ORDERED SHOT

Revolutionists In Nicaragua In Danger

MADRIZ'S DESPATCH

HAS BEEN ISSUED AND SENT TO AMERICA.

He Wrote the Message on an Official Government Blank — Americans Who are Aiding Estrada Will be Summarily Executed if They are Captured.

New York, June 22.—All revolutionists captured by the army of President Madriz, of Nicaragua, are to be shot, according to partisans of Estrada here, who cite as proof a despatch from Julian Irujo to Madriz, Irujo is the Madriz delegate to the Atlantic coast of Nicaragua, operated to supreme control of the operations against Estrada.

The telegram, written on an official government blank and filed in San Juan de los Rios, reads: "I have sent on the San Jacinto eighty men to install a guard at Puerto Rico. I have information that at this point are several revolutionists from Bluefields. I have given orders to shoot the revolutionists who are captured by our troops."

According to Flo Bolanos, Estrada's agent here, this telegram means that Americans who are aiding Estrada will be summarily executed if they are captured by Irujo's forces.

ORANGE BLOSSOMS WASTED.

Strike on Railroad Holds Up Hundreds of Bags.

Paris, June 22.—Hundreds of bags of orange blossoms are lying awaiting transport at the railway stations along the right bank of the Var, but they cannot be sent off to their destination, the perfume-makers of Grasse, owing to the strike on the Southern railway line serving that part of France.

Over 10,000 men have ceased work as a protest against the transfer of one of their comrades to an ordinary station, and in support of their strike for an increase of wages and the establishment of an old-age pension fund.

Meanwhile the train service has been paralyzed throughout the system. No tickets are accepted for transport, and tickets are issued to passengers without a guarantee.

Raised Over \$38,000.

Ottawa, Ont., June 22.—The Orillia Presbyterian church, Monday night, held a thanksgiving service to mark the successful completion of a week's campaign undertaken to raise \$38,000 for a new Sunday school and other extensions. A total of \$38,705 was secured from 443 contributors, whose payments will be spread over five years. The contributions for the first day of the campaign totalled \$13,579, and it is expected that enough further subscriptions will be received to make the fund \$40,000 in all.

To Return to the Stage.

New York, June 22.—Margaret Illingworth's plans for her return to the stage were completed to-day, all but the engaging of her supporting company. Her husband, Edward J. Bowes, is to be her "angel" manager and companion on her tour, while Edward Ellman will have charge of the routine of the trip and the management of the company.

Unexpected Death of Princess.

Berlin, June 22.—Dispatches from Karlsruhe tell of the unexpected death there of Princess Feodora, the youngest sister of the Kaiser. The princess was thirty-six years old and was a victim of heart trouble. Owing to her death the Kaiser will probably abandon his contemplated trip to Kiel to-morrow.

Will Hold Campaign.

Galt, June 22.—The Y.M.C.A. directors, cramped for room in the present rented quarters, announce preparations for an active campaign to funds to erect a suitable building. The cost will be approximately \$25,000.

DAILY MEMORANDA.

Ottawa, June 22.—Lieut. P. G. Howe, who has been loaned by the admiralty to Canada, will take charge of the Canadian dockyards and engineering branch, and will rank next to Rear Admiral Kingsmill in the Canadian service. He is regarded as one of the most brilliant and promising of the younger naval officers, and has several medals to his credit. He will

GOOD FOR CANADA.

Cessation of Building Sends Workers Here.

New York, June 22.—Thomas Shotwell, the financial expert of the New York American, says:

Canadian railroad managers seem highly pleased at the prospect of the cessation of railroad building in the United States.

The Canadian Pacific has \$600,000,000 of new construction under way.

The Canadian Northern has \$40,000,000 of new construction to do, and will add 600 miles to its western system this year. It has let a contract for a line to the iron ore deposits of Minnesota from Duluth, and this line will also link in Winnipeg and Duluth through the Canadian Northern system. The western end of the Canadian Northern across the Rocky Mountains is also under way, and long before the Panama canal is completed the road will be operating from Duluth to Vancouver, furnishing the lowest grade railroad from the great lakes to the Pacific.

The Grand Trunk Pacific is also pushing construction from Lake Superior to the Pacific and will expend \$40,000,000 in 1910.

Laying off of thousands of men on the American roads will give the Canadian laborers they need.

The one great cry in Canada to-day is for labor. Canada will have 100,000,000 bushels more grain to harvest than ever before. She has over \$100,000,000 new railroad construction under way.

ROOSEVELT FOR GOVERNOR.

Movement Started by Oneida Republican Club.

Utica, N.Y., June 22.—"For Governor of New York, Theodore Roosevelt." That is the slogan the Republican Club, of Oneida county sounded at a special meeting, when resolutions were adopted calling upon other republican clubs in the state to get behind the Roosevelt boom.

Speeches were made by many county leaders in the party, all of whom proclaimed Mr. Roosevelt as the one man to continue the Hughes policies and to unite all factions of the party.

It was argued that the former president should sacrifice personal comfort and other ambitions to serve the state and his party in a trying time.

DARING RIDE OF GIRL.

Off With Dog on Journey of 5,420 Miles.

St. Petersburg, June 22.—A Cossack girl named Kudashoff has started on a journey from Kharbin to St. Petersburg—a distance of some 5,420 miles.

Her mount is a light gray Mongolian pony, and she is riding astride on an ordinary Cossack saddle. She carries a hunting knife and a revolver, and her only companion is a poodle dog.

The plucky horsewoman was formerly a railway employee, and during the Russo-Japanese war was awarded the gold medal "for zeal."

WAS NOT DEPORTED.

RELEASED PRISONER ONLY SHADOWED TO CAPE.

Correspondence Between Washington and Ottawa Authorities Regarding "Baldy" Wilson, Who Entered at Cape Vincent After Release From Penitentiary.

There has been some correspondence between the state department at Washington and the justice department at Ottawa, regarding the entry into the United States, at Cape Vincent, N.Y., of a released prisoner named "Baldy" Wilson, on April 1st, last. A paragraph in the Whig at that time took the attention of the United States consul, and the immigration inspector at the Cape was called upon by the department at Washington to make a report. Guard George Sullivan was on the same boat with the discharged prisoner, and it was supposed that he was deporting him, but such was not the case.

To deport a convict, without establishing his nationality and getting the necessary papers, is a violation of the agreement existing between Canada and the United States. It has been explained by the penitentiary officials here that Wilson, who was transferred here from British Columbia, was not deported. His time had expired, and he wished to return to his own country. He decided, therefore, to cross to Cape Vincent. The penitentiary is required to report as to where every released prisoner goes, and that was why the guard was sent with Wilson, who was not taken to the Cape, but went of his own desire. When he landed, the guard was able to report that he had left Canada. This information has been forwarded to the justice department, and Washington will be advised that nothing irregular was done.

The joke connected with the incident is that Guard Sullivan was held up by the immigration officer at the Cape, while the ex-convict, who was not in his custody, but only being shadowed, got off the steamer Herport unchallenged, and took a train for Watertown. What is bothering the United States authorities is that an expert burglar is at large and cannot be traced. If Wilson returns to his former habits, he will, no doubt, some time be landed by the police.

Brilliant Officer for Navy.

MOUNTAIN ON THUMP.

Villagers See Destruction of Their Homes Ahead.

Geneva, June 22.—The Rossberg, a mountain of 5,150 feet, is again in movement on the eastern side, threatening with destruction nearly a score of villages and hamlets. Already large tracts of pine and oak forests have been swept away, as well as several farms. The authorities have ordered the evacuation of three hamlets. Springs have disappeared and the torrent which descends the east side of the Rossberg has been diverted, and is doing much damage.

Sentinel with rifle to give prompt notice, have been stationed at the most dangerous points, and are watching day and night, while gangs of villagers and workmen are working hard digging canals and building earthworks. The mountain began to move after the recent earthquake in Switzerland.

In 1806 part of this mountain fell and killed 500 people.

PRIZE LIST ISSUED

COMMANDANT CROWE GAVE SATISFACTORY REPORT.

B. S. M. E. O. Wheeler Awarded Sword of Honor—The Commissions and Diplomas—The Report of the Commandant.

The report of the commandant of the Royal Military College, Col. Crowe, as presented, at the closing proceedings, on Wednesday afternoon, is as follows:

"I have the honor to submit the following report on the Royal Military College for the year 1909-1910. During the past year, there has been one change in the staff of the college. Major Mozley has been succeeded by Capt. Hammond, of the Royal Engineers, as instructor in military engineering; Major T. B. Wood, R.A., and Capt. Robertson, R.E., both of the army, have been reported, and one cadet has been sent home, on the recommendation of the medical officer, but will return next term. Twenty-five cadets are now leaving the college, having completed the full course.

"The number of candidates who have presented themselves at the entrance examinations, for admission in September next, is sixty, and two additional candidates who did not sit the entrance examinations have applied on the strength of matriculation at universities. Of the sixty who competed for admission, forty-three have satisfied the examiners, and the quality of the work is reported to be above the average. Owing to lack of accommodation, this number cannot be admitted.

"The conduct and discipline of the cadets, during the year, has been very good.

"The results of the yearly examinations are satisfactory. A certain number of the recruit class are required to repeat the first year's course, partly owing to inadequate preparation prior to admission, and partly for lack of sufficient application to their work. It is essential that before a cadet starts on the work of the second year, he should be thoroughly well-grounded, and there is no doubt that the repetition of the first year's course, ensuring a good basis on which to build, is time well spent.

"The senior class have all graduated. Owing to the unfortunate illness of the French professor, towards the end of the term, the cadets were placed at a disadvantage in that subject, but arrangements have been made to prevent the individuals suffering, through no fault of their own, from the disadvantage. The French cadets, having been inspected by Gen. Sir John French and representatives of Australia and South Africa, both at drill and gymnastics, in addition to which public performances were given at Ottawa. On all occasions, they acquitted themselves in a thoroughly satisfactory manner. Owing to the lack of a covered riding school, and the difficulties which have existed with regard to horses and riding establishment, there is room for improvement in equestrian. With the advent of the necessary horses and the instructional personnel, on the spot, the horsemanship of the cadets will be raised to a very different standard, provided that the personnel possess the necessary qualifications.

"The college has more than held its own in the matter of games and outdoor sports during the past year, carrying off the intercollegiate football and lawn tennis, and being in the finale of the intercollegiate hockey. The squash racquet courts, for which the college is indebted to private subscription, have been completed, and provide the means for healthy recreation through only a limited number, during the winter months. The need for a covered drill shed, which can also be used as a rink has been recognized, and it is hoped that this work, may be carried out before next winter.

"As has been previously reported, we are urgently in need of extra accommodation. As pointed out above, we are forced to reject candidates who are in every way qualified for admission, owing to the want of space, and it is only by crowding in an undesirable manner, that we can admit the number we now have in residence.

"We hold that the men who have graduated here, and have successfully passed through our course, are an invaluable asset to the country, whatever their future calling, and that their number should not be limited by the want of quarters in which to house them.

"This year, for the first time, every graduate who is not entering the imperial service, or a permanent force, takes a commission in the active militia, which is a commendable step towards the expansion of the British Empire."

IS READY TO LEAD

PLANS TO RESIGN AS GOVERNOR IF RE-ELECTED.

Latter Said to Favor Folk of Missouri for Presidential Nomination—Leaders are Assembled at Cincinnati.

Cincinnati, June 22.—Governor Harman will resign from the office of chief executive of the Buckeye state within a very few months after the next election day, providing, of course, that he is re-elected.

This statement came in many different forms from prominent democratic leaders of the state who are here to attend the convention.

These men say that Governor Harman is possessed with the idea that he is to be the next democratic presidential candidate and that he will have to make a strong fight to defeat the plan of William Jennings Bryan, who is said to favor the candidacy of Joseph W. Folk, of Missouri.

Harman will resign to take up the work of forwarding his boom for the presidency, and will leave the governorship to his lieutenant-governor.

It is learned that the democratic state leaders have settled upon William S. Thomas, Springfield, as their candidate for lieutenant-governor, and he is known to be quite favorable to Governor Harman.
