Daily Whig.
INTERESTING ANNIVERSARY.
The Church of England will, in September next, celebrate the two hundredth anniversary of the beginning of its ministry in Canada. In 1710 there were no Anglicans in the regions now comprising Ontario and Quebec, but Acadia was ceded to Great Britain in that year. The British had taken possession more than once before but had given the country back to France. The cession of 1710 was final so far as Nova Scotia proper was concerned, and that year regular services of the Church of England began at Port Royal, now Annapolis.

Roman Catholic worship had been conducted at Port Royal for a century before that time. Thus it happens that twogemorial festivals will take place in Eastern Canada almost simultaneously, one celebrating the completion of the second century of Anglican worship and one the completion of the third century since the first Christian baptism.
More than seventy years passed after the beginning of Protestant worship before the first diocese in what is now Canada was established, and the first bishop consecrated. This was after the American revolution and was one of the results of that separation. The first bishop, nearly all his clergy and the great part of his congregation were Loyalists. The diocese of Nova Scotia is the oldest colonial diocese in the British empire. The whole of British America, as far west as Lake Superior, appears to have been under the jurisdiction of Bishop Inglis. A part of the bicentennial celebration will be the opening of the new All Saints' cathedral at Halifax. The diocese of Nova Scotia is the mother of several others which have lately been completely full.
To add to the interest, a company located near the city of San Fernando has discovered that not only oil but also coal of excellent quality, samples of which have been sent to England for expert tests.

BEST DAIRY FARMERS.
The six farmers who have won the highest places in the prize dairy farms competition, in progress throughout Canada during the past two years, under the management of Farn and Dairy, Peterboro, assisted by the Dairymen's Associations of Ontario and the Dairy Cattle Breeders' Associations, are announced. The first prize has been won by R. A. Penhale, St. Thomas, Ont., with 777 points; the next five farmers and their total scores are: J. W. Richardson, Caledonia, Ont., 765 points; E. Terrell, Wooler, Ont., 762 points; O. D. Bales, Lansing, Ont., 750 points; D. Duncan, Don, Ont., 743 points; and Victor Legg, Moose Creek, Ont., 736 points.
The judges were Simpson Bennie, Toronto, whose farm won the gold medal in the competitions held some years ago, and W. F. Stephen, of Huntington, Que. The contest was an exacting one. One thousand points were offered, including 150 for the house, 150 for the buildings, 200 for the live stock, 200 for the crops, 150 for methods of farm improvement, 75 for machinery, and 75 for permanent improvements. About fifty farms located in all parts of Ontario were entered in the contest last year when the province was divided into four districts and prizes were offered for the best farms in each district. The contest this year was restricted to the prize winning farms in each of the four districts last year.
The competition just concluded has been so successful that the management has decided to hold another similar contest, starting next year, open to all dairy farmers throughout Ontario.

THE VERY LATEST SCANDAL.
There is no direct evidence that Vice-President Sherman, of the United States, is personally interested in the deal by which one McMurray, of McAlister, Okla., and representing a syndicate, stood to profit to the extent of \$3,000,000 by a land deal. When Senator Gore, of Oklahoma, was interviewed on the subject, and pleaded with to drop his opposition to the land case, he was informed that a man high up in the government was interested and when asked who this was, Mr. Hamon, former chairman of the state republican committee, gave the name of Mr. Sherman.
It is only fair to Mr. Sherman, who has hitherto ranked as an honourable man, to say that he stamps the story, so far as it concerns him, as "absolutely without foundation," and Senator Curtis, of Kansas, and Representative McGuire, of Oklahoma, who are said to have been concerned in the transaction, deny all knowledge of it. Both have, like Vice-President Sherman, been coupled with the scandal by one Hamon. Of course he repudiates everything and declares that

he and his friends or associates are innocent of wrong-doing to any extent or degree.
The enquiry, however, goes on, and something may come out of it. The scandal originated with the proposal of the government to dispose of certain Indian lands which were enormously rich in coal and asphalt. The geological survey had estimated that these deposits were worth \$160,000,000. Mr. Murray conceived the idea of acting as selling agent, and made an arrangement with 10,000 Indians to dispose of their property for ten per cent. of what it would yield, and he figured the receipts at \$30,000,000. Senator Gore protested and in the senate moved that lands could not be sold without the concurrence of congress. Hence the interest that centered in his action and the alleged attempt to silence him with a bribe of \$50,000. All depends upon the evidence, and as the bulk of it will be with the defence, from the number of persons interested, a verdict of not guilty may be expected.

A NEW OIL FIELD.
There is reason to believe that one of the largest oil fields in the world is on the verge of development in the British West Indian island of Trinidad and the neighboring mainland.
The determination of the British government to use oil for fuel on its naval vessels has stimulated experimental researches and led to re-organization of existing operating concerns on a grander scale. As an instance of the latter effect of the expected huge increase in the demand for oil, it may be noted that the Canadiana company's 25,000 acre oil property in the southwestern section of Trinidad has been taken over by a \$1,500,000 company, floated in London.
A dozen wells ranging in depth from 80 to 1,400 feet have been bored with satisfactory results, except that the flow of some of them is too strong to be readily checked pending the provision for facilities for exporting the product. An American company, operating at Pitch Lake, has a number of wells and large storage capacity, yet thousands of gallons of crude oil from its recent borings have run into the sea, because the company's 84,000-gallon steel tank and extensive land reservoirs were completely full.

Abolish the entrance examinations by abolishing the present dividing line between public and high schools. No child should be led to think that even an elementary education should not extend to the completion of the present high school course.
The London Express reflects upon the loyalty of Canada, South Africa and New Zealand by intimating that because they are not subject to British legislation the king's title should be changed, that he should be called the "Emperor of the British." Are the people of the colonies not British? What is the implication anyway?
Aldermen are asking if the board of trade has pigeon-holed the application made for the water front between Brock and Clarence streets for wharf purposes. Last spring the aldermen asked the government for the rights and the board of trade was given the matter to further with its help. Since then all has been silent.

EDITORIAL NOTES.
Over 500 grafters are under arrest in Russia. Grafting is not a national but a universal disease. It is epidemic in any country and climate.
General Baden-Powell strikes Canada. They are on their vacation, and they cannot see the creator of the scout movement. When is the general coming to Kingston?

A Boston doctor announces that sauerkraut is ten times better food and more nutritious than beans. That is a pretty brave statement in Boston, but each man has a right to his own diet. Emerson ate pie for breakfast. The late Edward Everett Hale gave credit for his length of days to cured beef and cabbage three times a week, while William M. Everts, the great lawyer, said his old age was due to eating anything he liked and taking no exercise. So if sauerkraut fits the stomach of the Boston doctor better than beans he has the right to use it.
The Hamilton Spectator finds the automobile is fast making a name for itself in the field of commercial utility. Unable to serve his Northern Ontario customers because of the railway strikes a Toronto wholesaler loaded down a couple of auto trucks with orders and sent them out. They covered the ground more rapidly than the railway could have done — and did it at less expense. Evidently all that is needed is a guarantee of a provincial system of good roads and the auto will become a dangerous rival of the steam railway as a common carrier.
Obstinary in others is the same as firmness in yourself.

THE NEWS OF THE WORLD
OCCURRENCES RECOUNTED IN BRIEF FORM.

Matters That Interest Everybody—Notes From All Over—Little of Everything Easily Read and Remembered.
Seaforth carried a by-law to accept Hydro-Electric power.
Eight thousand workers in German ship yards are on strike.
R. L. Borden will speak in Renfrew and Arnprior next month.
Another man was fatally shot in the street in Chicago, on Monday.
Fred. Yabuho was killed at Arnprior by a pile of lumber falling on him.
Hamilton street railway employees are asking for better wage schedule.
Sir Wilfrid Laurier and party entered the province of Alberta, on Monday.
Rear Admiral Lyon, of the British navy, is returning from China via Canada.
The telegraph operator is blamed for the wreck of the Laurier special. He has fled.
At Baltimore, Col. Harvey W. Scott, editor of the Oregonian of Portland, Ore., died following an operation.
A party of five out in a gasoline launch, at Port Dover, had a narrow escape when their launch took fire.
It is said the C.P.R. will transfer its coal and lake shipping business from Lake Erie to Long Point.
Several Canadians were appointed on committees at the convention of the International Typographical Union.
William Locke, an employe on the steamer Horonic, at Sarnia, Ont., was struck by a door on the boat, and fatally injured.
Dr. Crippen attended service in Quebec jail on Sunday. He did not notice the other prisoners, Miss Le Neve was excused from attendance.
Garrett Allen, aged seventy-seven years, is dead at Watertown, N.Y. He leaves two brothers, Albert and Hardy Allen, at Picton, Ont.
The barge Montana, having on board apparatus to lay the extension to the Toronto water works pipe went down in Lake Erie on Long Point.
The Grand Trunk railway company was fined fifty dollars and costs on each of thirteen charges of violating the immigration laws at Sarnia.
At Vancouver, D. B. Mann announced that the town site of Fort Mann, the new C.N.R. terminal, would be placed on the market this autumn.
William L. Rice, a wealthy Cleveland lawyer, was murdered near his residence. His valuables were not touched, and there is no clue to the criminal.
The Hamilton executive of the Grand Trunk strikers has sent a letter to the chief executive of the union calling for an investigation of the settlement of the strike.
Frank Oliver has reached Edmonton, after the fastest trip on record, having made an 8,900 mile journey overland to Dawson City and back again by the coast.
Colborne P. Meredith, formerly associated with Architect Frank Darling, Toronto, has been appointed to succeed the late C. R. Cunningham as member of the Ottawa Improvement Commission.
Four colts belonging to William Postlewhite, Merrickville, broke loose from the pasture and wandering on the C.P.R. track, were killed by a passing express. The animals were valued at \$400.
As the Ottawa train pulled in at Hawkesbury, Miss Albertine Desjardins, nineteen years of age, of St. Jerome, stuck her head out of the window and was struck by a railroad tie sticking out from a pile near the track. Her skull was fractured; it is not likely that she will recover.

RAPIDLY SPREADING.
Lock-out Maintained Until Strike is Settled.
Berlin, Aug. 9.—The strike of the shippard workers is rapidly spreading to other shipping ports. The workers at Hamburg demand a reduction in the working hours and a ten per cent. increase in wages. The shippard employers have decided to give sixty per cent. of the workmen, beginning from August 11th. The workmen who will be locked out are employed at Kiel, Stettin, Bremen, Lubbeck, Danzig and elsewhere. The lock-out will be maintained until the strike at Hamburg is settled. At least thirty thousand employees will be thrown out of employment. It is expected the workmen will retaliate by proclaiming a general shippard strike, thus obliging the remainder of the employees to cease work. The men at Bremen have decided to strike on August 11th.
THOUGHT THERE WAS A FIRE.
But it Was Only Smoke From the City Light Plant.
The telephones in the two fire stations were kept very warm around eight o'clock, on Monday night. Several people were of the opinion that there was a fire, and they called up the stations, to see where the blaze was. However, there was no fire. The wind carried smoke from the city light plant right into the business section of the city, and this gave the people the impression that there was a fire. One man ran all the way to the station from the north end. He thought that there was a big fire raging in the city.
Excursion Well Patronized.
Welloretown, Aug. 8.—Quarterly service was held in the Methodist church Sunday forenoon. John Malory and family who have been camping at the river for a few weeks returned home Saturday. Victor Purvis is home for a few weeks. Many attended the boat races at Alexandria Bay. Mr. and Mrs. D. Shipman, Lansdowne, were guests of Mr. and Mrs. H. S. Bushman, last week. Was Grace McAvoe who has been a patient for nearly ten weeks at the general hospital, Brockville, is much better. Dr. Shaw, Lansdowne, spent a couple of days at the river. The excursion of Aug. 3rd, under the auspices of Escott church, was well patronized.
Dexter engaged wife than a horseless carriage.

Bad Blood
"Before I began using Cascarets I had bad complexion, pimples on my face, and my food was not digested as it should have been. Now I am entirely well, and the pimples have all disappeared from my face. I can truthfully say that Cascarets are just as advertised; I have taken only two boxes of them."

GREAT SPORT.
Butlin—Wake up, old man; don't you see the tide's gone out and your hook's dangling in the sand?
Walltonne—That's all right, my friend; I'm fishing for clams!
AVIATORS HURT.
To Fly Marking Flags on Church Spires.
Paris, Aug. 9.—Lieut. Crosnier, of the French army, who made a splendid flight, Sunday, in an aeroplane, from Cam to Paris fell at Vincennes, yesterday afternoon, and sustained a broken leg and a fractured jaw. His companion, Lieut. Josi, escaped with slight bruises. Crosnier was steering and turned too abruptly, when a gust of wind caught the wings causing the aeroplane to turn a somersault. It fell a distance of seventy-five feet.
All France is aeroplane mad over the marvelous success attendant upon the first leg of the great 455 mile cross-country race in which six aviators successfully completed the first stage of the race to Troyes, Sunday.
The second stage starts to-day through to the finish. On account of the difficulty experienced by the machines, Sunday, in following the course it has been arranged to fly marking flags on the spires of churches along the route.
Yet He Meant Well.
Chicago Tribune.
Just as the train was leaving the fifty-eighth street elevated station a man who had got off there hurried along the platform and spoke to a passenger sitting by an open window in the smoking car.
"Quick!" he cried. "Please hand me that package. I left it on the seat when I got out just now."
"Sure," said the passenger, picking up the bundle and tossing it out of the window.
"Thanks!"
"Hey, there! What are you doing that for?" demanded the wraith, red faced man sitting next to him.
"Why, he?"
"You double dyed idiot, that package belonged to me! It was \$15 worth of lace and ribbons I was taking home to my wife!"
Over the scene that followed let us draw a veil.
