REMOVAL OF CATARAQUI BRIDGE An appeal is to be made to Ottawa with regard to the Cataranui bridge, the condition of which is not the most satisfactory. The property belongs to a private corporation, and it is taking as good care of the bridge as its income will permit. The board of trade has a mind to make repre sentations to the government with regard to the structure and possibly with regard to its removal and reconstruction. Some day the harbour will have to be extended into Cataraqui Bay, and the government may, on ac count of the military interests that on each side of the water, have to make a very substantial grant to th enterprise. The board of trade may exert an influence to that end in the of the public works' department are about completed, and new items, any size, cannot be introduced. The council has \$20,000 invested in bridge, and the amount earns its anal dividend. The principal never be recovered. Whether it wou still have a financial interest in bridge, as now, and to the same tent, were the bridge removed, is matter into which the council wil have to look.

THE DOINGS AT ALBANY. A change came over the spirits some of the people after Presiden Taft, Mr. Fielding and Earl Grey had met at Albany. They assembled discuss the tariff in all its contrary and tantalizing phases, and seemed to have drifted into thoughts on other themes. The minister finance talked in his usual suave sensible way, but just what he said sueing for favours and they are not may never be known.

Neither the president nor the mirister will break the silence that came over them, though Mr. Taft, in the message he gave to Canada through \$20,000 in stock if the Cataraqui the Globe, was in a very amicable bridge were rebuilt or removed?

Just when he dictated the message is not stated, but it appears to have been after the University banquet at which all hands disported themselves. Dr. Macdonald tracked some of best Scotch jokes; the president and smiled and smiled, and the noble earl, free for the time being from the cares of state, is said to have grasped a song book, and with a face aglow with pleasure, joined in "Rings on My Fingers and Bells on My

THE BOSS IN OFFICE.

The average Canadian does not unington is about. Why should there it becomes fractious. Is Sir James be such a fuss about the formation Whitney losing his grip? Is he no of the rules committee? Why should longer able to subdue the boisterous it make any difference whether the spirit of some of his followers. membership is composed of five, or fifteen? What difference cap make whether the speaker is or is no

The committee has to do with the nann r in which business is prepared, the same, and photograph it, if they presented or promoted. The measures avoured by the committee candvanced or they can be killed. The ommittee has to do with the ensation of good things, and peaker has been so imperious in his ways that he has been called the

A crisis, (after a long session skirmishing), came when a motion was made requiring a reorganization of the rules committee, and declaring coal which burns that Mr. Cannon should not be a member of it. Three days were spent in debate. The best part of two o them went in a fruitless attempt to force his decision. When he did give a ruling it was rejected by 191 to 155. This was followed by a motion to the effect that the speakership be declared vacant, and then some of the insurgents helped to nullify it with their votes. So Cannon remains in office and he is not happy over it. The speaker in Congress is not the impartial and dignified presiding offier which he is in England and Canada. In the parliament of the moth-

er of nations the speaker is non-pon-

tical. Once in office he withdraws

from all party affiliations and be-

comes the unbiased custodian of the
