He Seen His Duty and Done It Noble!

From a grammatical standpoint this is something fierce— isn't it?

No worse—in a sense—than the man who puts up a house, store or factory, and who, to save a few dollars, contents himself by installing cheap but poor plumbing.

Fat fetched comparison? Not a far off! Both have made inestimable errors.

TRAGEDY OF GIBRIRON—BRAND- ED AS MURDERER.

Death of West Virginia Player Charged by Coroner to Member of Opposing Team.

Wheeling, W. Va., Nov. 15.—Coroner Rogers has issued a warrant for the arrest of Thomas McCoy, of Canton, O., the Bethany University player, because of the death of Hal-ben Randolph Monk, of the West Virginia University team. The warrant charges murder.

The warrant was issued following the hearing of the physician's statement, who performed the autopsy on Monk, and the testimony of Homer W. Young, of Pittsburgh, who was the umpire. The physicians testified death was due to a blood clot on the brain and could not have been due to any former injury.

Umpire Young told of seeing one of the Bethany players strike Monk with his fist upon the back of the head, while the latter was running down the field. Young said that the blow which killed Monk was clearly intentional.

The testimony of several West Virginia players was secured. Capt. Henry Conch Townsend and Players Rudy and Bowers, of Bethany, have been subpoenaed.

CANT LIVE ON \$600.

Teachers Must Have More to be Independent.

New York, Nov. 15.—That it is barely possible for a woman to live in New York city on \$600 a year, the lowest sum paid to woman teachers here, was asserted by Leonard P. Ayres, of the Commission on Teachers' Salaries, in a speech to the woman teachers. For a woman to live absolutely independently she must earn at least \$750 a year is the opinion of the commission, who have recommended an increase in teachers' salaries to that amount for the first three years of service.

Mr. Ayres further said that the statistics showed that many men teachers resign after three years' service, while many women retire after five, thereby proving that it takes the men three years to pass bar examinations and the women five years to get married. He also said that the absence of teachers from duty costs the city thousands of dollars annually.

FOR PURCHASE OF STORING- TON TOLL ROAD.

Councillor Rankin Will Bring the Matter Before the County Council—This is the Last of the Toll Roads in Frontenac.

At the county council session this week, Councillor Rankin will introduce a by-law for the purchase of the Kingston-Storvington toll road. This is the only toll road left in Frontenac, as it affects the three largest townships of the county, it is desired that the toll gates on it should be carted away. A certain offer will be made to the company for the road, and if the offer is not accepted, then Councillor Rankin will ask for an arbitration with Judge Price as the county representative. It is thought that a price will be arranged that will be satisfactory to all concerned without an arbitration.

The road is valued by the owners at \$18,000. It has paid a dividend of seven per cent. Some time ago, the provincial toll road inspector was here, and went over the road. He gave the company orders to make certain repairs or cease collecting toll. Only a portion of the repairs have been made so far.

One-third of the cost of the purchase of the Storvington road would be paid by the Ontario government. The balance would be charged to the three townships directly interested. If the tolls are abolished on this road, it will be more than ever by residents of Pittsburg, who will drive a few extra miles in order to avoid paying toll on Cataract bridge. As soon as all the county roads are cleared of tolls, the county council will again get after the city council to abolish the city market tolls, which yield the city only \$1,000 a year. The county people consider that the city can well afford to knock off the market fees.
