MILLING IN ONTARIO

GREAT NATIONAL INDUSTRY IS CENTRING HERE.

The Maple Leaf Company Will Have a Daily Capacity of 12,800 Barrels of Flour When the Port Colborne Mill is Added to Present Plants.

The official announcement of the organization of the Maple Leaf Milling Company, limited, indicates that Ontario is coming into its own in the milling industry. This company, by millings in the province, will have a total daily capacity almost equal to that of any of the other companies operating in Canada.

Among these Toronto interests are Cathra Mulock, and C. W. Bazil, and both D. C. Cameron, the former President of the Maple Leaf Flour Mills Company, Limited, and Hedley Shaw, who has been General Manager of the Maple Leaf Flour Mills Company, Limited, will retain their active interest in the new concern, the Board of Directors including, in addition to these four gentlemen, John I. A. Hunt, President of the Goodrich Elevator and Transit Company, Limited; Mr. Chas. Wurtele, Vice-President of the National Iron Works, Limited; John Currier, Secretary of the Maple Leaf Flour Mills Company, Limited, and Hedley Shaw, of Toronto, Managing Director of the Maple Leaf Flour Mills Company, Limited, and the Hedley Shaw Milling Company, Limited, the interests behind the new company have placed in the treasury \$1,000,000 of additional cash capital, which, besides permitting the completion of a modern 6,000-barrel mill, 1,000,000-bushel elevator at Port Colborne and the erection of some fifteen new elevators within the western wheat belt, will provide it with further working capital.

The new company will when the plant at Port Colborne is completed have a daily capacity of 12,800 barrels of flour. The mills of the company are situated at Kenora, St. Catharines, Thorold, Welland and Port Colborne (the latter in course of construction) and at Brandon, in the Province of Manitoba.

Ontario will have a particular interest in watching the results achieved by the operation of the new big plant at Port Colborne, as experts state that a mill erected at such a point will enable the new company that owns it to lay down its flour at almost every point in Canada or at the Atlantic seaboard in Canada, in Great Britain and the foreign markets of the world at a much lower rate than can be done by any other concern that has to alternate from one point in the country.

Up to the present time Montreal has been rather the headquarters of the big milling concern, but the organization of this company makes it look as though Toronto would rival the older city in still another industry by being the headquarters of the concern, the total output of which will be equal to that of any one concern in the country.

Nurses' Graduation Exercises.

The commencement exercises in connection with the Kingston General Hospital Training School are to be held in Convocation Hall on Friday evening, and the governors of the hospital are extending a general invitation to the public to attend. Dean Bidwell is to address the graduating class. W. F. Nichol, M.P., is to present his gold medal and T. F. Harrison his silver one.

On April 20th, at "Cedar Glen," the hospitable home of Mr. and Mrs. Henry Bowler, in the township of Selkirk, their youngest daughter, Pearl, was married to Arthur A. Silks, Toronto.

Muscular and Mental Fatigue

Broken Sleep and Bad Dreams Cured by a Simple Remedy.

"My sickness had so many curious symptoms that I think I shall try and describe them," writes Mrs. A. Maurer. "Muscular fatigue seemed to follow even slight exertion. I would soon feel the weakness of the muscles of the back, limbs and arms. Even the fixed position of light sewing would be sufficient to bring on tiredness. In a little while, if I picked up a book, the letters would look blurred and if I didn't drop it, headache would result. My thoughts would not flow freely—I was irritable, irrational and incoherent. At last to be getting down upon me. Finally I saw I had to give up trying to do things, and began taking raw eggs and milk, whether I had appetite or not. I also took Ferronine. I am glad now I did this. Ferronine gave me an appetite and aided digestion of my food. I could now see how my blood was being renewed and its color reddened. When my blood improved my nerves also improved, and by persistence with Ferronine, lots of food and rest, I recovered perfectly from the load of worries and sickness that made my life so miserable. I urge every ailing, weak or worried woman to use Ferronine, one or two tablets with meals."

It's a vitalizing nourishing tonic—full of the properties needed for rebuilding the body—that's what Ferronine is—try it—50c. per box, six for \$2.50, all dealers.

GRAND UNION HOTEL. 100 KING ST. W. NEW YORK CITY.

CARLINGS MALT EXTRACT.

AT THE GRAND.

"The Soul Kiss" Was Presented on Wednesday.

"The Soul Kiss" was the attraction at the Grand on Wednesday, matinee and night, and played to two good audiences. It is a musical offering in two acts and several scenes. One of the best scenes is that of the view of New York at night from the Spang building. It is a production brimful of singing and dancing, with the exploits of a young man in search of the soul kiss. The principal parts are taken by Ben Greenell, as J. Lucifer Mephisto; Robert Adams, a sculptor, the young man who takes up the search for the kiss, assisted by Mephisto, and who, by the way, turns out to be a regular "Kissin' bug"; Wat Jerome, as Sol Skersensky, "just out for pleasure," and Constance Farmer, as Suzette, a model, with about thirty more in the line-up. The dancing of Mlle. Pertina was particularly good, and several of the musical numbers called for encores.

WAS QUITE IRRITATING.

Hon. M. Sullivan Had Advised He Would Go.

This morning's Ottawa Citizen says: "Senator Michael Sullivan, of Kingston, arrived in the city Wednesday, and took his seat in the senate in the afternoon. The senator has been in poor health for some months and did not attend last session. He has improved considerably, however, and fully intended to come down before this session ended. The story published that the senator has lost his seat by failure to attend is irritating to him, and not less so to Hon. William Hart, his personal friend, who, it was alleged, was to succeed him. The senator had advised his friends last week that he would be here yesterday."

Zam-Buk in 3 Accidents.

It would seem that Zam-Buk, the famous healing balm we hear so highly spoken of everywhere, is particularly useful in the family circle. A report sent by Mrs. E. Davey, 786 Ellice Ave., Winnipeg, will illustrate this. She says: "My little boy of three, while playing, fell from a high verandah to the ground, cutting his forehead badly. Instead of calling a doctor who would undoubtedly have put in a number of stitches, I bathed the wound well, and applied Zam-Buk. The little fellow, although suffering keenly, soon had relief from his pain. In the course of three weeks, by applying Zam-Buk daily, the wound in his forehead was nicely healed. "Since then I have also used Zam-Buk for a boil which came on my cheek and which proved very painful and looked unsightly. Zam-Buk soon drew the boil to a head and it then quickly banished it. "Another time my baby was scalded on her left thigh and calf of leg with boiling water. This was a severe scald and the child suffered cruelly, screaming from pain. Directly it was done I thought to use Zam-Buk, as we had a box in the house, and spreading some on lint, I wrapped up the baby's limb. Next morning she rested much easier and I applied a fresh bandage with Zam-Buk. I kept this treatment up daily and was rewarded by seeing a great improvement each time I dressed the wound. In a very short space of time the sores were all nicely healed. "I cannot recommend this wonderful healing preparation too highly for family use. It cures such great ailments in its healing power that my house is never without a box."

B.A. Hotel Arrivals.

Conor Moshan, Toronto; Geo. Comerford, Brantford; Hogg, Toronto; J. Duggan, Elgin; T. Black, Hamilton; J. H. Douglal, Montreal; J. W. Bush, Ottawa; V. Stock, Tavistock; P. Panneton, Montreal; W. R.
