I have in my possession a prescription for nervous debility, lack of vigor, weakened manhood, failing memory and lame back, brought on by excesses, unnatural drains, or the fillies of youth, that has cured so many worn and nervous men right in their own homes—without say additional help or medicine—that I think every man who wishes to regain his manily power and virility, quickly and quietly, should have a copy. So I have determined to send a copy of the prescription free of charge, in a plain, ordinary scaled envelope to any man who will write me for it.

This prescription comes from a physician who has made a special study of men and I am convinced it is the surest-acting combination for the ctire of deficient manhood as a manual patent medicines, secure what I believe is the quickest-acting restorative outperflying and quickly.
