WILL JUSTICE BE DONE?

An American, in Kingston, made the remark that the man who attempted to assassinate the mayor of New York, will, when he comes to trial, probably get off with a sentence of a year in prison, as there will be political influence used to secure for him as light a punishment as possible. The would-be assassin, who tried to take Judge Gaynor's life, is unfit to be at large, and should be sent to prison for the rest of his days. These people who develop dementia Americana should not be allowed to jeopardize the lives of that larger section of the community which is free from this "disease," and the members of which expect, when they blow the head off a man, to go to the electric chair or the gallows. Justice in the United States is slow of movement, and, therefore, unlike justice in Britain and Canada. Ten years ago when foreigners attempted to dynamite the Welland canal and place the lives of hundreds in danger, Canadian justice was swift. Two weeks after the commission of their dastardly crime, they were lodged in the penitentiary at Portmouth, and the term of their lodging was till the end of their earthly life. There was no dementia Americana plea allowed for them. It is to be hoped that swift justice will be meted out to the man who made such a close attempt to slay the good mayor of the great city of New York.

ENUMERATION OF VALUES.

The farm and urban values of the census of 1911 will be enumerated under the date of June 1st. They will include the real estate and live stock values of each enumeration district at that date, of the live stock and nursery stock sold in 1910, of the dairy products consumed at home, sent to factories or sold, and of the animals slaughtered on the farm in the same year, together with values of other products of the farm. Land and buildings and farm implements and machinery owned by every person in the enumeration district will be recorded separately for values in 1911, and the rest of land and buildings will also be recorded if leased in that year. Values will be taken for orchard fruits, small fruits, and vegetables separately for 1910, but values of horses, milk cows, other horded or meat cattle, sheep, swine, poultry and hives of bees will be taken separately for 1911, at the date of the census. The values of live stock and nursery stock sold in 1910 will include horses, milk cows, other horded or meat cattle, sheep, swine, poultry and hives of bees, and of nursery stock, which means fruit and ornamental trees grown for transplanting into orchards, gardens and parks. Dairy products consumed on the farm, and sent to factories or sold, refer to products of the year 1910. They include the values of milk, cream, home-made butter and home-made cheese. Animals slaughtered on the farm in 1910 will be recorded for the values of horded or meat cattle, sheep, swine and poultry. Horses are not included in these values, as in our country their meats are not used for food. The values of other products of the farm include those of eggs, honey and wax for 1910, and wool, maple sugar and maple syrup for 1911. The enumeration of hired labour on the farm refers to the year 1910. It will give the total number of weeks of labour employed, which means the number for all men who work for hire on the farm, and the total amount paid for hire, including allowance for board. The payment should be reckoned for the full time of service, and should include the value of board. The inquiry relating to earnings for domestic service is asked for in schedule No. 1. In addition to the foregoing inquiries of values, a question is asked for the value of all lands and buildings not manufacturing establishments, or mines owned in Canada in 1911, which are outside of the enumerator's district.

THE CRY OF THE WEST.

The tour of the Laurier party through Saskatchewan was attended by a succession of addresses in which the dominant thought was the need of a lower tariff. The petitions were generally from the Grain Growers' Association, and the conviction was deepening that they were most interested in the question. But at Moose Jaw there was a change in the programme. There a large delegation of business men appeared. They represented the boards of trade of several western cities—Ed-

CAUSED DISASTER

ONE TOADSTOOL AMONG SOME MUSHROOMS.

Further Particulars of Sad Tragedy at Rochester, N.Y.—Mrs. Kingsbury Doing Well and Will Recover—Funeral of the Two Children at Rochester.

Further particulars have been received in the city, regarding the case of the two children of Raymond Kingsbury, dead at Rochester, N.Y., from eating toadstools in mistake for mushrooms. Mrs. Hannah Kingsbury, the grandmother, dangerously ill from eating the poison, showed much improvement on Wednesday, and it is reported that there is now no doubt but that she will recover. When recovered sufficiently to talk, Mrs. Kingsbury told of having eaten what she supposed were mushrooms, and recalled the fact that one of them was much larger, and of different shape and color, than the others. Because the one was so large, she felt certain that it was a mushroom. She had always supposed that if the peeling came off readily it was a sure test, and there was no danger of its being a toadstool. For this reason, she felt sure the large one was a mushroom.

The doctor who attended Mrs. Kingsbury and the children, stated that there was no doubt but that the large one was a toadstool, and points out that it is a mistaken idea that the peeling of a toadstool will not come off readily, because this is the case with the ones which are the most poisonous. The children and their grandmother were the only members of the family who ate of the poison vegetable. The double funeral of the two children took place at Rochester, on Tuesday morning, and was indeed a very sad event. Many friends in Kingston have been anxiously awaiting news of the condition of Mrs. Kingsbury, and they are greatly pleased to know that she is doing well, and that she will recover.

PITH OF THE NEWS.

The Very Latest Called From All Over the World.

Mayor Gaynor is reported to be progressing favorably. Montreal will spend half a million dollars on permanent sidewalks. The cholera is spreading from the cities to the rural districts in Russia. More rain than is needed for the crops has fallen in North-Western Manitoba. Miss Sarah Merrydue, an English girl from Toronto, was drowned at Shanty Bay. Six people were injured, three rather severely, by an explosion on a Toronto street car. During past fiscal year 420 charters were secured with total capitalization of \$301,788,800. It is stated an announcement regarding the new C.P.R. steamers for the Atlantic will be made shortly. Col. Lossart, adjutant-general, leaves on August 23rd for England to attend the army manoeuvres at Aldershot. New branches of the Canadian branch of the St. John Ambulance Association will probably be formed in Canada. The liberals of Russell, Manitoba, have decided to protest the election of A. L. Bonycastle to the provincial house. The discovery of a new comet is announced at the Harvard College Observatory, Boston. The discovery was made by Rev. Joel H. Metcalf, at Burlington, Vt. The masons and bricklayers at work on the new parliament buildings, at Regina, have gone on strike, because the contracting firm employing them is involved in a labor dispute at Montreal. An amalgamation of the Healey Falls Power Development company and the Seymour Electric company has been effected, the interests of the former company having been acquired by the latter. A. B. McGill, J. J. Fleury and J. L. Coulter, Lindsay, charged with conspiracy by the Farmers' Bank, were set for trial. The men were former employees of the bank, and it was alleged that they conspired to get customers away from it to a new bank.

EDITORIAL NOTES.

Unemployment in England is now less than at any time in some years. Of 416 trades unions, employing 705,000 men, there are 3.7 per cent. unemployed.

If a celluloid collar is recognized as the badge of a man who needs more pay, there will be nothing else in the shape of collars worn at the city hall.

Paved streets kill trees, shutting off moisture. New York has 11,223 trees of all kinds. Kingston is proud of its trees, but are the people planting as many as they should?

Scotland is asking for home rule. If Wales were to join in the demand, the pressure upon the imperial parliament from three of the four members of the union would be too great to be resisted.

R. F. Younk, chairman of St. Louis and San Francisco railroad, declares that the farmers of the United States sustained last year a loss of \$225,000,000 through poor roads. How does Canada's roads compare with this?

Immigrants bring money and effects into Canada every year, totalling as large a sum as the whole revenue the dominion derives from the customs duties. That is the conclusion of the Monetary Times, one of the leading financial journals of Canada.

Filled Him Full of Water.

Mason City, Iowa, Aug. 11.—Children in play poured water, yesterday, down the throat of Halph, four-year-old son of J. A. Dunn, of Calmar, and the little fellow only lived an hour. The water went into his lungs and he was drowned, it is said.

ON HIS WAY.

Tom—"She told me I was the light of her life."
 Dick—"That was going some."
 Tom—"Yes, but just then her old man came along and nearly put my light out."

MADE A CURE.

Child Paralytics are Able to Walk After Treatment.

Burlington, N.J., Aug. 11.—External treatment as a permanent rapid cure for infantile paralysis, which has puzzled surgeons all over the country, seems an established fact to-day. Six complete cures, pronounced miraculous by surgeons, have been effected by Miss Lillian Balz, a trained nurse of the Friendly Society. Four of the children treated by Miss Balz are able to walk, and two others have reached a nearly normal condition.

The cases will be brought to the attention of the State Medical Society at its next meeting. Miss Balz relied entirely, the doctors say, on massage and external applications in her treatment of the cases.

NEARLY WENT OVER FALLS.

Sturgeon Leaped Into Boat and Damaged Engine.

Niagara Falls, N.Y., Aug. 11.—A 150-pound sturgeon nearly sent a party of three in a motor boat over the Falls late last night. Opposite LaSalle, two miles above the Falls, the fish leaped for the searchlight in the bow, missed it, struck and seriously injured Miss Nellie Johnson, of this city, and then thrashing about in the boat, disabled the engine. The sturgeon, which measured six feet eight inches, was finally subdued with our wielded by Frank Mensdale, of this city, and Sebastian Smith, of LaSalle, the other occupants of the boat. Meanwhile the boat was being swept rapidly towards the cataract. George Allen, hearing cries of distress, speeded out in a launch and towed the party ashore.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists, Inc. Take Hall's Family Pills for constipation.
