A REVIVAL IMMINENT. teaching profession. It has been occa-

tioned by the sudden and unprecedented demand for teachers. There never was such a scarcity of qualified persons, One is that in recent years the

chool did not present the attraction women to become teachers. They went launched when he sent his dirty linen into the industrial and commercial to an asylum to be cleaned at the

cures where all eise falls. I berta and Saskatchewan had to be onstrate to you in just a few erected as the population flowed in me that my method is quick, erected as the population flowed in complete, because it rids the system of the poisonous germs that and the demand for education because catarrh. Send your name and came urgent. The only way to secure address at once to C. E. Gauss, and he will send you the treatment referred teachers quickly was to raise the salto. Fill out the coupon below. aries, and the exodus from Ontario at

> The result has been the increase of stipends all around, and for the present, and perhaps permanently, the teaching profession will have its votaries because it pays. The sign of a revival is evident in the high school where there is a rush for teachers' certifications, and of those in attendance thirty-eight, in the second and third forms, are from the county.

Thus in time-presuming that the exof every educational centre-there will sa element meant to use it, if the to the demand, but this demand will frid. And they failed, signally groves and expands.

THE CROAKERS AT WORK. Again, and true to a prejudice which they must exhibit with little cause, the

onents of the Ross rifle have resumed their attacks. They have no ground on which to work in the plaint of a correspondent, that th rifles have not stood the usage which they have been submitted in the anoguvres of the Queen's Own at Alershot. The usage in question is ex hibited by the snap shots which an Al-

dershot paper has published. The troops have to undergo an ex perience such as they would have actual war, and among other things they have to climb walls, armed, and drag their rifles through places that are very rough. The rifles get many bump, and they are damaged in conse quence. Because they show the e ou will buy your tall clothing from us, feets of hard treatment they are called toys, and the conservative press, with unanimous voice, laments that Canada

campaign in which it would be sub- many imports. The motive for this is

OUR WANT-CHEAP POWER. The Hydro-Electric Commission proposes to supply Morrisburg and Presoutt (which have asked for it) electric energy from the Niagara Falls, at 16.33 and \$22.13 per horse-power. This is cheap, or it looks cheap, and is a special concession which may not be available by other municipalities in Eastern Ontario. The towns namanction of the New York and Ontario

undertake to do more than carry th power to the civic boundary. The council of each place must accept at a high voltage, must reduce and distribute it, and incur all the loon expenses incidental to the service. What the extra cost may be is not in-

licated. It may be considerable. The Whig had a talk, yesterday, he lit his short clay; "but he'll be out with Mr. Noxon, the owner of the In- next week," ersoll gas plant, and the man who established the gas plants at Pëtrolen nd Oshawa and sold them. He is creat advocate of producer gas for power purposes, and said it had been plied in Petroles for 84 per horseser. The plant, originally, is cost- Health er than a steam plant, but in the d the marvel is, therefore, that the oducer gas plants are not more merous. Producer gas can be made to come composite the second section and the cole, vegetable matter.

power than steam under any circum-

Cheap power is the great desideratum OCCURRENCES RECOUNTED everywhere. It is a remarkable circum quire into this producer-gas question and get all the light possible upon it.

EDITORIAL NOTES. Commander Roper says he spoke in a non-political way upon the Canadian navy. Nevertheless he hammered the conservative party, and for that offence there is no forgiveness.
