Has not the thought often come to you that the wise place to invest money is where real profits are comparatively low and where future prospects are bright?

The man of good judgment will consider present prices, future possibilities and potential resources before he decides to buy.

This city right now presents just the conditions that make real estate a particularly favorable investment.

Do not "go it blind," however. Back up your judgment with ours before buying, because we have had wide experience and have made a careful study of the local situation.

PAY SMALL BONUS. Bids for Large Block Falls to Get Response.

Montreal Herald. Rodolphe Forget was a buyer of Richelieu this morning, and just before noon he came along with a very heavy bid for a large block. The bid was not taken, and Mr. Forget did not get his stock.

There has been a revival of rumors about Richelieu during the last day or so which connects the company's name with a plan to pay a small bonus beside the regular dividend. It will be remembered that there was talk of an increased dividend for this issue last year, which failed to materialize. There is now no mention of the likelihood of a dividend increase, the stories all asserting that the melon will take the shape of a bonus.

Acrobats and Performing Dogs. Lake Ontario Park will close for this season on the evening of Labor Day, Monday, Sept. 26th. The attraction booked for next week at the pavilion is a first-class one that should please all who enjoy good clean amusement. Another good act is Hiram and his performing dogs. Three thousand feet of new moving pictures and the latest illustrated songs will make a complete performance.

Gold in Twilight

Ladies' day, on Wednesday, at the Yacht Club, was again a scene of interest to the onlookers from the verandahs when the third race for the Carruthers cup took place; some of the fair sex were seen aboard the yachts, and during the afternoon great excitement prevailed for a few moments by the occupant of a canoe falling into the water, but he was rescued, and save for the ducking none the worse for his bath. Among the guests was noticed Miss Lillian Taylor, of Ottawa. Three tables of bridge were kept busy and the usual delicious refreshments served at the usual time with the usual chatting over the tea cups. The dance in the evening was a great success, being enjoyed by all present. Mostly the younger set were represented and expressed themselves as having had "a lovely time." Oh! that our youth had not such flying feet, or if we could occasionally fly backward, backward, turn backward. Oh! time in your flight.

The croquet devotees are more enthusiastic than ever, the different lawns being kept every day, we might almost say, from sunrise until sunset, seeming as if the players wanted to lose none of the warm weather and could even now feel cooler breezes, reminding them of the chilling blasts across the park when ice and snow cover the green where now their balls roll along and clink so merrily together; but alas! all things come to an end, even croquet, and summer with its many deluges.

The alterations at the Country Club are making rapid strides, the actual building part being finished, and the decorating soon to be commenced; all the modern improvements have been added and a large, new dining room, also good servants' quarters, in fact the whole building has been changed and enlarged, giving the necessary room so long needed. The opening is anxiously looked for.
