A National Newspaper

During the next month articles and sketches will appear in The Globe from four members of its staff at present travelling in widely separated parts of the world.

Dr. J. A. Macdonald, Managing Editor, is in Mexico in connection with a great celebration in that country.

Capt. Jaffray Eaton is the only exclusive press correspondent with the Queen's Own Rifles in England.

Mr. W. J. Jeffers, a trained mining journalist, is on a pioneering trip into far Northern Ontario.

Mr. M. O. Hammond, trained political reporter, is touring the United States and writing daily letters on the great political struggle under way in that country.

Must Obey and When Married Nev

Beston Watchman. Every girl, when of age, must marry a man of a different family, therein a her parents must be more careful of her education than that of a son, are she must be subject to her father and mother-in-law, and serve them. If a has been spoiled she will quarrel with her husband's relatives.

It is better for women to have a good mind than a beautiful appear ance. Women who have a bad mind their passions are turbulent, their eyes seem dreadful, their voices loud and chattering, and when angry tell their family secrets, and besides laugh at and mock other people, and envy and be spiteful toward them. These things are all improper for women

to do, as they ought to be chaste, to keep separate from the other sex. They must not see or hear any iniquitous thing. The old custom is man same place, shall have different bath—I but now I feel so home, and everyrooms, shall not give or take any—
thing directly from hand to hand.

May the Lord be will you and belp

Fifty Men and One Elephant.

Interesting tests were recently made n London to determine the respective dling power of horses, men and elephants. Two horses, weighing 1,000 pounds each, together pulled 3,750 pounds, or 550 pounds more than their combined weight. One elephant, weigh-ing 12,000 pounds, pulled 8,750 pounds or 3,250 pounds less than its weight. Fifty men, aggregating 7,500 pounds in weight, pulled 8,750 pounds, or just as much as the single elephant, but, like the horses, they pulled more than their own weight. One hundred men pulled
