### Wait For A More Utopian Universe

## WORKING TO END

### EXPENSE OF WAR GREATER THAN EXPENSE OF LIVES.

#### There are Various Things Working in a Healthy Way Towards Peace—No Country Rushes Into War Until It Has Counted the Cost—Government by the People.

New York, March 23.—The president of the United States spoke in the cause of world peace last night, before a brilliant assemblage at the Hotel Astor, the occasion being a banquet of the Peace and Arbitration League. International peace was the keynote of every address but no speaker advocated the immediate disarmament of nations. On the other hand all agreed that armies and navies were necessary until a more Utopian universe shall have come about.

On this point President Taft said: "Because we are in favor of universal peace and in favor of arbitration in order to secure it, we stand together that we are not in favor of one country giving up that which we now use for the purpose of securing peace, to wit: our armaments in our army and navy."

"The expense of armament is working towards peace. The expense of war, I am sorry to say, is having greater weight in securing peace than the expense of lives. A nation does not lightly enter upon war now and for two reasons: First, because the expense is so great and it is likely to lead her to bankruptcy even if she wins; and second, that if she does not win the government or dynasty, or whatever it may be that is in control of the government, is likely to go down under the humiliation of that defeat at the hands of her own people. These two things are working in a healthful way towards peace."

### INNOCENT MAN IN PRISON.

#### Western Scoutlets Take Advantage of Foreigner.

Edmonton, Alta., March 23.—A clear case of misjudgment of justice has come to light in Edmonton. In the June Hans Hering, a German, fresh from the old country, was sentenced to two years for horse stealing. Hering was employed to work on the farm of Mrs. Morrow, near Wetaskiwin. The farm was owned by two partners, King and Morrow, who took advantage of Hering and made him at a revolver point, sign a fictitious name to a paper that they had, and which later turned out to be a bill of sale for some stolen horses. This bill of sale was made out previous to Hering landing in this country. Hering was convicted and, with his employers, has spent several months in the penitentiary here. King made a confession a short time ago exonerating Hering.

### SOLD BLOOD AND DIES.

#### Sacrifice in Providing for His Loved Ones.

New York, March 23.—Bernard Lizer, who gave blood from his body to save the life of a woman patient in Fordham hospital a month ago, died on Saturday as a direct consequence of his heroism—a heroism in behalf of his family.

He was a painter living at 541 West 133rd street. He had a wife to whom he had been married only fifteen months, and an infant child. He had long been out of steady work and took all kinds of odd jobs to get money for his family.

Early in February he saw an advertisement for a man who would submit to a transfusion of blood into the veins of Mrs. George Gordon, who was lying close to death in Fordham hospital. He was then in fine health.

### Good Friday Recital.

Chalmers church, March 25th, at 4 p.m. Silver collection at door.

At Lynn, the demise of Mrs. Mary Jane Bullock occurred on Monday. She was sixty-one years of age and a daughter of James Bullock.

### SUING FOR INSURANCE.

#### Evidence That Roderick is Still Alive Presented.

Hamilton, March 23.—Justice Britton opened the spring assizes and the first case was the suit of Mrs. Annie Roderick, against the K.O.T.M. for \$2,000 insurance on the life of her husband, who disappeared about sixteen years ago. When the husband first disappeared she said that the K.O.T.M. offered her two propositions, that she accept the amount of premiums that had been paid on the policy, or that if she cared to continue paying the premiums for seven years she would get the full amount of the policy. She paid for the seven years, and brought suit, but lost it, because evidence was given that her husband had been seen in Washington. She continued to pay premiums for another seven years, and last November started another action to collect the policy. A commission was appointed and evidence was secured that her husband was living as late as 1908. This evidence was submitted to the court, J. Patterson, K.C., for the K.O.T.M., moved for a non-suit. The judge reserved judgment on this point until the evidence was called to the jury. Magistrate Jaffe was called to testify that he issued a warrant for the arrest of Roderick on the charge of misappropriating the funds of a lodge of another society.

Mrs. Roderick asked that he be declared dead so that she could collect the insurance. The court made an order to that effect, and Roderick is now officially dead, although he may be in the land of the living somewhere. Mrs. Roderick received \$1,300 of the \$2,000 for which she sues.

### KAISER AND SOUTH AMERICA.

#### German Culture and Philanthropy to Be Extended.

Berlin, March 23.—Germany's interest in South America was manifested afresh to-day by the announcement that Herr Von Waldhausen, former German minister at Buenos Ayres, had placed \$50,000 at the disposal of the Kaiser for the extension of German culture and philanthropy in Argentina, Uruguay and Paraguay. Von Waldhausen ranks as the richest man in the German diplomatic service.

The Kaiser is about to pay a special commission to Argentina by deputing the famous German strategist, General Von Der Goltz, center of the modern Turkish army, to represent him at the celebration of the centenary of Argentine's independence.

The German government recently appointed one of its most eminent diplomats, Baron Von Der Basseche-Haddenhauzen, minister to Argentina.

### LABOR M.P. AND SILK HAT.

#### A British Institution, Says John Hodge in Self-Defense.

London, March 23.—Is a silk hat a luxurious variety of headgear that cannot be classed as democratic? John Hodge, labor member of parliament for the Gorton division of Lancashire, shouts a determined negative to that question.

Said Mr. Hodge: "I want to say that I look upon the silk hat as a British institution and one which is not to be trifled with lightly. I shall always wear one at the opening of parliament and at any other function at which some degree of dignity is desirable. In my constituency there are to be found the most of the world. England still is indisputably prominent in this particular trade, and one of the reasons that I am a free trader is that in my opinion a tariff would ruin the industry."

### SHAW FOUND OUT

#### DESERTER SHELTERED BY HIS SWEETHEART.

#### Left Wolsley Barracks Three Weeks Ago, and Has Been Hidden by the Young Lady Ever Since.

London, Ont., March 23.—The arrest of Cuthbert Shaw by detectives here revealed a pretty romance. Shaw deserted from Wolsley Barracks three weeks ago, and ever since has been sheltered by a young woman named Merrill, who he met in Hamilton about two years ago. She came to London some weeks ago, and took a room in a third storey, over a store. On the morning of February 24th, Shaw was missing from the barracks. The couple were planning to go to Toronto, and get married, as soon as they got money enough, and she was out working to get the money. They were greatly surprised when detectives arrested Shaw to-day. He is 25 years old. He will appear in court.

### FOUND THE BOX.

#### Another Child's Sad Death From Pill Eating.

Windsor, Ont., March 24.—Edith, the five-year-old daughter of Mr. and Mrs. James Scholes, discovered a box of pills on the cupboard shelf this morning. The child devoured the contents, and immediately was seized with convulsions, death resulting in half an hour. The pills were left for the mother by the family physician. The case is particularly sad, the girl being the only child. The mother was removed to the Hotel Diez yesterday for a critical operation, and owing to her serious condition her daughter's death cannot be told to her.

Daffodils, Hyacinths, 109 Brock St. Wellington. Boulester, spending the winter with his son, Dr. J. H. Boulester, Detroit, returned to Pictou on Thursday. Mrs. Boulester, who was with him, remains in Detroit.

## PASSED IDEA

### Heredity is No Guarantee To A Seat

## IN UPPER CHAMBER

### THE LORDS SURPRISED THEMSELVES BY PASSING CLAUSE.

#### Lord Rosebery's Resolution for the Reform of the House of Lords Was Adopted in Good Spirit—What is Doing in Britain.

London, March 23.—The House of Lords, yesterday, by a vote of 175 to 17, passed the third and last of the resolutions introduced by Lord Rosebery in furtherance of his programme for the reformation of the upper chamber. The resolution declared that a necessary preliminary to the reform and reconstruction of the chamber, as provided in the first and second resolutions already agreed to, was the acceptance of the principle that the possession of a peerage in itself should no longer afford the right to sit and vote in the House of Lords.

It is significant that fewer than 200 of the 616 members of the house shared in the fateful division. Many of the absentees were reluctant to sanction the extinction of the hereditary principle. Nevertheless they, so far recognized its expediency as not to oppose it. Not a few, indeed, of the majority who supported the resolution would have retained their hereditary right but for the recognition of that expediency guided their votes. The battleship irreconcilable has been isolated at Portland Roads, since March 12th, owing to dissatisfaction among the crew. The cause of the trouble has not been made public but it has become known that the rights of the big guns were thrown overboard on the night of March 12th and that the most rigid investigation has failed to reveal those responsible.

### PASSED ON POISON.

#### Gives Sister Tablet at Request of Man.

Massillon, Ohio, March 23.—Not guilty of poisoning her sister is the plea of Catherine Manz, aged sixteen. The accused admits giving the doctor a mysterious tablet which she declares had been given her for that purpose by some man.

She has firmly declined to tell who this man is, and the police are inclined to believe that he is a figment of her imagination.

It is known, however, that she had close acquaintances among young men of the town and that her love of clothes and her extravagance led her to many escapades. Her male friends will be called upon to tell what they know of her and her relations with her sister.

### RAPLEY'S BODY FOUND.

#### It Was in Napanee River Since Last Fall.

Napanee, Ont., March 23.—The body of B. F. Rapley, the Montreal commercial traveler, who disappeared so mysteriously from the Campbell house here, last fall, was found in the Napanee river, this forenoon, two and a half miles down stream. The body has been fully identified by the initials on the ring on the finger and the card case and other books which were in the pockets. The face is very much decomposed.

Eighty-five dollars was found in Rapley's pockets. Rapley traveled for Propoy, Parson & Rodden, Montreal.

### A Disastrous Fire.

Orillia, Ont., March 23.—Fire, which broke out at one o'clock, this morning, in the store of E. A. Wood, limited, did over \$12,000 damage to the stock, besides considerable damage to the building, which is owned by Messrs. Frawley & Declin, Barrie. The cause of the fire is not known, but it seems to have started in the dress-making department on the second floor, where a number of ladies' fester garments were burned to ashes. All the garments in the ready-made department were badly burned, and the Easter millinery was badly damaged. The fire was confined to the up-stair rooms, but the stock below was much damaged by water. The insurance on the whole stock was \$23,000.

### Notes From Maberly.

Maberly, March 22.—John Poppelwell, of Bathurst, passed away on Saturday. His funeral took place to-day on Monday and was conducted by Rev. E. Clarke. Mr. Poppelwell was suffering from a paralytic stroke. A number of the men from here will leave for Cobalt the 1st of April. Mrs. John Buttell left for her home at the west on Monday. Mrs. John Conroy is dangerously ill. There is talk of Thomas Munroe purchasing the Shurtleff Lake hotel. The teacher is holding the Easter examinations at the school this week. Mrs. William Briggs is spending a few days at C. Belge's. A number from here attended the concert at Sunnyside.

### Mink Shorten Hat Pins.

Chicago, March 23.—The council, amid hisses from women, passed a law which provides that any woman wearing hats protruding more than half an inch from the crown of her hat is liable to arrest and a fine of \$50.

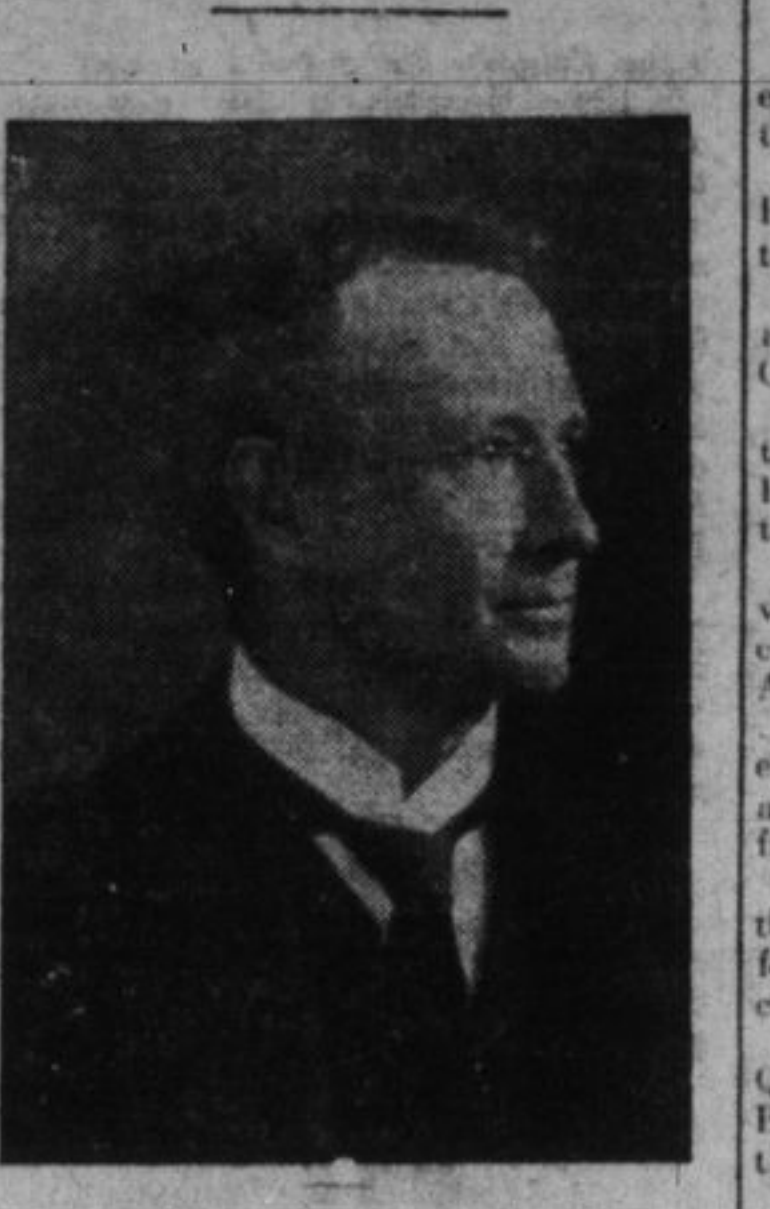

### Colds Cause Headache.

Laxative Bromo Quinine, the world's best Cold and Grip remedy, removes cause. Call for full name. Look for signature E. W. Grove, 25c.

### THEATRE IN CHURCH.

#### Fully Equipped Amusement Hall in Basement.

Spokane, Wash., March 23.—One of the best equipped small theatres in the north-west will become an adjunct of the parish with the completion of the Church of Our Lady of Lourdes, of Spokane, the purpose being to encourage playwriting and acting. The playhouse is in the basement of the edifice, which cost \$200,000. It has a seating capacity for 600, and is provided with the latest style opera chairs. The auditorium is 62 by 55 feet, and the stage 35 feet wide and 15 feet deep. The orchestra pit will seat five players, with room for a piano. The stage furnishings cost \$2,000. The house is provided with four exits. The dramatic section of Gonzaga College will formally open the theatre late in April.

COL. F. W. HIBBARD. One of the utility commissioners appointed by the Quebec government.

### G.T.R. TELEGRAPHERS.

#### What Company is Willing to Do For Men.

Ottawa, March 23.—The Grand Trunk railway, in reply to the award of the arbitration board on telegraphers' wages, offers to abolish, as far as possible, Sunday work, and in addition to accepting the minimum scale recommended by the board, will set aside, to be added to salaries above the minimum, a larger lump than the six per cent. recommended by the board, but not as large a sum as a general increase of Sunday pay based upon the present amount of Sunday work would give, plus the six per cent. recommended.

### A NAPANEE BUDGET

Quite a company are on the way west. A young couple of Adolphstown married and will settle at Melita, Man.—Opening of Millinery Houses.

Napanee, March 23.—The marriage occurred yesterday morning of Miss Ruby Clapp, daughter of Irvine Clapp, Adolphstown, and J. A. Stratton, son of James Stratton, of the same place. Rev. Mr. Bonner, of the U.E.L.C. church, Adolphstown, performed the ceremony. Mr. and Mrs. Stratton took the noon train for Melita, Man., where they will make their home. Melita and groom have hosts of friends in Adolphstown, who wish them long life and happiness.

Mrs. Wales and two children left yesterday, for Outlook, Sask., to join her husband, who went west a couple of weeks ago.

H. J. Bigelow, druggist with F. L. Hooper, for the past year, left this week, for Calgary, Alta. Harry E. Fralick, went west yesterday. He will visit a number of places before setting out, and will try the climate for a time for the benefit of his health, which has been not what he would like to have it lately.

Edward Kayler left yesterday, for Moose Jaw, Sask., with a carload of fester's effects. Manley Marshall left, Tuesday, for Moose Jaw, Sask.

Mrs. John Coates has been confined to the house for the past two weeks, with a severe attack of grippe. Mr. and Mrs. W. H. Crabbe, Chambers, will remove shortly to Belleville, where they will reside. Mr. and Mrs. F. Barrow are able to be out again, after being confined to their home for several weeks through illness.

The millinery openings, Saturday last, were the attraction of the day in Napanee. All day long and well on into the night, crowds of the fair sex could be seen wending their way from one millinery establishment to the other to view the new creations for spring and summer.

### C.N.R. to Belleville.

Toronto, March 23.—It is learned that the Canadian Northern Ontario railway will be projected to Belleville this year, instead of the 1912, as first proposed. Forty miles of the road have already been graded, the work being carried some fifteen points further along the road. The intention of the company was to keep the work between Trenton and Toronto at least until the result of the late year's election. It will be carried into Belleville and the construction work advanced this summer.

### ICE FIELD BROKE AWAY.

#### Three Men Have an Exciting Experience.

Brookville, Ont., March 23.—Three of a large gang of men engaged in reconstructing the C.P.R. dock on the river front had an exciting experience by the sudden breaking away from the wharf of a large field of ice upon which they were handling timbers.

Two of them were carried out so far that they were compelled to swim for safety, while a third managed to step clear. A considerable quantity of timber was swept away.

### JOHNSON FACES TROUBLE.

#### Held While Search is Made for Witnesses.

New York, March 23.—Jack Johnson was, to-day, remanded to the custody of the sheriff in default of \$3,000 bail and will be subject to a call for trial from any part of the country as soon as Norman Pindley, complaining witness against him in the prize fight assault case, is found.

In addition to this, the negro master of the ship of the serious charge of spiriting the complainant and other witnesses out of the jurisdiction of the court. The grand jury will be requested to take up this phase of the case.

### MAY NOT DEVELOP.

#### Much Depends on What Congress Decides.

Ottawa, March 23.—The house, this afternoon, adjourns for a week, for Easter and there will be no announcement regarding the tariff though one from Washington within the seven days is likely. While things look hopeful it is pointed out that there is a possibility, even if Canada should agree to minor concessions in return for what President Taft offers, that there is no guarantee that U. S. congress will endorse what certain American officials are promising. Canada has had experience along such lines, especially with the senate wing of the United States government, so that there is a feeling that any promises made, even at the present stage, should be hard and fast.

### AGREEMENT REACHED.

New York, March 23.—The United States and Canada have arrived at a definite agreement on the tariff question, according to an apparent authentic report in New York last night. The Tribune says: "This information was obtained from a man, close to President Taft, it is understood, but no official confirmation can be got. It was said the agreement will be promulgated within a few days."

### SAVED BY HIS DOG.

#### Wright County Man Had a Narrow Escape.

Ottawa, March 23.—Alexander St. Jacques, of Gracefield, was saved from drowning, Monday afternoon, by his Scotch collie. St. Jacques was driving home from town with a team of horses. When in the centre of the Gatineau river, the ice broke, and team, sleigh and all went into the river. The sleigh, treacherous current for which the Gatineau is famed, dragged the horses and sleigh beneath the ice. St. Jacques was just going under, when his big Scotch collie leaped into the water and, catching his master by the collar, kept him above water until his cries for help attracted men on the shore, and the dog and man were rescued by the aid of ropes and planks. The team was drowned.

### REV. C. MOCKRIDGE DEAD.

#### Son of Former Hamilton Rector Passes Away.

Windsor, Ont., March 23.—Rev. Charles Mockridge, a son of the late Rev. C. H. Mockridge, one-time rector of Christ Church, Hamilton, died in Louisville, Ky., Monday night. At the time of his death Mr. Mockridge held the post of rector of All Saints' church, at Dorchester, Mass. Dr. Mockridge, who was thirty-six years old, was married but three weeks ago, following an operation in a Boston hospital for Miss Louise Tyler, of Louisville. He was educated at Trinity College, Toronto, and was one of a family of four sons, all Episcopal clergymen.

### VACCINE FOR TYPHOID.

#### Discovery of Great Importance Made by Physician.

Paris, March 23.—Prof. Elie Metchnikoff, of the Pasteur Institute, was named before the Academy of Sciences, last night, that he had succeeded in overcoming the principal obstacle to the preparation of an effective anti-typhoid vaccine. This disease heretofore has been incommunicable to the lower animals, and Prof. Metchnikoff has now succeeded in inoculating monkeys with the typhoid germ. By this means he has been able to obtain exact symptoms, permitting accurate experiments on the action of his vaccines.

### UNITED STATES IS TIRRED OF TAFT AND TAFFY.

#### So Says Man Who Calls Him a Hot Supper Artist—Calls Gaylor a Not So President.

Low Mass., March 24.—Dubbing President Taft a "hot supper artist," R. B. Andrews, a wealthy manufacturer of this town, is out with an offer to bet \$10,000 that Mayor Gaylor, of New York, will be the next president of the United States, barring death.

The country is tired of Taft and Taffy, and Andrews, a wealthy conservative republican, are disappointed in Taft. What we hoped for was a man on the job, and not a president chasing around to act as a side show for a baseball game, a promoter of golf, a hot supper artist. The whole country is tired of it."

### One More Sinner.

When Leslie M. Shaw, former secretary of the treasury, was governor of Iowa he was making a speech on the tariff. A man in the audience, who had something on his mind, arose and said: "Fardon me, Mr. Governor—"

"Well," broke in Shaw, "I have sanctioned a lot of people in my time and I presume it would be unjust to draw the line on you."

And there were no further interruptions.
