### Likely A Basis Of Settlement Arrived At.

## MODIFIED VIEWS

### UPON THE QUESTION OF TAKING BACK MEN.

Mon. Mackenzie King acted as the intermediary—The Grand Trunk Pacific Will Help Out the Situation by Absorbing Many Men.

Montreal, Aug. 1.—It is understood that a basis of settlement in the dispute between the Grand Trunk and the strikers has been reached and that, unless something unforeseen crops up, when the agreement comes to be signed, the strike will be called off immediately.

This basis of settlement was reached after a day of conferences in which those taking part were: G. M. Hays, president of the Grand Trunk; E. H. Fitzgibbon, vice-president; William Wainwright, Mr. Biggar, C. C., counsel for Grand Trunk; Mackenzie King, minister of labor; L. W. Lee, president of the strikers' union, and Mr. Garretson, president of the conductors' union.

At the previous conferences the trainmen's representatives had offered to agree to arbitration on condition that all the striking trainmen were reinstated in their positions. To this the Grand Trunk offered the most strenuous opposition, taking the ground that the many excellent men who they had engaged since the strike began, and who had stood by the company so loyally, should not be dismissed to make way for returning strikers.

It was upon this question that the whole controversy turned and it is because both sides have somewhat modified the position they took that a settlement is now in sight.

When the conference opened Saturday Mr. Hays made it perfectly clear that it was useless to discuss terms of a settlement if the strike leaders insisted on every one of the strikers being reinstated. This attitude was at once recognized by the minister of labor and the conference opened a lengthy discussion which followed chiefly upon how a compromise could be effected.

Mackenzie King, who had been closeted for a long time with the general committee of the strikers, had come prepared with tentative proposals on their behalf which looked toward the reinstatement of the larger proportion of strikers. The terms of his proposals were not made public, but they are understood to have been provisionally accepted with some slight modifications by both parties.

As a result, if the settlement is confirmed, it is probable that practically all the strikers will be drafted back into work without any displacement of the new men who have been engaged. This will be effected through the medium of the Grand Trunk Pacific, which will afford opportunity for the employment of a large body of new men.

When the strikers go back they will not be paid the standard rate of wages for which they went out, but will receive the increased scale which Mr. Hays offered them, and which they refused. Mr. Hays, however, has promised that his offer for the standard rate to go into effect on January 1st, 1911, shall still hold good. Whether these terms will be accepted unconditionally or referred to arbitration is one of the minor points which it is understood has still to be settled.

It is stated that the striking trainmen no longer entertain any thought of their cause being helped by a strike of the engineers. The Grand Trunk

on its part, states that there is not the slightest reason for expecting any trouble with this body. In any case, if the engineers should be trouble with the engineers, it would probably be a month before the thing would come to a head, and thus it would not in any way help the cause of the striking trainmen. The committee of engineers is now said to be working on a new schedule, which they will ask shall go into operation at once. If there should be any disagreement over this schedule, the matter would have to be referred into by a board of conciliation before a strike could take place.

### Stands for Trainmen.

Ottawa, Aug. 1.—Rev. W. A. McIlroy, a native of Kingston, in his pulpit, at St. Andrew's Presbyterian church, yesterday, came out strongly in favor of the G. T. R. striking trainmen. He went into details at length and said he hoped they would win. He intimated that the papers of Ottawa were not giving them as good a show as the capitalists were getting. The sermon has caused quite a stir here.

### SCARED TO DEATH.

#### Young Girl Drops Dead From Terror at Thought of Pain.

Lancaster, Pa., Aug. 1.—Terror-stricken at the thought of having a tooth pulled, even under the influence of an anesthetic, eight-year-old May Hess dropped dead in the office of Dr. J. S. Mentzer, at Ephrata. The girl refused to allow a dentist to touch her, and was taken to Dr. Mentzer's office. While Mentzer was preparing an anesthetic she fell dead from her chair.

### Jaw Bones Weighed 55 Tons.

New York, Aug. 1.—The jawbones of the largest whale ever caught by Japanese whalers were taken to the Museum of Natural History yesterday. They arrived on the German liner Argonia, which docked in south Brooklyn.

The bones weigh fifty-five tons, and forty feet long and were transported on a large truck drawn by six horses. The whale was caught off Moji, Japan, and was two hundred feet over all. The tail was thirty feet long.

### Half a Million Population.

Montreal, Aug. 1.—The population of Montreal proper, according to the revised issue of Lovell's Directory, today is 456,000, and the number of citizens in the city and outskirts is estimated at 507,000. Three thousand eight hundred and fourteen tenements and flats were unoccupied during the year, while there were 375 unoccupied houses and 394 offices. Montreal now has 1,013 streets.

## WAS TRIED THRICE

### NOT CERTAIN WHETHER HE WILL BE TRIED AGAIN.

He Was Accused of Murder, But the Evidence is Purely Circumstantial—May be a Police Victim.

Dublin, Aug. 1.—Interest has been excited all over Ireland in the case of William Moore, who has just been tried for the third time at Omagh for the murder, on June 12th, 1909, of William and Margaret Holt at Fulyhogue, county Tyrone. As on the first two occasions the jury disagreed and Moore is still in prison. It is not certain whether or not he will be tried again. The case against him is purely circumstantial. The Holts were murdered for the money—about \$850—which they possessed. Moore, who was a tramp laborer, was seen in the neighborhood on the day before the murder and the next day he had a pocket full of silver for the possession of which he has given no satisfactory account. The doctors declared, however, that the Holts were killed about 4 a.m., and Moore was able to prove that he was twelve miles away from the scene of the murder at 5.45. There is a growing opinion in county Tyrone that Moore has been selected by the police as a victim of their incapacity to find the real murderer, and there is talk of a petition for his release.

Dr. Cook, explorer, is believed to have returned to America and to be in Brooklyn.

## WAS THE MAN

### Dr. Crippen And Miss LeNeve Arrested

## AT FATHER POINT

### THINK THE COUPLE WILL BE DEPORTED.

The Mother of the Girl Think She Was Hypnotized—Think It Can Be Proved That Mutilated Remains are Those of Mrs. Crippen—Crippen Identified.

London, Aug. 1.—Scotland Yard officials, last night, had no exact information as to whether Crippen, arrested at Father Point, on Sunday, would be deported or extradited but they expected deportation, in which case it was stated Crippen would be placed on trial within three weeks. So far there might be no delay the officials made arrangements, yesterday, for the prompt despatch to Quebec of Sergeant Mitchell, should this be necessary.

Ethel LeNeve's relatives are relieved that their long suspense is ended. They are convinced now that the woman can prove her innocence. The girl's mother says she is certain Crippen hypnotized her daughter, otherwise she never would have donned boy's clothes.

Special editions of the newspapers announcing the capture of Dr. Crippen and Miss LeNeve were on the streets four hours before Scotland Yard was officially informed of the arrest.

All evidences of the sex of the body found in the veal of the Hilldrop Crescent, the home of Dr. Crippen, have been so thoroughly eliminated, that lawyers think the police will have difficulty in proving that the mutilated remains are those of Belle Elmore, Dr. Crippen's wife. The anatomists are still working over the remains and are endeavoring to establish the sex of the murdered person and cause of death. The absence of the head and certain organs in the body makes the investigation difficult. An eminent surgeon, in a talk with a correspondent, yesterday, said he believed Dr. Crippen incinerated the bones of the head and the body as he had abundant opportunity to do so.

Scotland Yard is not concerned over the identification of the remains of Mrs. Crippen, or Belle Elmore, as she was more generally called. The police officials say this is purely a legal question. One reason why Capt. Kendall was so sure his passengers were Crippen and Miss LeNeve came out today. It was a remarkable coincidence Stewart Smith, of the Montrose, the police say, knows Crippen well. He has often met the doctor in a billiard room near the house on Hilldrop Crescent.

### Montreal Family Poisoned by Canned Corn—All Deadly Sick—A Doctor Found Them.

Montreal, Aug. 1.—Flomaine poisoning nearly wiped out a family of seven when Dr. Cyphol discovered Mr. and Mrs. Champagne and five children suffering severely at their home, 228 Valee lane, Missonneuve.

The poisoning is attributed to a tin of canned corn that the family had for supper. The story told is that on Friday evening the family complained of pains. Mrs. Champagne seemed the worst. Though her husband felt bad effects also, he was able to summon Dr. Cyphol, who drew a short distance away. He immediately administered antidotes. As the children at that time did not complain, it was not thought that they were affected. Next morning, however, another hurry call was sent to the doctor, and on his arrival he found the whole family laid up. Administration of antidotes saved all the lives.

He had run up a small bill at the village store, and went to pay it, first asking for a receipt. The proprietor grumbled and complained that it was too small to give a receipt for. "It would do just as well," he said, "to cross the account." He drew a diagonal pencil line across the book. "Does that settle it?" asked the customer. "Sure." "As" asked the customer. "Faith this," said the other coolly, "I'll know me money in me pocket." "But I can rub that one down," said the stockkeeper. "I thought so," said the customer dryly. "Maybe you'll be givin' me a receipt now. Here's your money."

## Don't Buy By Mail.

Why should you when Kingston stores can offer you better quality, personal selection and lower prices?

Just figure out the cost of buying goods by mail. The firm you do business with generally prints a large catalogue, which you must pay for. They employ help to select and pack mail order goods, which YOU must pay for. They tax YOU for express charges and postage. Of course, they don't put all these expenses on the bill, but don't forget they are included in the PRICE.

Even then you can't have the satisfaction of selecting the goods personally like you can if you buy them at any of our local stores.

Kingston dealers can sell you practically everything you need for yourself, your family and your home.

The quality is always better, and if you watch their advertisements in the British Whig you will soon see by comparison the great saving you can afford by buying at home. Keep the money in Kingston—it will employ more help and keep the town growing.
