation, the citizens of Kingston will be asked to decide, in the way of contributions, whether such an addition shall be made at all, and, if so, just what it shall be, and to what extent it will be a credit to the city and a monument to our public charities.

There is an erroneous impression prevalent that the home is sufficiently endowed to place it in a financial position to be beyond the necessity for appealing for funds for building purposes. With the most careful financing, together with the money received from government and municipal grants, the grant from the Midland School Society, qualified members' fees and sundry donations, the home is just able to meet expenses, the balance on hand at the end of last year being \$9,566.—M. L. GARRETT, Treasurer, Orphans' Home.

To-Night, Charley Grapewin. An old Kingston favorite, Charley Grapewin, in a new play, entitled "Above the Limit," will be the attraction at the Grand-to-night, where this famous comedian will be seen for the first time in "Above the Limit," following his most successful tour of seven seasons in the "Awakening of Mr. Pippil." The star is surrounded by a company of capable artists, including Miss Anna Chance. The production is elaborated with splendid scenic effects, and particularly striking is the opening of the third act.

MAIZE. ONLY THING IN SIGHT. For Kingston in Way of Getting Outside Power. The bill to be introduced into the House of Commons for the incorporation of the St. Lawrence Power Transmission company, limited, practically makes Kingston the western terminus of the transmission line. Hon. William Harty, M.P., states that the construction of this transmission line is the only thing he can see in sight at the present time to warrant Kingston in expecting to have an electric power, produced from water power, brought into the city for industrial and all purposes for which electricity can be used.

Well Conducted Visitors. Ulica Guba. George W. Vanderbilt, at a dinner in Asheville, said: "I am named after George Washington, and as George Washington's birthday approaches, I want to register my faith in the people to whom he gave freedom. These people are worthy of freedom. They don't abuse it. This fact was brought home to me when, on one of the days when Biltmore was open to the public, I strolled unrecognized over my lawn. As I watched the orderly and polite visitors, a shabby young man hissed at me fiercely from a path: 'Hey, git off that! It ain't allowed.'"
