### Horses Ran Away After Seeing An Auto

## FELL ON MACHINE

### AND RECEIVED INJURIES THAT LED TO DEATH.

Charles H. Dunwoodie, the Victim, Lived Near to Napanee—He Was About Sixty-five Years of Age and Was a Bachelor.

Napanee, June 28.—On Saturday last a distressing accident occurred with fatal results, Charles H. Dunwoodie, who lives about a mile west of Napanee, was lording high in the field, when the horse became frightened at a passing automobile and ran away, throwing Mr. Dunwoodie, from the load. He alighted on the hay wagon, injuring himself so badly that he died a few hours later.

Deceased was about sixty-five years of age and unmarried. He leaves several brothers, William, on the farm, Archibald in Napanee, and one sister living with him on the homestead.

## PUT OFF WEDDING.

### Couple Get \$85,000 For Obeying Request of Parents.

Chicago, June 28.—Because they delayed their wedding two years as requested by their parents, a nest egg of \$10,000 in real cash and real estate and a \$75,000 opera house in Moline, Ill., was the wedding present given to Miss Freda Brown of Washington Heights and Charles Roy King of Astorport, Iowa, who were married Wednesday evening.

Mr. King is the daughter of W. H. Brown, of 10224 Longwood avenue, and is twenty years old. Her husband is the son of Charles King, of business man of Havensport. He is twenty-two years old. They were not told what their presents were to be until after the wedding.

The couple have left for Colorado Springs, Colo., for a month's stay.

## THEATRICAL-WAR ENDED?

### Rumored Independent Houses Are Open to Syndicate.

New York, June 28.—The war that has been raging in the theatrical world is about to come to an end. In fact, there was an exceedingly definite rumor current that the end had already come and that an agreement had been reached whereby Klaw & Erlanger would permit a syndicate of producers to book the attractions in independent theatres in all towns as do not have syndicate houses.

One syndicate manager, Henry W. Savage, made a definite statement that he would book his attractions in both syndicate and independent houses.

## SEEKS HIS SEAT.

### Congressman Ames Launches Own Candidacy.

Washington, June 28.—Representative Butler Ames of Massachusetts has publicly announced his candidacy for the United States senate in a formal statement embodying an exceptionally bitter attack upon Senator Henry Cabot Lodge. Mr. Ames in his statement says he becomes a candidate after having failed to induce any one else to "take up the fight against Boss Lodge" and his political machine.

## LEFT \$17,000,000.

### Will of E. P. Wilbur, Thousand Islands, Read.

Bethlehem, Pa., June 28.—Under the will of the late Eliza P. Wilbur, financier and once president of the Lehigh Valley railroad, an estate of \$17,000,000 is bequeathed to his family. So far as is known, there was no gift to a public or charitable institution.

Mr. Wilbur was well known at the Thousand Islands, keeping up a summer home at Sport Island, where he died.

## Eligible for Release.

### Washington, June 28.—Colonel J. F. Gaynor and Captain Benjamin D. Green, who are serving sentences at the Federal prison, Atlanta, Ga., will be eligible for release under the parole law when it is signed by President Taft, both having served more than half their sentence. The measure allows the parole of such prisoners as have served one-third their time and have good records.

Gaynor and Green were convicted January 24, 1908, of conspiracy to rob the government through contracts at Savannah and each sentenced to four years and to pay a fine of \$575,000.

It is said there are 2,500 convicts in Federal penitentiaries and State prisons and 250 of them will be affected by the law.

## IS IT FAIR?

To-day men living in 500 houses assessed at over \$1,000 the water rates. It costs \$9 per year per consumer, and many hundreds are paying for water only \$2 per year. Now some aldermen want these burden-bearers to flush new closets in houses assessed at \$1,000 and under.

In some houses of this class live men of wealth and men who receive high wages. Is the scheme a fair one?

## TARVIA PAVING

### ROAD MAKING PROCESS SIMPLE AND DURABLE.

Samples Being Constructed to Show Advantages—Has All the Improvements of Other Processes With Less of Their Objections.

St. Thomas Journal.

Owing to the fact that the majority of St. Thomas streets are paved with macadam, considerable interest is being evinced in the sample of tarvia dressing on the lane in the rear of the city hall, and numerous enquiries are being made as to the method of application.

The roadbed is excavated and crushed rock laid in two courses, the lower of stone between two and one-half and one and one-quarter inch, to a depth of five inches, two inches below the finished grade. This is thoroughly rolled with a steam roller. A thin layer of sand, two cubic yards to each 100 square yards is spread, and Tarvia heated above 250 degrees Fahrenheit is spread over, one gallon to the square yard. A second course of stone two inches in depth is spread and rolled and a similar layer of Tarvia spread one and one-quarter gallons to the square yard. This is topped with clean crushed stone, rolled firmly, and the street is then swept free from any particles not held by the Tarvia. A third coat of Tarvia, one-half gallon to the square yard, is spread and covered at once with sharp coarse sand, rolled until compact.

## AN AWFUL PLAGUE

### SOUTHERN RUSSIA STANDS AGHAST BEFORE IT.

### 6,000 Persons Stricken—Physicians Are in a Panic—Frost Alone Can Check the Awful Havoc—Future is Dark.

Odesa, June 28.—With between 5,000 and 6,000 persons already stricken, forty per cent. of the cases proving fatal and the scourge sweeping over the land like wildfire, southern Russia, today is confronted by a cholera plague that rivals in horror the frightful visitations that periodically decimated Europe centuries ago.

Physicians themselves are in a panic. Overwhelmed with the calls on them, hundreds have succumbed to overwork, and the disease itself in the cities in the southern district.

Frost alone can save the country from semi-depopulation as the result of deaths and exodus from fright, declare the health authorities, and frost, under normal conditions, is months away.

General demoralization makes accurate statistics as to the spread of the disease impossible. About 1,800 fresh cases were reported last week, and these, the authorities declare, can be but a fraction of the real total.

## HAVE FALLING OUT.

### One Italian Shoots Another and Steals \$50.

St. John, N.B., June 28.—Andrew Rossa, an Italian, was arrested at Welsford, thirty miles from St. John, as he attempted to board the train for Boston, on the charge of shooting with intent to kill Diego Seracuso, a fellow countryman in the latter's store on North street, this city, on Saturday night.

Rossa is also charged with stealing fifty dollars from the till. Seracuso is in the hospital with a gaping wound in the back of his head and is not expected to recover.

The crime was discovered on Sunday afternoon when the store was forced open by the police. Seracuso was found lying unconscious on his bed in a pool of blood. Rossa, when arrested, made a rambling statement to the effect that Seracuso and himself had both been paying attention to Mrs. John Grigor, a married woman, eighteen years of age, who resides in the adjoining house, and that because Seracuso was regarded with most favor he shot him. The prisoner was brought to St. John at nine o'clock this morning, and he took the police three miles outside the city on the marsh road to a spot where he had thrown the revolver with which he did the shooting.

One chamber was found to be discharged. His preliminary hearing takes place this afternoon. Mrs. Grigor, when interviewed, said she had not given either Italian cause for jealousy. She knew both as acquaintances. Her husband lives in Boston, and she resides with her mother.

## GAVE POISON TO SISTER.

### Girl Died in Agony From Carbolic Acid.

St. Germain de Grantham, Que., June 28.—Coroner Larue held an inquest into the death of Yvette Lambert, aged five, who died of carbolic acid poisoning. The child and her brother, aged six, were alone in the house when the boy discovered a bottle of carbolic acid, and poured it into a glass, and after diluting it with water and adding some sugar, gave it to his sister to drink. The girl died half an hour later in agony.

## Foe of Tuberculosis.

### London, June 28.—Dr. Jacques Berillon the French scientist believes that there is a close connection between alcohol and tuberculosis and that the most important factor that favors the development of tuberculosis in France is the alcohol in beer and spirits.

The foe of tuberculosis, he declares, is wine. In the twenty-eight departments which form the northern part of France, and in which cider, beer and spirits are standard drinks the deaths caused by consumption were 239 per 100,000 inhabitants in 1906, while in the other departments where wine is the favorite drink the proportion was 140.

After the age of 30, he says, consumption is two or three times more frequent among men than women, undoubtedly because the drinking of alcohol is more common with the former than with the latter.

## Mrs. Lavender Gets \$4,000.

Chicago, June 28.—Mrs. Mary A. Lavender, who sued the Rev. P. D. Crawford, pastor of the Woodlawn Methodist Episcopal church, for \$31,000, charging slander, was awarded \$4,000 by a jury which returned its verdict in Judge Magner's court today.

Preston leaves today, for a month's trip through the west. He will visit Winnipeg, Saskatoon, Edmonton and other cities.

## BEACH PROFITS BY LAW.

### \$5,000 a Day for Six Days of Married Life.

Kingston, N.Y., June 28.—Five thousand dollars a month for each day of his married life is the amount, it is claimed, that will be received by the New York law by which a will made by a spinster or widow is invalidated by her marriage.

Mr. Beach married on May 31st last Mrs. Mary H. Krom, a Kingston widow. From her former husband, Captain John H. Krom, she had inherited over \$300,000. He died in April, 1908, and his estate was not settled until October. Mrs. Krom then made a will leaving the entire estate to the children of Krom by his first wife.

TO PLACE BLOCK.

Ottawa, June 28.—Sir Sandford Fleming has received word from the premier of New Zealand that that country will place a granite block in the Memorial tower at Halifax.

## Tea Contained No Poison.

Brookville, June 28.—After being in jail nearly three weeks on remand, Charles Landon, charged with adulterating the tea of his employer, Thos. Sheridan, has been admitted to bail until the 30th inst. The report has been received from the provincial analyst, to whom was sent a sample of the liquid, that the nature of it has not been disclosed, but it is understood that he found no traces of poison.

The different cities to be covered along the route are Edinburgh, Glasgow, Manchester, Bristol, Exeter and Brighton. The time set is the second week in July. Whoever covers the entire distance in the shortest time will win the big prize.

## May Prove a Failure.

Berlin, June 28.—Count Zeppelin's great airship, which left yesterday, has been held up for three days by the weather, and there is a growing feeling here that the whole scheme will prove a gigantic failure. Prospective passengers are becoming disgruntled.

## An Accident to Aviator.

Bucharest, June 28.—While making a flight yesterday afternoon, Gaillone, a French aviator, fell 500 feet. He escaped death by falling in a lake. One of his legs was broken and his aeroplane was wrecked.

## Voted for Dirigibles.

Rome, June 28.—The Chamber, yesterday, unexpectedly, voted the expenditure of 10,000,000 lire, (about \$1,100,000) for dirigible balloons. The academy and the republicans opposed the proposal. They deplored increased army expenditure as useless waste being practically impossible. They advocated disarmament. The discussion arose during the absence of the minister of war. He was summoned from the senate and made an eloquent appeal to the country's honor. The vote was then passed by a majority of 200.

## Saved Man's Life.

Belleville, N.J., June 28.—Falling 1,000 feet from a balloon and clinging to a parachute which failed to open properly, G. Taylor, twenty-one years old, an aeronaut of Philadelphia, was seriously, if not fatally, injured at Hillside Park yesterday. The parachute opened slightly when within a hundred feet of the ground and this saved the man from instant death.

### OWING TO LOSS POSSIBLY OF PENSION RIGHTS

### Night Letter Messages for the United States Will Only be Accepted When Written in English—Foreign Languages Have Tendency to Delay Work.

Montreal, June 28.—The representatives of the Grand Trunk trainmen are now in negotiations with the officials with respect to the demand for increased wages. The G.T.R. men will not take any action. Sir Thomas Shaughnessy told the men the G.P.R. would stand by the conciliation board awards although the railroad thought the increase too large. It is not believed there will be any strike.

The men are said to be afraid of losing their pension rights to go on strike. Enquiry respecting the complaint, made in the city council, against the telegraph companies of discriminating against the French language in refusing to accept night letter messages in that language, elicits the fact that the determination only to accept messages in English was first imposed by the Western Union and Postal companies in the United States, which started the service. These companies will not take letter messages in French or the Canadian companies.

Discrimination in the states was not so much against the French as the German language. It is urged that English is the better understood in both countries by operators and foreign languages have a tendency to delay work. The companies say they will have to stick to the rule, although it gives an appearance of discrimination which is not intended.

A. G. Hubbard, a Boston amateur millionaire aeronaut, will sail a monoplane, of his own design, for the first time at Aviation Park this afternoon. He built somewhat on the lines of the Blériot machine. Cromwell Dixon's dirigible balloon, which exploded yesterday, was found, this morning, five miles from the park. The motor was all right, but the gas bag was a wreck and cannot be used again. The damage is about \$1,000. Dixon comes from Ohio.

## HANGED FOR CRIME.

### A Nationalist Student Answers For Assassination.

Cairo, Egypt, June 28.—Ibrahim Wadani, a nationalist student, whose assassination, early in the year of Premier Boutros Pasha called for a Premier denunciation at the hands of Col. Theodore Roosevelt, when the latter spoke before the students of the University of Egypt, was hanged here today, for his crime. The execution occasioned intense excitement. The government made ample provision and sent a detachment of the army to maintain order. The nationalists are holding meetings throughout the city, and are for the cause of Egyptian liberty were Wadani's last words.

## CLAIMS HER SHARE.

### A Boston Girl Says She's "Lucky's" Daughter.

Boston, Mass., June 28.—Accompanied by her mother, Mrs. Lillian A. Turnbull, Miss Beatrice Anita Baldwin Turnbull, a sixteen-year-old school girl, will leave for Los Angeles, Saturday, to start a legal battle for a share of the \$11,000,000 estate left by "Lucky" Baldwin, the late man. Miss Turnbull, according to her attorney, claims to be the daughter of Baldwin. She was born December 7th, 1893, in Los Angeles, where her mother, then Lillian Ashby, was living as the wife of Baldwin.

## HURRY ON SCHEME

### DEPUTATION WANTS THE BHEAK WATER COMPLETED

So That Port Arthur Shipbuilding Company Can Get to Work—An Appeal is Pending in the Supreme Court.

Ottawa, June 28.—Port Arthur has sent a deputation to this city to hurry along the government toward the completion of the breakwater, there completion may begin operations on its new yard.

Judge Cassels, this morning, refused to hear an application of the city of Ottawa to disobey an order of the railway commission and on its own instead of the outlying stations as at present. The company appealed the supreme court from the commission's order and, owing to a technicality, the appeal is pending there. In view of this Judge Cassels declined to interfere.

The town of Fort Frances will go to the railway commission with an appeal against the Minnesota and Ontario company being allowed to export power across the border. The claim is that an agreement and statute have been violated.

Mrs. Thompson, daughter of Sir James Whitney, is very low at the premier's house in St. George street, Toronto. She is suffering from widespread tuberculosis.

## DO NOT DENY IT.

### The Union and Royal Banks May Splice.

Montreal, June 28.—Officials of the Royal Bank of Canada, in this city, preferred not to discuss the report, from Halifax, to the effect that negotiations were in progress for the amalgamation of the Union Bank of Halifax and the Royal Bank. They do not explicitly deny the report. Numerous assumptions might be arrived at, but it is quite evident that if a deal is on between the two banks it has not reached the stage where a public announcement can be made.

The Union Bank of Halifax, of which William Robertson is president, is capitalized at \$3,000,000 of which \$1,500,000 is paid up, and has a reserve of \$1,500,000. The net earnings for the last fiscal year were 14.30 per cent. E. L. Thorne is general manager of the bank.

## SHE TOOK POISON.

### And Ended Her Life as a Result—Took Carbolic Acid.

Troquois, Ont., June 28.—Mrs. Hugh Collison, of Dickson's Corners, Dunlop county, a village, a few miles north from Troquois, poisoned herself Sunday morning, by taking a dose of strychnine. It seems her husband had the strychnine in the house to poison rats and while he was out at the barn Mrs. Collison took the poison. The neighbors were called in but the woman never regained consciousness and she could get there. Dr. Harkness thought it was such a clear case of suicide that an investigation was unnecessary. Mrs. Collison had threatened several times to take her own life. She was a daughter of William Thompson, of Dickson's Corners.

## HOW IT CAME OUT.

Ottawa, June 28.—The first suspicion of Gouldthrite arose from a fancy \$1,800 fence he put around his property. Then he gave pink tea and people commenced to talk. "Faithful" talked about lack of patronage and then came the enquete. It is said that flour was supplied to treat people and charged for as paste.

## AN ECHO OF '07.

On Thursday the Whig will publish a cut from a photograph taken on July 1st, 1867, of the market square, showing a crowd of people and citizens present at the reading of the official notice proclaiming the confederation of the Canadian provinces. With the cut will be an article on Dominion Day in Kingston, written by one who was present at the proceedings.
