

COUNCIL DEFEATED

A Resolution to Abolish Three-Year Aldermanic Term

Asked to Pass By-Law to Keep Children Off the Streets at Night—City Water Now Being Treated Chemically

Perhaps the chief thing that the city council expressed itself upon, last evening, was to vote down, by 13 to 3, a resolution introduced by Ald. Long to reduce the aldermanic term from three years to one year, as it was prior to 1907. It is quite evident that the three-year term is quite satisfactory to the large majority of the council, and that there is no chance for a change for some years at least.

The council adopted a resolution of Ald. Armstrong to petition the Ontario legislature to amend the assessment act so that all property held by charitable institutions, and unused for actual work by these institutions, and drawing revenue should be taxed.

It received a petition asking it to pass a by-law making it illegal for boys and girls under sixteen years to be on the streets after eight o'clock in winter, and nine o'clock in summer, without a guardian, and to provide a children's shelter for those taken in charge for violating such by-law.

In attendance at the meeting were Mayor Couper and Alds. Armstrong, Bailey, Carson, Chown, Foster, Elliott, Givens, Graham, Henry, Harrison, Hoag, Kent, McCann, McKay, Robertson and Toye.

Street Railway Complaint.

H. W. Richardson, president of the street railway company, wrote as follows:

"These stones have been placed on Princess street, between the rails, and outside of the rails, in such a way as to interfere with the operation of the railway. In many places they have been placed higher than the top of the rail. These will be swept away and the sweepers are put in operation. We will endeavor to avoid damage being done. Should any damage be done, we will disclaim all responsibility."

Ald. Graham wanted to know why the steam roller was not put over Princess street, and why the macadam and binding was placed on the roadway, and thus have had the macadam consolidated.

City Engineer Craig replied that the board of works did not have sufficient money to operate the roller. It would have cost half as much again to have watered the road and rolled it properly. The road had only been patched. If there had been sufficient money, the roller would have been operated all season.

Ald. Graham could not see why the roller should not have been brought out. The city council voted a certain sum for Princess street. It would have been economy on the part of the board of works to have used the roller.

Ald. Elliott wanted to know why Ald. Graham had not drawn this matter to the attention of the engineer and the chairman of the board of works, and let them know that the council would provide the necessary money.

Ald. Graham claimed that he would probably have been told to mind his own business, if he had suggested what Ald. Elliott had referred to. He pointed out that the steam roller should have been on the streets all season. Then there would have been good roads.

Mayor Couper said that a number of citizens had complained of putting stones down on Princess street and then scraping it off, as if now being done around the street car rails.

Ald. Chown said that the cost of the removal of the stone was a matter of ten dollars, and he declined to go into a discussion of the question. It was too small for the council to waste time over. He himself gave the order to have the stone removed, and he had the authority to do so. The matter was then dropped.

Medical Faculty Resolution.

The following communication was received from Dr. J. C. Connell, dean of Queen's medical faculty:

"At a meeting of the medical faculty of Queen's University, held on Friday, November 19th, the following resolution was passed and ordered to be forwarded to your body and the press: That this faculty views with alarm the present condition of the city's water supply, and regrets the loss of time involved in the hitherto ineffective efforts at repairing the intake pipe. It respectfully urges that a new pipe be laid forthwith and that treatment of the water, by the hypochlorite method, be immediately instituted."

Ald. Carson said he was surprised at the letter of the medical faculty. He declared that the waterworks committee had acted just as rapidly as was possible. The communication was entirely uncalled for. Everything mentioned in the letter of the faculty had been done, and at this moment the city's water supply was being treated chemically, for the protection of the citizens, a plant having been secured for the purpose, and advice having been secured from Dr. W. T. Connell, the bacteriologist of Queen's Medical College, and the medical health officer.

Ald. Bailey said that he wished to endorse the work done by Ald. Carson.

DAILY MEMORANDA.

Hotel Dixie ten at Mrs. Devine's, William Street, to-morrow afternoon.

REMARKABLE TRAIN WRECK.

Boiler Blew Up and Was Struck by Train.

Altoona, Pa., Nov. 22.—The exploding boiler of a freight locomotive rose from its tracks at Thirtieth street, on the Pennsylvania railway, here, yesterday, and, falling over the adjoining track, was struck, while yet in mid-air, by the locomotive of a train coming up from behind. The remarkable wreck that followed caused the death of three trainmen and the injury of several others. A train west-bound was just starting up the mountain, helped in the rear by two locomotives, when the boiler of the second boiler rose from the engine frame and was hurled through the air just as an express train, also west-bound, came along on the next track. The express train was being drawn by two locomotives. The first engine struck the falling boiler and hurled it over an embankment 100 yards from where it stood. The impact derailed the hind locomotive hauling the express train, and threw them against the freight train.

The men killed were Engineer D. H. Rorabaugh, Consmough, Pa.; Fireman Ira Reed, Pittsburgh; Fireman A. C. Furston, Consmough; Fireman H. B. Riddell, Consmough; Engineer I. B. McCoy, Altoona, and Fireman Frank Turner, Altoona, were injured, Riddell fatally.

The men killed were Engineer D. H. Rorabaugh, Consmough, Pa.; Fireman Ira Reed, Pittsburgh; Fireman A. C. Furston, Consmough; Fireman H. B. Riddell, Consmough; Engineer I. B. McCoy, Altoona, and Fireman Frank Turner, Altoona, were injured, Riddell fatally.

The men killed were Engineer D. H. Rorabaugh, Consmough, Pa.; Fireman Ira Reed, Pittsburgh; Fireman A. C. Furston, Consmough; Fireman H. B. Riddell, Consmough; Engineer I. B. McCoy, Altoona, and Fireman Frank Turner, Altoona, were injured, Riddell fatally.

The men killed were Engineer D. H. Rorabaugh, Consmough, Pa.; Fireman Ira Reed, Pittsburgh; Fireman A. C. Furston, Consmough; Fireman H. B. Riddell, Consmough; Engineer I. B. McCoy, Altoona, and Fireman Frank Turner, Altoona, were injured, Riddell fatally.

The men killed were Engineer D. H. Rorabaugh, Consmough, Pa.; Fireman Ira Reed, Pittsburgh; Fireman A. C. Furston, Consmough; Fireman H. B. Riddell, Consmough; Engineer I. B. McCoy, Altoona, and Fireman Frank Turner, Altoona, were injured, Riddell fatally.

COMPROMISE

This is Proposal Made by Lansdowne

LORDS ARE WILLING FOREGO RIGHT TO REJECT OR AMEND MONEY BILLS.

But Other Matters Should Not Be Tacked on to Money Bills—If They Are Then the Questions Involved Should Be Settled by a Joint Committee.

London, Nov. 22.—Lord Lansdowne gave notice in the House of Lords yesterday, that he would move, Wednesday, resolutions providing that differences of opinion on legislative measures should be settled by a joint committee.

The men killed were Engineer D. H. Rorabaugh, Consmough, Pa.; Fireman Ira Reed, Pittsburgh; Fireman A. C. Furston, Consmough; Fireman H. B. Riddell, Consmough; Engineer I. B. McCoy, Altoona, and Fireman Frank Turner, Altoona, were injured, Riddell fatally.

The men killed were Engineer D. H. Rorabaugh, Consmough, Pa.; Fireman Ira Reed, Pittsburgh; Fireman A. C. Furston, Consmough; Fireman H. B. Riddell, Consmough; Engineer I. B. McCoy, Altoona, and Fireman Frank Turner, Altoona, were injured, Riddell fatally.

The men killed were Engineer D. H. Rorabaugh, Consmough, Pa.; Fireman Ira Reed, Pittsburgh; Fireman A. C. Furston, Consmough; Fireman H. B. Riddell, Consmough; Engineer I. B. McCoy, Altoona, and Fireman Frank Turner, Altoona, were injured, Riddell fatally.

The men killed were Engineer D. H. Rorabaugh, Consmough, Pa.; Fireman Ira Reed, Pittsburgh; Fireman A. C. Furston, Consmough; Fireman H. B. Riddell, Consmough; Engineer I. B. McCoy, Altoona, and Fireman Frank Turner, Altoona, were injured, Riddell fatally.

The men killed were Engineer D. H. Rorabaugh, Consmough, Pa.; Fireman Ira Reed, Pittsburgh; Fireman A. C. Furston, Consmough; Fireman H. B. Riddell, Consmough; Engineer I. B. McCoy, Altoona, and Fireman Frank Turner, Altoona, were injured, Riddell fatally.

HAS NO ENEMIES

Even Though He Has Many Opponents.

Mr. Borden, Nov. 22.—Mr. Borden, on behalf of himself and the members of the opposition, extended to Sir Wilfrid Laurier hearty congratulations on his sixtieth birthday. He was delighted to know that the cares and responsibilities and burdens of political life seemed to sit so lightly upon his shoulders. Not long ago, Mr. Borden added, Sir Wilfrid expressed a wish that he might again become leader of an opposition, and said he would undertake that task if he were ten or fifteen years younger. Mr. Borden laughingly added that if it should come the way of the premier to lead the opposition, he would be looked extremely fit for the task. Sir Wilfrid was a very distinguished Canadian, a fellow citizen, colleague and personal friend of all, although a political foe of some, and we desire," concluded Mr. Borden, amid general applause, "to wish him many happy returns of the day which he has just celebrated."

Sir Wilfrid Laurier said he was more touched than words could express at the very kind remarks of the leader of the opposition. Some newspapers had said it was his seventieth birthday, but he did not want to have even one year added to the number. (Laughter.) It was true that on one occasion he expressed the wish to remain at the head of an opposition. There was more fun there than there was in the government! (Laughter.)

Dr. Daniel—but not so much money. The premier said there seemed to be an inevitable objection to his returning to the opposition side of the house, and that was the will of the Canadian people. But for that he would gladly go. At the age of sixty-nine it would be folly to make any plans, but he did not think it would ever be his privilege to again sit in opposition. When he left his present position it would be to retire to private life, to enjoy the rest which he had not had for many years. The premier said in conclusion that he was glad to see that although he had opponents he had no enemies.

DEATH WATCH

Was Placed Upon Crippen This Morning

WAS NO CONFESSION RUMOR SAID HE HAD TALKED TO PRIEST.

A Very Dramatic Interview With Ethel Le Neve—The Young Woman Was Greatly Affected, and Crippen, Too, Was Much Depressed.

London, Nov. 22.—Dr. H. H. Crippen has confessed to the Rev. Fr. E. M. Carville, a Roman Catholic priest, that he murdered his wife, Belle Elmore Crippen, according to reports current here. The father refused to discuss the alleged confession. The belief of those who circulated the report was based on a long spiritual confession which Crippen made to his religious adviser.

Ethel Le Neve visited Crippen in Pontonville prison yesterday and the meeting was one of the most emotional and dramatic that has ever been enacted within the grim walls of the prison.

The young woman for whose love Crippen was charged with killing his wife, wept and cried out hysterically, as they talked. The visit of Miss Le Neve was long, and she was acquitted of being an accessory after the fact in the murder of Belle Elmore Crippen and it was also her last.

The girl wept hysterically through the interview, and at times cried, "Oh, saying that I believe you are innocent." Crippen was deeply moved himself, more so, the prisoner's attendants said, than at any time since his incarceration. When the two parted it was felt that Miss Le Neve would faint.

Dr. Crippen broke down, and even the prison attendants, accustomed to grief and suffering, were moved as they looked upon the tragic scene. Miss Le Neve had to be assisted from the prison.

The visit of Father Carville was of exceptional length although he has been ministering to Crippen for some weeks. He appeared to be greatly agitated after their meeting. Crippen, too, showed agitation.

The Death Watch Set. London, Nov. 22.—The death watch was, to-day, placed upon Dr. H. H. Crippen, whose life will be taken up on the gallows between six and seven o'clock, to-morrow morning, in execution of the murder of his wife, Belle Elmore Crippen. Rumors that Crippen has confessed are emphatically contradicted.

OLD MAN MURDERED. Remains of Edward McGregor Found in Woods. Halifax, N.S., Nov. 22.—The mysterious disappearance of Edward McGregor, who resided a few miles from the town of Digby, and who was reported missing on October 11th last, has been solved. The remains of the old man were found, yesterday, at Digby, in the woods near a lake. The deceased's skull was smashed in two, and the pockets of the clothes were apparently rifled, according to the information given by Detective Frank Hanrahan, last evening, who has been investigating the matter for the government.

McGregor was an old man living
