U.S. ELECTIONS

They Come Off in Forty-Four States.

TO-MORROW THE DAY

NEW YORK STATE CONTEST IS OF INTEREST HERE.

The Republicans are hopeful that the Upstate Vote Will Elect Stinson as it did Hughes Two Years Ago—The Democrats are Equally Sure of Victory.

Washington, D.C., Nov. 7.—Elections will be held in forty-four states next Tuesday. In several states the proposal to adopt state-wide prohibition is the paramount issue. If Florida votes in the affirmative it will mean a solid "dry" south. If Missouri adopts the measure it will abolish the sale of intoxicating liquor in St. Louis, the fourth largest city of the country. It is the first time in many years since a city of the first class has been secured with such a restriction. Reversing the usual order of things Oklahoma voters will vote on the question of substituting local option and high license for state-wide prohibition.

Four states—Oregon, Washington, Oklahoma, and North Dakota—are to vote on a constitutional amendment granting the right of suffrage to women.

In New York State.

New York, Nov. 7.—A majority for John A. Dix of not less than 100,000 is the final prediction to-day of William F. Rode of the executive committee of the democratic state committee, after a consultation with State Chairman Huppach. Huppach thinks the figure will reach 150,000.

Mr. Grison believes that the plurality of John A. Dix, the democratic candidate for governor in New York county will not be more than 40,000. Although Mr. Grison's political jurisdiction does not embrace all of the greater city, he said that roughly speaking, he thought Dix's plurality in the five boroughs will be over 70,000, giving him the most liberal figure.

In 1908, New York county gave Chandler, democratic candidate for governor, a plurality of 49,234, and the democratic candidate carried the city by 59,904. Republican leaders declare that the vote upstate will be enough to elect Stinson as it did Hughes in 1908.

FOUNDING TO PIECES.

A Great Schooner Is Wrecked in Heavy Gale.

London, Nov. 7.—The five-masted ship, Preussen, the largest sailing vessel in the world, lies wrecked in Craik Bay, Dover, where she is foundering on the rocks in a fierce south-west gale. Her crew are still aboard, it being impossible, on account of the heavy sea, to reach her. At eleven o'clock Saturday night, the Preussen was in collision with the cross-channel steamer Brighton, bound for Dieppe, from New Haven, with ninety passengers. The steamer was considerably damaged, but returned safely to New Haven. The Preussen lost her bowsprit and jib-boom and possibly sustained other damage. She drifted away in the darkness and was flung ashore in a gale.

The storm shows no signs of abating and it is believed the crew cannot hold out much longer. Life boats and trugs are still hovering about the vessel.

Ontario Milk Legislation.

Toronto, Nov. 7.—Pure milk legislation will follow the report of the provincial milk commission. At the next session of the legislature, W. R. McNaught, for North Toronto, will again champion this cause. It was due to his activity that the government appointed the milk commission. "The government," said Mr. McNaught, "is now working on a source bill which will considerably enlarge the powers of the municipalities with regard to the control of production, conveyance and general care of milk. I intend for sale to the public. We have the royal commissioner's report to guide us in framing legislation, which should ensure an absolutely pure milk supply for the people of Ontario."

She Was Bricklayer's Daughter.

London, Nov. 7.—It may not be generally known that the new Viscountess Torrington is the daughter of a bricklayer. In 1881 Mr. Sonray was living at Barkley, where he was engaged by Messrs. Kirk and Randall the contractors, to work on the public offices which were then being built. Mr. Sonray was greatly grieved when his daughter desired to become an actress, but after she had achieved success he was delighted.

Youth Sentenced.

Quebec, Nov. 7.—Five years in the reformatory is the sentence which Judge Carroll imposed on Willard Laidlaw, aged fourteen years, the lad who on Sunday afternoon, October 9th, fired the shot which caused the death of the ten-year-old son of J. A. Langlois, M.P.

ONLY TWO SURVIVORS

Of Crew of Forty and Three Passengers.

Teneriffe, Canary Islands, Nov. 7.—Two seamen, the sole survivors, arrived here and told of the loss of the Anglo-Algerian liner Kirdistan, off Sicily, October 29th. The steamer carried a crew of forty. The owners state three women were the only passengers on the Kirdistan, when the steamer left Manchester.

The survivors reached here on the German steamer Santa Ursula. The Kirdistan was long overdue at Maracaibo, and Saturday the owners sent a vessel to search for her. She sailed from Manchester, on October 17th, and the fact that she had foundered was the first intelligence since received.

The survivors were drifting in a lifeboat when, on October 21st, they were picked up by the British ship Vincent, which transferred them to the Santa Ursula on November 2nd.

The Kirdistan crew of 1741 tons, and was commanded by Capt. Manning.

United States is Asked to Intervene

AND SAVE CRIPPEN

WHAT A PHILADELPHIA LAWYER IS DOING.

He Declares That Crippen's Wife, Whom it is Alleged He Put to Death and Cut to Pieces, is Alive and Will be Found in the Vicinity of Chicago.

Crippen's hanging postponed to Nov. 23rd.

Philadelphia, Pa., Nov. 7.—Francis Tracy Tobin, a prominent attorney, of this city, left for Washington, D.C., at midnight, last night, to demand that the state department intervene and save Dr. Harvey Hawley Crippen from death on the gallows, Tuesday morning, on the ground that Mrs. Belle Elmore-Crippen is still living. Mr. Tobin will request that the secretary of state cable at once to the American ambassador, asking that the latter petition the home secretary of Great Britain to order a stay of execution until Mrs. Crippen can be produced in the flesh. Before leaving he said: "Belle Elmore still lives. When she is found it will be in the vicinity of Chicago, where she is in hiding. I have letters in my possession from people who know her and who have seen her since she is said to have been murdered by her husband and her body buried in his London home."

A Big Reward.

New York, Nov. 7.—To buck his belief that Belle Elmore, the wife of Dr. Harvey Hawley Crippen still lives, Dr. J. N. Munyon, Philadelphia, has offered a reward of \$50,000 to anyone who will produce her. "I will even pay it to the woman herself," he said, "if she will come forward in time to save her husband."

"I believe," continued Dr. Munyon, who formerly employed Crippen, "that either the woman is hiding to carry out one of the most consummate revenge in the annals of jealousy or else that she has carried on an advertising game too far. I have received letters from persons who know Mrs. Crippen, telling me that they have seen her alive in this country within the last few weeks. I never could be persuaded that Crippen killed his wife. He was too gentle a man."

BURNED HERSELF

PUNISHED IN JAIL, SHE FIRED HER DRESS.

Canton Prisoner Ignited Her Garments When Put in a Dark Cell for Misbehavior.

Canton, N.Y., Nov. 7.—Placed in a darkened cell in the basement of the county jail here, because her screams were making the night hideous for other prisoners, Stola Gladie, Ogdensburg, produced a scented match and set fire to her dress, terribly burning herself.

Deputy Emmett Reynolds discovered the woman before the flames could envelop her, and by dashing a bucket of water on the blazing garments undoubtedly saved her life. The Gladie woman is serving a six-months sentence for assaulting an Ogdensburg policeman. She has given the jail officials here all kinds of trouble during her incarceration. She broke jail a short time ago and led the authorities a merry chase before they recaptured her. Since that time she has been closely confined. Her last act was the culmination of a refractory outbreak which had lasted several days.

EXPLAIN DR. COOK AFFAIR.

Rand Rasmussen's Ship Returns With Secret Report.

London, Nov. 7.—The Copenhagen correspondent of the Daily News says the ship which took Rand Rasmussen, the Danish explorer, to Cape York last summer, has returned. Her captain brings a secret report to a friend of Rasmussen concerning Dr. Cook's Eskimo, whom Rasmussen interviewed. The captain says this will explain the whole Cook affair. The publication of the report depends on the friend, who is now absent from home.

THE LABOR PARTY IS SEEKING SOME RELIEF.

Vital Question to be Taken up at Coming Session of Parliament—Necessary to Retention of Labor Element.

London, Nov. 7.—The coming session of parliament will, in many respects, be one of the most interesting England has ever witnessed, so many are the vital questions to be taken up, but of all these probably none is of more practical importance than the payment of the members of the House of Commons, a question that has been pushed into the front rank by the now famous Osborne judgment, which refused the labor unions the right to use their money for political campaign expenses, and to pay the labor members in the house for their work.

The judgment of the court has caused a violent excitement in labor circles, and the demand was made that the government, whose political existence, to a certain extent, depends on labor support, must bring forward a bill granting the labor unions the right to use their money for political purposes. A bill of this kind will hardly be able to pass through the House of Commons, as it is constituted by the House of Lords. A solution has to be found, however. To drive the representatives of

Hunters Leaving the Woods at Piercefield Excite Suspicion of Warden and Arrest of One Man Follows.

Ogdensburg, N.Y., Nov. 7.—E. D. Link, Philadelphia, and his two guests, prominent business men of that city, have found deer hunting in the Adirondacks an expensive sport. Last season they were forced to pay a fine of \$150 for hunting without a non-resident license, and at the close of the present season a fine of \$400 was tacked on to them.

Mr. Link has a preserve near Piercefield in St. Lawrence county. When the party arrived at the railway station the train was about to start. The baggage man to pull them off the train. Mr. Link finally agreed to remain with the officer if he would allow the other two to leave for their homes.

This was agreed upon and after the train had departed Mr. Link said the two men had the keys of their trunks. The protector then smashed the locks with a hatchet and cut open the trunks to obtain a deer, as well as numerous venison steaks and roasts, also a quantity of jerked venison.

The trunks were seized and Link confessed judgment in \$400. The venison will be sold and the receipts turned into the department.

Cashier Gets Twelve Years.

Mexico City, Nov. 7.—Robert A. Crump, former cashier of the Federal Banking company, which failed several months ago, has been sentenced to twelve years imprisonment following his conviction for embezzlement of \$2,300,000 from the bank. This is the maximum penalty provided by Mexican laws. The bank was an American house.

40,000 WERE OUT

STRIKE OF GARMENT WORKERS HAS BEEN SETTLED.

They Returned to Their Machines on Monday—Committee to Consider Grievances.

Chicago, Nov. 7.—The garment workers' strike, which called out 40,000 persons in the clothing trade, and which was productive of numerous small riots, has been settled. The strikers returned to their machines on Monday.

Details of the settlement of the strike are not given out.

Jane Adams, the settlement worker, and National President Richard of the garment workers, were active in the negotiations. The strike was called for the purpose of compelling recognition of the union. The matter of wages was not involved.

In advance of official statements, it was learned that the employers and strikers will each appoint a member of a committee to consider grievances, and that these two will select a third. The matter of recognition of the union if the open shop principle, will not be considered. The committee will merely consider working conditions, compensation, etc.

GIVEN A LIFE SENTENCE.

Sergeant Killed Spectator During President's Visit.

Dallas, Tex., Nov. 7.—Sergeant J. D. Manley, of the Texas National Guard, who stabbed with his bayonet and killed Louis Richemstein, a spectator, during the visit of President Taft, to Dallas a few days ago, was given a life sentence in the penitentiary by a jury in the criminal court.

Manley has always claimed that the killing was accidental. The defendant showed signs of temporary insanity at the close of the trial. As the jury filed out he shook his hands and thanked them for the life sentence.

SHOT HIS OWN CHILDREN.

Then E. P. French, Whose Mind is Afflicted, Shot Himself.

Elizabeth, N.J., Nov. 7.—After killing his two young daughters, E. P. French, a superintendent for the public service corporation, tried to kill himself on Saturday at his home here. He is said to be fatally wounded.

French had been ill a long time, and it is believed his mind had become afflicted. The two little victims were Reba, twelve years old, and Doris, ten years old. Their father seized a revolver and shot both girls dead, and then turned the weapon against himself.

Convicted of Perjury.

Prince Albert, Sask., Nov. 7.—Helen Seamer, a girl whose evidence before the police investigation caused B. J. McElliott, formerly of Renfrew, ex-chief of police here, to resign, was sentenced to jail for three months on a charge of perjury, committed at a investigation. She arrived from Quebec, where she was arrested.

WILL DIE FROM BURNS.

Neighbors Found Mrs. Tuffield in Flames.

London, Ont., Nov. 7.—Screams from the home of Mrs. Margaret Tuffield, of 23 Walnut street, attracted the neighbors, Sunday morning, who, on entering, found her enveloped in flames. She is eighty-nine years of age, and was partly unconscious when found. She was taken to the hospital and will die from the waist down as it is probably burned. How the accident occurred no one knows, as the woman lived alone.
