Kodakery. The art of Kodakery is at once interesting and instructive. See the Kodaks at Best's and get busy. You will take many snaps with a Kodak that would be worth many times the price of the Kodak. Kodaks \$1 to \$100; Brownies, \$1 to \$12.

Will Not Work on Holidays. Union barbers of the city held a meeting on Monday evening, when the question of working on holidays came up for discussion, and it was decided not to work on holidays. This means that if the shops are open the barbers will be only a few days having to impose a fine of \$10 on all violating the rule.

Died in General Hospital. The death occurred in the general hospital at ten o'clock, on Monday evening, of William Coventry, the four-year-old son of Frederick Coventry, King street east. Will Return to Kingston. E. F. Trimble, secretary of the Y. M.C.A., has received a letter from Mr. Farrand, the English capitalist, who was in the city, recently, and who was considering the establishment of an industry here. Mr. Farrand extended his thanks to the Kingston gentlemen, who had taken him in hand while he was in Kingston, giving him all the necessary information. He is now on his way to Port Arthur, but says that he will pay another visit to Kingston on his return east.

MISREPRESENTATION CHARGE. George Barker, of Arden, to be Tried by Judge Price. George Barker, Arden, is under arrest on a charge of wrongfully representing that he sent in a postal letter night dollars to one Coleman Clancy, of the same place. Barker pleaded not guilty and on Tuesday morning elected to be tried by the judge in chambers. He will appear before Judge Price on Thursday, June 24th.

WORK PROCEEDS SLOWLY. Bagot Street Drain Will Not be Finished for Two Weeks. The city engineer expects that it will take over two weeks longer to complete the sewer on Bagot street, close to Princess street. Blasting is slow on account of the engineer's desire to do no damage to the windows in the vicinity. If the excavation was some distance away from buildings, it would be completed in a very short time, but the workmen have to blast very cautiously. For its size, this sewer will probably be one of the most costly ever constructed. The excavation covers scarcely a block, and yet work has been proceeding about two weeks, and will continue in all probability another two weeks, if not more. Every half an hour or so, traffic past the corner is stopped till the blast goes off.

F. Maund, who has been visiting at his home in this city, returned to Haileybury, at noon, to-day. He has taken a position with the T. & N. O. railway.

Predicted Reign of George V. When Prince Was Baby. The Daily Graphic prints the following rather odd paragraph: "Alfred John Pearce wrote in July, 1867, and published in the following October in an annual which he then edited, the following opinion on the talents and destiny of Prince George of Wales, then only two years of age, now King George V.:"

"The regal sign of Aries occupied the eastern horizon at the moment of birth (namely, 1h. 18m. a.m. of June 3rd, 1866, according to the official bulletin), and Mars is in Leo, also the regal sign. The benefic Jupiter, strongly posited in his own sign, Sagittarius, was within 6 deg. of the upper meridian. Venus was in her chief dignity, the sign Taurus in the ascendant. Saturn was in the descendant, in his exaltation Libra. So that in this truly royal nativity we find three planets dignified; the glorious Jupiter, close to the midheaven; the sun and moon nearly in mutual trine (120 deg.) aspect; a royal sign ascending, and Mars and Jupiter in royal signs. From these positions we may conclude and predict that this prince will, if he live, become King of England, under the title of George V. "The prince will, in mind and taste, greatly resemble his grandfather, the good and great Prince Albert. Indeed, England will be proud of her fifth King George, and his fame shall descend to posterity as one of the best and wisest of monarchs. "The position of Jupiter pre-signifies a very prosperous and peaceful reign."
