TO CONSIDER MATTER

WILL THERE BE AN EVANGELISTIC CAMPAIGN?

After Dining Together Christian Workers Will Discuss the Question—To Hear a British Deputation.

A meeting of the Evangelical Alliance was held at the Y.M.C.A., Monday afternoon. After disposing of routine business, the proposed deputation from England was considered. It was agreed to fall into line and invite a visit from the deputation which is composed of Archdeacon Madden and Dr. George Hanson. They come in the interests of the alliance and are expected to arrive about September or October next. H. M. Gooch will be here in May to arrange for their visit. The wisdom of planning for an evangelistic campaign in our city next fall or winter was very freely and favorably discussed. It was thought wise, however, that a matter of such great importance, should be considered by a large gathering of Christian workers, before any definite steps were taken. In order to secure time, and if possible, a large attendance of Christian business men, to consider this subject, it was resolved to call a meeting, to be held at the Y.M.C.A., on Friday evening, April 1st. Tea will be served at 6.30 o'clock, and after tea the matter will be taken up. Rev. C.A. Sykes will give a brief statement regarding the campaign in St. John, N.B., in which he took part. F. G. Lockett, Rev. S. Sellery and the secretary, Rev. D. Laing, were appointed a committee to arrange for this meeting.

DEATH OF MRS. O'HARA

As Result of Burns Received Weeks Ago.

The death occurred in the Hotel Dieu, early Tuesday morning, of Mrs. Mary O'Hara, of 257 King street, as the result of burns received a month ago in her kitchen. It will be remembered that Mrs. O'Hara, while working at a stove, was seized with a fainting spell and fell across the stove and was fearfully burned before she toppled on to the floor and was shortly afterwards found. Ever since she was confined in the Hotel Dieu. Deceased was the widow of the late Henry O'Hara. Each of this aged couple met a tragic death. A year and a half ago Mrs. O'Hara fell from a fruit tree—in the customs grounds and received injuries which resulted in his death a few hours afterwards. Mrs. O'Hara was born in Ireland, but lived in Kingston nearly all her life. She was a woman of wonderful hospitality and very unostentatious. She had no children, but some relatives live on Wolfe Island. She had a great number of warm friends. She was a member of St. Mary's cathedral congregation and belonged to various religious societies.

CIVIC BUDGET FOR 1910

To be Prepared for Next Monday's Council.

The civic budget for this year is to be taken up by the finance committee on Thursday evening so as to be ready for presentation to the city council next Monday evening. The committee will be waited upon by a deputation from the Orphans' Home, who will ask for a grant for the extension to be added to the orphanage. The Mowat Memorial Hospital also wants a grant.

The revenue this year, under the same rate of taxation as last year, will be \$3,000 greater than in 1909. In order to get sufficient money to cover all that has to be covered this year, it looks as if the rate of taxation would have to be increased a mill and a half, bringing the rate up to twenty-two mills. If, however, the finance committee decides to confiscate another \$10,000 from the waterworks surplus fund a tax increase may not be necessary.

Valuable Document.

Alderman W. G. Craig today handed over to the secretary of Kingston St. Andrew's society a membership certificate of the society signed in 1843 by John A. Macdonald (afterwards the Canadian premier) as president. The certificate is of parchment and contains one of the finest pieces of engraving that was ever produced. The precious document was found by Mr. Craig among the papers of the late John Carruthers, then a leading member of St. Andrew's society. The document will be carefully preserved.

Appointments Reaffirmed.

On the recommendation of Consul Johnson, the United States government has reaffirmed the appointments of Howard S. Folger as vice-consul and Miss Ina Miller as clerk in the Kingston consulate. The office at Trenton will be retained in this consulate, but that at Deseronto will be abolished on Mr. Johnson's recommendation.

Addition to Post Office.

It is the intention of the public works department at Ottawa to call for tenders shortly for the construction of a wing to the Kingston post office. The probability is that the work will commence within a month. The local office has for years been in need of increased floor space, and the erection of a wing is not starting any too soon.

EXTENDING THANKS

FOR THE GOOD WORK DONE FOR BY-LAW.

Kingston Has shown a Progressive Spirit in Keeping With Past History—The Company Must Now Make Good.

Kingston, March 22.—(To the Editor)—On behalf of the Directors of the Kingston Shipbuilding Company, Ltd., permit us to express our sincere appreciation of the grand victory achieved yesterday, for the endorsement of the by-law, and to thank the good people of Kingston for the large popular vote they rolled up in its favor.

The press did nobly. Our three papers, The Freeman, Waig and Standard seemed to vie with each other for which could offer the most assistance. This was very encouraging indeed to those in charge of the campaign.

The mayor and aldermen worked faithfully to secure a good, safe harbor for the city, and when completed, worked like Trojans.

The board of trade, through their president and secretary and with T. H. Kinne as campaign organizer, did efficient work, and their services were invaluable.

Both our city members, Hon. William Hart, and W. F. Nickle, K. C., deserve our best thanks for their timely advice and attention to details necessary from time to time in the organization of the company.

Altogether, we think Kingston has shown a progressive spirit, which is in keeping with her past history, and it is now up to the company to make good, and prove their predictions to the people in a reasonable time.

Biram A. Calvin, John McKevey, W. J. Fair.

Start Work on Thursday.

Before leaving for Collingwood, at noon, to-day, James W. Smith was asked by a Whig representative about the plan to be installed at the government drydock. He stated that James McKellar, superintendent of the Collingwood Shipbuilding company, would be here to-morrow night and would take charge of the property and installation of plant. Mr. Smith will come down every fortnight or so. The work of installing the plant will be commenced on Thursday morning, and it is expected that in a month the company will be ready to repair ships that may come to the dock.

The first thing to be done is to erect a building, two storeys in height for the punch shop and the mould-loft. This building will be fireproof, and of steel frame. It will be erected on the west side of the drydock and will be 125 feet long and 65 feet wide.

The company intends to build and launch boats on the west side of the dock's property and also of the west side of the dock into the dock itself. All will be side launches. Mr. Smith is already figuring on the construction of a couple of boats that will give plenty of work from the spring until next fall. He says that the new company's business will not interfere with the Davis drydock company or the Kingston Foundry company; the smaller type of boat that may be sought from the new company will be turned over to the other concerns.

The Official Figures.

City Clerk Sands announced the official returns of the dry-dock exemption law vote at noon, to-day. The figures are: For the by-law, 1,958; against the by-law, 62.

Putting in Ginger.

The Kingston Whig has been seeking to put some scientific or co-operative ginger into the business of the Limestone City. It advocated a special spring opening day by all the merchants. This has been taken up cordially by the merchants and in three days they will have special window displays, special prices, and even special attractions at the theatre. Last autumn also the Whig urged that business places keep their windows lit during the evening hours. This was done, and hundreds of people strolled down town in the evenings to see the specially lit, specially designed window displays.
