SCOURING YOUR SCALP

Will Remove the Loose Dandruff Scales, But It Won't Cure Dandruff.

If your hair is brittle and thinning, you have dandruff. The mere scouring of the scalp of the loose scales won't cure dandruff, because dandruff is nothing but scales of scalp being thrown up by a pestiferous little germ burrowing its way to the root of the hair, where it saps the vitality, causing falling hair and, in time, baldness.

Daily Whig

SHOULD AVOID THE FADS. It is better not to be too hasty in adopting what may be called a "fad." The Whig has discussed a scheme which is said to have obtained favour in certain American cities, namely, that of municipal heating. It has been pointed out that a city which owns its public utilities should not allow its exhaust steam to go to waste.

St. Thomas was not so conservative as Kingston, and experimented. Last winter it undertook to heat certain places, with exhaust steam, and found that it had to supply live steam in order to produce the desired results. The expectation was to heat the premises at a cost considerably under that of heating by coal. Now the council has been asked to fix a rate for municipal heating and hesitates. More light is needed, and perhaps more experimentation.

NO THOUGHT OF SEPARATION. At Melville, in Saskatchewan, the premier claimed that Canada should, while acknowledging the sovereignty of King George, have an ambition to be a nation and to exercise its rights and privileges. With a population of seven millions it should not play the part of a dependency any longer.

EDITORIAL NOTES. The governor-general has set out for an extended tour of Northern America with English reporters while Canadians follow at their own expense. The unity of the British empire, a favorite theme, does not warrant discriminations of this kind.

GENIUS AT A PREMIUM. The sympathy of many who do not know the man, but have a regard for his achievements, will go out to George Westinghouse, of air brake fame. He is a mechanical genius, an inventor of distinction. But like so many of his class, he has lacked the capital with which to give a market value to his ideas.

company. It may be that the inventor is not a good business man. Few persons of this type are successful in the administration of great industries, and the experience of 1907 may have suggested the change in management which followed in Westinghouse's case. However this may be it is evident that the Westinghouse reign is over. He has encouraged inventions—has put a premium on ideas and encouraged his men to develop in power and usefulness—and all who appreciate his worth will hope for his continued success.

COULDN'T STAND THE STRAIN. The fall of Edwin Wider, a bank cashier, of New York, is one of the notable events of the last week. Wider was the chief officer of the Russo-Chinese bank, and had charge of all its securities. It was a very responsible position, but it did not carry a very large salary with it—only \$25 per week. He had what he supposed to be inside tips with regard to certain stocks, and borrowed, or appropriated, from the bank and speculated. The Patten cotton deal attracted special attention, and into it Wider put many thousands of the bank's funds. The crisis was inevitable. As it approached he meditated upon his ruin and calmly wrote to the bank:

"Gentlemen—I might as well tell you that in a few days 3,200 shares of Pennsylvania Railroad stock are to be shipped to the National bank of Germany, in Berlin. You will not find them. I took them, and you will find a large number of other shares missing, as I also took them. Whatever you find missing I took."

HALIFAX WOMAN KILLED. Run Down by Automobile—Driver on Ball. Halifax, N.S., Aug. 2.—The identity of the woman run down by Mrs. M. P. Price, who was driving an automobile, has been discovered. She is Mrs. T. J. O'Brien. Her death came Saturday. Mrs. Price was arrested. She was later released on bail, for \$1,000 and her husband in \$1,000. The charge is that she caused grievous bodily harm to Mrs. O'Brien by driving her automobile in a reasonable manner. The charge may be changed, now that the woman is dead.

Judging a Process Server. M. A. P. London. Last year Cardinal Merry Del Val was the hero of a very amusing incident arising out of an action in the Italian courts concerning a request of two million lire to the Holy See. The papal authorities were not represented at the proceedings, and the judgment could not be carried into effect until formal notice had been served either upon the papal secretary or on the pope himself.

Something Wrong Somewhere. Ottawa Citizen. Under the very windows of the Canadian war department splendid material in cavalry and infantry regiments called annual trainings from year to year, that a capable staff organization should blush to regard as such. And yet these so-called trainings are but representative of what is going on throughout Canada in the two arms of the service mentioned, while a high-salaried staff is supposed to be actively engaged in securing the best results from the really excellent material at its disposal.

Got What She Wanted. Bolton Traveller. "I can stand for some things, but not for everything," said the clerk as he watched a stylishly dressed young woman leave the store.

Thirty Richmond Negroes. London Mirror. The negroes of Richmond have established a bank known as the Chesapeake Savings Bank, with a capital stock of \$100,000. The bank owns its own home, a handsome building with thirty-five office rooms, in addition to the handsome quarters for the bank itself.

Two Forgers Sentenced. Peterboro, Aug. 2.—At the police station Wesley Crouter and Frank Hamilton, two local young men, pleaded guilty to forging and uttering a check for \$5 on the Peterboro Fuel and Carriage company. Magistrate Double sentenced both to two years in the Central prison.

CUSTOMS REVENUE JUST RECEIVED

A TOTAL OF WELL OVER FIVE MILLIONS FOR JULY. A Great Increase Over Last Year's Revenue, Though the Increase is Not So Large as it Might Have Been But for G.T.R. Strike.

Ottawa, Aug. 2.—The customs revenue of the Dominion for July totalled \$5,724,714, an increase of \$811,557 over July of last year. Although the increase is sixteen per cent., it is considerably less than the increases registered for the preceding months of the present fiscal year. The falling off is attributed to the effects of the Grand Trunk strike, which has prevented the delivery of freight in bond now en route to many points in Ontario and Quebec. For four months of the fiscal year the total customs revenue has been \$22,611,810, an increase of \$4,695,656, or over twenty per cent., as compared with the corresponding period of last year.

The latter was almost suffocated before she succeeded in arousing her brothers. Mrs. Engdahl was later released on bail, for \$1,000 and her husband in \$1,000. THE DEADLY CAT. Puss an Industrious Spreader of Disease. Washington, Aug. 2.—Bitter war on the house cat has been declared by the department of agriculture. Experts in the biological bureau of that department are making exhaustive investigations of the cat as a spreader of disease. Already they have found out enough to convince them that as much danger lurks in a cat as in a rat, and rats are known to be fatal distributors of plague.

Small Boy Took Money. Thousand Island Park, N.Y., Aug. 2.—The several petty robberies that have been committed here recently have been investigated thoroughly by Officer Spinnacle, and one arrest made. The robbery of the Walrus cottage, which was entered Thursday and a purse containing \$70 taken, and a purse containing \$50, taken, caused the arrest of a nine-year-old boy, who confessed when confronted by Chief Spinnacle, and took the officer to the place where he had hid the money after taking it from the purse. The entire amount was recovered.
