An Ore Concentrator Will Shortly be Established in Ottawa—Railway Commission Will Hear Charges of Excessive Rates.

Ottawa, April 6.—For assaulting Dr. Sayo, the secretary of the Chinese consulate, here, a week ago, David Mulligan, aged eighteen, was, to-day, let off with a fine of \$12 by Magistrate O'Keefe, in police court.

Mayor Hopewell, to-day, proclaimed the first week in May as civic cleanup week in Ottawa; when all residents of the city and civic officials will co-operate in cleaning up the winter's accumulation of debris.

The mines branch of the dominion department of mines, to-day, announced that an ore concentrator would shortly be established in Ottawa for experiments in the best and most economical methods of ore treatment. It will be operated in connection with the government plant here.

The railway commission, this morning, re-opened the hearing into the allegations by shippers of excessive charges, with regard to fruit, shipments, through rates, insurance, surcharges, etc. A. D. Smith, M.P., Winona, Ont., was the witness and the question of rates through to the seaboard in question. Mr. Smith asked for the board to make a reasonable export tariff rate as he was of the opinion that a profitable trade a merchant could not work up with English firms. The millinery champion of the local garrison, and a dark horse, Isaac Snider, Prescott. The committee has a programme that will give everyone value for his or her money. W. F. Nickle will preside. The athletic bouts will be the last two on the programme, so that the ladies will be able to attend the presentation in full force.

A case in which two Bay street women are concerned, one being charged with attempting to wound, was booked for the police court, to-day, but was adjourned until Friday.

**Y.M.C.A. INDOOR BASEBALL.**

The Crescents Won Out in League Matches Played Tuesday.

Two fast and exciting games were played in the Y.M.C.A. junior indoor baseball league, yesterday. The first game brought the "Hykers" and Scouts together, and the Hykers lived up to their name and hyked around the bases in great style. The Scouts started out well by scoring 3 runs and then forgot to score during the remainder of the game, Hykers winning 23 to 3.

In a slugging match, the Crescents just managed to win out from the Pikes, and by so doing, they won the league. Score, Crescents 12, Pikes 10.

The Crescents' team was composed of the following: Capt. S. Toland, W. Cook, D. Douglas, N. Knapp, C. Reid, W. Simmons, S. Hunter, E. Jackson, H. Hunter.

The Harriers have started their runs from the building, and are busy getting in shape for the season's work.

The "Happy Ten" club are busy getting their Mackinaw, and expect a busy season.

**Coming Assault-at-Arms.**

The Frontenac fund presentation at the opera house, on Friday night, promises to be the biggest local affair held for a long time. The plan opened at the opera house this afternoon, and it is likely that the house will be filled. The programme includes fine vocal and elocutionary numbers, band numbers, and the big two athletic events—a wrestling match between Elberbeck and John Burns, of Watertown, N.Y., and a six-round boxing bout that should be a hummer. The boxing will be between Dumphrey, champion of the local garrison, and a dark horse, Isaac Snider, Prescott.

The committee has a programme that will give everyone value for his or her money. W. F. Nickle will preside. The athletic bouts will be the last two on the programme, so that the ladies will be able to attend the presentation in full force.

**Are Signing Players.**

The managers of the City League Baseball team are busy signing players for their clubs. Quite a few students who play the game will remain in the city during the summer and will give their services to the city teams. The C.L.C. team has secured the services of a good pitcher, an American, who threw good ball in the Southern minor leagues, and who also batted well. He has not been seen in action here but is understood to be a good one.

**Lacrosse Meeting Called.**

A general meeting will be held shortly to talk over the lacrosse situation for the coming season. Those who were behind the team last year are willing to take hold again and see the team through if given sufficient encouragement and the players show that they want to go on. A league with Trenton, Kingston, Gananoque and Brockville could be formed the same as last season and could be a success if properly handled. A fine team could be organized in the city with the right men behind it.

**WHO WAS DROWNED?****BODY OF YOUNG MAN FOUND IN MONTREAL HARBOR.**

He Had Evidently Been Drowned While Skating—The Remains May Have Come From Some Place up the River.

Montreal, April 6.—The question of who went through the St. Lawrence while skating, last winter, and the body was not recovered, was raised by the finding of a body, evidently of a young man, well dressed, who wore skates on his boots, in the harbor to-day. The body had evidently been in the water for a couple of months and probably came from a distance up the river as there is no skating on the river at this point. There was nothing on the body to reveal the identity.

Nothing to get liquor on Sunday; William Stanhope, Englishman, not long in this country, went to a drug store and got three bottles of wood alcohol, saying it was for a spirit lamp. These he drank to satisfy his craving and after a few days illness the poison killed him. He died in the Salvation Army hotel, and had no friends in this country.

C. M. Hays, president of the G. T. R., is sailing from England, having discussed important matters with the board of directors. The Providence extension, now practically assured so far as Rhode Island legislation is concerned, was one of the matters which engaged attention. The elevation of tracks and a new station for Montreal were said to be included in the agenda.

Mr. Benichay, a young Polish woman, jumped from the third story window in the women's hospital, on Mountain street, and escaped injury. She landed on her feet and walked back into the hospital. The young woman gave birth to a child a few days ago, and while delirious made her spectacular leap. She was glad in nothing but her night dress and it is a remarkable thing that she landed on her bare feet on the only soft spot of earth in the yard.
