Dyers and Cleaners,
36 Princess St., Kingston, Ont.

VICTIM OF DRINK NEEDS ORRINE
Drink cunningly destroys the will power, and while the drunkard wants to do what you tell him, he wants a thousand times more the drink that he says. Medical treatment is necessary. Orrine will destroy the desire for liquor, so that the drink will not be missed and restores the patient to health.

This remedy is thoroughly scientific and is so uniformly successful that it is sold with a registered guarantee to refund your money if it fails to effect a cure. Books on "How to Cure Drunkenness" free on request. The Orrine Co., 957 Orrine Building, Washington, D.C. Sold in this city by G. W. Mahood, Cor. Bagot and Princess Sts.

WM. MURRAY, Auctioneer.

Daily Whig.
MOVING DAY.
The shifting of habitations continues to be a habit among our folks, and it becomes acute about this time of year. All the vans are busy. It's hard to engage one. When May day comes what with the old tenants moving out and the new tenants moving in at their heels there will be a good deal of excitement and worry and a good many movers will "camp at sufferance on the stoop," to find next morning that some things have been lost and others bumped, scratched and otherwise damaged. They might have anticipated that if they had read Poor Richard's almanac, in which the immortal truth is told, "Three removes are as good as a fire." We shall at least hope that most of the movers will find themselves in better quarters.

EDITORIAL NOTES.
And now all join hands for a greater Kingston.
Trinity church, New York, has property valued at \$14,500,000. The total receipts of last year were \$853,230.
Principal Ellis is to be congratulated on his promotion. He has the executive ability and the teaching capacity. He will impress himself on many teachers.

PRISON FIGURES.
The average daily population of the six penitentiaries of the dominion was in 1908-9, 1,625. The total number committed and on the books were 1-765. This is a large number, but it is small when the population of the dominion is considered, says the Brantford Expositor, which has compiled the figures. It is interesting to note that of the total 1,425 are serving first terms; 232 second terms, and 65 third terms. There is one case each of 10th, 12th and 15th terms. Such prisoners might well be regarded as incorrigible. Of all the prisoners in our penitentiaries, only 66 are serving life terms. Few are in for more than seven years and the length of sentence of most of them ranges from two to five. Most of the prisoners are single. In the records but 512 appear as married and fifty-seven as widowed. There is a regrettably large percentage of young men among the convicts, about ten per cent, being under twenty years of age. Of the total, 774 are between thirty and thirty, and 447 are between thirty and forty. By occupation, 603 are laborers, while 129 are entered as farmers. Fifteen per cent, of all the convicts are illiterate, while forty per cent, admit having been intemperate in the use of intoxicants. Seventeen per cent, of the convicts claim to have been total abstainers.

HIGH COST OF LIVING.
The increased cost of living in this province, at least, must be largely attributed to the movement of so many people formerly engaged on Ontario farms to towns and cities and to the prairie farms of the Northwest, where the principal product is grain. According to Farm and Dairy, there are 63,000 fewer farmers in Ontario to-day than there were ten years ago. Those who remain have not set themselves to increase the general output of the ordinary products of the farm, so that the supply of cattle, hogs, poultry, butter, eggs, etc., has not kept pace with the growing demand, and consequently prices have continually been advancing. One would naturally think that the high prices prevalent for all the necessities of life would stimulate every farmer and every farmer's wife to increase the supply of all that can be raised on the farm. There is no better general farming land anywhere than this grand old province possesses, but our farmers have yet much to learn about the intensive methods of farming, such as exist in Great Britain, France and other European countries and as are being introduced in the irrigated plains of Alberta, and to some extent in the fruit sections of this district. There is a great opportunity open to the Ontario department of agriculture to spur on to greater effort and to increased knowledge the farmers of this province.

ABOUT THE WEATHER.
Why should it be thought banal, enquires an unknown exchange, to talk about the weather? This is one of our social fallacies. In an intelligent and serious minded society it ought to rank as a topic immediately after the foibles of our friends and the failures of our foes. Gossip, of course, is the vital fluid of social intercourse, without which we should soon return to the monosyllable and the cave. But the weather need yield place to nothing else. As a subject of grave discussion, what concerns us more nearly? Commerce, industry, and finance must watch the weather and yield to its inexorable decrees. Parties and policies may be made or unmade by it, and there is some reason for believing that national racial character is moulded by its strong hand. The tonic alterations of our climate may be the secret of the race virtues and

GIFT FOR MR. GRIEVE ENJOY YOUR MEALS
By Simply Eating a Little Pleasant Tablet After Each of Them.
A Tablet Digests A Meal—Trial Package Free.
When digestion is perfect the fluids necessary to this process come naturally to the aid of the stomach. They are of right proportion and do their work speedily and well. When indigestion and dyspepsia are prevalent, these same juices come slowly if at all, are weak and insignificant or are filled with strong acids and alkalies. When such a condition exists each meal is a hardship upon the digestive organs. The meal should strengthen the juices, but on the contrary it weakens them, so that man by the very act of eating causes conditions to arise which of themselves bring him pain and loathing for the next meal. By eating one of Stuart's Dyspepsia Tablets you mix the tablet with your saliva and it goes into your stomach a strong, vigorous fluid, many times more powerful than the natural digestive juices. These tablets are made up from natural vegetable and fruit essences and are composed from Hydrastis, Golden Seal, Lactose, Nux, Aseptic Pepsin and Jamaica Ginger. There is the formula and one grain of it will digest 3,000 grains of food in any stomach. Beside digesting the food it will give the blood the power to enrich the digestive fluids so after a time nature will take care of itself. Though you have no stomach trouble one of these tablets after each meal is a powerful assistance to nature and is an excellent habit to make. Go to any druggist and ask his opinion of Stuart's Dyspepsia Tablets. We will abide his answer if he be an honest man. They sell for 50c. per package. Send us your name and address and we will send you a trial package by mail free. Address F. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich.

A UNIFORM EXAMINATION
For the Nurses of Ontario Hospitals For Insane.
The examinations for nurses in hospitals for the insane will, this season, all be conducted at the same time. Each hospital, up to this year, has always prepared and conducted its own examinations for nurses, but this year a general board of examiners for all asylums was appointed by Hon. W. J. Hanna, provincial secretary, consisting of Dr. Bruce Smith, inspector, Dr. Forrester, London, and Dr. D. H. Young, Kingston. This board met in Toronto last week and prepared all the papers for the written examinations which will be conducted from May 10th to 14th. The oral and clinical examinations will be conducted by the board, who will visit each hospital during the week of May 16th. One can readily see the great advantages of this new system, and the benefit to the new board will be that it will give a uniform standard for all. It will mean better nursing in hospitals for the insane, and will give the nurse who has trained in a hospital for the insane a far better professional standing. The aim is to graduate nurses, proficient in ordinary branches of nursing, but specially capable of taking nervous and mental cases. It is a well deserved honor for Dr. Young, of the Rockwood staff, to be chosen one of the new board of examiners.

GANANOQUE THINGS.
What is Transpiring in the Little River Town.
Gananoque, April 29.—The boys' club, of Grace church, held their closing entertainment for the season, last evening. Rev. J. T. Ritcher gave an address on "Girls." A programme of musical and literary numbers was rendered.
Another large gathering assembled in Turner's hall, last evening, to hear the lecture on Tuberculosis and see the Ontario government's excellent exhibit. The pupils of the high school were taken through during the afternoon.
In the surrogate court of Leeds, before Judge McDonald, letters of guardianship of Mary Madeline Phillips and Thomas Lawrence Fullerton Phillips, infant children of the late Thomas Phillips, merchant tailor, of this town, have been granted to Mary Caroline Phillips, their mother.
A second manufacturing establishment has fallen into line with the precedent established by the Parmenter & Bullock company, and now the Dominion Bolt and Nut company will add a big flower bed for the purpose of adornment.
The local Children's Aid and Humane Society for the prevention of cruelty to dumb animals has appointed Constable Thomson as inspector.
The first form botany class of the high school held a picnic in Keyes' woods, west of the town, on Wednesday afternoon.
Mr. and Mrs. A. A. Welsh, Montreal, arrived yesterday, and will at once proceed with renovating the Inn to get it in readiness for the opening. Arthur LaLonde, Vancouver, B.C., spending a short time with friends in town, left yesterday to join his mother at Smith's Falls. Miss Laura Gibson, attending the Toronto Conservatory of Music, has returned to spend her vacation with her parents, Mr. and Mrs. W. J. Gibson, King street west.
Geo. Mills & Co. for girls' hats.

With the Gardeners.
The cold weather of the past few evenings is not very good for the amateur gardeners who have their stuff all planted out and are waiting anxiously for the first peep above ground of the first green head.
Caretaker of Parks Phillips has his many flower beds looking very well indeed, with tulips, and other flowers in bloom.
Kingston District.
The annual meeting of the Kingston Methodist district will be held in the Sydenham street church, on May 17th and 18th. The ministerial session will open on the 17th, at 10 a.m., and the full session, on Wednesday, at 9.30 a.m. An important public meeting will be held on Tuesday at 8 o'clock.

All The Best Makes.
And every new style in fine hats, at Campbell Bros., Kingston's foremost hat store.

On the basis of real estate assessments the public parks of New York city are worth \$1,200,000,000.
Buy your oil cloths and linoleums and carpet squares, laid free of charge, at James Reid's.
Many a man earns what you and I call luck by the sweat of his brow. Bring your shoe repairs to Johnston Brook street. Prompt service.
Many a young man is willing to marry an heiress in spite of it.
Geo. Mills & Co. for raincoats.
When the prayer is required any place is good enough to kneel.
Sometimes the cheerful giver has nothing but advice to offer.
Maypole, Dyala and Diamond Dyes, a full stock, at McLeod's drug store.
A lot of men are powerful in mouth talk, but weak in action.
Furs stored. Geo. Mills & Co.
A man who takes things as they are sometimes goes to jail.

Transplants Tendon in Leg.
Philadelphia, April 29.—Tim a boy, aged 11, one of whose legs was virtually useless through paralysis, would regain the use of his limb, was the promise to-day after Dr. Fritz Lange, the German bloodless surgery expert, performed an operation in Walter home for crippled children.
A tendon was removed from the hand; part of the boy's affected thigh and transplanted to the front. This, it is declared, will restore the motion to the limb. Because of its attendant dangers, the operation known as tendon transplanting is seldom resorted to in this country.
Campbell's \$2 and \$2.50 Derbies. Not only excel for quality and value but the styles are the acme of perfection.

LEAVING FOR WEST FOR WIFE'S HEALTH.
A Fine New Barn for the Campbell House—Death of a Prominent Resident of Newburgh.
Napanea, April 29.—On Tuesday night last W. R. Grieve was presented with an address and a suit case by the members of the I.O.O.F. lodge, No. 86, of which he is a member, on the eve of his departure for the west, owing to the illness of his wife, who has been ordered to a change of climate. Mr. and Mrs. Grieve leave on Tuesday next. Their friends in Newburgh hope the change will be all that it is hoped for in Mrs. Grieve's case. M. S. Madole's driving horse ran away last week with a load of eave troughing, near Kingford, demolishing the rig. The horse was not injured.
Work has been commenced on the erection of a new barn for the Campbell House to replace the one burned a couple of months ago. The building will be 34x100 feet and will have accommodation for about fifty horses. The walls will be constructed of cement blocks, the floor, and the roof will be finished up with steel shingles. P. Bergin has the contract for the stone work, Joy & Son for the cement work and John Wagar for the carpenter work and roofing.
Capt. "Jack" McCullough left the harbor, Monday with his schooner, Jamison. He has gone to Oswego for a load of coal for the Electric Light company.
F. Hayward, Kingston, hired a horse and buggy and tried to sell it here one day this week. He was arrested by Chief Graham and the authorities in Kingston notified. They came up and took their man back.
Mr. and Mrs. Ira Pringle arrived home last week after spending the past six months in Victoria, B.C., and Chicago, visiting their sons. J. S. Marshall is able to be sworn town after his recent serious illness.
Rev. Joseph Gandier, Mrs. Gandier and Miss Gandier, Newburgh, returned last week from a six months' stay in the golden state of California. They are much invigorated by their sojourn in the sunny west. A. V. Price, a much-respected resident of Newburgh, passed away last week after an illness of over a year. Deceased leaves a large family, all occupying prominent positions in professional life, both in the United States and Canada. Judge Price, of Kingston, is a brother. The funeral was largely attended. Rev. E. S. Smith and Rev. J. Gandier officiated.

A UNIFORM EXAMINATION
For the Nurses of Ontario Hospitals For Insane.
The examinations for nurses in hospitals for the insane will, this season, all be conducted at the same time. Each hospital, up to this year, has always prepared and conducted its own examinations for nurses, but this year a general board of examiners for all asylums was appointed by Hon. W. J. Bully Syringes the kind that last, 50c, 60c, 75c, and \$1.25, at Prouse's Drug Store, opposite St. Andrew's church.
A man doesn't necessarily see eye to eye with you because he happens to be looking in the same direction.
Geo. Mills & Co. for raincoats.
On the basis of real estate assessments the public parks of New York city are worth \$1,200,000,000.
Buy your oil cloths and linoleums and carpet squares, laid free of charge, at James Reid's.
Many a man earns what you and I call luck by the sweat of his brow. Bring your shoe repairs to Johnston Brook street. Prompt service.
Many a young man is willing to marry an heiress in spite of it.
Geo. Mills & Co. for raincoats.
When the prayer is required any place is good enough to kneel.
Sometimes the cheerful giver has nothing but advice to offer.
Maypole, Dyala and Diamond Dyes, a full stock, at McLeod's drug store.
A lot of men are powerful in mouth talk, but weak in action.
Furs stored. Geo. Mills & Co.
A man who takes things as they are sometimes goes to jail.

Transplants Tendon in Leg.
Philadelphia, April 29.—Tim a boy, aged 11, one of whose legs was virtually useless through paralysis, would regain the use of his limb, was the promise to-day after Dr. Fritz Lange, the German bloodless surgery expert, performed an operation in Walter home for crippled children.
A tendon was removed from the hand; part of the boy's affected thigh and transplanted to the front. This, it is declared, will restore the motion to the limb. Because of its attendant dangers, the operation known as tendon transplanting is seldom resorted to in this country.
Campbell's \$2 and \$2.50 Derbies. Not only excel for quality and value but the styles are the acme of perfection.
