MAN VISITED DETROIT WITH MURDEROUS INTENT.

City Authorities Have No Knowledge of Tuck or His Movements—Murray Elected With His Daughter.

Detroit, Mich., April 7.—Declaring that he came to Detroit for the purpose of killing George Murray, of Toronto, who eloped with his young daughter, Olive, last November, William Tuck, of Hamilton, arrived in Detroit and went direct to the Central police station, where Murray and Tuck are locked up for the United States immigration officers.

Murray, when he eloped with Miss Tuck, left his wife and family in quarantine in Toronto. He became acquainted with Miss Tuck while she was visiting her married sister, living next door to his home during the time that his family was in quarantine.

Murray and Miss Tuck fell in love with each other, and eloped to Detroit. Murray secured a position here as motorman on the Detroit United railway, and he and Miss Tuck were living together as man and wife when they were arrested two weeks ago. Both Murray and Miss Tuck told the police that she was eighteen years old, but her father announced that she was not seventeen yet.

Tuck said he came to Detroit for the sole purpose of killing Murray on sight, but before he left home his wife took his revolver out of his suit case and hid it so he could not find it.

He says that his daughter is under the hypnotic influence of Murray, and that she does not love him at all, except as she is under his power. After talking to the police, to-day, Tuck was convinced that it would not be the proper thing for him to seek personal vengeance on Murray, and he declared that if the United States authorities acted out justice he would be satisfied. He insists, however, that Murray be prosecuted on a serious charge to be made in the United States court, and the father says he will remain in Detroit and see that Murray is summarily dealt with.

It is said these are the Bank of Montreal, National Bank, and the Imperial Bank.
