That the management of Wonderland always wants to give the public good amusement, always been a by-word among the lovers of vaudeville, and this was never more plainly evinced than this week, when the management turned away an act of inferior quality rather than lower the standard of the house. To make up for the deficiency, an extra reel of pictures was added. A strong comedy act is booked for the first three days of next week.

**The Water Power Question.**

It is not likely that the light, heat and power committee will further discuss the question of power supply from the Seymour company before next week. In coming to a conclusion, hydro-electric comparisons will be used.

An alderman stated, today, that he would prefer to deal with the hydro-electric commission, if it decided to develop water power at Waddington, N.Y., for he thought that the city could get better terms than the Seymour company is offering.

**LETTERS TO THE EDITOR.**

**The Facts Related.**

Battersea, Oct. 20.—(To the Editor): Allow me to say that you, correspondent, re Lake and Merriman, has not stated the facts. I proved my case at Elginburg, on Friday, by two respectable farmers, Adam and Hugh Ritchie. At Merriman's request, the case was adjourned to the court house, on Wednesday last. During the interval I learned, as did also Mr. Lawson, that on account of the neglect of the township council to pass certain by-laws, there was no law to convict. I, therefore, paid the costs I had made to Mr. Lawson, near the Whig office, on King street. I did not go to the court house on Wednesday, nor did any witness on my behalf. Respectfully, S. K. Lake.
