

### Piles or Hemorrhoids

This Most Torturing Disease Invariably Yields to DR. CHASE'S OINTMENT.

Piles and Dr. Chase's Ointment are connected in the minds of most people because this treatment is recognized as about the only actual cure for this annoying disease.

Until you have tried Dr. Chase's Ointment you will not believe how quickly it brings relief from the nasty, itching, stinging, burning sensations. It is just as sure to make a cure if you persist in its use. Naturally and gradually the ulcers in the rectum are healed and cured and life is again made worth the living.

It doesn't matter what the cause, Dr. Chase's Ointment will bring you relief every time, and that right quickly. Put it to the test and you will be able to write just as enthusiastically a letter as this one:

Mr. James Hurley, Pockahaw, Gloucester Co., N.B., writes: "I cannot find words of praise to express my opinion of Dr. Chase's Ointment. For thirty years I was troubled with itching piles and tried all sorts of remedies, none of which gave me more than temporary relief. What other treatments have failed to do Dr. Chase's Ointment has done. It has positively cured me of itching piles."

If you can get Dr. Chase's Ointment to-day you can make this your last day of suffering from piles. Should your dealer not have Dr. Chase's Ointment in stock write to us for a free sample box, or enclose 6c. for a full size box, which will be sent post paid.

No substitute will satisfy you if you realize the merits of Dr. Chase's Ointment. For sale by all dealers or Edmondson, Bates & Co., Toronto.

### WASHING WITHOUT WATER

Is Like Trying to Get Rid of Dandruff Without Herpicide.

Did you ever see any one trying to wash themselves without soap or water?

If you did what would you say of him?

It is every bit as foolish to try to get rid of dandruff and to prevent baldness by feeding the germs which cause it, with Cantharides, Vaseline, Glycerine and similar substances which form the principal ingredients of most so-called Hair Growers.

Newbro's Herpicide is successful because it attacks and kills the parasitic germ which feeds on the hair roots.

It is the original and only genuine scalp germicide manufactured. Sold by leading druggists. Send 10c. in stamps for sample to the Herpicide Co., Detroit, Mich. One dollar bottle guaranteed. G. W. Mahood, special agent.

#### THE PRESS AT PEACE.

The friends of the late Mr. Penne must appreciate very much the kindly sentiments of those who have been called his contemporaries. The reflections of the provincial papers show how he was regarded away from home, and how his loss as a journalist and a public man has been regarded. The sympathetic tribute of the Kingston Standard indicates how he has been esteemed at home. It expresses the sentiments of a neighbor, who knew the fallen leader, who understood the public service he had rendered, who learned by personal contact to value his sterling qualities. The world is getting better. The men who mould or improve public opinion are getting wiser at any rate. They see that they can differ on public issues and not sacrifice the friendships that brighten or sweeten life. Long since the editors of this city, without resorting to any compact, entered into a new relationship the nature of which has been revealed in the sincere regard the living have exhibited for the dead.

#### A QUESTION OF MONEY.

Stratford is experimenting with pavements, and at a recent meeting of the council it was decided to lay down a surface on eleven sections, the city to pay 25 per cent. of the cost and the property owners 75 per cent., excepting at the intersections, where one-half of the cost will be borne by the city. The concrete walks (nineteen) are to be laid on a different basis, the cost being equally charged against the city and the property. It was decided to adopt a plan for future guidance, and according to it the whole outlay on the pavements and sidewalks will be charged against the properties. The mayor of Stratford considers that the city is not in a position to finance any of these improvements. Sometimes this city is reproached because it has not embarked on the paving of the streets. It is all a question of money. The smaller or newer cities which are putting on style have no compunction, it would appear, about raising the taxes. If the people of Kingston want paving they must expect to pay for it. Asphalt, bitulithic, vitrified brick, or any other kind of material used in paving, is costly, and it cannot be had for the taxes that are now collected.

#### GIPTS TO PUBLIC MEN.

An aged elector of Toronto, Alex. Nymyth, produces a letter which was written by the late William Lyon Mackenzie in 1857, to his father, with regard to the house and homestead which the people, or friends of the statesmen, proposed to purchase for him. Mackenzie was a patriot, and, in view of his extremity, having lost all in the public service, it is gratifying to read this from his pen: "Losing all as I did—struggling along as I have done—I feel grateful to those who desire to aid the homestead. I have labored almost forty years for the country; why should I object to their doing a little for me, peculiarly, at my advanced stage of life? No man can feel more pleased than I am at the course taken by my friends and I fear to take any step that meets not with their approval."

The great Mackenzie did not suspect that any one who had to do with this testimonial planned his downfall, or meant his drop in the public appreciation. It is unfortunate that any man should lose his all in the public service—it is a condition precedent which is not to be envied—and it is more unfortunate when any one, with an evil eye, should see in the relief of his admirers that which means his political degradation.

One of the strongest remarks of a contemporary, upon a testimonial recently made to a public man, was to the effect that he had been close to the public treasury for many years and should not have remained poor. What is the inference? That he should have in some way plundered the public till? One is ashamed that such a thought has been expressed in a Canadian paper.

#### A SIGN OF PEACE.

George V. has taken up his kingly duties in the most becoming spirit. In the presence of a great responsibility he recalls the declaration of his father when he ascended the throne, "that so long as there was breath in his body he would work for the good and amelioration of his subjects." And the new king desires nothing so much as the power to follow faithfully in the footsteps of Edward VII. It is a noble and patriotic purpose, fitly expressed.

A thought grows out of the meditations upon the death of his majesty. It is that he was worried a great deal over the political situation, and that his worries contributed to the burdens of the last illness. There can be no doubt that the crisis in the old land—the irreconcilable nature of the differences on which the commons and the lords clashed—was enough to make the monarch think, and with great anxieties, upon the part which he should perform.

It is suggested that the death of Edward may have a soothing effect, that during the period of mourning the political parties may have occasion to think over their plans, and perhaps revise them. The lords, the great offenders in going further to embarrass and defeat the government than the circumstances warranted, may see the wisdom of compromising, and by accepting some of the conditions upon which the commons insist. The commons, perceiving the impropriety of pressing the young king unduly, may find it convenient to change or modify its programme.

Edward VII. and distinguished the world over as the great peacemaker, must have felt that at home he had a petty war that defied his intervention. His son, George V., is willing to set out in his career as a peacemaker also. Let us hope that he will succeed, and that his first conquest will be in restoring the equilibrium which ought to prevail between parties in the British parliament.

#### EDITORIAL NOTES.

The butchers by the thousand are going out of business. They cannot handle meat profitably at the present prices.

There is money in stock raising. If beaves and pork are not plentiful next fall the farmers have not learned the lesson of the hour.

Mark Twain, it is now said, left only \$200,000. But he left a very valuable asset in his books and copyrights, and better still he left a name and a record which is better than any fortune.

The doctors, at Washington, at a recent conference, discussed the effect of smoke on the heart. There is wonderful solace in a pipe, but the people who do not smoke cannot and will not believe it.

The Grand Trunk Pacific will be an all-Canadian line, and have independent outlets at the Atlantic and Pacific oceans. Every foot of its line will traverse Canadian soil. Something to be proud of.

Ottawa has under consideration a teachers' pension fund. To be self-supporting the cost to the teachers must be pretty high, even higher than the cost of an endowment insurance.

A contribution of \$600,000 to the Y.M.C.A. in Toronto in a week. Is that not a tribute to Canadian generosity and Canadian worth? The commercial spirit has not yet got hold of the people by the throat.

Forbes Robertson has finished his season in Toronto and will now rest. He is of opinion that the spiritual plays are coming into vogue and will be more and more common in the future. The churches may then endorse the theatre, and very much to its advantage.

### A BIT OF PHOSPHORUS

HELPED CARD SHARPER TO WIN MANY GAMES.

A Touch of Phosphorus on Back of Cards He Wished to Mark Enabled Him, After a Few Deals, to Play With Certainty.

A Moscow card sharper has confessed that he has been winning money at the chief clubs for 30 years by this trick: On the pretext that his eyes were weak, he invariably wore dark spectacles at night. His favorite game was one called bank, in which the rights and nines are the most important cards. In his waistcoat pocket he kept a preparation of phosphorus and by touching the backs of cards which he wished to mark he made them slightly luminous. His dark spectacles enabled him to see the small phosphorus marks, which were invisible to the other players. After a few deals with a pack he could play with absolute certainty.

Expels the Poisons. People who suffer from Sciatica, Neuralgia and other ailments of a rheumatic nature say that if their muscles were being pulled to pieces with red hot pinners the suffering could be no greater. The nerves affected are in a state of acute inflammation due to the presence of irritant poisons in the blood. Dr. Hall's Rheumatic Cure relieves these ailments promptly and cures them permanently because it neutralizes and expels the poison from the system. It is a certain cure and relief is usually given by the first few doses. Dr. Hall's Rheumatic Cure is a great blood purifier and spring tonic. In bottles, 50c., manufactured by Jas. B. McLeod, Druggist.

Easily Solved. New York Times. A New York poet, at the Authors' Club, in Seventh avenue, told a Conan Doyle story. "Sir Arthur Conan Doyle," he said, "sat at a dinner on his last visit here; beside a lady who asked leave to consult him about some thefts. "My detective powers," he replied, "at your service, madame."

"Well," said the lady, "frequent and mysterious thefts have been occurring at my house for a long time. Thus, they disappeared last week a motor horn, a broom, a box of golf balls, a left riding boot, a dictionary, and a half-dozen tin pie plates."

"Aha," said the creator of Sherlock Holmes, "the case, madam, is quite clear. You keep a goat."

Eczema's Awful Itch. It burns, it bites, makes you scratch, sleep you cannot, because eczema is as lively at night as by day. But cure is possible. Lasting cure that comes with Dr. Hamilton's Ointment. It soothes, heals and cures you quickly. Give up experimenting and use Dr. Hamilton's Ointment, which is guaranteed for the worst cases. Sold by all druggists, 50c. per box.

Strong on Stopping. Saturday Evening Post. Joe Davern, a New York automobile man, heard Charles E. Miller, another automobile man, hiring a new chauffeur.

"Anybody can drive a car," said Mr. Miller to the applicant. "I want a man who knows when to stop."

"Mr. Miller," replied the applicant. "I used to be a parachute jumper."

Pork and Beans Regularly. The reasons why pork and beans should be used regularly are that they make a pleasant change from meat, are more nourishing and cost only a fraction of what meat costs. Clark's Pork and Beans are known everywhere, as the perfection of bean-cooking and are in great demand. Ask your grocer for Clark's Pork and Beans.

Among the special features of the May number of the Travel magazine are "The Real Story of Dr. Cook and the North Pole," "From the Palace Windows of the Mikado," "African Big Game Hunting," etc. Sketches of life in all parts of the world are abundant, and many beautiful illustrations adorn the pages.

"Cancelled Tabard Inn Library Books," on sale for 25c. each. These books are regular \$1.25 and \$1.50 books. Look them over at Gibson's Red Cross Drug Store.

The Smart Set magazine for June contains a complete novel by Baron Von Hutten, a one-act play by E. E. Shepherd and a splendid menu of short stories and clever verse. Altogether, it is a most attractive number.

"Royal Orchid Perfume." Sold in Kingston, at Gibson's Red Cross Drug Store.

Sentiment may at times be called silliness.

What Shrewd Investors Do. In seeking fields for investment shrewd investors invariably look over the records of the prosperous industrial concerns. It was a careful investigation of past records and future possibilities of the big milling concern that induced those at the back of the Maple Leaf Milling company to expand their plant and increase its capitalization to \$5,000,000.

Looking into the past records of some of the larger milling concerns one finds that their business almost doubled each year, during the past twenty years. For example, one of these large milling concerns had a daily capacity of 800 barrels in 1890. In 1910 the daily capacity had increased to 10,500 barrels. On the completion of their new mill, the Maple Leaf Milling company will have a daily capacity of 12,500 barrels and fifty elevators to store the needed grain supplies. With such an equipment the future of this milling company looks exceedingly bright.
