IMPORTANT SCIENTIFIC DISCOVERY.

A Clinical Preparation that Positively Kills the Dandruff Germ.

A most important discovery has been made after a year's patient laboratory work aimed in a certain direction—it is Newbro's Herpicide, a preparation that prevents falling hair and speeds and permanently eradicates dandruff. These evils are caused by a germ or parasite that burrows into the scalp, throwing up dandruff as it feeds, and the hair of the scalp falls out, leaving the hair without dandruff, and no dandruff if the germ is destroyed. Newbro's Herpicide is the only preparation that will do the work. "Destroy the cause, you will remove the effect."

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. \$1 bottle guaranteed. Jas. B. McLeod, druggist, special agent, Kingston, Ont.

TORONTO COUNCIL BUMPED.

Toronto has had another clash with the Street Railway company, and with the usual result. The company wins. It has adopted the pay-as-you-enter system, and every one is obliged to obey the rules of the road, or leave the cars. The rear platform must be cleared, and the smokers are denied the comforts of a pipe, as they journey to and from their work. There has been an appeal from the orders of the manager, (now called the czar), to the Ontario Railway and Municipal Board, and it has been against the city. Now it is proposed to assail the government, and to petition for action which will give the people or the cantankerous ones just what they demand. Fancy the government listening to that proposition! Listening to complaints which imply want of confidence in a commission appointed under a provincial act and designed to relieve the government of all worry with regard to the utilities! The city of Toronto is like the reckless jockey—riding for a fall. Its council has been bumped repeatedly by Mr. Fleming, the aforesaid public official, whom they did not appreciate when he was their savior, and it is time that they realized its deficiencies or defects and acted accordingly.

WHAT THE WORLD NEEDS.

Moderize your religion. That is the advice of Prof. Jackson in his university sermon, on Sunday. The idea is not to revise or refine that essence that transforms a life, and sweetens and purifies it, but to adapt one's self to a new order of things. There is an educational force at work in the United States, and sooner or later it will get to work in Canada.

In connection with some churches there is what is called a director of education. It is his duty not only to organize the Sunday school and young people's societies on a graded basis, but to correlate one with the other, and correlate the church school with the day school. He will look after printing and publicity, provide exhibits and lecture courses, and himself conduct classes, deliver lectures, and write articles.

Many whose taste is for religious and educational work, without wishing to adopt the ministry with its preaching function, will find congenial service here. The writer reviews some of the attractive features of such a calling and declares that the need of better moral and religious education seems to many the most fundamental and the greatest need of our civilization.

The idea is to do away with the haphazard method of doing things. The education of the youth will be such as to develop him morally, religiously, athletically, and some one, or some agency in connection with the church, should know what kind of training he receives.

What Canada needs most is men of the Jackson type, who, at the risk of being misunderstood, will lead the people into new avenues of thought. The world is changing in secular affairs. It does not need a new religion, but a religion, or an education, that is adapted to the times.

DEATH OF MRS. EDDY.

The head of that more or less mystical and numerous sect, the Christian Scientists, has passed away after a week of "error," which is another way of saying that after a week of serious illness, suffering from pneumonia, she died. At her age, almost ninety, it may be that medicine or medical attendance might not have availed her much, but the skilled physician can sometimes apply soothing remedies, and can make the last hours of a sinking patient easier.

The death of Mrs. Eddy was not announced until twelve hours after it had occurred, and was then made known by the reading of a letter she had written many years ago, touching her departure, with the added information that what she anticipated had finally come to pass. Her last years had been spent in absolute quiet. Frail in body and weakened in strength there was the necessity for the calmness and rest which she desired, and an energetic body guard, and composed of some of her most faithful supporters, saved her from worry of any kind.

What the sect will do now that she is gone remains to be seen. It is remarkable that one of her limited mental gifts, without any special training in the science she professed, should become such a power in the land. Her life's history has been searched in vain for the secret of her success. She was not the only advocate of mental suggestion or mental therapeutics, but she was distinct in

her combination of religion and science, and under circumstances that made her work very attractive.

It may be that her cause may suffer by her absence. This seems to have been anticipated by those who have been administering the affairs of her church. Preparations have been made for the perpetuation of Christian Science, but whether it will survive her demise can only be established in time. The sect has had its troubles. They have taken place in the Mother Church and under the very eye of its founder. This manifests nothing save that in every great movement there are ambitious ones, and that they will periodically assert themselves.

Christianity goes on, moulding and fashioning the lives of the people, because it possesses the spirit of the Ideal Man, and is the divine agency for the accomplishment to the divine purposes. Christian Science may go on, or it may, lacking the influence of a great personality, fail. Only experience can demonstrate its vitality.

EDITORIAL NOTES.

Mr. Blacket, K.C., went to England to assist the tariff reformers. When he lands on the other side he will find tariff reform dead and buried. Who killed it? Balfour and his advisers.

Do your shopping now for Christmas. This is the sage advice one reads in the papers. It never occurs to the advisers that the men buy when it suits them, when they have the money.

Factions fighting everywhere. The liberals in Quebec, the conservatives in Ontario, the unionists in England, the nationalists in Ireland. And wherever the fight goes on the sore heads are very numerous.

The New York Herald sees in the home rule movement the political independence of Ireland, the secession of Ireland from the mother country. It sees what others do not see, and what will never come to pass.

This turning of people back at the frontier, on the ground that they are not eligible persons to enter the United States, has got to be stopped. The Canadian government cannot let its people suffer further indignities.

William O'Brien is bound to be the storm centre somewhere. He was the storm centre in Kingston, and no one can imagine what would have happened had he not found shelter from an angry people in the home of a friend.

Christmas Chocolates.

Do not forget Best's Christmas morn delivery of the finest chocolates made. All the way from Boston. "Does quality count with you?"

"Huyler's sweets," Gibson's. Parry Sound is experiencing the first really cold snap of the winter, twelve below zero being registered there.

Rev. William A. Phillips, Evanston, Ill., died on Sunday. He was a native of Picton, Ont.

"Fresh caramels," Gibson's. Several horses were burned to death in incendiary fires at London.

FOR NATIONALISTS

FOUR FRENCH NEWSPAPERS UNDER LANGEVIN'S BAN.

La Presse, La Patrie and Le Canada in Disfavor—Le Devoir is Recommended.

St. Boniface, Man., Dec. 6.—The archbishop of St. Boniface has practically placed under the ban most of the leading French newspapers of the province of Quebec. He has not only condemned four very influential dailies published in the French tongue, but has recommended two others to the faithful of this diocese.

This drastic move only came to the ears of a very small portion of the public this evening, as the condemnation was contained in a private letter, sent to the parish priests of the archdiocese, which embraces the provinces of Manitoba, Saskatchewan and Alberta.

The letter, which is signed Adolphe, Archbishop of St. Boniface, declares that Le Canada, La Presse, and La Patrie, of Montreal, and Le Soleil, of Quebec, are no longer to be read by the faithful of the archdiocese, and in their place his grace strongly recommends Le Devoir, of Montreal, and L'Action Sociale, of Quebec.

Of course this very grave ecclesiastical document will no doubt be contested by the proprietors of the four newspapers just named, as it is the first time a Canadian prelate has ever made such a sweeping recommendation.

A gentleman in Winnipeg said it would be very interesting to watch the course of such good churchmen as Hon. T. Herthoume, of La Presse; Hon. P. L. Beique, president of Le Canada, the Messrs. Tarte, of La Patrie, and the staunch Catholics connected with Le Soleil, of Quebec, when the news reaches them.
