SOFT, GLOSSY HAIR.

No Dandruff.

Any man or woman who wants soft, glessy hair must be free of tlandruff which causes falling hair. Since it has become known that dandruff is a germ disease, the old hair preparations that were mostly scalp irritants, have been abandoned, and the public, barbers and doctors included, have taken to using Newbro's Herpicide, the only hair preparation that kills the dandruff germ, E. Dodd, Dickinson, N.D. says: "Herpicide not only cleanses the scalp from dandruff and prevents the hair falling out, but promotes a new growth. Herpicide keeps my hair

very glossy. Sold by leading druggists. Send 10e in stamps for sample to the Herpicide Co., Detroit, Mich. One dollar bot tles guaranteed, G. W. Mahood, speci-

Do You Feel All Tired Out? Do You Feel Dull, Listless, and Have You That All-Gone, No-Ambition, Don't Care-to-Work Feeling? If So You Have Spring Fever

BURDOCK BLOOD

Is Without a Doubt THE BEST SPRING MEDICINE

> It Has Been Used By Thousands Every Spring for Over Thirty Years as

A SPRING MEDICINE

to have our loved ones cheerful and comfortable.

Our dominant part is to give them the very best that we can make or bake. But sometimes we are tempted to save a few pennies in food and think that in so doing we are economising. But is it so? Is this the kind of economy that is wise and profitable? Is it doing our full duty to our loved ones?

Royal Household Flour

We wouldn't think of buying the lowest priced eggs in the market just for the sake of economy. We would feel that because they were cheap they would be good eggs to avoid. The low price would give us a suspicion of their freshness and quality. None of us would want to economise by buying eggs marked ten cents a dozen.

But when it comes to flour, for example, we may be tempted to buy the second best instead of the best because of the few pennies difference in price. We may think that economy in flour is different from economy in eggs. But it isn't. The principle is the same. The difference in cost between the best flour in the world and ordinary flour is so. little that in justice to our responsibility as wives and mothers we can not afford to take chances.

The one safe rule in buying flour is to buy "Royal Household" and in that way make sure of the finest quality. and absolute uniformity

From every point of view Royal Household Flour is more economical than any other. It produces more loaves to the barrel. It is richest in food value. It is more uniform. It is best for Pastry as well as Bread and yields more baked product in either bread or pastry than any other flour.

ROYAL HOUSEHOLD FLOUR furnishes more nourishment, more real food value per pound and per penny's worth than any other flour in the world.

The acme of economy in flour buying is to use only "Royal Household." Best for Bread. Best for Pastry. Most uniform. Most perfect. Best and cheapest for health and happiness of the entire family.
