

OVERLOADING THE STOMACH

Causes Incomplete Digestion, Weakens the System, and Breeds Dyspepsia.

Gluttony is as vile a sin as drunkenness and its evil results are more terrible and far more rapid. The human system turns into the stomach and alimentary canal from 7 to 35 pounds of digestive fluid every twenty-four hours. From your stomach with food and you exhaust these juices. If your stomach cannot digest the food because it lacks juices to do with, you should either eat less or make more gastric fluids.

Stuart's Dyspepsia Tablets contain ingredients one grain of which will digest 3,000 grains of food. With Stuart's Dyspepsia Tablets in your stomach the evil effects of overeating are removed, for these little tablets when dissolved stick to the food and digest all the good from it. They won't abandon the stomach and leave a mass of decaying undigested food to putrify and irritate the mucous membrane living. They give greater quantities of gastric fluid, help the intestines enrich the blood, prevent constipation, and glutiny, while sinful, may yet be made less harmful by the use of these tablets.

Every druggist carries them in stock; price 50 cents per box, or send us your name and address and we will send you a trial package free by mail. Address, F. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich.

Grows Hair on Bald heads

A Remedy That Costs Nothing if it Fails to Do as Claimed

Resorcin is one of the latest and most effective germ-killers discovered by science, and in connection with Beta Naphthol, also a powerful antiseptic, a combination is formed which destroys the germs which rob the hair of its nutriment, and thus creates a clean and healthy condition of the scalp, which prevents the development of new germs.

Pilocarpine is a well-known agent for restoring the hair to its natural color, where the loss of color has been due to a disease. Yet it is not coloring matter or dye.

The famous Resall "93" Hair Tonic is chiefly composed of Resorcin, Beta Naphthol, and Pilocarpine, combined with pure alcohol because of its cleansing and antiseptic qualities. It makes the scalp healthy, nourishes the hair, revitalizes the roots, supplies hair nourishment and stimulates a new growth.

We want you to try a few bottles of Resall "93" Hair Tonic on our personal guarantee that the trial will not cost you a penny if it does not give you absolute satisfaction. That's proof of our faith in this remedy and it should indisputably demonstrate that we know what we are talking about when we say that Resall "93" Hair Tonic will grow hair on bald heads, except of course where baldness has been of such long duration that the roots of the hair are entirely dead, the follicles closed and grown over, and the scalp is glazed.

Remember, we are basing our statements upon what has already been accomplished by the use of Resall "93" Hair Tonic, and we have the right to assume that what it has done for hundreds of others it will do for you. In any event you cannot lose anything by giving it a trial on our liberal guarantee. Two sizes, 50 cents and \$1. Remember, you can obtain Resall "93" in Kingston only at our store—The Resall Store, G. W. Mahood.

SCHOOLS DEFECTIVE

INSPECTOR REPORTS CLASSES TOO LARGE.

Minister of Education Wants Increased Room at Collegiate—Conference With Queen's Trustees About Pedagogic Work.

The Board of Education last evening heard an important report by Inspector J. R. Stuart upon the lack of accommodation in the public schools of the city. Every school is defective in one way or another—either as regards light, ventilation or accommodation—and the inspector reported as follows: Each fault could be remedied. Cataract school is condemned entirely, and the board advised to close it at the first opportunity.

The inspector reported that exclusive of the kindergartens and Orphans' Home classes the average enrolment of the public schools is about forty-five for each teacher. This, he said, was too large for satisfactory efficiency. Teachers' methods become more formal as classes increase and the personal relation counts for less. Fewer attempts are made at individual treatment and these are less effective. The teacher labors to produce average good results and the weaker pupils do not receive the help they need. The overcrowding of classes is one of the chief causes of the retardation of pupils—one of the most serious evils of the graded public school.

Every druggist carries them in stock; price 50 cents per box, or send us your name and address and we will send you a trial package free by mail. Address, F. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich.

Another report on over-crowding was from the deputy minister of education, who reported to the board stating that the Collegiate Institute must receive attention. The over-crowding is serious, the attendance being 435, or 75 beyond what is allowed by the departmental regulations. He wanted the board to advise the minister as to what it was going to do about this matter. The requested information will be easily given, for the board has appointed an architect to report upon the cost of adding a wing to the Collegiate.

Those present at last evening's meeting were: Trustees Richardson (chairman), Anglin, Bennett, Chown, Craig, Donaldson, Elliott, Henderson, Lambert, Marshall, Meek, Metcalf, McLenn, Roughton, Walkem and Wallace.

Communications and Reports.

Among the communications received were: G. S. Bale, Collegiate teacher, asking that his increase in salary be dated back to last September.

Principal Gordon, of Queen's university, asking that a deputation from the board meet the university trustees on Tuesday regarding the renewal of the agreement respecting the Collegiate Institute.

T. B. Haffner, William Rea, Louis May, John McGoff, Charles May, Stephen Cayless and A. Gould applying for the position of caretaker of Frontenac school.

Neil McCaig, resigning as caretaker of Frontenac school.

R. Ludlow, caretaker Victoria school, asking for increase in salary.

Newlands & Son, stating that the damage by fire to the Central school on March 21st was \$50.

City Solicitor McIntyre, reporting that the regulation relating to the disposal of sewage by the local board of health is binding upon the board of education.

These recommendations of the property committee were adopted: That John Hughes be appointed caretaker of the Depot school at a salary of \$80 a year, that \$100 be expended this season in renewing the flower beds and grounds of the Collegiate Institute and different public school buildings, that \$500 be spent upon the schools in general improvements, that the tender of \$220 from Thomas Milo for painters' work be accepted; that the city council be asked upon what terms it would transfer certain land for recreation ground for Frontenac school pupils; that an architect be engaged by the board to furnish an estimate of the cost of a new two-room wing and a four-room wing at the present Collegiate Institute.

In connection with the latter recommendation with the city, the management committee reported that it was informed that the two lower rooms in the old Collegiate building could be secured by the board at a rental of \$180 a year. Mr. Meek declared that he would never vote to pay Queen's \$180 a year for a building to which it had no right for it had not lived up to its agreement with the city respecting that building, which was to be used for academic purposes. Mr. Walker agreed with Mr. Meek. The university, he said, hadn't lived up to the class of its agreement with the city.

The management committee report containing these recommendations was adopted: No action on the communication of H. Troyer, secretary of the Canadian Colleges' mission, asking for permission to address the pupils in the Collegiate Institute with a view to getting them interested in New China work; that Principal Ellis offer to open special classes in history at the Collegiate be accepted.

General Business.

The chairman and the management committee were appointed to confer with Queen's trustees next Tuesday as to the renewal of this agreement between the university and the board, with such modifications as may be consequent upon increase of government grant for the maintenance of the Faculty of Education. Prof. Marshall, who is a member of the management committee, asked for two months' leave of absence, which was granted, and Mr. Elliott was appointed to fill Prof. Marshall's place temporarily. Dr. Seath, superintendent of

education for Ontario, may be present.

Mr. Donaldson asked if the salary of the Collegiate Institute caretaker had been increased last year. The secretary said it had. The caretaker received \$200, free house, fuel and water, and a bonus of \$25 for grass cutting. Now he gets a flat \$200 and house rent, the increase of \$125 being for extra work in connection with the new gymnasium. Mr. Donaldson said this should have been reported upon by the property committee.

Mr. Meek said the increase was regularly made and in the same way as the city council did, viz., in the bus year, which had been passed.

Inspector Stuart reported the public school enrolment during March was 2,165; average daily attendance, 1,152. The total number of cases of tardy attendance on the part of pupils 166. The Louise school had the best record for punctuality. There were three cases of truancy.

Principal Ellis reported that during March the enrolled attendance at the Collegiate was 435, or 75 beyond average attendance of 378. There were four cases of suspension during the month for smoking during recess. Principal Ellis stated that as neither by advertisement nor by private enquiry has the board been able to find a suitable teacher to fill the vacancy upon the staff, he would respectfully ask the board to consider the advisability of making the history work of the school into a department, so that there will be sufficient inducement for a proper man to accept the position.

Mr. Meek asked the inspector to report at next meeting as to whether the tardy teachers and pupils were the same ones week after week. If they were it was time something was done to effect a cure.

A ballot was taken on an architect to do work on water retention, on motion of Mr. Elliott, seconded by Mr. Donaldson, W. Newlands & Son, architects, were appointed to estimate on the cost of a new wing to the Collegiate, in accordance with the recommendation of the property committee.

BEGGING ON STREET.

Several Citizens Held up on Street For Money.

Complaint was made, on Thursday night, about a young man, who was going about the city, holding up people for money. He had a hard luck story, of being unable to work, and that he had met with an accident but the only thing wrong that could be noticed about him was that his breath showed that he had been drinking quite heavily.

The man went along King street to Princess street and thence up town, and he stopped every person he could, and asked for money. The majority of the people caught on to him, however, and did not open their purse strings to him. He is a big, strong, healthy looking man, and nowadays, when there is plenty of work for every person, he should find no trouble whatever, in looking after himself. It is all right to give help in a case of real need, but the five-cent piece given to the most of these men finds its way into one of the local grog shops.

POLICE SHOT A DOG.

Animal Had Fit and Feared it Would Go Mad.

About 9:30 o'clock, on Friday morning, a little girl rushed into the police station, and asked that a constable accompany her to her home for the purpose of shooting a dog. It was feared that the animal had gone mad, and they wanted to have it shot before it attacked any person. The girl said that her name was Caverly and that she lived on King street.

Constable Meadon was dispatched to the home, with his revolver, and the dog was shot. The animal was in a fit, and causing quite a lot of trouble.

What Will be Done?

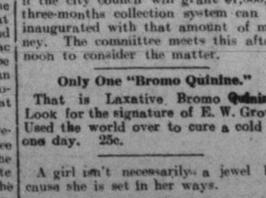

The city garbage committee members say they hardly know what to do this year, with a grant of only \$300. They cannot give the people a satisfactory garbage collection system for more than five or six weeks in the hot weather for that amount. The city engineer does not think it would be wise to expend the money in giving a partial collection. He favors purchasing the necessary apparatus for collection of garbage this year, and then next if the city council will grant \$1,000, a three-months collection system can be inaugurated with that amount of money. The committee meets this afternoon to consider the matter.

CASES FOR TRIAL

AT SPRING ASSIZES BEFORE JUSTICE BRITTON.

Two Criminal Cases on the Docket—Davis Drydock Company Sues for Price of Two Launches.

The spring assizes will be held next week, opening on Monday, with Justice Britton, presiding. These cases are on the trial docket:

The king against Peter Andrew indictment for theft, J. McD. Mowat counsel for the accused, Donald Malcolm McIntyre, K.C., crown counsel.

There is one jury case, that of the David Dry-Dock Co., plaintiffs, and R. E. Clenson, defendant. The plaintiff's claim is for \$1,015.25, the price of two launches and for work done and material supplied. The defendant says one launch being defective, was never delivered or accepted by him; he also counter-claims for delay in delivery of said launches; for damages for the destruction of one of said launches by fire by the alleged carelessness of the plaintiff, their workmen or agent; he also says launch would not make speed specified in contract.

Cunningham & Mudge, solicitors for the plaintiffs; George Mahaffy, Braebridge, solicitor for the defendant.

The non-jury list includes the following: Originating notices of motion under consolidated rule No. 938, returnable at this court. In the matter of the last will and testament of John Cronin, deceased, between Daniel F. Dennis and Michael Gallivan, executors of John Cronin, deceased, plaintiffs, and Thomas A. Cronin, et al., defendants. For the determination of the question arising in the administration of the estate of the above-named John Cronin as to the true construction of clause 7 of his will, if it is a valid bequest of the residue of the estate to the executors absolutely. T. L. Rigney, for the executors; J. L. Whiting, K.C., for the defendants.

In the matter of the last will and testament of John Robert Monds, deceased, between David Monds and Margaret Kirk, executors of said last will, plaintiffs, and George Stansbury Monds, et al., defendants. For the determination of the question arising in the administration of the estate of the above-named John Robert Monds, as to the true construction of the will of the deceased on the point raised by the said George S. Monds as to whether he is entitled absolutely to the proceeds of the two promissory notes mentioned in said will, or is only entitled to have the proceeds of said notes invested and the interest or profit arising therefrom paid to him during the term of his natural life. William Mundell, for the executors; W. S. Herrington, K.C., Napanea, for George S. Monds; J. L. Whiting, K.C., for the nephews, and also for any possible children of David Monds (except Margaret Kirk) and also for any possible children of George S. Monds by a second wife should he marry again.

IN MARINE CIRCLES.

Arrivals and Departures of Vessels at This Port.

The government boat Speedy is in port.

The schooner Major Ferry has arrived at Bath from Oswego, with coal.

The steamer City of Ottawa is undergoing repairs at the government dock.

The steambarge Sowards arrived from Oswego, with coal for Crawford's.

The schooner Cornelia unloaded her cargo of coal at Folger's wharf, and cleared for Oswego.

The steamer Keyport, laid up at Crawford's slip, all winter, will clear on Saturday for Fort William.

The steamer Britania will, this season, make a round trip from Bath to Kingston on Fridays.

The steamer B'herdike will clear on her first trip at two o'clock Saturday morning. The big steamer will go up the lakes.

The steamers Turfina and Corona will both undergo repairs at the government dry dock before the excursion traffic becomes heavy.

The steamer Ottawa was unable to clear, yesterday, afternoon, as was expected, for Clayton, but cleared today. Capt. Bertrand is in command.

The first of the M. T. Co.'s vessels (Sangam) start tonight, when the tug Bartlett, and the barges Ungava, Cornwall and Lapping will clear for Oswego. The Ungava will load coal for Fort William, and the barges Cornwall and Lapping will load coal for Kingston.

CITY AND VICINITY.

Special Saturday Only.

With every \$1.50 purchase shopping bag will be given. See our extra values in corsets, underwear and hosiery. New York Dress Reform, 209 Princess street.

Oddfellows to Attend Church.

The Oddfellows will attend anniversary service in Sydenham street Methodist church, on Sunday, April 24th, at 11 a.m. The sermon will be preached to the lodge by the Rev. Bro. W. H. Emmesley, Napanea. Last year the service was held in Convocation Hall.

Notice to Students.

Orders for papers containing Queen's examination results may be left at wing office, or mailed to us, and the required copies will be carefully posted on the day the results are announced. The price per copy, prepaid to any address, is three cents.

Dog in Police Station.

A little dog, somebody's pet, no doubt, stayed at the police station on Thursday night. The dog was found wandering about the street, and was brought to the station by a little boy. It is now at the station, awaiting an owner.

Mr. Herod Not Present.

It is not likely that the Green case will come into court, owing to lack of evidence. Mr. Herod says that he was not concerned, for at the time the episode occurred, he was on University avenue and only learned of the matter after it was over.

How to Cure Old Sores.

First wash the sore with warm water and then apply Dr. Hamilton's Ointment. This is sure to heal the oldest sore and cure the worst burn in short order. No ointment so soothing, so healing, so antiseptic as Dr. Hamilton's Ointment. Get a 50c. box from your druggist.

Rehearsal Last Evening.

On Thursday evening the members of the Daughters of the Empire company held a full dress rehearsal at the Grand Opera House, and everything ran off very smoothly. Those few who were fortunate enough to be able to see the rehearsal were greatly pleased with the performance, in fact were greatly surprised to think that the amateurs could do so well. The performance certainly deserves the largest patronage.

New Source of Taxation.

City Assessor Gordon springs a surprise. He will assess incomes from municipal bonds, as he finds the legislature, in its amended municipal act, has not, as heretofore, included such bonds in the exemptions. The assessor is fortified in his position by the city solicitor, who takes the view that such income is assessable. In Kingston there are several millions of municipal bonds held as investments and quite a large sum will be added to the taxes as result of new assessment.

B.A. Hotel Arrivals.

J. D. Mills, Toronto; R. E. Davis, London; W. Boddy, J. M. Redmond, Toronto; S. J. Geash and daughter, M. B. Bates, Brockville; A. M. Findlay, New York; C. A. Larkin, Toronto; W. J. Sherwood, Hamilton; F. W. Robinson, E. Moore, Brockville; S. Cleaves Macdonald, Brantford; J. A. Jacques, F. C. Smart, W. G. David, Montreal; Geo. M. Haldy, Toronto; A. J. Flood, Montreal; N. H. Conley, Toronto; Jas. Hudson, Philadelphia; M. Grive, Large, N.S.; R. Davis, London; Wm. H. Rihl, C. H. Gauthier, Philadelphia, Pa.

Letter Carrier Reinstated.

This morning, Postmaster James Stewart received authority from the postmaster-general's department, at Ottawa, to reinstate Robert J. Elliott, letter carrier, who, last December, was dismissed because of failure to put stamps on an unpaid letter. Mr. Elliott asked for an investigation into the matter and admitted his neglect, but on account of his twenty years' service and the petitionings of scores of citizens the department has seen fit to order his reinstatement, which will be heard with great pleasure by his post office comrades and his many friends throughout the city.

Want Peddling By-law Enforced.

The wholesale and retail dealers of the city have asked the city authorities to enforce more strictly the transient traders' by-law. They claim that there is quite a lot of fruit peddling by persons who are not taxpayers, and who should be required to pay transient trader's fee of fifty dollars. The matter is in the hands of the city commissioner, the chief of police and the city solicitor.

Biggest Man in Parliament.

The tallest member of the new parliament will probably be found to be Douglas B. Hall, the unionist representative for the Isle of Wight, who is no less than 6 feet 5 inches in height. He is run very close, however, by Sir Randolph Baker, the new unionist for North Dorset, who is one-half inch shorter. Sir Owen Phillips, the liberal member for Pembroke, is one of three brothers—Lord St. Davids is among the number—whose average height is 6 feet 4 inches.

Granted a Divorce.

At a special term of the supreme court, held in Utica, N.Y., on 19th March, 1910, Sylvia Lillian Byan, through her attorneys, Bloodgood and Woolworth, Watertown, N.Y., was granted an absolute divorce from her husband, Jesse A. Byan, and the full custody of her only child, Grace Vivian Byan.

Mrs. Byan, whose maiden name was Sylvia Lillian Kellar, of Arlosh, Ont., was married to the defendant, on June 22nd, 1891, in Chaumont, N.Y.
