Laziness in Youth a Disease.

"Is laziness in young people a form Q disease?" asks Dr. Laumonier in La Nature After a long series of experiments, he anslaziness at school, he says, is very often no thing but the manifestation of a morbid stat of health, and such children should not b nished but treated as invalids. Dr. Laum onier traces the complaint to hereditar causes. Of twenty-seven lazy school children found that twenty-two had parents suffer g from obesity, gout, diabetes, arteria lerosis or nervous troubles. He assert hat sluggishness in various forms is trans nitted to the offspring as the result of mal dies from which the parents suffered.

Such children, he says, simply need mor than the usual share of fresh air, suitable exercise and careful supervision. Often, o tourse, an unsuitable diet affects a child' power of application.
