"A WHISKY WITH MANY VIRTUES AND SCARCE A SINGLE FAULT"

CORBY'S "Special Selected" Rye Whisky

THE AROMA is fragrant enough to suggest the mythical "ambrosial nectar."

The flavor is a revelation—not a suspicion of the "tang" or harshness that mars the average whisky. Connoisseurs commend its "velvet smoothness."

CORBY'S "SPECIAL SELECTED" is distilled to absolute purity from the choicest grain we can buy—then matured for years in charred oak barrels—the only way a good whisky can be matured.

Sold by all first-class hotels, cafes and liquor stores.

You Can Work Near a Window

In winter when you have a Perfection Oil Heater. It is a portable radiator which can be moved to any part of a room, or to any room in a house. When you have a

PERFECTION SMOKELESS OIL HEATER

Absolutely smokeless and odorless

you do not have to work close to the stove, which is usually far from the window. You can work where you wish, and be warm. You can work on dull winter days in the full light near the window, without being chilled to the bone.

The Perfection Oil Heater quickly gives heat, and with one filling of the font burns steadily for nine hours, without smoke or smell. An indicator always shows the amount of oil in the font. The filler-cap, put in like a cork in a bottle, is attached by a chain. This heater has a cool handle and a damper top.

The Perfection Oil Heater has an automatic-locking flame spreader, which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back, so the wick can be quickly cleaned. The burner body or gallery cannot become wedged and can be unscrewed in an instant for reworking. The Perfection Oil Heater is finished in Japan or nickel, is strong, durable, well-made, built for service, and yet light and ornamental.

P. K's interest in the cheese factory. A number from here intend taking in the at home in Delta on Friday evening.

An Event at Outlet.

Outlet, Oct. 25.—There was service in St. Mathew's church on Sunday evening. Rev. Mr. Ralph took charge of the appointments of the Holiness Movement on last Sabbath. The many friends of "Jerry" Fodey, who has been very ill in St. Vincent hospital, Brockville, will be glad to hear that he is recovering and is now able to be up for a little while each day. Richard Running, of Evans Mills, New York, has been visiting friends in this locality. William Sliker, of Delmaine, has rented his farm to W. Richardson and intends moving to Brockville in the spring. Samuel Horton has rented his farm to Elwell Black and intends moving to Lansdowne. Mr. and Mrs. Edward Vanderburg left on Monday to spend a week at Charleston and Athens. Mr. and Mrs. R. Foster, of Charleston, came down the lake in their motor boat on Saturday en route to visit friends at Melcombe.

On Saturday, Oct. 15th, Miss F. Greer, teacher of the Seltou school, entertained the teachers from a number of the surrounding schools at her home here. The guests began to arrive at half-past three o'clock and at half-past five they repaired to the dining room, which was prettily decorated in autumn leaves, and a pretty feature of the decoration was a hand-painted maple leaf in autumnal tints with each guest's name lying at each one's place. An enjoyable time was spent and all voted Miss Greer a very pleasing hostess.

CHRONIC SLEEPLESSNESS.

Induced by the Absence of a Son.
Brockton, Mass., Oct. 26.—"Now I can sleep," were the last words of Mrs. Mary Turcotte, of Lavaltrie, Que., who died, Monday, at the age of one hundred years and twenty-one days, after having been without sleep for more than fifteen months. Five years ago her son Charles disappeared. She waited day after day for his return. She refused to place her head on a pillow, staying day and night in her favorite willow rocker watching for him. She slept little. Last July the missing man was located in Lynn. He returned home and placed his mother in her bed. Her condition had become chronic and her sleeplessness could not be broken.

Boy is Slave to Tobacco.

Oakwood, Ohio, Oct. 26.—Told that he must stop chewing tobacco, Raymond Stacey, aged fourteen, left home and cannot be located by his parents. The lad had been reprimanded for chewing tobacco at school and, Monday morning, begged to go back to work in his father's tile mill, where he had been employed all summer, rather than resume his studies and forego the use of the addictive weed. His request was refused and he pretended to start for school, but has not been seen or heard of since. His summer savings of \$27 are also missing.

Last Trip of the Season.

Steamer Riders King will make her last trip on Thursday, Oct. 27th, leaving Seiff's wharf, at 6 a.m. At Magalloway, Prousis, Lieut. Mruene fell with a Wright aeroplane and was killed instantly.

HECLA FURNACE

—And The Little Things That Mean So Much to You

We are not going to talk about the big features of the "Hecla"—the FUSED JOINTS, that keep the house free of gas and smoke—or the STEEL RIBBED FIREPOT, that saves one ton of coal in seven.

The talk is of little things that our 30 years experience has perfected.

A LARGE DOOR, big enough to take the biggest shovel of coal or chunk of wood.

A DUST FLUE, that actually carries off all dust so that you don't look as if you had fallen in the flour barrel after you shake the furnace.

A DAMPER REGULATOR, by which you can regulate the drafts and checks without going into the cellar.

A FURNACE DOOR that really locks, and locks airtight. INDIVIDUAL GRATE BARS that enable you to clean your fire without getting down on your knees with a poker.

There are many other big and little things about the "Hecla" that should be familiar to every man who is going to put in a new furnace this year.

They are all illustrated and described in our new furnace book, "Hecla Heated Homes."
