Gips For Farmers

BY UNCLE JOSH.

The census and statistics office, at Ottawa, has issued its May bulletin on the condition of crops and live stock for Canada.

The reports made at the end of April show that good progress had been made with spring seeding in Cutario, and the western provinces, but that in Quebec, and the maritime provinces, little more than a beginning had been made. Ontario and Alberta are in the lead with spring wheat and oats, the former with 19. 34 per cent. of the spring wheat, and 74.74 per cent, of the oats in the ground, and the latter with 97.50 the wheat and 73.13 of the oats. Ontario had also 72.94 per cent. of the barley seeded, and Alberta only 39.17 per cent. Manitoba and Saskatchewan had nearly equal proportions of the wheatland finished,-the fermer with 90.78 per cent. and the latter with 92.60 per cent.; but both were slow with oats and barley. British Columbia had a showing of 78.23 for spring wheat sown, of 81.66 for oats and 39,17 for barley.

Ontario and Alberta are the only provinces with a substantial showing of fall wheat, and whilst in the first-named the condition at the end of April was 95.47 per cent., in the second it was only \$1,66 per cent. Alberta also showed considerable loss by winter-killing and drought, the proper cent, as compared with 6.42 per cent. in Ontario. In British Columbia the loss by winter-killing was five per cent. of the area sown, and the condition at the end of April was 100. The hav and clover mendows suffer-

ed by winter-killing 12.80 per cent. in British Columbia and 11.65 per cent. in Quebec, but in all the other provinces the less was comparatively slight. The condition of these crops was good in all the provinces, rang ing from 81.55 in Quebec to 102 Prince Edward Island.

An excellent report was made for all classes of live stock, their condition for all Canada at the end of April compared with a standard be International College of Opthalmology ing 94.49 for horses, 91.09 for milch sheep and 95.10 for swine.

she belongs. Another method is to superior to all others that I have had. rate her according to her general appearance and the external indications of milking powers; appearances are sometimes deceitful. Recently a farmer near Ormstown, Que., sold five cows at 225 each, saying they were no good as cairy cows. The purchaser found to his great satisfaction, that one gave him 10,000 pounds of milk, and anothneater to the practical test, a farmer may judge his best cow to be the one quickly decrease in flow, the remembrance of that hig yield sticks in her by one isolated test for fat very likely hand, a cow that gives only a moder keep them in a healthy condition. Extraordinary Introduction Sale of Spectacles & Eyeglasses

From Factory to Face

For Six days beginning

Monday, May 16th

We will sell regular

\$3.50 and \$5.00

Gold filled Spectacles and Eyeglasses with Lenses for-

Such a startling Announcement no doubt makes you ask how we do it.

Remember this Sale will only last Six Days From Monday to Saturday inclusive.

WHAT YOU GET FOR YOUR MONEY.

A gold-filled frame perfectly fitted to your face with proper lenses by our experts, any style you desire-reading or distance glasses that will serve you for years' proportion of the area sown being 22.46 tection and rest from tired, strained eyes, freedom from headache and like pains that come from defective vision—the satisfaction that you have all this and save a nice sum

In order to serve all promptly during this wonderful sale there will be three expert opticians in attendance, Directors of the International College of Ophthalmology. Each and every customer will thus get a scientific examination of their eyes and the glasses properly adjusted.

THE REASON WE DO THIS.

We wish to introduce ourselves to the spectacle-wearing public, and have secured two hundred (200) dozen pair, all told, embracing all kinds of glasses, every style to fit all eyes and faces. These glasses are the same as are sold regularly for \$3.50 and \$5.00.

The Directors of the International College of Ophth-almology will be in attendance to insure you a first-class examination. They will use just as much care in fitting them to your eyes as though you were to pay regular price. When you come to inspect them, that's the kind you'll find them to be, and every pair will be replaced by the manufacturers should they not give entire satisfaction.
