West Point Cadets Are Under Detention

CORPS IN DISGRACE

THEY TRIED THE "SILENCE" TREATMENT.

Not a Word Was Spoken or Bite Eaten While Unpopular Officer Presided in Dining Hall—An Extraordinary Affair.

West Point, N.Y., Sept. 28.—More than four hundred cadets, practically the whole cadet corps, of the United States Military Academy, at West Point, are under detention, as a result of the corps having administered the "silence" treatment to Capt. Eugene S. Longan, of the 11th United States Infantry, at supper in the Grant Memorial Hall, on Saturday night.

Major-General Thomas H. Barry, U. S. N., superintendent of the academy, acted promptly on a board of army officers selected by him from the West Point detail, is investigating the case. The members of the board of inquiry are Lieut.-Col. Walter A. Bethel, Major Wirt Robinson, Capt. Charles E. Sumner, and Capt. Alfred A. Maybach.

Col. Sibley said that this was one of the most regrettable cases of insubordination that had occurred at the academy in years. The cadets, who have charge of the tables, and sit in the chairs, are the first classmen. They are held personally responsible for the department of the under classmen, who are seated along the sides of the forty long tables in Grant Memorial Hall.

"Now that this thing is out," said Col. Sibley, "I suppose I try as well to tell exactly what happened. Capt. Longan is a capable young officer, who came to the academy as an instructor on August 20th. Last Saturday night he was the officer in charge. As such it was his duty to be present in the mess hall at meals. When the corps filed into the room for supper, the cadets took their accustomed places. Immediately it was noted by Capt. Longan that he was being subjected to what is known in the national academy as 'silence.' Not a cadet said a word during the meal, and not one in the hall ate a mouthful of food. This was repeated at breakfast Sunday morning. After breakfast another officer in charge went on duty. In the usual routine, so that the insubordination ceased. In the forty-five minutes during which the cadets remained in the mess hall the 'silence' continued. Then they filed out and returned to the parade ground, where the companies were dismissed."

The findings of the board may not be made known for a week. It is said semi-officially that Capt. Longan is charged by the cadets with making unjustifiable accusations and marking up demerits when there was no occasion for it.

Col. F. W. Sibley, commandant of cadets, said that the truth will be sifted to the bottom and the entire corps punished.

PATIENTS RESPOND.

Physicians Testing Discovery Report Great Progress.

San Francisco, Cal., Sept. 28.—According to the physicians in attendance, observation of the cases treated here with the German cancer serum indicate that the identical clinical results of Dr. Gilman will reward the efforts of the members of the local medical fraternity. In spite of the fact that the theory is being submitted to a most rigorous investigation and that the most obstinate cases have been treated almost exclusively, the patients have shown signs of general improvement.

Because a complete hospital history of the cases must be compiled, before an endorsement can be given, the physicians decline to make an announcement which will directly accuse the army surgeons in the case. However, both Dr. John Galway and Dr. W. B. Coffey, who worked with Dr. Gilman while he was in this city, declare that most promising conditions have been observed and in a number of cases the patients look for "re-acton" has become evident. Not only has a healing process set in at the attacked tissues regions, but the general health of the patient has improved.

Dr. Coffey has under observation twenty-five test cases, in which are included almost all forms of cancer, operative and inoperative. He will make an extended scientific report as soon as it is possible.

Are at Niagara Falls.

Niagara Falls, Ont., Sept. 28.—Cardinal Venerabilis, of the Carmelite Order, accompanied by Prince Lepuy and suite, Bishop Muldon, Chicago, and Bishop O'Connor, San Francisco, arrived here this morning, by special car on the Michigan Central RR.

Melville Dempster, a young English bank clerk, was sent to the penitentiary for three years for forging.

ATTACKED BY ANGRY BULL.

Farmer May Die as Result of Injuries.

Halifax, N.S., Sept. 28.—William MacIntosh, of South River Lake, Antigonish county, was almost killed by a bull. Mr. MacIntosh was leading the animal to water when it attacked him. The terrified man, realizing his position, fought the infuriated brute for almost fifteen minutes, when he was overpowered and dreadfully mauled by the crazy creature. The terrific conflict was witnessed by two men who, with great difficulty, rescued MacIntosh. When the bull overpowered him, it lashed him, sending him almost twenty feet in the air. He now lies in a serious condition, with several ribs broken and some internal injuries.

FIRE FIGHTING BILL HEAVY.

British Columbia's Extra Staff in August Cost \$30,000.

Vancouver, B.C., Sept. 28.—British Columbia's fire-fighting bill for the month of August, apart from the salary list of the regular fire wardens, totals over \$30,000. The special fire-fighters employed during that month, according to the report, just received, was \$2,322, with the regular staff, bringing the total to \$3,572. The 625 fires destroyed over one million feet of standing timber and 67,000 feet of logs.

PARSON TELLS FLOCK

IF YOU FEEL LIKE A FOOL, IT'S LOVE; SO WOO QUICKLY.

Lures Congregation to Lecture by Dodgers Advising Every Enemy of Cupid to Stay Away—Church is Packed From Pit to Dome and His Discourse Has Whole Congregation Talking.

St. Louis, Sept. 28.—Mere man was poked in the ribs, and lovely woman was told she is the fairest of all created beings by Rev. John W. Worsnop, whose novel method of advertising his lecture on the machinations of Cupid has "set his congregation by the ears," so to speak. The dodgers he distributed over South St. Louis invited his flock to stay away if the god of love held no place in their lives. Of course no young man or young woman of his congregation wanted to be placed in this class—so they all attended. Here are a few of his colloquialisms:

"Man was God's first thought and woman was his second. Of course second thoughts are always best. Woman should demand of man the same sort of attention to her as he gives to the beautiful necessity of our nature to love something. Some women, if they can get nothing better, will love a pug dog. When a young man has a painful suspicion he is acting like a fool, he probably is in love. Love is too often a fickle. A young man loves Maudie till he sees Flora, and when he beholds Elizabeth he forgets them both. Long courtships, as a rule, should be avoided. A young man has no right to monopolize a young woman's time."

Dancing Caused Death.

Chicago, Sept. 28.—"I could die waiting," said Miss Elizabeth Harris at the close of a dance. As she seated herself she fell over. She had been dancing continuously for four hours. Miss Harris was twenty-two years old.

SEEKS FORGIVENESS

MARRIES THE MAN SHE SAID SHE WOULDN'T.

Daughter of Some Time New York Alderman a Bride in Spite of Locked-up Trousseau.

Stamford, Conn., Sept. 28.—"Cleverer and I were married. Awaiting forgiveness, Elizabeth."

When this telegram was delivered to Mrs. William Tait, wife of a sometime alderman of New York, at her Sound Beach residence, her astonishment knew no bounds. It referred to Miss Elizabeth Tait's marriage to Chester Williams, a young contractor, Mrs. Tait thought that her daughter was in Boston visiting her sister, Mrs. James F. Knorr.

"There will be no forgiveness here," the mother said. "My daughter was warned that her father would never forgive her if she married Mr. Williams. I think I might forgive and forget, but I'm afraid my husband never will. Elizabeth is only nineteen years old, and she could not marry legally without her parents' consent."

Mr. Williams and Miss Tait were engaged and the engagement was broken by Miss Tait last winter. She caused a notice announcing the breaking of the engagement to be published.

Mrs. Tait was preparing to send the young woman to Europe because she had learned that Mr. Williams had called upon her in Boston.

William Tait, father of the bride, was in the hotel business in New York for forty years. He is now a criminal court official in New York. He is seventy-one years old.

Mrs. Knorr ordered her sister Elizabeth's wedding gown in Paris last winter before the engagement was broken. She brought it home with her in August and it is now at Tait's residence in Sound Beach under lock and key with the remainder of the young bride's trousseau.

On an Exploring Trip.

Winipeg, Sept. 28.—Harry V. Rutherford, of New York, and two companions have started on a five-year exploring trip to the Arctic regions. They will follow the trails of the Canadian Mounted Police along the shores of Hudson Bay into the Arctic.

NOT BEFORE

Was Such Performance Ever Enacted.

AT THE CONVENTION

ROOSEVELT SECURED THE TEMPORARY CHAIRMANSHIP.

The Gathering Decided That the Temporary Chairman Had the Authority to Name the Committees—Roosevelt Substituted Friends in Many Cases.

Saratoga, N.Y., Sept. 28.—Col. Theodore Roosevelt in the republican state convention, yesterday, defeated Vice-President James S. Sherman for the office of temporary chairman of the convention by the vote of 567 to 445. There were 1,015 delegates in the convention, but three did not vote. Col. Roosevelt, Vice-President Sherman and Gilchrist Stuart, New York City, a total vote of 508 was necessary to a choice and the result shows Col. Roosevelt had 59 majority. The Old Guard leaders, headed by William Barnes, jr., Speaker James W. Wadsworth, jr., and their friends, said they were not at all dismayed, nor at all overborne by Col. Roosevelt's victory.

Col. Roosevelt's selection was followed later by performances without precedent in republican conventions. It has been the practice in selecting the various committees for the delegates of each congressional district, to select the committeemen for these committees, subject to approval by the state committeemen of the congressional district, and these committeemen are, therefore, accepted by the convention. Yesterday only delegates, friendly to Col. Roosevelt and his adherents, offered the resolutions for the appointment of a committee, and these Roosevelt delegates introduced their resolutions for the appointment of the committee with this final clause: "And the temporary chairman of this convention has authority to name the committee," meaning the committee on credentials, the committee on rules, the committee on permanent organization and the committee on platforms.

Speaker James W. Wadsworth, jr., attempted to thwart this procedure. He made a brilliant fight, but after several hours of debate Col. Roosevelt decided in favor of his followers.

The Daily Whig's Congress district delegation, the vice president's own delegation, recommended for the platform committee, W. H. Schweizer, a Sherman follower. Col. Roosevelt struck out Mr. Schweizer's name and substituted Marcus B. Campbell, Sen. of New York, head of the Lincoln League of Onondaga county, who supported Senator Davenport. Next the colonel displaced Timothy T. Woodruff from the committee on platform and substituted the name of Comptroller W. A. Woodruff, who for Jacob A. Livingston, state committeeman from the fourth congressional district of Kings, who had been recommended by his delegation for a place on the platform committee. Col. Roosevelt substituted Marcus B. Campbell, Sen. of New York, New York, who was substituted as a member of the committee on platform by Mr. Roosevelt, in place of George Cromwell, of the borough of Richmond, who had been recommended by the delegates of the eighth congressional district.

Col. Roosevelt and his friends adopted these measures, according to influential members in the Roosevelt camp, because they lacked the necessary votes to control the platform committee.

TWAS A SAD TIME.

Son Broke Neck on Day Father Broke Ankle.

Westwater, Ont., Sept. 28.—A fatal accident occurred, yesterday, when Charles, the six-year-old son of C. R. Campbell, was killed while sliding down a door upon which his father had been carried home a short time before.

Mr. Campbell is a C.P.R. conductor on the way freight, and while at Westwater was about to enter the top of one car to another, when the cars parted and he fell between them, breaking his ankle. A door was used to carry him to the car and from there, on his arrival here, to his home.

The door was left on the steps at the front of the house, and his little son was using it as a slide. The little fellow fell and struck the back of his neck on the door and died in a very short time.

WANTS LOWER TARIFF.

Correspondent Fights People Want Decrease in Duties.

Toronto, Sept. 28.—Writing from Springfield, Mass., M. O. Hammond, the Globe's staff correspondent, says there is a desire in the New England states for a lower tariff, particularly with Canada. Agriculture in Massachusetts, Connecticut and Rhode Island, he says, is neglected in favor of manufacturing industries. The development of the home market through the great increase in population has made foreign competition less feared than formerly.

To Construct Big Pulp Mill.

Sydney, N.S., Sept. 28.—Major Calhoun, M.L.A. and J. Carling Kelly, famous English engineers, are here on their way to Labrador, where they will erect a hundred thousand pound pulp mill. Lord Northcliffe is interested in the project.

Death Came Through Phone.

Williamsport, Pa., Sept. 28.—While Mrs. Lewis Yarrington, of Rankin town, was seated at the telephone during a heavy storm, waiting for central to give connection, a bolt of lightning struck the wire, killing her instantly. The storm bolt dashed her sister from the porch, injuring her severely.

UNIVERSITY SITE.

Have Selected Point Grey Suburb of Vancouver.

Victoria, B.C., Sept. 28.—The report of the university commission, appointed during the summer to select a site of the British Columbia University, is made public, having (although dated June 28th last) been received only last Monday. They have decided upon Point Grey, a seaside suburb of Vancouver as the site. The commissioners were R. C. Weldon, G. Daulton, G. C. Jones, O. D. Skelton, and Walter S. Murray, all eastern educationists. The university site commission are strongly of opinion that the university should not be placed on a site which may in time be completely surrounded by the city. They respectfully suggest that not less than 250 acres be set apart for a university campus and 700 acres for experimental purposes in agriculture and forestry. This is exclusive of forest reserve, forestry operations, on a large scale. Already two million acres have been set aside by the provincial government as an endowment fund for the university.

THEY ARE GOING UP

THE CANADIAN EXPORTS TO THE UNITED STATES.

Increase of Nearly \$1,000,000 in Coal, \$3,000,000 in Lumber and Over \$500,000 in Milk, Etc.

New York, Sept. 28.—An Ottawa despatch to the Herald says: "Now that the Payne-Aldrich tariff act has been in force for more than a year, it is possible to show the beneficial effect of the reductions on duty on various Canadian products. In nearly every instance where the tariff was lowered Canadian exports increased. The most notable instance is cream. The old duty was practically prohibitive, only \$8,871 worth of milk and cream being exported to the United States in the year ending July 31st, 1909. The exports for the year ending July 31st, 1910, were valued at \$70,398.

HERE IS A TABLE SHOWING THE VALUES FOR THE YEAR ENDING JULY 31ST, 1909, AND THE YEAR ENDING JULY 31ST, 1910, ON OTHER COMMODITIES ON WHICH THE TARIFF WAS REDUCED WHEN THE PAYNE-ALDRICH ACT WENT INTO EFFECT, AUGUST 5TH, 1909:

SEVERO PAYNE.

Speaking to a well-known French-Canadian, to-day, he voiced to your correspondent the opinion that a stout protest would be sent to Rome shortly. He said the last word had not been heard as yet. French-Canadians are thoroughly aroused and will see whether their rights are going to be so flagrantly denied owing to underhand influences. Communication has been had with different districts and a meeting has been called for October 4th, in Ottawa, of the Congress of Education Des Canadiens (the educational congress of Canadians), at which representatives will meet from all parts of the province.

Steps will be taken to obtain from Rome a recognition of the rights of French-Canadians and an agitation will be maintained against what appears to be a well-organized plan to destroy the French language and French-Canadian aspirations.

"Be assured we are not going to allow this iniquitous move to remain without a healthy protest, and, perhaps, when we are through it will be found that there is in this well-organized plan to rob us of our unquestioned rights."

After returning from Chicago Mr. Murray will resume his duties as first minister of the province at Halifax.

ASK ENQUIRY

Into The Selection of Ottawa's Archbishop.

FRENCH AROUSED

WANT TO KNOW THE INFLUENCES AT WORK.

Disatisfied With the Decisions of Rome—Do Not Like to Have Their Rights Denied Them—Will Likely Make a Strong Protest.

Special to the Whig.—On or shortly after October 4th, as a result of an important conference of French-Canadians, from all parts of this province, that will be held here, a cable will probably be sent either direct to his holiness the pope or some high official at the Vatican at Rome, strongly protesting at the choice that has been made with respect to a successor to the late Archbishop Duhamel, as head of the diocese of Ottawa. They have no fault to find with Archbishop Gauthier, but want a French-Canadian appointed. It is alleged that certain documents, which should have reached Rome, and which were in the interests of French-Canadians here, specially have not reached there, and French-Canadians, here, intend to ascertain why they did not reach there.

French-Canadians, generally, are very much dissatisfied with the decision of Rome, with regard to the choice of a successor to Archbishop Duhamel. Almost all are of the opinion that Rome was influenced by a well-organized movement.

Speaking to a well-known French-Canadian, to-day, he voiced to your correspondent the opinion that a stout protest would be sent to Rome shortly. He said the last word had not been heard as yet. French-Canadians are thoroughly aroused and will see whether their rights are going to be so flagrantly denied owing to underhand influences. Communication has been had with different districts and a meeting has been called for October 4th, in Ottawa, of the Congress of Education Des Canadiens (the educational congress of Canadians), at which representatives will meet from all parts of the province.

Steps will be taken to obtain from Rome a recognition of the rights of French-Canadians and an agitation will be maintained against what appears to be a well-organized plan to destroy the French language and French-Canadian aspirations.

"Be assured we are not going to allow this iniquitous move to remain without a healthy protest, and, perhaps, when we are through it will be found that there is in this well-organized plan to rob us of our unquestioned rights."

Asked what he meant by a protest, this citizen intimated that the delegates would meet here on October 4th and talk matters over fully, and that the outcome would, in all likelihood, be the sending of a cable to Rome, asking that this matter be fully enquired into.

MET AFTER YEARS

BROTHER AND SISTER WERE LONG SEPARATED.

And Yet They Lived Within a Short Distance of Each Other—Woman Never Saw Face of Her Brother Before.

Detroit, Mich., Sept. 28.—A man and woman, brother and sister, who have lived less than 150 miles apart, each believing the other dead, met for the first time in their lives at Pontiac, Mich., yesterday. Mrs. Katharine Howard, London, aged fifty-eight years, became separated from her family before her brother, Charles B. Sivers, aged fifty, was born. Sivers lived in Pontiac. She was told of Sivers by friends, who remarked on the resemblance. She went to Pontiac and the relation was established.

THE BOYS RELEASED.

Did Not Know Act Was Against Law.

Toronto, Sept. 28.—Because the magistrate believed that the six New York news boys, arrested in Toronto, yesterday, for selling betting information were only the innocent victims of a wealthy newspaper corporation, Mr. Kingsford decided to let the young men return to New York. The young men, who pleaded guilty, said they were sent here and did not know it was against the Canadian law to sell papers containing racing information. They offered to inform the other boys in New York about the law, and warn them not to come here. "It's a pity we can't get hold of the people who sent them here," said Mr. Kingsford. The annual general meeting of shareholders of the Great North-Western Telegraph company was held here, today, when the following directors and officials were elected: President, H. P. KEPT OUT OF SCHOOL

BOYCOTT OF DR. LABERGE AT ST. HENRI.

Catholic School Commissioners Refuse to Allow His Inspectors to Enter Schools Because He is a Member of Emancipation Lodge.

Montreal, Sept. 28.—A sensation has been caused by the Catholic school commission of St. Henri, in this city, refusing to permit any of its schools to be entered by any of its inspectors under the direction of Dr. Louis Laberge, head of the city's health department. Dr. Laberge is a member of Emancipation lodge, the Free Mason lodge, which was recently brought into the limelight by a civic investigation. The action of the commission has resulted in there being no inspection of the St. Henri and the other suburban schools. The city council is expected to move in the matter. Many of the aldermen express the opinion that the high-handed action of the St. Henri commission is tantamount to telling the city it does not know how to run its own business.

The legal fight over the Sunday opening of moving picture shows in this city, reached an important stage when the court of appeals upheld the constitutionality of the Sunday closing laws, under which Judge Basin condemned the Ombudsman in a test case which was upheld by the superior court and is now supported by the highest provincial court.

Whether a man is drunk or sober the municipality is obliged to provide him with a safe road, in effect, the decision of the court of appeal, to-day, in the case of Dame Osgin, St. Hubert, who sued the municipality for \$1,500 damages for the death of her husband. The counsel pleaded the man was drunk in the lower court, but the court of appeal reversed the judgment on the above grounds.
