KINGSTON, ONTARIO, WEDNESDAY, MARCH 30, 1910.

LAST EDITION

AWAIT CRISIS

That Will Follow If Veto Motion Carries.

WHAT WILL HAPPEN

THE LORDS REFUSE THEIR CONSENT.

Liberal Cabinet Would Have to Resign—Conservatives Not Prepared to Take Office—The King Would Have to Act.

London, March 30.—The adoption of the resolutions of Premier Asquith to abolish the veto power of the house of lords may precipitate another political and parliamentary crisis. The rejection of the resolution by the lords which is just as common, is likely to force the cabinet to offer its resignation.

Under ordinary conditions this would not be so serious, as the king could form an opposition cabinet, which, in this case, would probably be headed by former Premier Balfour.

No conservative, however, could accept ministerial responsibility under present conditions, for, with the liberals, laborites and Irish Nationalists against him, he would be voted out of office on the first ballot.

Neither can the king very well adopt the other alternative of dissolving parliament and calling for another election, for the liberals recently passed a resolution making financial appointments for a period of six weeks. This period is nearly up, and as it takes at least six weeks to hold an election in England the government would be practically penniless if parliament were suspended and another election called.

The only recourse left to the king is likely to be an appeal to the liberals to continue in office, in which event the liberal programme of demanding that the king create enough liberal peers to ensure the passage of the veto abolition resolution is likely to be made a condition precedent to granting the king's request. It is difficult to see how, in the face of such an emergency, the king could refuse the liberals' demand.

The Resolutions.

Premier Asquith's resolutions are: "1. That it is expedient that the house of lords be disabled, by law, from exercising any legislative or money bills, but that any such limitation by law shall not be taken to diminish or curtail the existing rights and privileges of the house of commons.

"For the purpose of this resolution a bill shall be considered a money bill if, in the opinion of the speaker, it contains only provisions dealing with all or any of the following subjects, viz., the imposition, repeal, remission, alteration or regulation of taxation, the charges on the consolidation fund, or the provision of money by parliament in supply, the appropriation, control or regulation of public money, the raising or guaranteeing of any loan or repayment thereof, or matters incidental to these subjects, or any of them.

"2. That it is expedient that the powers of the house of lords, as respects bills other than money bills, be restricted by law, so that any such bill which has passed the house of commons in three successive sessions, having been sent up to the house of lords at least one month before the end of the session, and which has been rejected by that house in each of those sessions, shall become law without consent of the house of lords on the royal assent being declared, provided that at least two years shall have elapsed between the date of the first introduction of the said bill in the house of commons and the date on which it passes the house of commons for the third time.

"3. That it is expedient to limit the duration of parliament to five years."

The Cunard Steamship company have now decided to omit Queenstown altogether as a port to call on the eastward voyage from America to Europe. All their mail steamers are to run direct from New York to Liverpool for the present.

A WILD BELLEVILLE MAN.

Fired Some Shots into the Police Station.

Belleville, March 30.—An exciting incident happened in this city, yesterday morning. It seems that a young man named "Teddie" Mackie, badly under the influence of liquor, was in the vicinity of the upper bridge. Shortly after the city clock had struck twelve, Mackie, it is alleged, saw Dr. Dolan's horse and rig standing on Front street, near the International hotel. Getting into the buggy, he started on a "joyride" down Front street. The police stopped young Mackie and he was arrested for drunkenness and furious driving, being placed in the police cell. About one o'clock a man named McGinnis went to the police station and tried to get Mackie released, but without success. He had some words with the officers on duty, and was put out by Sgt. Naphin. McGinnis then withdrew, but returned shortly after 2 a.m., and again asked for Mackie's release. Again he was put out of the police station. Then standing in front of the police station steps, on Front street, McGinnis drew a revolver and fired three shots, one bullet passing through the fanlight of the south front street window, and the other two through the lower panels of the left double door. Later on the police followed him, though they made no attempt to arrest him at the time. It was stated by a police officer that, while standing in front of the City Hotel, McGinnis saw the police coming and fired another shot from his revolver, making four shots altogether. Afterward, he first denied that he had done any shooting, and then admitted firing the shots, but claimed that he did not try to shoot anybody, "only shooting high and low."

A MONTCALM ARRESTED

In New York on a Charge of Grand Larceny.

New York, March 30.—Paul De Montcalm, a great-grandson of the Marquis De Montcalm, the hero of Quebec, and the last of the line of the Montcalms, was arraigned in Adam street police court, yesterday, on a charge of grand larceny. He entered a plea of not guilty, although he had previously admitted to the police he had stolen a silk shawl and a pair of opera glasses from Miss Elizabeth Christianson, of No. 107 South Portland avenue, and told where he had pawned the articles. Magistrate Naumer held him in \$1,000 bail. The prisoner, who is a stenographer, is twenty-six years old, and has made a great deal of capital out of his illustrious ancestry. He was a guest of honor at the bicentennial celebration in the summer of 1908.

UNGAVA'S FUTURE.

Annexation to be Completed Within Ten Days.

Quebec, March 30.—Plans for the annexation of the district of Ungava by the Province of Quebec are going forward rapidly and it is thought that within a week or ten days definite announcement will be made by the cabinet that the new territory is part of the province. When this has been done the province will have the largest area of any of the provinces of the Dominion.

In the speech from the throne at the opening of the legislature it was announced that the negotiations were making satisfactory progress.

THE WORK STOPPED

INVESTIGATION OF ALBERTA BARGAIN COMES FIRST.

Operations on Alberta and Great Waterways Railway, Except the First Fifty Miles, Will Stand Still Until Report is Dealt With.

Edmonton, Alta., March 29.—Work on the location of the Alberta & Great Waterways Railway has practically ceased, and all plans for the carrying forward of construction beyond the first fifty miles of the road north of Edmonton have been abandoned pending the completion of the investigation into the Great Waterways, which opened yesterday before the Royal Commission. Survey parties who had been working on the location of the road north of Lac LaBelle, and who have been called in partly for the reason, it is said, that the reason that work was to be suspended, reached the city, and it is understood that all survey parties on the line are to be called in.

Construction is to proceed, however, upon the first fifty miles of road north of Edmonton, and contracts have been awarded for clearing the right-of-way. This work is being proceeded with. Another official has reached the city to become a member of the Great Waterways staff. This is H. Lamsden, formerly of the engineering staff of the Manitoba government, and father of the chief engineer of the Grand Trunk Pacific. Mr. Lamsden, it is said, will be connected with the Great Waterways in conjunction with E. S. Darling, formerly of the C.P.R., who is to have charge of construction on the new road.

EMIGRATE POOR CHILDREN

To This Country and Educate Them It is Suggested.

London, March 30.—Kingley Fairbridge, Rhodes scholar, is endeavoring to inaugurate a scheme for migrating poor law children, aged five to ten, and giving them several years of education in agricultural schools, the scheme to be warmly taken up by the Colonial Office. Out of the support of the agent-general has been obtained. Premier Morris has offered 50,000 acres in Newfoundland for assistance of the project.

MONK IS SORE

On R. L. Borden And He Wants His Scalp

DRAG ON THE PARTY

AND UNFIT TO BE THE TORY LEADER.

The Monk Section Say That Borden Has no Serious Standing as a Politician—They Have Been Long Dissatisfied.

The Ottawa correspondent of the Toronto News writes: Despatches have come out to different parts of the country dealing with the internal affairs of the conservative party. There is something behind all these statements, but perhaps the exact facts are not generally understood. It is true that Mr. Monk and his followers have been scolding the movement of Mr. Borden from the leadership of the conservative party. Ever since Mr. Borden was appointed to the leadership Mr. Monk has been restless and dissatisfied. There are those who say that he has never been loyal. In Quebec his leadership was hardly taken seriously. Even most conservatives regard him as an academic dreamer, capable of making a well-sounding speech on occasion, but with no gifts of leadership, no personal magnetism and no serious standing as a politician. He has been the plaything of Sir Wilfrid Laurier and the joke of Quebec liberals who know how to organize a party and how to fight a battle.

The present situation arises particularly out of the determination of the government to organize a party. Mr. Monk thought that by seizing the coat tails of Bourassa he might build up something like a Monk party in Quebec. Besides, he would enjoy the rare pleasure of appealing to the prejudices rather than to the patriotism of his compatriots. He, therefore, demanded that the conservative party should absolutely oppose any party for naval defence. So certain was he that he could drive Mr. Borden and the conservatives of the English-speaking provinces that he went to Lachine and made a speech which he expected he could force on the opposition at Ottawa. But, contrary to his expectations, the conservative party, led by Mr. Borden, adopted an advanced naval policy, while the whole liberal press of Quebec, instead of patting Mr. Monk on the back and encouraging Mr. Bourassa, turned in loyalty to support the liberal programme of the government.

This left Mr. Monk in a more hopeless situation than ever in his own province and out of more completely than ever from the conservatives of the other provinces. Under these circumstances he and his friends undertook to demand the resignation of Mr. Borden and to force a reorganization of the conservative party. Whatever may happen, it is generally admitted that there is no one in sight as capable as Mr. Borden to fill the office of leader, and certainly it is impossible for a conservative to do so without the dictation of Mr. Monk. Falling to have his terms considered, Mr. Monk no doubt will withdraw from the party, temporarily drift more closely to the side of Mr. Bourassa or fall in behind Sir Wilfrid Laurier. He has been a drag upon the conservative party ever since 1896, hopelessly incompetent both as an organizer and fighter, and loyal chiefly to his own prejudices and ambitions.

New York Tariff Comment.

New York, March 30.—The Times says: There is one feature of the Canadian negotiations connected with the tariff, which is of extreme interest and importance. It is the fact that settlement has been reached through direct negotiation with the Canadian government. Since Canada has the right, under its constitution, to levy its own taxes on foreign commerce, the course that has been followed is logical enough, but all the same it is novel and significant.

The Tribune says: Critics of the Taft administration are doing their best to be cheerful over the announcement that Canada will make sufficient concessions to entitle its commerce with the United States to the benefits of the minimum tariff schedule. They publicly congratulate the country on the avoidance of tariff reprisals; yet, secretly, no doubt, many of them bitterly regret the failure of the maximum-minimum plan to produce those favorable results which they so volubly predicted would follow its enactment.

Power For Toronto.

Toronto, March 29.—"I will be ready to take the minimum quantity of power as soon as the hydro-electric commission is ready to deliver it," said City Electrical Engineer Aitkin. The minimum quantity the city has contracted to take is 4,500 horse power and the commission expects to deliver power within two months. Engineer Aitkin added that he expected to have all the arrangements completed by the end of year for undertaking the contract for lighting the streets throughout the city.

Spinal Cord Severed.

Buffalo, N.Y., March 30.—Edward McNair, shipbuilder, aged forty-six, of Markham, Ont., lies at the Buffalo General Hospital, awaiting death from a broken back. Surgeons who operated in him say his case is hopeless. McNair sustained the injury in a fall downstairs at his boarding house, 225 Seneca street. Dr. McGuire operated on him, yesterday, and found that the spinal cord had been completely severed.

CHOLERA HERO DEAD.

Father McIsaac Passes Away, Aged Ninety Years.

Halifax, N.S., March 30.—Rev. Father McIsaac, the hero of the cholera epidemic on the ship England, which arrived here from Europe in 1866 with a large number of immigrants, died at Mount St. Vincent, yesterday, in the ninetieth year of his age. Father McIsaac had been in the priesthood for sixty-five years, and had been stationed in every diocese of the province.

Protect your winter garments, by using "Cedar Camphor." McLeod's Drug Store, corner King and Brock streets, and corner Montreal and Princess streets.

WILL CANADA REJECT.

European Interpretation of Most-Favored Nation Clause?

London, March 30.—The authorities here anticipate, as a sequel, to the Fielding-Taft arrangement, that Canada will reject the European interpretation of the most-favored-nation clause and adopt the United States rendering, which, shortly stated, is concession for concession.

It is not supposed that the British government desire to raise any real objections, but it would mean Canada's withdrawal from treaties to which she has consented and others which were negotiated before she was given an option of adhering thereto. This new freedom is regarded as a necessary sequel of the intermediate tariff.

SIR CHAS. A. F. PELLETIER, Lieutenant Governor of Quebec. In opening the Quebec legislature promises to establish a school of forestry.

MINERS AGREE AT LAST

On Terms That Will at Least Avoid a Strike.

Cincinnati, Ohio, March 30.—The coal operators and miners of Ohio, Indiana, and Western Pennsylvania, who for four weeks have been holding conferences regarding the demands of the miners for an increase of ten cents a ton in wages, an eight-hour day, Saturday half holiday, and other concessions, arrived late yesterday afternoon at an agreement that, at least will avoid a strike. The miners accept an advance of only five cents a ton maximum, and the other points of disagreement were adjusted amicably through mutual concessions.

SPRING RUSH BEGUN

TWELVE THOUSAND IMMIGRANTS ON WAY TO CANADA.

This Week Promises to be a Record-breaker—Officials Find it Difficult to Provide Accommodation for the Newcomers.

Montreal, March 29.—Advice received by railway companies in Montreal show that the present week will be a record-breaker for this year in the immigration business, and one that has not occurred in many years. Close upon 12,000 immigrants will be landed at St. John and Halifax during the week ending next Saturday, the exact number of whom advice has been received being 11,972. So great has the rush of immigration been that arrangements are under way for the establishment of immigrant camps in the Calgary district, where the settlers can go and stay a few days until they get located. The rush of settlers is now under way in earnest, and it is expected that it will keep up until several weeks after navigation opens to Montreal, this always being the big season for immigrants, and as every boat coming out is booked to its utmost capacity for a month or more it is considered that Canada's population will go up considerably by companies handling the Great Britain, although there is a considerable percentage from other European countries who are sailing from Liverpool. Last week was considered a good one, but only scored 4,486, so that the present week will tax the railway companies to handle the settlers.

During the past four days over 5,000 immigrants passed through Montreal for the west. This eclipses any week of the year so far, and beats all March records for several years past. Three special train loads left the city today.

North Portal, March 29.—The rush of immigration into Canada through this main gateway to the west is really remarkable. For ten days past there has been an average of forty cars of effects per day, and on Saturday there were one hundred cars standing in the yards at one time. This rush is a severe task upon the government inspectors, veterinarians and other officials, including those of the railway and customs departments.

Have Received Orders to Go to Their Posts.

Amherstburg, March 30.—Orders are being received by lighthouse keepers from the Canadian government to go to their posts. Capt. John Mason has gone to the Colchester reef lighthouse, and Capt. Langlois had received orders to go to the Middle Ground Pelee Passage light. The Bois Blanc light was lighted for the first time last night. The gas buoys are ready to be placed in the water at any time. The steamer Faustina, of this place, already has made six trips this season, four to Toledo and two to Detroit.

Fielding Returns to Ottawa.

Ottawa, March 30.—Hon. W. S. Fielding arrived from Washington at noon. The finance minister declined to make his announcement on the tariff agreement until the house meets this afternoon. Nothing will therefore be given out before three o'clock.

Belleville Alderman Arrested.

Belleville, March 30.—Ald. H. McGinnis was arrested on a warrant, charging him with shooting with intent to kill and also carrying concealed weapons. He was released on \$1,000 bail to appear a week from Wednesday.

Gone to Panama Canal.

Amherstburg, March 30.—Thomas Baughin, a well-known dredge man on the lakes, has started for the Panama canal, where he will remain a year. A number of young men who worked under him say they will join him.

Belleville Inspector Dying.

Belleville, March 30.—John Johnson, school inspector for Belleville and South Hastings, for over thirty years, is lying at the point of death, as a result of a stroke of paralysis.

Keep Knox's spring sale in mind, April 4th to 9th.

TERMS GIVEN

Of The Basis Of The Tariff Agreement.

WHAT FIELDING SAID

IN A LETTER TO U.S. SECRETARY KNOX.

To Recommend to Parliament Reduction of Duties on Articles Agreed Between President Taft and Himself—What These Articles Are.

Special to the Whig.

Ottawa, March 30.—With President Taft about to grant to Canada the minimum tariff extending the minimum rates of the Payne bill there was today made public the basis of agreement between Canada and the United States government. In a letter Finance Minister Fielding wrote to Secretary of State Knox, at Washington, he referred to the Albany and Washington conferences and said: "While unable to waive any of the contentions which Canada has held throughout our discussion of the subject I have appreciated the exceptional circumstances and reasons advanced by the president in support of his request. A tariff conflict between the two countries would undoubtedly be a matter of the gravest concern for both. Both parties to the difference should, I realize, be willing to go as far as possible to avoid such a conflict. I have observed that your government are not disposed to press some of their earlier contentions respecting our commercial treaties which from our point of view we could not admit. This being the case I feel that our government should go as far as possible to meet the views of the president. On behalf of the Canadian government I agree that we shall forthwith recommend to the parliament of Canada such amendment of the Canadian customs tariff as will reduce the duties on the list of articles agreed upon between us, such articles and the reduced rate of duty being:

Then follows a list as to reductions on fruits, perfumery, photographic goods, certain leather goods, watch actions and movements and certain leather goods."

TO INVESTIGATE REPORT

Of Coal Mines Discovery in Northern Ontario.

Toronto, March 30.—It was officially stated at the department of lands, forests and mines, this morning, that no report had been received regarding the alleged discovery of large areas of coal in Northern Ontario. The matter, however, is regarded as of sufficient importance to justify the immediate sending of one of the department's inspectors to the scene to investigate and report. The official will start to-morrow. If the report is confirmed it is probable that the government will not allow any staking until a policy has been decided upon in respect to the manner in which coal lands should be treated. It is understood the government would not treat the lands in the manner of usual mining lands, but would adopt a distinctive policy in the public interest.

LIGHTHOUSE KEEPERS

Have Received Orders to Go to Their Posts.

Amherstburg, March 30.—Orders are being received by lighthouse keepers from the Canadian government to go to their posts. Capt. John Mason has gone to the Colchester reef lighthouse, and Capt. Langlois had received orders to go to the Middle Ground Pelee Passage light. The Bois Blanc light was lighted for the first time last night. The gas buoys are ready to be placed in the water at any time. The steamer Faustina, of this place, already has made six trips this season, four to Toledo and two to Detroit.

Fielding Returns to Ottawa.

Ottawa, March 30.—Hon. W. S. Fielding arrived from Washington at noon. The finance minister declined to make his announcement on the tariff agreement until the house meets this afternoon. Nothing will therefore be given out before three o'clock.

Belleville Alderman Arrested.

Keep Knox's spring sale in mind,

April 4th to 9th.

A YOUNG LAD'S JOKE.

Let to His Having His Skull Fractured.

Woolbridge, Ont., March 30.—An accident which may prove fatal happened last evening as the result of the attempt of a young boy named Wilcox, to play a joke on another boy named Sleightholm. Young Sleightholm had come to the village to get a cast for a drill and was returning home when Wilcox, who had hid under a culvert, jumped out and crawled on his hands and knees barking like a dog and snapping at his heels. It was quite dark and Sleightholm, thinking it was a dog, swung the iron around and hit Wilcox on the head with such force that he split the lad's head open and fractured the skull. The injured boy was taken to the Toronto hospital, this morning. Sleightholm feels pretty bad over the affair.

MAD AT ROOSEVELT.

Egyptian Students Shout at Him in Arabic.

Cairo, Egypt, March 30.—Ex-president Roosevelt's speech before the Egyptian University has aroused the extreme nationalists to fury. Seven hundred students last evening marched to Mr. Roosevelt's hotel and demonstrated against him, shouting in Arabic "Down with autocracy" and "give us a constitution." The demonstrators were applauded by many spectators and some of the guests left the hotel, fearing violence. Col. Roosevelt was not in the hotel at the time, but drove up shortly afterwards. He said he had heard the noise which reminded him of American college cries, but he had no idea he was the cause of it.

BODY FOUND AT PICTON

Of Charles E. Ringer, Who Was Drowned Last Fall.

Pictou, March 30.—The body of Charles E. Ringer, son of Richard Ringer, of this town, who was drowned in the bay last fall, was found this morning about two miles from town. Ringer left home one Sunday afternoon last fall and the next morning his boat was found with his overcoat on the shore. He was about fifty years of age and leaves a wife and three children.

Montreal Harbor Clear of Ice.

Montreal, March 30.—The harbor of Montreal is now ready for shipping as soon as the river below is cleared of ice. One of the harbor commissioner's tugs came out of winter quarters, today, and cleared the harbor basin of ice. This is considerably earlier than it has been possible to do in former years. It is expected the channel through to Quebec will be cleared in a few days.

Wards Increased in Windsor.

Windsor, March 30.—By a re-arrangement of boundaries, which the city council approved last night, Windsor will increase the number of its wards from four to six this year, each of the six wards sending two representatives to the council, when the city abandons the system of electing aldermen by a general vote next year.

Died, Aged 90 Years.

St. Catharines, March 30.—Mrs. Ann Morgan, an old resident of the Niagara district, died, yesterday, in her ninety-ninth year. Mrs. Morgan's death was the result of a fall in which she sustained a broken hip.

FOULLY MURDERED

CHESTER PERKINS, OF WINDSOR, THE VICTIM.

He Was Struck Down in Revenge by Joseph Thompson, Formerly of Stratford—Died Two Hours Afterwards.

Windsor, Ont., March 30.—Chester Perkins, a Windsor liveryman, was struck down in front of his own barn last night about ten o'clock, by a man known as "Scotty," who disappeared. Perkins was sitting in a chair in front of his place at the time. Thomas Cornell, one of the barn men, attracted by the sounds of the body falling, went out and found Perkins prostrate and unconscious. Perkins was removed at once to his home, where he was attended by Dr. P. A. Dewar, but he expired about midnight. Coroner J. S. Labelle is investigating and the police are still hunting for "Scotty," who it is supposed was dressed over to Detroit.

The trouble which led to the fatal assault is said to have arisen over Perkins' refusal to rent a rig to "Scotty" on account of the latter being intoxicated. "Little is known of "Scotty's" antecedents, the man having made his debut in the city only last Sunday. The police are handicapped in the investigation by the fact that they did not learn of the assault until after Perkins' death. Perkins leaves a widow, but no children. He was about forty years of age.

After an all-night hunt by the police Joseph Thompson, of Pontiac, Mich., was arrested about nine o'clock this morning, charged with the murder of Chester Perkins, the liveryman, last night. Thompson was found near the Michigan Central tunnel and taken to police headquarters. He was formerly of Stratford.

To produce a luxuriant growth of hair use Carter's Hair Restorer. Restores dandruff. Restores gray hair to its original color. 21 bottles, 75c., at Ross's drug store, opposite St. Andrew's church.

Big bargains every day next week at Knox's spring sale.

Leo B. Rigg, son of W. B. Rigg, of Belleville, has received the appointment as organist at the Hotel Astor, New York, at a salary of \$100 per week.

WEATHER PROBABILITIES.

Toronto, March 30, 10 a.m.—Chilly, Valley and Upper St. Lawrence—Snowy, and southerly winds, fair to-day and Thursday.
