PRINCE'S REWARD

A ROMANCE IN REAL LIFE IN PARIS.

Prince Ghika Epoused Cause of Noted Beauty When Her Big Hat Was Laughed at—Found His Way to Police Court, But Won the Lady's Hand.

Paris, June 9.—Liane De Pongy, who has been one of the Parisian professional beauties most in evidence during the past fifteen years or so, and who achieved her earliest notoriety by attempting suicide for the love of a scientist whose name was famous throughout Europe, added to her record a marriage with Prince Ghika. The bridegroom is the Roumanian who so strenuously espoused the cause of his Dulcinea when she was laughed at for wearing a huge hat that he had to answer to a charge of assault in the St. Germain police court. She has now rewarded him with her hand and heart, the gift being duly regularized by both civil and religious rites. The bride wore a wedding dress of mauve. Princess Ghika possesses many accomplishments. She plays the guitar and piano, and sings. She has written novels, in one of which she chronicled episodes of her own early career. She has played in pantomime. She owns a handsome house, gorgeously furnished, in the drawing-room of which are said to be nicknacks to the value of £200,000; tributes to her beauty.

The surprise of the election is the majority rolled up by Judge Prouty, progressive, over Congressman Huell. Prouty carried every county in the district; his unofficial majority being 3,100. Two years ago Huell was nominated by forty votes over Prouty. President Taft early in the campaign spoke in this district in support of the administration policies.

The defeat of Garret by so small a margin is held to indicate to some degree the general sentiment of the state on national affairs, despite the fact that General Carroll insisted that he was running on his state record. Two years ago Carroll was nominated over Garret by 23,000 votes. Regular republicans will control the next state convention, having a bare majority of eight of the 400 delegates chosen. The platform, it is said, may condemn the course of Senators Cummings and Dolliver.

ELECTIONS IN IOWA.

Des Moines, Ia., June 8.—With only five counties missing Governor F. B. Carroll, republican, is nominated for reelection by a majority of 706 votes over Warren C. Garret, progressive republican. The missing counties are Carroll strongholds, and probably will bring his majority up to 1,500 or 2,000.

GREAT WATERWAYS R.R.

Reported There Will Be a New Survey.

Edmonton, June 10.—The story is gaining strength here that there is to be a new survey of the A. & G. W. railway, which will carry the line twenty-five miles east of the present survey and through a better country.

The report is that the new government will not cancel the contract but will make a new agreement with stronger specifications. F. S. Darling, who made the estimate of the cost of the road for the Royal bank, is here again, and it is reported he will make an estimate on the new route.

HOOKED A BODY.

Gruesome Catch of Fishermen at Barrie Wharf.

Barrie, June 10.—While fishing in front of the wharf, Hugh Brownlee dragged to the surface the body of a man, afterwards identified as John Tomlinson, former night porter in the Parrie House. The dead man has been in a sinking since May 6th. He was a native of Wales, but beyond that nothing is known of him. It is supposed he fell in while under the influence of morphine. The dead man's face was in a splendid state of preservation, being ruddy as when he was alive.

CITY'S RICHEST UNMARRIED MAN.

St. Louis, June 10.—Woolster Lambert, son of the late Jordan W. Lambert, is considered the "best catch in town," by reason of an inheritance which accords him the distinction of being the richest unmarried man in St. Louis. Young Lambert, a student at Princeton University, is just twenty-one years old and his share of a \$12,000,000 estate has grown to a little less than \$1,000,000 in about twenty years. He has just acknowledged \$200,000 in stock of the Lambert Pharmaceutical company. He was paid \$217,000 on February 1st.

CLARK'S MEATS BETTER THAN OTHERS.

Clark's Meats are the best known meats in Canada. They have been known for forty years. They are displacing imported preserved meats everywhere, because their quality is unequalled and they have no duty to pay. The saving goes into the quality and the buyer gets the benefit. If you have never used Clark's Meats begin now as the weather grows hot and the kitchen becomes uncomfortable.

DRINKS WAY INTO NAVY.

Evansville, Ind., June 10.—John Hayes, twenty-one years old, was rejected by naval recruiting officers because he was two pounds under weight. He returned for a second inspection in ten minutes and enlisted with a couple of pounds to spare. The examining surgeon discovered that Hayes had visited a pear-by hydrant and drunk a gallon of water.

TO BUILD WORKINGMEN'S HOMES.

Toronto, June 10.—The Home Building company, of Calgary, have purchased from Robins, limited, 1,600 feet of the Ashbridge estate, and will build workingmen's homes. The amount paid was \$30,000. Building operations will commence shortly.

THE KINSHIP OF SORROW.
Work of Mark Twain That Voices Prayer.
On my way to town and my work that morning, my thought still busy with the obituary of parents to children, I began on my morning paper, which is just as much a habit and as necessary as my breakfast, and I was reading along half-mindedly when suddenly, without warning, there was a lump in my throat, and I could not see the words, says Erman J. Ridge, in the Delineator for July. It seems that I had been reading about Mark Twain's funeral—just the usual news story, written apparently without any thought of pathos on the writer's part, telling how they had laid him beside his wife, who had gone before him so many years, and his children, and I suppose I was thinking of my folks—we are all so personal, aren't we?
Knew Where There Was One.
The father of Senator Dolliver, of Iowa, says the National Monthly, was a Methodist circuit rider in the early sixties in Northern West Virginia.
One Sunday morning he was on his way to preach at one of his several appointments when he met a young fellow trudging along with a mattress on his shoulder. Mr. Dolliver, anxious to do good, at any time, stopped his horse and said: "Good morning, my son; where are you going this fine day with a mattress over your shoulder?" The young fellow answered, "I am going over here to dig out a fine big groundhog; where in thunder are you going?"
