THE CURLERS' FINAL
THE PRESENTATION OF TROPHIES TOOK PLACE.
Ladies' Club to Hold a Week's Bonspiel Next Winter—All Central Association Games to be Played Here.
The winding up meeting for the year of the Kingston Curling Club was held in the club rooms on Tuesday evening, the president, Prof. Gill, presiding. Over fifty members were present. The cups and prizes won through the year were presented, and speeches of reply being made by the winners. The handsome new trophy which is without doubt one of the finest trophies in the city, and reflects great credit on the designers, Messrs. Rogers and Wright, was presented to the rink skipped by A. Strachan. Besides the large cup, each one of the team, L. M. Shaw, H. Douglas, W. M. Bailey and A. Strachan, each received sterling silver shields, mounted on mission oak. The large trophy will be held by the skip for the year.
The Carliners medal for the singles was won by W. H. Montgomery. He has many close battles. The Stewart cup was presented to J. M. Macdonald and the Ogilvie shield to Rev. Prof. Robert Laird. While the cups were being presented the members gave themselves up to the spirit of the occasion and the time passed all too quickly.
When a vote of thanks was tendered to "Eddie" Lyon, the genial and efficient secretary of the club, the applause was vigorous, ending with the singing of "He's a Jolly Good Fellow." A hearty vote of thanks was also passed to S. R. Bailey, the master of ice.
A letter was received from the Ladies' curling club asking for the use of the rink for a week next winter to hold a bonspiel from the east and west. The request of the ladies was granted with great pleasure by the members, who will do all in their power to make the affair a success.
The matter of all the Central Association games being played here at one time, instead of travelling to Belleville, Napanee, Prescott and Brockville was also considered. Many outside clubs have also spoken of this and all seem to favor it. It will likely go through at the next annual meeting.

Modifying U.S. Rugby.
The following changes have been approved by the United States College Rugby mentors. They will be experimented with until April 29th, when the committee will meet at Philadelphia and make their final decision. They are six:
1—Removal of the five-yard restriction against the man who receives the ball from the snapper-back.
2—There shall be only seven men in the line of scrimmage.
3—Prohibition of the flying tackle.
4—Division of the game into four fifteen minute periods.
5—There shall be no pushing or pulling of the runner with the ball.
6—Limitation of outside kick to twenty yards beyond the line of scrimmage.

INCIDENTS OF THE DAY.
Newspapers Picked Up By Reporters On Their Rounds.
Visit Knox's during their spring sale, week of April 4th.
William Swaine, piano tuner, Orders received at McAuley's, Phone 778.
The railways were very busy, to-day, handling the crowds returning from the Easter vacation.
H. Cunningham, piano tuner from Cheker's, Leave orders at McAuley's bookstore.
The thermometer to-day registered sixty degrees. Citizens are remarking upon the mild weather for this time of the year.
The government dredge Sir Richard and the tug Trudeau have been taken out of the dry-dock. They will be engaged in work in this district this summer.
Prof. James Small, Mrs. Small and Harvey and Harold Aggrove will leave for Montreal on Tuesday to fulfil two professional engagements. The Kingston soloists are in great demand this year.

SEVERELY CONDEMNED.
Hard and Fast Routine in Teaching in Schools.
Toronto, March 30.—A feature of this morning's session of the Ontario Educational association was the frankness of the language used by a number of those delivering addresses in the various sections in regard to educational methods. The slavery to form and the strict observance of hard and fast routine in the teaching in the schools were severely condemned. It was urged that the greatest scope to individuality in the teacher should be given. Inspector Stanger, of Brantford, urged the necessity of educational methods. The slavery to form and the strict observance of hard and fast routine in the teaching in the schools were severely condemned. It was urged that the greatest scope to individuality in the teacher should be given. Inspector Stanger, of Brantford, urged the necessity of educational methods. The slavery to form and the strict observance of hard and fast routine in the teaching in the schools were severely condemned. It was urged that the greatest scope to individuality in the teacher should be given.

FAILED TO AGREE
ON RELATIVE POWERS OF COMPANY INCORPORATION.
Dominion and Provincial Representatives Deliberated—Split was on Method to be Adopted Regarding Jurisdiction.
Ottawa, March 30.—The conference between the federal and provincial representatives with respect to relative powers of company incorporation wound up last evening without any agreement being reached.
The point of difference was as to the method that should be adopted in order to determine the jurisdiction of the Dominion and provinces respectively in the matter of incorporation. On the one hand the provinces contended that the British North America Act should be amended in the direction of giving legislative sanction to the jurisdiction claimed by the provinces. As against this view, the Dominion representatives proposed that, as in all other matters involving a constitutional issue, the matters in dispute should be referred in the shape of a stated case to the Supreme Court, and if necessary, carried to the Privy Council, in order to obtain an authoritative judicial decision, to be binding on all parties for all time.
In discussing the proposal of the Dominion, the provincial representatives laid stress on the fact that a judicial decision might lead to greater confusion than that which exists at present, and that if the courts decided against the contention of the provinces there would be a loss of revenue from the fees charged for incorporating companies. Both the Minister of Justice and the Secretary of State combatted these arguments, and it was pointed out that when a decision of the Supreme Court upset what had been the practice of the Patent Office for over a quarter of a century, the Dominion government promptly had legislation passed validating all patents that were affected by the decision in question, and it was further pointed out that in the case of companies the court should decide against the jurisdiction claimed by the provinces, the Dominion parliament could again pass legislation validating the incorporation of all provincial companies incorporated before such decision was rendered, and which, but for such Dominion legislation, might be held to be invalid. The convention adjourned to permit the provincial delegates to confer upon the subjects under discussion.
At the afternoon sitting the provincial delegates presented a resolution that in the public interest the powers exercised by the provinces for forty years should not be brought into question, that foreign corporations should not be accorded in any province greater powers than companies incorporated by sister provinces. They expressed willingness to join a conference to draft amendments to the B. N. A. Act more clearly to define and set at rest the respective rights.

Want Commerce Committee.
Toronto, March 30.—The Toronto branch of the Ontario Retail Association, at the annual meeting held last night, passed a resolution expressing the opinion that the Ontario government was not devoting enough time and attention to legislation dealing with commercial matters and asking the provincial board of the association to interview the government and urge upon it the advisability of appointing a committee of commerce.
To Settle in Hamilton.
Hamilton, March 30.—It was announced this morning, that the Ludlam Ainsley Lumber company, of Leamington, and Sarnia, had decided to locate in Hamilton. The company has purchased property in the east end with a frontage of 200 feet and will erect two large buildings. About fifty hands will be employed. The company will manufacture doors, sashes and office furniture.
Car Jumped the Tracks.
Jackson, Mich., March 30.—While rounding a curve at high speed early to-day, a Detroit-United Railway Interurban car jumped the track, killing an unidentified man and injuring five others. The dead man was mangled beyond recognition. All of the injured probably will recover.
A Strike Inevitable.
Chicago, March 30.—Seventy-five thousand coal miners in Illinois prepared to-day, to strike next Friday in the general movement of bituminous miners in the United States for wage increases. Both operators and miners regard the breaking off of negotiations which had been on since March 28th in Cincinnati, as making the strike inevitable.

RESCUED FROM FLAME.
Woman Gave Birth to Child in Excitement.
Chicago, March 30.—Fifty women and children were rescued by firemen with ladders in a fire panic in the four-story Chatham apartments, 46th street and Cottage Grove avenue, to-day. One fireman was seriously injured by an explosion which shattered a large plate glass window. Mrs. James Wilson, thirty years old, gave birth to a son on the third floor in her apartments during the excitement. She and the infant were carried to the street by firemen and hastened to an hospital. Over 100 persons were in the building when the fire started.
Charge of Attempted Murder.
Toronto, March 30.—John C. Woodward, a real estate agent, living at 75 Kensington Crescent, was committed to the police court this morning for trial on a charge of attempted murder. Frank G. Imber, a painter, 19 Duvernay avenue, was the complainant. Imber testified that Woodward called at his place March 7th and after some casual remarks drew a revolver saying as he did so, "Frank, I am going to shoot you." Imber grappled with him and in the struggle which followed the weapon went off, the bullet entering Imber's head, behind the ear. Woodward afterwards fired a second shot, but it went wide. Imber said the only reason he could give for Woodward's act was that he had ordered the man to keep away from his place, he having heard he was paying too much attention to his (Imber's) wife.
Child Performer Hurt.
Brantford, March 30.—At the Gem Theaterium here, yesterday afternoon, before a crowded house, one of the pair of Hasmusen children, aged four and five years, while sliding down a wire from the rear of the hall to the stage, suspended on a rope with her teeth, fell on an empty seat just in front of the stage and was seriously injured. The rope on which she was suspended broke. The police state that action will be taken to prevent the employment of children of this age in such dangerous work.
Fire and Skating at the Bijou.
The great picture drama, "Nero," or "The Burning of Rome," was received at the Bijou, to-day, and proved one of the most splendid dramas ever received. To-day and to-morrow, "Accompanied by Servants and Masters," an extremely good comedy, introducing the "Apache Dance," and a second comedy, "Prison Rather Than Starvation." Accompanied to-morrow by a drama, "The Wild Woman of the Castle," and "Stunts on Skates," by George Lamy, world's champion skater.

Merger May be Blocked.
Hamilton, March 30.—There is still said to be a possibility that the merger planned by the Hamilton Steel & Iron company, and which will take in the Canada Bolt and Nut Works, with factories in Toronto, Brantford and Gannoque, will fall through. It is reported that the charter of one of these companies makes it possible for any stockholder with a hundred shares to block a merger, and this is given as the reason for which the Hamilton company is taking such pains to please the minority shareholders.

A Sad Tragedy.
It often happens—your sore corn is stopped open. Why not use "Putnam's" Corn Extractor. It cures in one day. Absolutely no pain with "Putnam's." Use no other.
The seventh death, due to the scarlet fever outbreak, occurred at London, Ont., on Tuesday.
Two more arrests have been made at Montreal in connection with the Rattray failure.
Something special each day next week during Knox's spring sale.
A rough-cast house near Belleville, said to be a century old, was burned yesterday.
Ice cream at Best's palm room.
Navigation will open at Ottawa on Monday. This is the earliest date in the history of the Ottawa river.

THE QUEEN'S
Toronto, the Queen City of Canada, has much of the beautiful. It is found in the many handsome churches, artistic public buildings, imposing offices, public drives, parks and gardens. Its government buildings are fine. Of hotels there are many; none, however, approaching the Queen's for perfect service, quiet comfort, and homelike surroundings, and the peculiar excellence of its cuisine. Its fame is far-reaching, and many remember with pleasure the hours spent within its hospitable walls. The charges are based on the American and European plan, and are as follows:
• Rooms without bath (American Plan) \$3.00 per day up; Rooms with bath (American Plan) \$3.50 per day up; Rooms (European Plan) \$1.50 per day up
