G. T. R. STRIKE

Threats Are Made By Strike Leaders

CUT OFF CONCESSIONS

WHAT VICE-PRESIDENT MURDOCK HAS TO SAY.

A Railway Commissioner Thinks the Law Should be Amended so That Compulsory Arbitration Can be Imposed—Latest News From All Quarters.

Montreal, July 29.—If the next twenty-four hours do not bring a settlement of the demands of the G. T. R. in charge of the Grand Trunk strike, the strikers are going to force the fighting, and make their first real aggressive movement.

This is the intimation given out this morning by Vice-President Murdock of the G. T. R. in charge of the strike in this district, and that the drastic measures to be introduced within the next few days will make things more than ever uncomfortable for the company, the strike leader was quite emphatic in declaring.

As outlined briefly by Mr. Murdock the early portion of the aggressive campaign which the strikers will make to advance their demands at the points of connection between the Grand Trunk and other railways, and will include the withdrawal of every concession, no matter how small which the strikers have made since the walk-out took place.

Hon. M. E. Bernier of the railway commission was here yesterday, and said that he did not expect that the commission would have anything to do with the settlement of the strike. It could not act unless complaints were made to it that the Grand Trunk was not handling its business properly. In an interview he stated that in his opinion there ought to be some alteration in the law providing for compulsory arbitration in a case of this kind, and added there should be a provision compelling the disputants to accept the finding of an arbitration board.

Merchants are Hard Hit.

Toronto, July 29.—The latest addition to the already large army that is trying to restore peace between G. T. R. and its men is the Retail Merchants' Association of Canada.

E. M. Trower, dominion secretary of the association, has written to Mr. Hays, pointing out that the men on strike are customers of the retail merchants, consequently the strike is materially affecting their sales financially.

"Many of the strikers are unable to pay their accounts. Also, those who require credit, and who have dealt with us for years, we feel under a moral obligation to assist, especially when they have families. It is the largest number of customers we have, as most of our freight and express is directly forwarded to retail merchants all over Canada, and we therefore pay you a very large sum of money every year. The majority of the commercial travellers, who also travel on your road, travel on our lines, and if your business is injured, your business is also injured, as well as the travellers and every one in connection with us."

The writer says that the main object of the request of his association is to see if something can be done to arrive at a speedy and amicable settlement.

"If you are not making sufficient profit to run your road right, why should you be compelled to work and operate your road at a loss, any more than any other business should be conducted at a loss? Or why should the men work for less than it costs them to live? In our opinion, if you

employees' demands are reasonable, and your claim is true that you are not receiving profit enough, I am certain that the entire retail community will support you if you require more profit, and if you put it on the business way of settling the matter," says Mr. Trower.

In conclusion, it is assumed by the writer that neither the Grand Trunk nor the men are approaching the matter in the right way.

A Car on Fire.

Ottawa, July 29.—At Valleyfield, last night, some one set fire to the interior of a G. T. R. box car. Reports to Superintendent Donaldson state that the station agent was awakened by the fire at night, and that he and the Valleyfield chief of police, on investigating, found the car on fire. The inside was rather badly burned. In one corner was found a quantity of axle waste, which had been placed there, and four of the car axle boxes, where the waste and oil had been taken from, were found open. No arrests have been made.

At Central station, here, late last night, some one placed a torpedo on the track. When a car passed over it exploded and part of it struck a lady's dress, but did no harm.

Second Hudson Bay Railway.

Prince Albert, Sask., July 29.—A demand for a second railway to Hudson Bay was made upon the premier here. The railway for whose construction a delegation east of the mouth of the Saskatchewan river. Prince Albert designs another road to run from here to Fort Churchill. It is claimed that this road would avoid the muskeg from the west, and be encountered on the which would be encountered on the Pacific company is now locating a line to Churchill.

The demand was voiced by the board of trade here through its president, ex-Judge McGuire.

Domestic Partially Paralyzed.

Victoria Harbor, July 29.—During a very severe thunderstorm yesterday, lightning struck the Maids' Residence at Minnieoganahe, shattering mirrors and doing other damage. One domestic had her clothes burnt, and was temporarily paralyzed in the lower limbs. Several others were howled over. Guests in the hotel were frightened by the shock, but escaped injury.

IN THE OPEN MARKET

PROPOSAL THAT DETROIT BUY STREET RAILWAY.

It Would Cost But Three Million Dollars to Secure a Controlling Interest in Detroit United—People May Vote on It.

Detroit, Mich., July 29.—A proposition somewhat startling in its nature, and practically affecting the city of Detroit, may secure municipal ownership of the Detroit United Railway, and thus settle for ever the dispute over cheap street railway fares, has just been put up to Mayor Dretzner and the Common Council. The plan is suggested by Maynard J. Pollin, one of the prominent politicians in the city of the late Hazen S. Pingree, and its very originality has done much to attract the attention of the city fathers.

The plan is this: "The capital stock of the Detroit United is \$12,500,000. The present market price of D. U. R. is about 41. Have the city of Detroit purchase a controlling interest in the stock by going into the open market for it. The cost will not exceed \$3,000,000. Then the city can do as it pleases. Mayor Dretzner declared himself strongly in favor of the proposition, but went nine out of thirty-five, and the difference outspoke in its favor. The difference between municipal control and municipal ownership is so slight that the vote of the council last night to submit the matter to a vote of the people on August 15 can easily be amended, and probably will be changed to suit the new situation.

The London News says Sir Wilfrid Laurier's tour in the west is one of demonstration against protection. It anticipates a lowering of the tariff in the next parliament when the west will have forty representatives.

The government's new form of the tariff declaration was adopted with effect after an all-night quarrel. Abraham Roth, New York, tailor, plunged a bread knife into his wife's throat. She jumped through the window to the landing below and died in hospital. The police found Roth later with his own throat cut.

Sir C. Kinnloch-Cooke, in the British House of Commons, inquired what effect the admission of railway laborers into Canada would have on the regulation prohibiting assisted emigrants other than agriculturists. Col. Seely replied he thought the order did not apply to assisted emigrants.

A NEW YORK "GANG FIGHT." Police Reserves Had to be Called to Quell It.

New York, July 29.—Three men were dangerously wounded and twenty others more or less severely hurt, today, in the most serious "gang fight" in many years. The police reserves in military formation, summoned by the helpless patrol men on the west side beat, where the trouble broke out, charged on the rioters and put an end to the disturbance, only after nearly an hundred shots had been fired by members of the quarrelling clans.

ISSUED AN ULTIMATUM. Spanish Government Called Up by the Vatican.

Madrid, July 29.—El Liberal, one of the leading Madrid papers, declares that the Vatican has addressed a curt note practically amounting to an ultimatum to the Spanish government stating it will be impossible to continue negotiations for modifying the concordat unless Spain postpones or withdraws its recent laws regulating the status church. These laws are far more liberal than the old laws and have proved offensive to the Catholic leaders. A cabinet meeting has been called to discuss the situation.

These laws are far more liberal than the old laws and have proved offensive to the Catholic leaders. A cabinet meeting has been called to discuss the situation.

JOHNSTON FINED.

Hockey Player Who Assaulted G. T. R. Employee.

Brookville, July 29.—Ernie Johnston, the Wanderer hockey player, was brought here from Montreal by Chief Burke. The warrant upon which he was arrested charged that he did willfully and unlawfully assault, obstruct or impede one William McCreary, an officer of the G.T.R., in the execution of his duties upon the premises of the railway on the 20th inst. When brought before Justice H. G. Murphy, Johnston said he had business at the station on that night and that he was accosted and insulted. In return, he slapped McCreary in the face. A plea of guilty was entered and H. A. Stewart, on his behalf, argued that it was a common assault and as such the magistrate should impose a fine. C. E. Benson, for the prosecution, claimed it was an indictable offence and wanted the accused committed for trial. Upon looking up the law the magistrate found Mr. Stewart was right and imposed a fine of \$20 and costs.

WILLIAM D. McRAE. President of the Kingston Old Boys' Association of Toronto, is a son of the late W. D. McRae who owned the widely-known Golden Lion grocery house. Mr. McRae shows for his native Kingston wherever he goes.

SHE HAS CONFESSED

GIRL ADMITS LIES PUT MAN IN PRISON.

Missouri Woman Joins Church and Repents of Riot After Victim Serves Term.

Princeton, Mo., July 29.—That G. Phillips, now residing in St. Joseph, Mo., but formerly a resident of Kansas City, served fifteen months in the federal penitentiary at Fort Leavenworth, Kan., as a result of a plea against him, has joined the church of the late Mrs. Phillips, and is now in a better position to whom it was alleged that Phillips had sent improper letters prior to her marriage. Mrs. Kysar, who was Miss Lola Davis, a resident of this city, at the time Phillips was tried in this case, has joined the church of the late Mrs. Phillips, and is now in a better position to whom it was alleged that Phillips had sent improper letters prior to her marriage.

"I am truly sorry for the way I treated you folks," she writes, "and am going to make it right as far as I can. You treated me as bad as I did you, but that isn't the question with me now. There was a put-up job on George. Lies were sworn to, etc. but I want to say right here that my folks did everything they could to keep me from testifying in that case. I am among the very ones Christ died for, and I know what God is requiring of me. Life is short, even at the longest. We will all be glad to straighten up our lives when it is too late."

"I am among the very ones Christ died for, and I know what God is requiring of me. Life is short, even at the longest. We will all be glad to straighten up our lives when it is too late."

COME TO TIME

Likely Strike Is Nearing An End

CARS TELESCOPED

AN ACCIDENT AT THE DEEP CUT, OTTAWA.

Strikers Say It Was Due to an Inexperienced Crew, but the Company Says the Train was Handled by Some of Their Oldest and Best Men.

Ottawa, July 29.—The placing of a torpedo on the tracks in central depot, and the burning of a box car in the Valleyfield yards, besides the telescoping of the four box cars, in the deep cut near the city, are the incidents of the strike in the Ottawa Valley section of the G.T.R. The torpedo was placed on the tracks, yesterday, being discharged by an incoming passenger train, the particles flying around and slightly injuring a lady who was waiting on the train. NEARLY DROWNED.

Richard Barrett Had Narrow Escape at T.I. Park.

Thousand Island Park, N. Y., July 29.—Wednesday afternoon, while playing on the dock, Miss Dorothy Hovey, New York, aged ten years, lost her balance and fell into the water. Joseph Rothschild was walking along the upper promenade at this time and noticed a child pointing to the water, and who was too frightened to talk. Looking over, he saw a small body in the water, so he rushed down and tried to lift the child up on the dock. The weight was too much for him and he called for help and Richard Barrett of Rochester responded. He went to step down and in doing so slipped and went into the water also. As he could not swim a stroke, it was up to Rothschild to perform the double task, so he reached Barrett's foot and drew him up to dry land and then both got the child in, who was unconscious by this time. They worked over for about 15 minutes, when she came to, and getting up she walked home with a little friend.

MUST DO SOMETHING.

Where a Minister Would Act as Watchman.

New York, July 29.—After thirty years of work as a missionary in foreign lands, the Rev. A. H. Lambert, of the Methodist Episcopal church, is awaiting replies to the following advertisement, which he placed in New York papers:

"Minister: Good standing, married, wants work; watchman or timekeeper preferred."

Two years ago Rev. Lambert came to the United States from South America, lured by the hope that he would be able to do wonderful things in this wonderful country, but I found that missionaries are not sought here," he said, "and that the churches are over-supplied with pastors. I have three children and a wife to care for, and I must do something."

Lambert is a linguist of unusual ability, and he said that (several of his temporary employers sought to take advantage of this by having him sell questionable stocks among foreign residents.

SAY HE IS ABOARD

THE MONTREAL STAR HAS MESSAGE FROM SHIP.

The Captain Says He Has Dr. Crippen and Miss Le Neve—Ferry Sherwood is Also of That Opinion.

Montreal, July 29.—The Star published an extra, at noon, stating that
