But no statesman has made such a dramatic and tragic last appearance in Parliament as that of the great Earl of Chatham, who was carried to the House of Lords from his deathbed, haggard and emaciated, and wrapped in flannels. So Sir Hedworth Lambton, whose engagement to Lady Chelsea is announced, is known in the navy; for, although he has seen much fighting. he has escaped scathless. He joined the service as a boy of fourteen, and was present at the bombardment of Alexandria and the Battle of Tel-el-Kebir. It is in connection with the siege of Ladysmith, however, that he is especially famous, and Sir George White has described him as the "life of the garrison throughout the siege." Sir Hedworth, by the way, tells a good story of Sir George. During the war in South Africa an order was issued that all men of the Highland regiments must cover up their uni-forms, as it was thought that they made too obvious targets for the enemy. Sir George White, who knew that the order would not prove popular, thought of a way out of the diffi-culty. "Let them cover the front of their uniforms," he said; "the enemy

Lord Rothschild's Influence. A pleasing story is told apropos of the prestige of the great house of Man's delicate humor (he was so at | Rothschild and its influence in City circles of London. A young scion of a noble house was given a letter of introduction to Lord Rothschild. In this it was stated that the young man, though undoubtedly talented, had had the misfortune to be wholly thrown upon his beam-ends owing to the death of his father, who had succumbed to grief on account of his bankruptcy. The letter wound up asking Lord Rothschild to do his very utmost for a deserving case. After having read the note, Lord Rothschild took the young man by the arm, and walked with him from the Rothschilds' offices in St. Swithin's Lane, past the Bank of England, through Throgmorton street, and past the Stock Exchange, introducing him on and financiers. Then, shaking hands not going to do anything for me?" Tuesday night he drew his last child, "if you are one half as clever as I am assured you are, you yourself will know what to do." The young man was bright enough to take the hint, and not only obtained unlimited credit in the City through the prestige of the great financier's friendship, but soon made the headway which has since led to success.

Three Distinguished Brothers. Although he probably had high opes for his sons, it is doubtful if John Dewar, the Perth distiller, imagined for one moment that they would attain the high positions they at present occupy. One, Sir John, was made a baronet three years ago, Sir Thomas was knighted in 1902, and now Arthur Dewar, K.C. M.P., Solicitor-General for Scotland since 1909, has been appointed a Scottish judge. There are few more popular members of the House than Mr. Dewar, and it is interesting to note that when he first entered the field of politics as candidate for South Edinburgh in 1899 his opponent was the late Gen. Wau-chope. The contest was a sharp and exciting one, and, notwithstanding the popularity of the general, Mr. Dewar was returned with a handsome ma-

CANADA IS GETTING THEM.

U. S. Is Waking Up to the Exodus to the Dominion.

Recently a report was submitted to the Congress of the United States by Senator Dilingham, chairman of the Joint Immigration Commission, in regard to the immigration situation

Probably the most important statement made in the report is that Canada wants immigrants whose purpose is to enter agricultural pursuits either as owners, tenants or laborers, and desires to exclude those immigrants whose presence would tend to the congestion of towns and cities. Another striking feature of the re-

port is the comparison of immigration into Canada during the past decade with that into the United States. This shows that while 70 per cent. of Canada's immigrants during that period came from northern and western Europe, and only 30 per cent, from southern and eastern Europe, the reverse was true in regard to the immigrants entering the United States.

and western Europe, and unless it is the purpose of such immigrants to enter agriculturists pursuits their admission to Canada is doubtful. On the other hand, it is pointed out that effort is made, through salaried agents of the Canadian Immigration Department, aided by sub-agents to whom a bonus or commission is paid, and by means of advertising, to secure immigrants from the United Kingdom, France, Belgium, Holland, Germany, Denmark, Iceland, Finland,
