ROUSED FLOCK

Bishop Fallon of London Issued Order

STARTS MOVEMENT

AGAINST BI-LINGUAL SCHOOLS IN THE WEST.

A Good Part of His Diocese, Which is French-Canadian in Type, is Aroused Over the Order—Bishop is Advocate of English—French Priests Sent Away.

Toronto, Sept. 19.—The World says: While the Sentinel is investigating about the maintenance of bi-lingual schools in the provinces, it is incidentally implementing a work of bi-lingualism in the newly appointed bishop of London, Rt. Rev. M. F. Fallon.

His lordship was no sooner elevated to the London bishopric than he started a movement against the settlements of French-Canadians in Essex and Kent counties.

Bishop Fallon is opposed to bi-lingual schools, and to that end has organized the Irish archbishops and bishops into a campaign to retain Ontario as an English-speaking province, and has issued a mandate forbidding the schools in Essex and Kent counties to teach French. In this respect the bishop is working against a good part of his diocese, as forty-five per cent. of the communicants are French-Canadians.

Toronto is said to have succumbed to his influence. The Hamilton order, with local headquarters at St. Michael's College, has almost been re-organized. The French priests have been sent to the United States, where their sphere of influence will be restricted, and Irish priests have been substituted, with the exception of a few "sickly" or "weak" French members, who have been retained to save the face of the college. Assumption College in Sandwich has been included in the shake-up, where many going Frenchmen have submitted to the bishop's mandate.

The French-Canadian communicants in these counties feel that their interests have been outraged.

PROPERTY INVOLVED.

Millionaires' Battle Over Boat House Site.

Watertown, N.Y., Sept. 19.—Bad feeling, which has existed between Gilbert T. Hafferty and Alexander H. Peacock, two well-known Pittsburgh millionaires, owing summer homes at the Thousand Islands, is being carried on in a dispute over property purchased by Peacock from Hafferty, and a notice of pendency in an action brought by Mr. Hafferty to reform a deed, has been filed in the office of County Clerk F. H. Johnson.

The property involved is that upon which Mr. Peacock's boathouse now stands. The consideration mentioned in the deed was \$2,000, and Mr. Hafferty claims that an error was made in the description. Attorney John O'Leary, of Clayton, represents the plaintiff and Attorney A. Raymond Cornwall, of this city, appears for the defendant.

THE AWFUL SIGHT

FOUND HIS WIFE MURDERED IN WOODSHED.

Her Wrists Had Evidently Been Bound by a Rope, and the Body Bore Numerous Wounds and Marks of Violence.

Havelock, Ont., Sept. 19.—To find his wife lying dead in the back woodshed of their home, with marks on her body which point almost unmistakably to a murder, was the terrible sight which awaited the return of Mr. Delme, of Havelock, on Thursday evening.

No clue has been yet obtained by the authorities, but Constable Bennett, of Havelock, has the case in hand and is investigating further. That no one had been seen approaching or leaving the place, or that no one had heard the noise of the struggle, is not surprising, in view of the fact that the house is half a mile off the road, and fully fifteen minutes' walk from the nearest neighbor, Mrs. Russell.

Mr. Delme, the husband, returned from his work at 8:20 p.m., and called on his wife two or three times, but receiving no answer, went to the woodshed, where he found her unconscious. She died at nine o'clock. Mr. Delme then alarmed Mrs. Russell, his next neighbor. The two children of the murdered woman were found huddled in bed, crying for their mother. They are two months and two years old respectively.

Mr. and Mrs. Delme had been married about four years and had lived together harmoniously. The dead woman was twenty-four years of age.

On the body and face of Mrs. Delme were found numerous wounds and abrasions. There was a bruise back of the ear, and wounds on the left shoulder and right elbow. There was also a scalp wound and the forehead had been scraped. The way in which the wrists had been bound together with a rope, is a mystery.

Coroner Kindred, Havelock, opened inquest at the Delme house, which was adjourned till September 23rd. A post-mortem examination was made, but no evidence of any criminal assault was revealed.

TECHNICAL EDUCATION.

Manitoba Has Appointed Its Independent Board.

Winnipeg, Sept. 19.—The Manitoba government has appointed a technical education commission, headed by Minister of Education Caldwell, and consisting of twenty-two persons, representing labor, manufacturers, educationists, the agricultural college, and social workers.

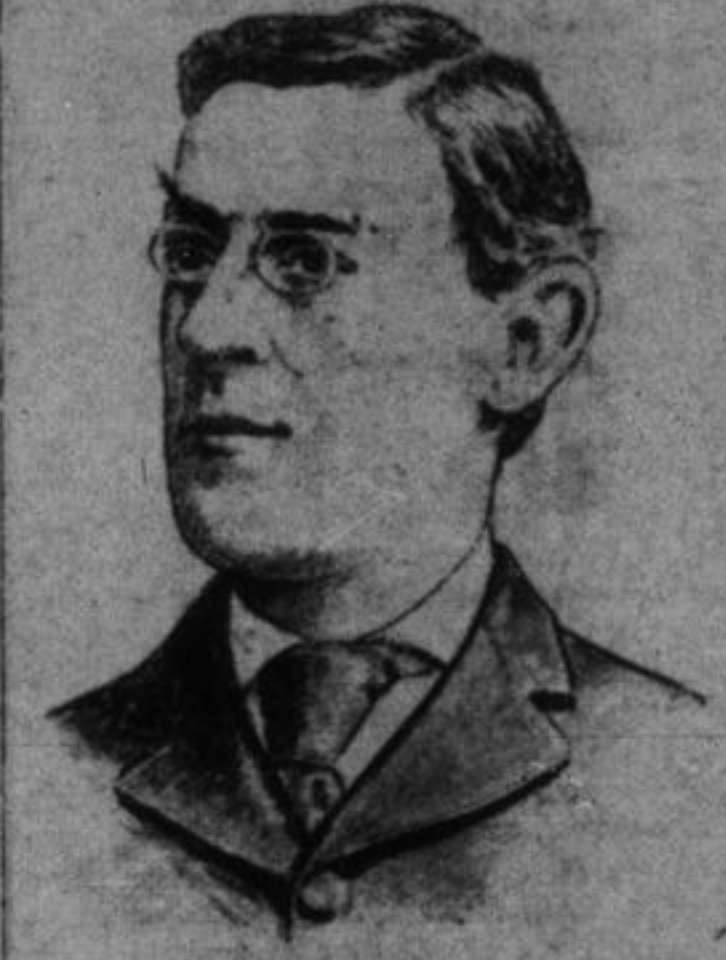

The feature is the inclusion of two women, Mrs. A. W. Purtee, wife of the former member for Winnipeg and Miss Juniper, well-known social worker.

Manitoba thus stands alone from the federal government commission along similar lines.

HE TAKES THE FIELD

DR. WOODROW WILSON TO RUN AS GOVERNOR.

Will Lead the Democrats in New Jersey—Spoken of as Probable Candidate for Presidency for 1912.

DR. WOODROW WILSON.

Princeton, N.J., Sept. 19.—Dr. Woodrow Wilson, nominated for governor of New Jersey by the democratic state convention, will offer his resignation as president of Princeton University to the board of trustees at its next meeting on October 20th.

Wilson for governor of New Jersey in 1911 and for president of the United States in 1912. This is said to be the programme of New Jersey democrats and others.

Woodrow Wilson has never been known as a politician, although he has been an educator of prominence, a writer on political and historical subjects, and president of Princeton University since 1902. He is a Virginian by birth, and in his fifty-fifth year. For a year he practised law in Atlanta, Ga. It has been his ambition to become an authority on government and he has read and written extensively on politics, the science of government and history.

TALENT WON

Bookies Said To Have Dropped \$200,000.

AT BLUE BONNETS

THE ROYAL COMMISSION IS NOW IN MONTREAL.

And Will Take Evidence in Regard to Industrial Training and Technical Education—Settlement of a Strike Dispute is Considered Probable.

Montreal, Sept. 19.—It is estimated that the bookies, at last week's Jockey Club meet, at Blue Bonnets, dropped \$200,000 to the talent who follow the races, but of forty-nine events thirteen outsiders and fifteen second choices won with twenty-one favorites making good. One bookmaker, who cleared up \$105,000 in three months, was out \$4,200 on the Montreal track.

The Royal Commission on Industrial Training and Technical Education, headed by Dr. Robertson, is the chairman, arrived in the city, to-day, for the purpose of holding sessions. The meeting, this morning, was only for organization purposes. The commission has already collected a large mass of evidence in eastern Canada.

At a meeting of striking plumbers, to-day, it was said by one of the officers that settlement of the dispute might be reached on Wednesday. If that threat was made, the settlement contract in Montreal would be settled indefinitely. It is reported to the meeting that a number of plumbers employed on the Laurier chateau, Ottawa, has joined the strikers.

IS SILENT ABOUT IT

ROOSEVELT MAY OPPOSE TAFT'S ENDORSEMENT.

Convention Fight Likely—Forcing of This Issue at Saratoga Will Cause the Colonel to Declare Himself—Prepares for Conflict.

Oyster Bay, Sept. 19.—Theodore Roosevelt has now but little more than a week before the actual shock of the republican state convention at Saratoga. He returned to New York from Syracuse, motored to Sagamore Hill where he arrived shortly before noon, and spent the rest of the day with his family.

He refused to discuss in any detail his plans for the fight at Saratoga, or to say whether he believes he will be successful. His reference to President Taft in his Syracuse speech, in which he gave his appraisal of a number of the most important acts of the administration, are regarded, however, as throwing some light on his probable attitude toward an endorsement of the administration by the Saratoga convention.

What action he will take in case an attempt is made to endorse President Taft for a renomination in 1912 is a subject on which he remains resolutely mute. Reports to the effect that he would resist such an endorsement have brought forth no statement from him, except that he will have nothing to say on that point unless the question is raised at Saratoga.

BURNS INTO FLAME

Blazing Whiskers Led to Discovery of Ether Tippler.

Dublin, Sept. 19.—A powerful old citizen was standing on the main street of the little town lighting his pipe. Suddenly flames burst from the air about his face, completely ruining a fine crop of whiskers, and causing the unhappy victim to raise his hands and yell vociferously. Prompt assistance was rendered him, but not till he was severely burned about the face and head.

There was considerable local speculation about the origin of the mysterious flames until it developed that the peaceful citizen was an ether drinker. Subsequently investigation disclosed the amazing fact that this uncanny potentia with the soothing vapor has been quietly making great headway among the peasantry.

It had its origin many years ago as a cholera specific, and was introduced from Glasgow. A canny doctor noticed that an acquired taste often followed its use; he laid in a barrel and the habit began. Ether costs so little that anybody can afford it in some villages it is estimated that from ten to twenty-five per cent. of the women take a nip now and then. It is also very frequently taken by old alcoholics, and has all the effects, if you take enough of it, of good whiskey. And that is saying a great deal.

HOME RULE TO COME

"TAY PAY" PREDICTS COMPLETE SUCCESS OF MOVEMENT.

Are Looking for Funds—Leaders Expect to Collect More Than Any Time Since the Time of Parnell.

Liverpool, Sept. 19.—John Redmond, the Irish Nationalist leader, and his lieutenants, "Tay Pay" O'Connor, Joseph Devlin, and Daniel Doyle, all members of parliament, have sailed on the Baltic for help of pockets of Irish-Americans to support the Nationalist party.

O'Connor said he expected the visit to bring the greatest financial returns since the first visit of Charles Stuart Parnell to America in 1870-71.

The party will look after the Middle States, Devlin the south, Doyle the west and O'Connor the Eastern States and Canada. The tour will last about six weeks.

"I think we are nearer the success of our cause," O'Connor said, to the press, "than we have been since the death of Parnell. Victory, including home rule, will come within two years."

HE SHOT HIMSELF.

Had Been at Penitentiary Looking Up Case.

Toronto, Sept. 19.—"A.P." Robertson, formerly a Toronto freeman, where he was well known as drum-major of the 141 handers and for several years past an inspector on the Winnipeg police force, shot and killed himself in the ladies' lavatory of the "Sleeper" on Saturday morning, just as the train passed Agincourt on the way from Ottawa to Toronto. The suicide followed what is said to have been a night of dissipation during which Robertson attempted the lives of two other men, although the train crew say he was sober when he shot himself.

Robertson had been in Ottawa on personal business after having visited Kingston penitentiary, where he was securing information in connection with a Winnipeg police case.

Spoked 100 Million More.

Ottawa, Sept. 19.—The production of cigarettes by consumption in Canada for the fiscal year ending March last totaled no less than 469,711,001, an increase of a little over a hundred million cigarettes as compared with the preceding year, and representing an outlay of probably over four million dollars for "cedar nails," principally by the boys and young men of Canada, during the twelve months. During the preceding year, on the other hand, owing to the reduced consumption which followed the commercial depression of two years ago, there was a considerable falling off in the innovation and manufacture of cigarettes.

BADLY SWINDLED.

Blackmailing Scheme Practiced on Unknown Baronesse.

London, Sept. 19.—By means of the well-worn bogus policeman trick, a lady staying at Vichy is stated by the Petit Journal to have been blackmailed to the extent of £4,000. One of the two blackmailers has, however, been arrested, and the police are looking for his accomplices.

The lady, said to be a foreign baronesse, made the acquaintance of a young man with whom she was imprudent enough to make an appointment in the park for the evening. Of course the young man made love to the lady and the garde-champetre, appearing on the scene, charged the pair with acting improperly.

The lady's denial had no effect, and then her companion suggested that the garde-champetre might be bribed to remain silent. A cheque for 100,000 francs was handed to him, and then he vanished. So did the young gentleman, of course the lady made love to the lady and the garde-champetre, appearing on the scene, charged the pair with acting improperly.

KLUX REVIVED.

Beina Vista, Miss. Sept. 19.—Ike B. Dahmer, a negro, is the latest victim of the Klux Klux, which has been revived. His dead body was found in the thicket of a creek bottom. Dahmer left home Tuesday morning with a wagon and team and never returned. The wagon and team were found in the road, but the driver was missing. Nothing more was heard of him until Sunday. There were several bullet holes in his body. The parties that committed the crime cut the skin on top of the head and had taken all the skin of the forehead and face, leaving the body difficult to identify.

WINTER QUARTERS

WILL BE THE PLACE FOR MANY VESSELS.

As Soon as Outside Tonnage Engaged by the Steel Corporation is at an End—Business Will be Slack.

Detroit, Mich., Sept. 19.—The Steel Corporation, which takes care of some thing more than fifty per cent. of the winter capacity, will be through with outside tonnage in thirty days, and at the end of that time many vessels will have to go into winter quarters.

The grain movement will not be as heavy as it was last season and trade will furnish business for only a small part of the fleet that will be in the market when the steel trust quits. The other shippers will have about all they can do to take care of their own contracts; ships and down cargoes will very scarce the remainder of the season.

FORTUNE TELLERS.

Frankulent Industry Had Been Well Patronized.

Berlin, Sept. 19.—Some 2,000 prophets are shaking in their shoes. So far are they from being without honor in their native town that their clients sometimes have to wait for hours before they are admitted into the inner sanctuary where the cards reveal their secrets.

But now their golden days are past, for the police are on their tracks. To get a test case they recently raided the temple of one of these modern Pythonesses in the north of Berlin. Two ladies were closeted with the remainder of the crowd, then others sat patiently awaiting their turn in the ante-room. They were not members of the classes to which crass ignorance and superstition are supposed to be peculiar, but had come from the fashionable quarters of the west-end in carriages and motor-cars.

Greatly to their consternation, the clients of the prophetesses were required to appear in open court and help demonstrate at once the imposture of the fortune teller and the folly of their own credulity.

The Steamer Released.

Detroit, Sept. 19.—The steamer Hutchison, aground at Grand Pointe, River St. Clair, was released, Sunday afternoon, and proceeded down the river. She was not damaged.
