NO ENTRY YET MADE

OF DARK HORSE IN THE GEORGE CUP YACHT RACES.

The Kathleen Will Again be Sailed by the Veteran Henry Cunningham—The Kingston Yacht Club Puts up \$500 Additional for Next Week's Races.

The Kingston yachtsmen have heard nothing as to the entry of a Herreshoff twenty-footer by the yacht club of Tremont, N. Y., in the George cup races here next week. No application has been made. The entrance of a dark horse would be welcomed, however, if it comes within the rules of the cup contest. The Jarvis boat, Swamin, has been finally selected as the representative of the Royal Canadian Yacht Club, Toronto. It is said that young "Bill" Jarvis will sail it, but there is no doubt that his famous dad, Asmus Jarvis, will handle the tiller for at least one of the races, for the Toronto club is very anxious to capture the George cup.

Kingston's veteran yachtsman, Henry Cunningham, will again sail the Kathleen, which he steered to victory last July against the Crescent, of Watertown, and the Whirl, of Toronto. Skipper Cunningham said that the Whirl was a faster boat than the Kathleen, but all the same he beat her twice. The Kathleen will be in much better shape than she was last year, and the local yachtsmen look to the veteran to again carry her over the line ahead of the others.

There will be over \$1,000 in prizes for the races next week. Of this amount, the Kingston club is putting up \$500.

City League Executive. The meeting of the City League Baseball executive, which was to have met in the College Inn Ugar Store, last night, was postponed until this evening.

CHANGE IN GULF STREAM. Boston, July 13.—Captain Jensen and other officers of the United Fruit Company's steamer Admiral Farragut, which has arrived from Jamaica, are inclined to think that one of the reasons for the extreme weather at the present time is the change of the Gulf stream and the unusual northward course of that wonderful current in the Atlantic ocean.

Captain Jensen says the Gulf stream is flowing northward to a point within fifty miles of the Nankeetok.

South Shoal lightship and that all the indications of the Gulf stream current are visible at nearly all times. He says the flying fish are flying further northward than he ever saw them fly before.

PLANS TO AID CLAYTON. Improvements for Islands to be Centred There. Watertown, N.Y., July 13.—Clayton is in line for many improvements to be made by the New York Central R.R. in the near future if things materialize as the company anticipates. Some months ago, pieces of land were purchased at Clayton, for the work. Blue prints have been prepared and if the proposed features go through, the river town will be made all that it should be as the entrance way to the Thousand Islands. The high officials of the New York Central regard the islands as a resort which should be given every advantage of modern civilization and are prepared to stand the expense of improvements to the depot, the dock, etc., at Clayton to the extent of thousands of dollars. In return they want the hotel keepers to become a part in boosting the river region and in taking part in a more thorough publicity bureau.

Port Huron, Mich., July 13.—Held captive for five months, in a Chicago resort, Felice Moyson, a prepossessing young woman of 22 years, passed through Port Huron, last night, on her way home to Montreal from where she was taken by a strange woman for alleged immoral purposes. The girl was in charge of Inspector Plumber, Chicago. Miss Moyson was it is claimed a prisoner in one room of the house, her clothes being taken from her by a woman guard. However she refused to compromise herself. She was unable to speak a word of English and not until she told her story to a mass of her own nationality one night, were steps taken for her release. There Are Only 287 Men Receiving Strike Pay—The Transfer of Property to the Steel Company of Canada.

Montreal, July 13.—The transfer of the Dominion Wire company to the Steel company, Canada, was made today thus rounding out the Hamilton steel merger. This is the last company included in the plans to come in. The plant at Lachine alone is estimated at \$17,000,000 and it employs 350 men. There was some trouble about the terms and finally it is stated a straight purchase was effected.

The striking bricklayers and masons claim that only 287 men, out of the 1,500 who went on strike, are now drawing strike pay. Over 900 are at work again, their employers having signed the Union agreement while over 190 have been sent away to work outside the city. 130 contractors have signed the agreement demanded by the men.

New Form of Oath Not Liked. London, July 13.—Preaching in Perth, Rev. Robert Johnston, Montreal, referring to the king's declaration, said that Canada would heartily sympathize with the protest of the Scotch churches against the proposed new form. It was wholly misinterpreting the agitation to substitute for a denial of Roman Catholic doctrine a declaration asserting allegiance to one particular denomination of the Protestant church.

France Adopts Standard Time. Paris, July 13.—The cabinet has decided to submit a bill for the adoption of western time in France. During the old days of enmity toward England, the French steadily refused to accept standard time, maintaining the solar time in Paris, which is also more slowest. The confusion resulting, especially in telephone communications with England, as well as the change in Franco-English relations, is responsible for the decision.
