Here, or thereabouts, we met with a terrible disaster. The train was bounding over the hills and around wood piles at the heart-rending gait of twenty-three miles an nour, when something happened. The engine separated from the cars and feeling a great load taken off its mind gam-boled and frolicked up the track ahead of us. The "gentleman" section of the crew sauntered on towards Toronto and overtook the engine coming back-a very deficult and hazardous undertaking. The engineer fieled to diagnose the case and here we had to call to our aid G. McKinnan. George found that they had been using a banana for a coupling pin Cannot be Strong and which, due to the high velocity and low speed at which we were travelling.
