CADET INGS WINNER IN MARINE CIRCLES

OF MILITARY COLLEGE CROSS-COUNTRY RACE.

The Roads Were Bad, But Cadet Ings Covered the Five and a Half Mile in 27.33 1-5—This Breaks Ex-Cadet Watts' Record.

The annual cross country race, which has been the topic of much discussion at the Royal Military College for the past number of days, was pulled off yesterday afternoon, and was won by Cadet E. Ings. The air had been damp and cold all day, and this made it difficult for the runners to make good time. At three o'clock the runners, numbering about ninety, lined up on top of Barrieffield, and as they stood on the qui vive for the crack of the pistol, they formed an imposing spectacle. Imagine ninety runners in one group starting out on a cross country race. Capt. Blair, who acted as starter, fired the pistol, and the boys were off.

The course led from Barrieffield along the middle road to McGrath's corner, where the runners took the fields, coming out on the front road, up over Barrieffield hill opposite the camp grounds, along the front road to Barrieffield, and finished at the gates of the college. The roads were in poor condition, although Cadet E. Ings, who hails from British Columbia, made the five and one-half miles in 27.33 1-5, which is exceptionally good time. He was followed closely by Cadet Frank Coville, of Ottawa, and next in order came Cadets J. A. Turner, Hamilton; L. P. Cosgrave, Toronto; B. Hutchinson, Toronto; L. Gordon, Toronto; and E. J. Leach, Toronto. The boys found the fields very muddy, especially where it had been ploughed lately. However, they managed to wade through it all.

"B" company won the team trophy, with 155 points, with "C" company a close second, with 151 points.

The officials for the race were: Starter, Capt. Blair; judge at finish, Capt. Kaubach; timekeeper, Major Shine.

Cadet Ings, who won the race, has broken the city championship time of 30.25, established by ex-Cadet Watts, formerly of the R.M.C., but now of Varsity.

Mayor Couper has received a cheque for \$42.50 from the Gananogue town treasurer, for the fire service rendered by the Kingston brigade at the recent big factory conflagration in Gananogue.

STEAMER BELLEVILLE OFF THE DRY DOCK.

The Repairs Were Made in Record Time—The Damage Done Was Quite Heavy—Movements of the Vessels.

The steamer Belleville cleared from the Kingston dry dock, this morning, about 9.30 o'clock, after completing repairs, necessitated from running ashore at Grafton, near Cobourg, a couple of weeks ago. She went into the dry dock last Friday morning, and completed the repairs in an incredibly short time. The damage done was quite heavy, ten frames being broken and five plates stove in. Work was rushed as fast as possible on her, the men working overtime every day. Arr lights were arranged to enable the men to see at night.

Work was temporarily abandoned on the new government boat, while repairs were being rushed on the Belleville, but, this morning, the men were set at work on her, with a number of new hands. Work is proceeding with all possible haste on the steel work of the boat, and the frame is rapidly taking shape.

The water was let off the locks in the Rideau canal on Wednesday. Navigation as a consequence is closed.

The tug Florence arrived from Oswego, with the barge A.D., coal laden, and will proceed to Montreal, taking the barges Aberdeen and Ewing, grain laden.

The steamer John Rolph and barge Locke will clear, to-day, for Belleville, to load stone for Toronto.

The government boat Lambton cleared for Amherstburg, with a scow in tow.

The government boat Scout will be in commission for about another month yet, that is if the weather is favorable. She is still at work in this district.

The tug Hackett brought a barge from Montreal, to Moores' elevator, and after cooling at Swift's, cleared again for Montreal, last night.

The steamer Samuel Marshall is at the Cereal works, and will load oats for Montreal.

M.T. Co's elevator: Tug Bartlett, from Port Colborne, with barge Ursula, grain laden, will clear for Montreal with two barges; the steamer Mapleton, grain laden, from Fort William, is due to-morrow.

The steamship Mary Louise cleared for Gananogue with a general cargo. Next Monday, the Wolfe Island council will definitely decide as to what improvements will be made to the steamer Wolfe Islander during the winter. It is likely that the vessel will be put in Davis' dry dock and have false sides added. Plans are being prepared.

The outlook for Kingston securing electric power from the Hydro-Electric commission is not very bright at present," was the statement of Ald. Elliott, chairman of the light, heat and power committee, when asked, this morning, concerning the result of the conference which he and Manager Folger had with Hon. Adam Beck and other members of the commission in Toronto, on Tuesday.

"I do not say that it is impossible for Kingston to get power from the commission," said Ald. Elliott, "but to be supplied with power as an individual customer at the present time would be of no advantage, for it would cost probably more to bring the power here than we are paying to manufacture it with coal."

"Hon. Mr. Beck received us most cordially. With Mr. Beck were H. P. Southam, chief engineer of the commission, and R. A. Ross, consulting engineer. Mr. Beck outlined the work done by the commission since its inauguration, and then discussed Kingston's chances. He told us plainly that there was little hope of Kingston receiving cheap power from the commission unless it secured the co-operation of nearby towns and villages. He suggested that we should get the councils of municipalities immediately east and west to submit to their ratifiers a referendum, as to whether they were in favor of giving their council or light and power committee authority to make a contract with the Hydro-Electric commission for power supply. When this was done, then the commission would be in a better position to arrange for power supply to this section of the province. But to supply

Kingston as a unit was out of question just now."

Ald. Elliott said that he would report the result of the conference to his committee, which could take what action it deemed necessary. In the meantime, the Seymour company's offer contained in a draft contract, would be gone into.

Ald. Elliott and Manager Folger also viewed and received information about the Tungsten street-lighting system introduced on some of Toronto's streets, but concluded that it was too expensive for Kingston. The lights are most effective, but really, a luxury which Kingston cannot afford. A few Tungstens will be introduced here, but would not be put in clusters of five, as Toronto's are.

TWO SICKLY CHILDREN
Made Well by Vinol—Letters From Grateful Mothers.

New Haven, Conn.—"My little girl ever since her birth was frail and sickly and nothing seemed to do her any good, until we tried your cod-liver and iron tonic, Vinol. As soon as she commenced to take it I noticed an improvement in her health and appearance. She has now taken three bottles of Vinol and from the good it has done her I can say it will do all you claim for it in building up and strengthening frail and delicate children." (Name furnished on request.)

Another mother of Chicago, Ill., writes: "My little girl was thin, run-down, pale and without any appetite. Vinol gave her a good appetite—she has rosy cheeks and has gained rapidly in flesh and strength."

"I cannot say too much in praise of Vinol for delicate, ailing children. We ask every mother of a frail, sickly or ailing child in this vicinity to try Vinol on our agreement to return their money if it does not do all we claim. J. B. McLeod, druggist, Kingston.

"The Little Damozel."
Fresh from its New York success, which was only a natural complement of the triumphant engagement of one solid year which it enjoyed in London. "The Little Damozel," Monckton Hoffa's delightful comedy of sentiment, will come to the Grand on Wednesday, November 30th. "The Little Damozel" is one of Henry W. Savage's productions and his name has come to be accepted as a guarantee of quality.

Gananogue Appointment.
Fireman Smith was in Gananogue, on Wednesday, in regard to the appointment of a fire chief, having a conference with the chairman of the fire committee. The appointment has not yet been fixed. It is understood that the chairman of the committee will pay a visit to Kingston in the course of a few days to look over the fire equipment.

VERY LITTLE CHANCE
OF KINGSTON GETTING HYDRO-ELECTRIC POWER.

From Ontario's Commission—Hon. Adam Beck Said it Would be Necessary for the Municipalities Here to Combine.

"The outlook for Kingston securing electric power from the Hydro-Electric commission is not very bright at present," was the statement of Ald. Elliott, chairman of the light, heat and power committee, when asked, this morning, concerning the result of the conference which he and Manager Folger had with Hon. Adam Beck and other members of the commission in Toronto, on Tuesday.

"I do not say that it is impossible for Kingston to get power from the commission," said Ald. Elliott, "but to be supplied with power as an individual customer at the present time would be of no advantage, for it would cost probably more to bring the power here than we are paying to manufacture it with coal."

"Hon. Mr. Beck received us most cordially. With Mr. Beck were H. P. Southam, chief engineer of the commission, and R. A. Ross, consulting engineer. TAKEN TO PENITENTIARY.
Elizabeth Walker Given Five Years for Theft.

The first woman in some time, came down for the penitentiary, on Wednesday night, Elizabeth Walker, sentenced at Cayuga, to five years, for theft. She spent the night, in the police cells, and was taken out to the big prison, this morning.

The prisoner was accompanied by the deputy sheriff of Cayuga, and the lady matron for Kingston. The prisoner did not appear to feel her position in the boat, and got into the cab, at the police station door more as if she were on her way to spend five years behind prison walls. She is a woman about forty years of age.

Sold a Residence.
E. W. Mullen has disposed of that beautiful residence, owned by Overton G. Hickey, situated on Earl street, near Chalmers church, to Miss S. G. Baxter and sister, Mrs. G. H. Anderson.

After a woman has made another man of her husband is she another man's wife?

Drop in Meat Prices.
There is Larger Supply on the Market.

Have you noticed that meat bills have been somewhat lower these days? No doubt you have, but in case you have not, you had better look them over. Prices have taken a slight drop, and to use an old saying, "every little bit helps."

Sirloin steaks, which sold as high as 20c to 22c, can now be bought at from 15c to 18c. Round steak can now be bought at 17c. Lamb is reported to be firm, at 15c, but it has been as high as 20c. Fresh loin pork is selling at 15c, and smoked ham at 17c. These are only a few of the quotations, but just enough to show that there is a decrease in the prices, and this is all good news to the housewife.

"What is the cause for this drop in the prices?" the Whig asked a butcher, to-day.

"The drop is due to the fact that there is a larger supply on the market," he replied. "Farmers are paying more attention to the raising of hogs and cattle." There is a lot of money in it for the past farmers who have been engaged in the business have made a good deal of money, and now there are more going into it. No doubt the high prices have induced a great many farmers to pay more attention to it.

Sneak Thieves at Work.
A young man, employed in an establishment on Princess street, was astonished upon going into the rear of the store, last evening, to find that some enterprising sneak thief had gained admittance and had made off with a pair of gloves, which were in his overcoat. He says the thief must have had his nerve right with him, as entrance could only be gained by going in the front doorway. This shows that the sneak thief is always on the job ready to pop up at a moment's notice, where he is least expected. Another employee of the same place said there had been numerous thefts during the past few months. One day a hurry call came in and the horse was all hitched ready to go, when it was found that a new pair of lines was missing.

"The Little Damozel."
Fresh from its New York success, which was only a natural complement of the triumphant engagement of one solid year which it enjoyed in London. "The Little Damozel," Monckton Hoffa's delightful comedy of sentiment, will come to the Grand on Wednesday, November 30th. "The Little Damozel" is one of Henry W. Savage's productions and his name has come to be accepted as a guarantee of quality.
