Bob Dunlop's Chum Now a Millionaire.

Atlantic City, N.J., review.

It was in the middle of the Easter rush and "Bob" Dunlop was at the desk in the New Dunlop when a tall, distinguished man stepped up and asked if it was possible to get accommodations.

"Just in time to get the last suite," the veteran bunface. The visitor slowly traced the signature "N. F. Hugo, then working quickly at Mr. Dunlop's follow that signature."

"Hully Gee," said Mr. Dunlop, extending his right hand, the answer is "Kingston, Canada." How are you?" But the visitor waved Duluth, Minn." And then they talked it over.

Mr. Hugo recalled the fact that he had taken his first railroad journey with Mr. Dunlop and had been obliged to ask instructions as to how to go to bed in a sleeping car. After about twenty years, Mr. Hugo had drifted to Duluth, where he went into business and Minnesota legislature and became speaker of the House of Representatives. Then he was elected Mayor of Duluth and was on his way to the governorship and the United States senate when he decided to get out of politics and stick to finance and business and now he is one of millionaires of the great North West and a co-worker in the building up of that vast empire with James J. Hill.

He and Mr. Dunlop were a cool matter and chums in Canada, but had not seen each other for many years. Mr. Hugo has become an enthusiastic admirer of Atlantic City, and is accompanied by his wife and daughter, and they are now occupying the swellest suite in the New Dunlop.

IN REAL HARD LUCK
SAD PLIGHT OF A REMITTANCE MAN.

Lord Aberdeen's Former Secretary Jailed in Chicago for Wife Desertion.

Detroit, April 4.—In 1904 Nina Grosvenor, one of the most beautiful of Detroit's daughters, married William Strachey, grandson of Sir Richard Strachey, G.C.S.I., and a cousin of Sir Edward Strachey, baronet. And member of Parliament, who came to Canada as one of Lord Aberdeen's secretaries when the latter was governor-general. Now after six years of wandering about the country, the husband occupies a cell in the Sheffield avenue police station in Chicago. The young wife had him arrested in an endeavor to save him from himself. He had straggled into the wife's apartments asking for food.

Strachey had not been furnishing a cent for the support of his wife and small child for weeks, and himself had been living upon meals given out by the Salvation Army all because his "remittances" from England failed to come and he had no employment.

Mrs. Strachey says she will not seek a divorce.

"I met him at Wintrop Beach, near Boston, in the summer of 1903," she said. "A year later I left my mother's residence in Detroit and went to Wintrop Beach, to marry him. He didn't have any money except his remittances from England, and what he made working for the Gas Consumers' Association of Boston. I was only seventeen and he fascinated me.

"We got along pretty well, but when my baby was born I had to come to my mother's home in Detroit and he joined me in Detroit and soon after that we left for Chicago. We started to buy a house in Chicago, but soon we were back in Boston. From there we went to Providence, R.I., and then to Detroit, and back to Chicago, in July, 1909.

"I have been destitute ever since Christmas. Two weeks ago I had to appeal to the United Charities.

Mrs. Grosvenor, the mother of the wife, has just arrived in Chicago, and is taking care of her daughter.

"Mr. Strachey is not like an American," said the mother-in-law. "When he has a little money he seems to think that more will fall from the skies, so he buys new clothes and everything. He can't get it through his head that he must work all the time. He is forty years old and despair seems to have seized him. He says that no work he can do will restore him to the position he was born to and that his hope is gone."

The child is five years of age.

LARGEST IN THE WORLD.
San Francisco's Mammoth Scrap Heap.

The largest scrap heap in the world is in San Francisco, a relic of the great fire which followed the earthquake of April, 1906. This scrap heap is forty feet high, 100 feet square and contains 20,000 tons, all cut in equal lengths of eighteen inches and piled in one solid mass with the sides as smooth and solid as a brick wall. This is the only one remaining of four similar heaps, the others having been carried away as the material was needed.

Dr. J. G. Evans started men to work this morning, to demolish the naval cottages at Point Frederick, which he purchased by auction, on Saturday. The auction was conducted by R. W. Allen.

Horse's Leg Swelled
Animal Was Too Sore and Lame to Work—Quickly Cured by Nerviline.

"I have had a long experience in treating horses, and I can safely say that I know of no liniment for strains, sprains, and swelling that is so useful around the stable as Nerviline." Thus writes Joshua E. Murchison, from his home, Crofts Hill, P.O. I had a fine NERVILINE young mare that I was wrenched her right fore leg, and from which the shoulder drooped. She was stiff, sore and swollen. I applied Nerviline, and it worked like a charm; in fact, that mare was in shape to work a day after I used Nerviline.

"We have used Nerviline on our farm for twenty-five years and never found it wanting. For man or beast it is a wonderful liniment."

We have received nearly five thousand letters recommending Nerviline as a general household liniment, as an all-round cure for aches and pains. One million bottles used each year. Try it yourself. Large bottles, 50c; trial size, 25c., at all dealers.

TO INDICT TORONTO
For Its Bad Conditions in Jail—Another Lunatic Dead.

Toronto, April 4.—Dr. Bruce Smith, inspector of prisons and charities, stated this morning that Toronto, probably, would be proceeded against on account of the overcrowding and other conditions in the jail hospital, and owing to the unsatisfactory arrangement made by the city for the care of persons committed as lunatics pending their removal to the asylum. The doctor's remarks arose over the death of another lunatic in the jail, yesterday, and the fact there are still ten lunatics there awaiting disposition in the asylums. Dr. Smith recalled that two years ago the city was indicted by the grand jury for just such conditions and was allowed by the government to escape the penalty on the distinct promise that additions and repairs, necessary to remedy the defects, would be at once made to the jail.

Tailoring

SPRING IDEAS IN FULL BLOOM HERE.

Our Woollens, embracing the wide variety of Fabrics and Patterns, invite the most refined and discriminating choice.

The values are exceptional, even with us, and that means something.

We would suggest that you take a look at the new styles.

You'll take pleasure in seeing and we'll take pleasure in showing.

MODEST PRICES, RANGING FROM \$22.00 TO \$30.00 FOR SUIT OR OVERCOAT.

We point with pride to our reputation for doing excellent High-grade Tailoring.

 75-79 Broad St.

NEWS OF THE WORLD
WILL SEAT 35,000

ARENA FOR FIGHT WILL BEAT ALL RECORDS OF PRIZE RING.

Promoters Rickard and Gleason Are Already Talking Like Frenzied Financiers—They Expect the Receipts Will Reach \$700,000.

San Francisco, April 4.—The arena at Emeryville, where the Jeffries-Johnson fight will be fought on July 4th, will be the greatest and largest that the modern or ancient prize-fighting game has ever known. According to the plans just completed it will seat 35,000 persons, and it will be so constructed that in case of an eleven-hour rush it can be quickly extended so that 15,000 more may be jammed in.

The plans for this wonderful structure have already been completed and are in the hands of Tex. Rickard, who is an authority on arenas, having boxed the one in which Gans and Nelson fought forty-two rounds in Goldfield nearly four years ago. The Emeryville amphitheatre is modelled after this famous Goldfield structure, though it will be fully three times as large.

Rickard and his partner, Jack Gleason, are already beginning to talk like a couple of frenzied financiers. According to their figuring, the great fight will draw no less than \$500,000 if they play to capacity. Of course, this is not taken seriously by those who know the ins and outs of the fighting game, but conservative persons are willing to admit that the battle certainly will pull between \$250,000 and \$300,000. This is as well as when one stops to consider that the largest house up to date was drawn by Jeffries and Sharkey at Coney Island, New York, away back in 1899. This house netted \$66,000 and was closely followed by the Jeffries-Corbett affair in San Francisco four years later. This one totalled up \$64,000, a record-breaker for the Pacific coast.

The Emeryville arena will be 240 feet square and the bleachers at the highest point will be forty feet. It will be constructed on the sloping plain so that the fans in every part of it can have a perfect view of the ring in the centre. There will be no chance to beat the gate, for all persons will first have to pass through the regular race-track turnstiles before reaching the arena entrance.

According to the figures of the architect's 1,000,000 feet of lumber will be used in the construction of the arena. It will cost the promoters in the neighborhood of \$200,000, for, according to the terms of their agreement with the racing magnate, Tom Williams, they must tear down the structures leaving the centre of the track as they got it. This work must be completed within thirty days after the battle.

The track is an ideal location for the championship battle. It is situated in a little township known as Emeryville, a few miles outside of Oakland, and just thirty minutes ride by ferryboat and steam or electric train from San Francisco. It is accessible by two lines, the boats of which run on a fifteen-minute schedule every day.

THE 14th REGIMENT.
The Officers Posted to the Various Companies.

Owing to the retirement of Major W. B. Skinner, the following officers have been posted to the 14th Regiment, P. W. O. Rifles:

To be acting majors—Capt. W. St. Pierre Hughes and Capt. H. J. Dawson.

"A" company—Capt. D. J. Dowsley, Lieut. F. H. Macnee and Lieut. F. Kinnear.

"B" company—Capt. E. Sparks and Lieut. H. Hora.

"C" company—Capt. W. Y. Mills, Lieut. B. N. Steacy.

"D" company—Capt. H. Swaine, Lieut. W. B. Mudie and Lieut. W. K. Macnee.

"E" company—Capt. W. H. Craig, Lieut. R. Mclelland and Lieut. C. W. Livingston.

"F" company—Capt. S. H. Simpson, Lieut. W. Manhard and Lieut. J. A. W. Craig.

"G" company—Capt. P. G. C. Campbell and Lieut. G. Richardson.

"H" company—Capt. W. Peters, Lieut. F. Mahood and Lieut. Laughlin M. Hughes.

Adjutant—Capt. George T. Birch.

Signalling officer—Lieut. L. C. Lockman.

Musketry instructor—Capt. P. G. C. Campbell.

Officer in charge of brass and bugle bands—Lieut. J. A. W. Craig.

It is thought that Band Sergt. O'Neil, of the R.C.H.A., who has been in charge of the brass band for the past few weeks, will remain. The bandmen are hoping that he will.

Ex-Convict Still in Easy.

On Saturday afternoon, Guard George Sullivan deported a penitentiary prisoner, taking him to Cape Vincent. The prisoner was found to be a resident of the United States, who had been in Canada only a short time. The prisoner had no papers to show his nationality, but he managed to get by the immigration officer at the Cape. The guard himself, so it is said, was in danger of being refused admittance to United States soil, but when he said that he had just come over to pay a visit to his old baseball friend, "Charlie" Jerome, he was received with open arms. His "alibi," the ex-convict, still in easy.

Two Dogs Poisoned.

Two more dogs, owned by people living on Stuart street, have been poisoned. One was found dead on Sunday, and the other on Monday afternoon. Within the past couple of months half a dozen or more dogs have been poisoned, and the owners in that neighborhood are up in arms over the affair. In nearly every case, a pet dog has been made the victim. It is rather a difficult matter to trace, but the matter will be investigated, and if the guilty parties are found out, they will be prosecuted.

Pleased With Scotland.

H. D. Van Sant, United States consul at Dunfermline, Scotland, formerly of Kingston, writes that he likes the place very much. He seems to enjoy living in a city where eight days and five quinces are buried. Dunfermline is called the Royal city. The Dundee Courier says that Mr. Van Sant has made many friends in Dunfermline.

OTTAWA MAN KILLED
AUTO WENT OVER A CLIFF IN CALIFORNIA.

John A. Howard a Victim—Funeral of the Late Chief of the Hull Fire and Police Departments a Big One.

Ottawa, April 4.—News was received in the city, this morning, of the accidental death at Delmo, Cal., last night of John Anson Howard, son of John P. Howard, of this city. The young man left here a year ago and was engaged in prospecting in California. He was in an auto with former Mayor Johnson, of Monterey, Cal., when the machine swerved and went over a cliff. The body will be brought home.

The funeral of the late Lodge General, chief of the Hull fire and police departments, took place there, this morning, upwards of 3,000 persons accompanying the remains to their last resting place. Besides the Hull civic bodies, the dominion police and the Ottawa fire and police departments were represented by detachments of officers and men and there were many present from Montreal and outside points.

Hon. George E. Foster, to-day, denied, in most emphatic terms, the story, published in some papers, that he has decided to retire from public life. "Not unless the Lord takes me," was Mr. Foster's comment. "Some one has been getting in his dirty work and I was never even asked for a verification of the story by the author of the false rumor."

The militia department has received a cablegram from the lord mayor of London inviting Canada to participate in the Empire day match for cadets. Three will be sent over, chosen from the best scores in the Canadian Rifle League miniature rifle competitions, now in progress throughout the dominion.

Quebec is showing it is running Ontario a "close second" in temperance sentiment. To-night 400 temperance advocates will march to the city hall, a Hull, and demand that the saloons and liquor stores close at seven o'clock each week night instead of nine, and at ten on Saturday instead of eleven. This is the first time there has been such an occurrence in Quebec province.

John Boyd Grey, Pakenham, who, on Wednesday, at Chalk River, fell between two cars and had his legs badly crushed, died at St. Luke's hospital, to-day. Grey's train may hold an inquest. Grey's mother, Mrs. Nancy Bingham, Pakenham, was on the train at the time of the accident.

R. M. Motherwell, observer at the Dominion observatory, watched Halley's comet closely at 4:44 o'clock this morning, but it was too cloudy to see it well. The officials here expected to see it with the naked eye and take some photographs within the next week. Very detailed observations are being taken, as its approach is of intense interest to astronomers throughout the world.

THERE IS A DANGER
That the Supremacy of the St. Lawrence May be Injured.

Toronto Globe.

Unless some action is taken shortly to bring grain-carrying rates from Montreal to European ports nearer the level rates from New York, there is a real danger that the supremacy of the St. Lawrence route will become a thing of the past, and the great flow of golden grain from the heartlands of the Canadian North-west will be diverted to an American port. The ocean shipping rates for the month of June, which are now in the hands of the grain-exporters, show a difference of one and a half to nearly two and a half cents a bushel in favor of New York and other American ports. This means that in order to make a comparative rate from Fort William to Europe the grain carriers on the lakes must cut their figures to a mark that will leave little if any room for profit. According to the opinions expressed by a number of shipping men yesterday, they have no intention of doing this.

A comparison of rates from Fort William to Europe shows the situation clearly. The lake rate from Fort William to Georgian Bay ports or Buffalo is the same—namely, a cent and a half a bushel. The rail rate from Buffalo to New York is 4.90c. a bushel with the rail rate from Georgian Bay ports to Montreal four cents. To the shipping port the Canadian route has thus an advantage over its rival of 90 per cent a bushel, which is improved to 1.50 where the grain is brought to the wharf by water. From this point the advantage is all the other way.

The ocean rate from Montreal to Liverpool and Manchester is 3 3/4 cents a bushel, while boats of the same steamship line are carrying the grain from United States ports for 1.63. To other European ports the difference is greater. The rate from New York to London and Bristol is 1.88 lower than Montreal, and to Antwerp 2.38 cents lower.

The diversion of the grain to United States ports would be felt chiefly by the Canadian package boats, which carry grain down to Montreal and bring back miscellaneous freight.

New York Marathon.

The following was the result of the Marathon race in New York on Saturday: Lungstrom, Sweden; Crowley, Ireland; Johansen, Sweden; Crook, United States; Meadows, Canada.

Italian trackmen on the Ontario & Western railway, Norwich, N.Y., struck on Monday and began derailing freight tracks. Disorder has occurred at several points.

"Kentucky Lawn Grass Seed" makes beautiful lawns. Sold in Kingston only at Gibson's Red Cross Drug Store.

Lord Strathcona has been appointed president of the British and Foreign Sailors' Society.

Capt. Bemis, of the steamer Arctic, is preparing for his dash to the north polar regions next June.

The Allan steamer Corsica, from Liverpool, docked at St. John, N.B., to-day.

Close class printing at the British Whig office.

Mount Etna Eruptions.

Catania, April 4.—The violence of the eruption of Mount Etna is increasing again and is accompanied by loud rumblings and showers of ashes and stones. The lava, which was almost stationary, Saturday, has started to flow again. A stream, several metres high, and fifty metres wide, has detached itself from the main stream and is advancing towards Borrolo. The main stream, which is now 380 metres high, threatens the villages of Palmeto and Peorolla.

School Boots
School Boots

We have just received especially for school opening a lot of Girls' and Boys' Calf Boots, guaranteed solid soles, insoles, etc.

Boots that will wear.

Girl's sizes, 11 to 2. Boys' sizes 1 to 5. \$1.50 Pr.
