

Causes 95 per cent of Diseases Advice Concerning Stomach Troubles and How to Remedy Them

Do not neglect indigestion which leads to all sorts of ills and complications. An eminent doctor once said that ninety-five per cent of all the ills of the human body have their origin in a disordered stomach.

A physician who made a specialty of stomach troubles, particularly dyspepsia, after years of study perfected the formula from which Rexall Tablets are made.

Our experience with Rexall Dyspepsia Tablets leads us to believe them to be the greatest remedy known for the relief of acute indigestion and chronic dyspepsia. Their ingredients are soothing and healing to the inflamed membrane of the stomach. They are rich in pepsin, one of the greatest digestive aids known to medicine. The relief they afford is almost immediate. Their use with persistency and regularity for a short time brings about a cessation of the pains caused by stomach disorders.

Rexall Dyspepsia Tablets will insure healthy appetite, aid digestion and promote nutrition. As evidence of our sincere faith in Rexall Dyspepsia Tablets, we ask you to try them at our risk. If they do not give you entire satisfaction, we will return you the money you paid us for them, without question or formality. They come in three sizes, prices 25 cents, 50 cents and \$1.00. Remember you can get them only at our store—The Rexall Store, J. W. Mahood.

THE WHIG, 77th YEAR.
DAILY BRITISH WHIG, published at 206-210 King Street, Kingston, Ontario, at 95 per year. Editions at 1.50 and 4 o'clock P.M.

WEEKLY BRITISH WHIG, 16 pages, published in parts on Monday and Thursday morning at \$1 a year. To United States, charge for postage had to be added, making price of Daily \$3 and of Weekly \$1.50 per year. Attached is one of the best Job Printing Offices in Canada; rapid, stylish, and cheap work; nine improved presses.

UNCLE SAM IS ANXIOUS.
The National Association of Manufacturers, (an American institution), has members who are very far-seeing, and they give evidence of this fact by recommending that the United States assist Canada in building the Georgian Bay canal. Here is a project which will cost about \$200,000,000, and our American friends say it is necessary and should be proceeded with at once.

On what condition? That the American ships use it as freely as the Canadian ships. "By building the Georgian Bay canal," says the Oswego Times, "and using the barge canal from this port to New York there will be saved not only the long sail through Lake Huron, the Detroit river and Lake Erie, but two-thirds of the distance of canal navigation necessary if cargoes go by the way of Buffalo."

Uncle Sam is a wise and discriminating person. He realizes that the Canadian North-West will, in the course of a few years, be the granary of the world. The American west, as a producer of wheat, will decrease, and the Canadian west will increase. The trade of this vast territory, the better part of the North American continent, must be had if possible. The Georgian Bay canal may have a connecting link with Lake Ontario, but the main artery will be away from Lake Ontario, and make the St. Lawrence, at or near Montreal, its outlet. The Erie canal would not be fed with it under these circumstances.

The National Association of America is not likely to see American capital put into a Canadian public enterprise. The Georgian Bay canal is bound to go on—the federal government is committed to its construction later—and simultaneously, or sooner, the deepening of the Welland and St. Lawrence canals. Canada's trade is expanding, and her transportation facilities must be improved.

HERE'S A SANE POLICY.
The International Commission on Bovine Tuberculosis is now in session in Ottawa. It is composed of representative men from several of the states, and the idea is to formulate such a policy as will eradicate bovine tuberculosis on the continent. It is a huge task, as any one can imagine who recalls the attempt that was made some years ago in the same direction, and with the result that the dairy men protested in the most vigorous fashion.

The tuberculin test was applied, and with the result that there was a heavy slaughter of some of the finest herds, including the best part of that of the Rockwood hospital. It did look at the time as if there were few milk cows that did not show the reaction, under tests, that suggested removal, and the proceeding was too radical to be pursued to a finish. The experts on bovine tuberculosis are persuaded, however, that the disease must be stamped out somehow, and the sooner the better, though the remedy is heroic in its character.

By the way, the June number of the Technical World contains an article of most unusual interest. It is headed "Get Well at Home," and contains the protest of the western people, at certain alleged health resorts, against the invasion of consumptives. "If," says the writer, "you have any of the milk of human kindness left in your body keep your white plague victims at home where they can be cured or can die in comfort. We do not want them and can do nothing with them."

The author of this plain speech describes the scenes he witnessed in Colorado, New Mexico and Texas, where he found the invalids in large numbers suffering from disease, and sufferers from the loneliness and home-sickness that kills as much as the consumption. "It is the breaking up of established habits, the tearing of life out of the very roots that is making the cheeks redder and the cough more racking," and their discomfort is added to by the fact that they are shunned, that the homes of the people are closed to them.

The duty of every province is to have a home or sanitarium for tuberculosis patients. There is no disease so widespread or fatal as consumption and no plague which is regarded with so much indifference. Ontario must some day lead in the war upon it, and pending the arousal of the government let the people imitate those of Iowa, in which the "Cheer Up Clubs" are doing great things. These have before them the plan of lifting up the discouraged, and their advice to the ailing is to stay at home, to let up on work, to consume raw eggs, and abandon worry. There it is a tonic in even talk like that. Let us have more of it.

EDITORIAL NOTES.
When one sees the building that is in progress about the city he must lament that the carpenters are still on strike. Can nothing be done to bring this labour difficulty to a close?

A correspondent of a London Weekly paper writes of Canada as "Heaven or frozen hell." Heaven it is not, and hell, frozen, it cannot be. The man who invented this phrase is altogether too lurid.

If the police officials of the leading Canadian and American cities continue their activity there will be a reduction in, if not a complete extinguishment, of the white slave traffic. The exposures recently effected in Toronto are startling.

The Lloyd-George budget, now in force, promises to yield about ten million dollars above the estimate. As a revenue raiser—and by a largely increased tax on land—it is a success. Moreover, there is not much chance of it being repealed.

For every fly killed to-day there will be 1,728,000 fewer flies in July. Arm the daughter of the household with a rolled up newspaper and set her after them. Not only is it good and useful exercise, but the calculation of July fly-savings is fine exercise in mathematics.

According to the information handed out at an actuary's dinner in New York the occupation of the individual will have more to do with his insurance risk than his family history. The medical men will not be ignored, but they will not be so much in evidence hereafter as the actuaries.

If Goldwin Smith's idea were adopted—and the Lords of England were elected by the commons—there would be an end of the deadlock. And yet it is as reasonable that this should

AT SYDENHAM CHURCH.

There was a most impressive service at Sydenham street church, on Sunday morning. The service took the form of an installation, for the members of the Bible school, teachers and officers, and was probably one of the first of its kind ever held in any of the churches of Canada. The members met in the Sunday school room, and marched into the church, in a body, occupying the front seats. There was a responsive service conducted by the pastor, Rev. C. A. Sykes, and then the members took their vows for the work.

Rev. Mr. Sykes also addressed the members on the subject, "Am I my brother's keeper?" pointing out the importance of their work. The choir rendered appropriate music, Harold Aggrove favoring with a fine solo. At Sydenham street Sunday school, there are 250 in the main school, 85 officers and teachers, 100 in the primary department, 18 in the cradle roll department and 40 in the home department a total membership of 588, T. F. Harrison is the superintendent.

A Clear Complexion.
If there appears on your face any canker, pimples, boils, blotches or other skin disease you know at once your blood is impure. Perfectly pure blood means absolutely clear complexion. You can have such blood by using Wade's Iron Tonic Pills (Laxative). This remedy cleanses and enriches the blood.

14th Regiment Historical Pamphlet.
Pamphlet History (illustrated) of the 14th Regiment, P.W.O. Rifles, on sale at Whig office, Uglow's bookstore, Malwood's drug store, College street, and Gibson's Red Cross drug store, Price 25c. Every member and ex-member of the regiment should secure a copy.

The Whig will not be issued tomorrow, Victoria Day.

Here is an opportunity for the host who desires to serve something different—and better.

PATERSON'S Cambridge Wafers

The new biscuit made from cream of wheat. Crisp, dainty and appetizing. "They really taste fine," epicures say. Your grocer sells them—in tins only.

Made by Paterson of Bradford

RETAIL MERCHANTS' CONGRESS.

Topics to be Discussed at Annual Meeting.

"This will be the place to bring all your grievances. If you are troubled with pedlars, transient traders, with prize packages or coupon schemes, with gift schemes, auction sales, catalogue house schemes or severe price cutting schemes, this will be the place to centre them all, and everything can now be taken up vigorously and expeditiously and carried to a successful issue under our changed conditions."

The above is from a letter that is being sent to most of the retail merchants in Ontario by E. M. Trowen, provincial secretary of the Retail Merchants' association of Canada, announcing the eleventh annual convention to be held in Kingston, June 21st and 22nd.

THE WHIG'S PUZZLE.
What flower? Answer on Wednesday.

Saturday's puzzle. Answer—Pendulum.

New York Excursion, June 7th.

Warts Disfigure the Hands.
But can be painlessly removed in twenty-four hours by the use of Putnam's Wart and Corn Extractor. Fifty years in use and still the best. Insist on getting "Putnam's" only.

Sir Wilfrid Laurier and Lady Laurier spent the week-end with Mrs. Falford, at Brockville.

A POSITIVE CURE FOR INDIGESTION

If you have indigestion your food ferments in the stomach and bowels. It does more; it decays, and the nutritious matter which should go to make new blood decays with it, and this leads to an impoverished condition of the blood, to nervousness, biliousness, constipation, sick headache, bad breath, which disgusts your friends and other disagreeable and unpleasant conditions.

And all this trouble is caused by the food that doesn't digest, but ferments and oftentimes rots in the stomach.

And fermentation is caused by the stomach not being strong enough and energetic enough to thoroughly mix the food with the digestive juices.

M-I-O-N-A is responsible for tens of thousands of cures. In fact, it is such a positive cure for indigestion and all stomach troubles that it is guaranteed by G. W. Mahood to cure or money back. The price of a large box of M-i-o-n-a tablets is 50c., and they are sure to promptly relieve the worst case of indigestion or gastritis. Try them.

HYOMEI
(FORWARD HIGH-O-ME)
CURES CATARRH, ASTHMA, BRONCHITIS, CROUP, COUGHS and COLDS, or money back. Sold and guaranteed by G. W. MAHOOD.

HARD TO TELL SUMMER FROM WINTER HATS NOW.
There is a queer fad his season for swathing straw hats with satin and velvet so that only a wee bit of the straw remains visible to tell the summer tale. Sometimes big straw hats have facing of velvet and entire crowns of puffed satin, the straw showing on the upper side of the brim. This charred red straw hat it faced with black velvet and the high crown is covered, except directly on top, with thick folds of black satin, tied in a big bow at one side. On the opposite side of the hat black agrettes stand upright in the popular brush fashion.

be done as that the king should overwhelm the conservative majority by a battle of liberal appointees.

The position of Queen's University, or rather its relation to the Presbyterian church, will be settled in a few days. The assembly meets in Halifax. The report of the committee, recommending separation, will probably be carried without much debate. What then?

The fact that a Masonic lodge has been formed in Toronto, with Hon. Mr. Gibson as master, is not an indication that the lieutenant-governor is carrying masonry into the public service or even into Toronto University. The Catholic Register should think better of Mr. Gibson than to suspect this for a moment.

It was as the Whig expected. The children's memorial service in St. George's cathedral, to-day, was the most impressive event of the kind. Everything was suggestive of the manner in which the school children have been affected by the death of Edward VII.

An example of newspaper work entitled to be rated as literature (and these examples are not infrequent), is afforded in description of the king's funeral, found elsewhere in this issue. The work is done by E. Phillips Oppenheim, one of the famous novelists of his generation, and is worthy of the distinguished author. He wrote the article for the "Syracuse, N.Y. Post Standard" and we have re-copied it.

LIVED THROUGH 119 YEARS.

Grandfather Fought at Siege of Limerick in 1691.

Dublin, May 23.—Centenarians in Ireland are as common as blackberries in September and the slight of one of them is hardly worth remarking, but there has just died in the Corcoran work-house a man who was a direct link with a bygone age. He was Patrick Blake, and his age was authentically attested at 119 years.

He comes of a long-lived family, for his grandfather, who lived 120 years, fought at the siege of Limerick in 1691. It is not stated what age his grandfather was in 1691, but assuming that he was at least 15 we thus have three generations covering 234 years.

RADIANT HAIR

New York Society Women's Hair Marketed only by Parisians.

While much attention is given to choicest crowns by New York society women, the turbulent fad just now is the tangle of the hair.

For many years the clever women of Paris have been famed for "the magnificent beauty of their hair." "Glorious hair," a Virginian calls it; "so radiant and luxuriant that it not only attracts but fascinates and compels unattested admiration."

But now that the elite of New York, ever anxious to improve their beauty, have learned that Parisian Sage, a remarkable and almost marvelous hair nourisher and beautifier, is almost entirely responsible for the charming hair of the ladies of France, the demand for it has become enormous.

Parisian Sage is now sold all over Canada and in Kingston by G. W. Mahood, who is glad to guarantee it to eradicate dandruff, stop falling hair and itching scalp in two weeks or money back. Large bottles, 50c.

LANSDOWNE'S MEMORIAL

To the Dead King—The Late Mrs. T. F. Heeney.

Lansdowne, May 21.—On Friday at 2:30 p.m., a large crowd gathered at the agricultural hall to take part in the memorial service to the late King Edward. The procession was headed by the Lansdowne brass band, followed by members of the different lodges, village council and school children, all wearing mourning badges. Rev. Mr. Leech conducted the service, assisted by Rev. Messrs. Kelly and Beckstedt. The service was a union one, all congregations taking part. Short addresses were given by the three ministers, hymns were sung, and prayers offered.

The funeral of the late Mrs. (Rev.) T. F. Heeney, who died at Basswood, Man., will be held from the residence of J. Herbison, to the Methodist church, at 2:30 p.m., on Saturday, May 21st. The remains will be interred in the family plot at Sand Bay. Deceased was a member of the Presbyterian church, but owing to the large number of relatives and friends, it was thought advisable to hold funeral service in the larger Methodist church.

Sunnyside Briefs.

Sunnyside, May 21.—Rev. Mr. Allum preached to a large congregation on Tuesday evening. Choires have been organized in connection with the English and Methodist churches. Mr. Reid, I.P.S., paid his second visit to the school on Wednesday last and reports satisfactory progress. School was closed on Friday and the flag floated at half-mast out of respect for the late king. A number attended the memorial service held in Maberly on Friday evening. Mrs. R. Gray is on the sick list. Empire day was well observed in the school, the afternoon being spent in some very patriotic recitations and choruses. Mrs. J. Munro has returned home after visiting friends in Smith's Falls. Miss Teena Gray, is spending a few days at Maberly. Visitors: Rev. J. Allum at R. Hawley's; S. Armstrong and sister, W. Wesley, at A. Gray's; Miss F. McKivror spent Sunday at home.

To the determined man the road to success is always open.

ANOTHER WONDER OF SCIENCE.

Hiology Has Proved That Dandruff is Caused by a Germ.

Science is doing wonders these days in medicine as well as in mechanics. Since Adam lived the human race has been troubled with dandruff, for which no hair preparation has heretofore proved a successful cure until Newbro's Herpicide was put on the market. It is a scientific preparation that kills the germ that makes dandruff or scurf by digging into the scalp to get at the root of the hair, where it seeps the vitality, causing itching scalp, falling hair and finally baldness. Without dandruff hair must grow luxuriantly. It is the only destroyer of dandruff.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. One dollar bottles guaranteed. G. W. Mahood, special agent.
