PROGRESSIVE KINGSTONVILLE.
Club Organized to Attract Manufacturing Concerns.

Kingville, Ont., Dec. 7.—The Kingville Progress Club was organized here on Saturday night, with the object of having a greater Kingville. It enthusiastically counts for anything this town promises to go ahead rapidly. An effort will be made to bring the town into prominence in a manufacturing way, and also to attract good citizens here.

More Cases of Cholera.
Koma, Dec. 7.—Eight new cases of cholera have been reported during the past twenty-four hours. All of these occurred at Palermo, six among the patients at the asylum for the insane.

CHRISTMAS SHOPPING

IT HAS COMMENCED IN THE KINGSTON STORES.

Merchants Have a Full Stock, and are Looking Forward to a Good Trade for Yuletide—Beauty and Variety is to be Found in the Various Lines.

The spirit of Christmas has taken hold of Kingston, and all that is now necessary to make the Yuletide season a complete success is a fair, of sleighing. Good sleighing is needed to bring the farmers to the city, in large numbers, and the merchants are now hoping that Old Probs will send along a good snow storm as soon as possible.

Shop early and often, says the Portsmouth philosopher. The merchants are already beginning to feel the result of the Christmas trade. Of course, it is not by any means heavy, as yet, but every little bit helps, and if there is a small rush just now, it means that there will be something doing later on. Merchants are looking for a good trade, this season. All the stores are gaily decorated, and are most inviting.

The old advice of "shop early," should be adhered to. It is a well-known fact that the early shopper gets the very best there is to be had. Every shopper knows that if he goes into a store just a few days before Christmas he will find that everything has been picked over, and that there is very little choice in what has been left.

A merchant was asked by the Whig if he thought the people were doing their shopping earlier, this season. "Yes," he replied, "I believe they are. In our store, we have been quite busy, and it would appear as if all the other stores have been busy, too."

The newspapers have, no doubt, educated the people to the advantage of doing one's Christmas shopping early. When people begin to realize that goods are more or less damaged the last week of the rush, and that there is not the same variety there will be a still greater effort to shop early.

There are many very pretty window displays in the city. And what is more attractive than a pretty window display? It is a great advertisement. Big stores which have been hired especially to do this class of work have found this to be the case. A window, nicely dressed, is sure to catch the eye.

Perhaps the busiest place in town at Christmas time is the five and ten-cent stores. It is a regular "toyland" and a place where Santa Claus makes his headquarters. All sorts of toys are to be found, from spinning-top to an airship, to say nothing about the pretty balloons, so much prized by the small children.

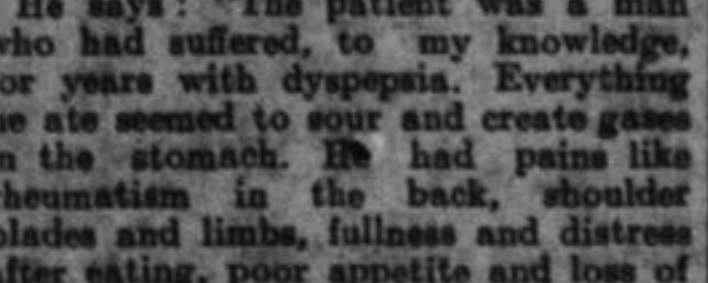

"What shall I give for a Christmas gift?" This is a question that is agitating a good many minds these days. The best way to settle this question is to go out and take a walk through the stores of the city.

Intense Suffering

From Dyspepsia and Stomach Trouble. Instantly Relieved and Permanently Cured by Stuart's Dyspepsia Tablets.

A New Discovery. But Not a Patent Medicine.

Dr. Redwell relates an interesting account of what he considers a remarkable case of acute stomach trouble and chronic dyspepsia by the use of the new discovery, Stuart's Dyspepsia Tablets.

He says: "The patient was a man who had suffered, to my knowledge, for years with dyspepsia. Everything he ate seemed to sour and create gases in the stomach. He had pains like rheumatism in the back, shoulder blades and limbs, fullness and distress after eating, poor appetite and loss of flesh; the heart became affected, causing palpitation and sleeplessness at night."

"I gave him powerful nerve tonics and blood remedies, but to no purpose. As an experiment I finally bought a 50c. package of Stuart's Dyspepsia Tablets at a drug store and gave them to him. Almost immediate relief was given and after he had used four boxes he was to all appearances fully cured."

"There was no more acidity or sour, watery risings, no bloating after meals, the appetite was vigorous and he has gained between ten and twelve pounds in weight of solid, healthy flesh."

"Although Stuart's Dyspepsia Tablets are advertised and sold in drug stores, yet I consider them a most valuable addition to any physician's list of remedies, as they are perfectly harmless and can be given to children or invalids or in any condition of the stomach with perfect safety, being harmless and containing nothing but fruit and vegetable essences, pure pepsin and Golden Seal."

"Without any question they are the safest, most effective cure for indigestion, biliousness, constipation and all derangements of the stomach, however slight or severe."

AT THE GRAND.

"The White Squaw" Will be Seen Saturday Night.

"The White Squaw," described as a romantic American drama, will be the attraction at the Grand, return engagement, on Saturday, December 10th, matinee and night, under the direction of Louis F. Werba. This play is from the pen of the well-known, happily remembered for her work as an actress under the management of Charles Frohman. In "The White Squaw," Miss Clarke is said to have built one of the strongest stories and also one of the most beautiful and dramatic of modern times.

Over and above all else, this is a clean play and there is not one touch of villainy in the entire performance. Its theme is romantic and its people are picturesque and interesting for Miss Clarke has drawn for her material upon one of the most absorbing periods in American history. The scenes are laid in the Michigan forests near to what was then the little settlement of Detroit, for the people in this play lived something like a century ago. Indians of the real American type, trappers of fur-bearing animals, and those hardy pioneers of native progress who blazed the way to our nation's greatness were employed as characters in the building of this drama.

Queen's Theatre Night. Sidney Drew's comedy success, "Billy," that convulsed the audiences at Daly's theatre in New York City for nearly a year and ran all last summer at the Cort theatre, Chicago, is an elaboration of his famous sketch "Billy's Tombstone," and is a story wound around four false settlements described by the entire New York press as a perfect "storm of laughter." "Billy" comes to the Grand for Queen's theatre night on Monday, December 12th.

RIVAL FOR KRUPPS. New Company Formed for Making Armor Plate.

Berlin, Dec. 7.—A new company formed to manufacture armor plate is described as a competitor for Messrs. Krupp, of Essen.

Among the promoters of the new company are the famous Rhinisch mining magnate, Herr Augustus Thyssen, whose name alone inspires confidence; Prince Hatzfeldt and Herr Thyssen's general manager, Dr. Borchardt.

It is stated that the company is in possession of a new process of manufacturing armor plate which can offer greater resistance to projectiles than any existing plates manufactured by Krupp, while at the same time they are far lighter.

FOR THE WORLD'S PEACE.

Movement for Religious Campaign Against War.

Cleveland, Ohio, Dec. 7.—A movement to organize all the religious denominations in the world in a great campaign against war was started here by the Cleveland Peace Society. The first step taken will be to obtain united action on the part of all American churches, and to that end every minister in the United States will be asked to speak on the subject of world peace on Sunday, December 12th.

President Charles F. Thwing, of Western Reserve University, and Rev. W. W. Dustard, John D. Rockefeller's pastor, are at the head of the movement.

WORLD'S FAIR PROJECT.

Winnipeg Awaiting Answer From the Government.

Winnipeg, Dec. 7.—Winnipeg is growing uneasy over the world's fair proposition. Nothing has been heard from Ottawa for a long time and there are rumors that the Dominion government intends to turn down Winnipeg's request. When Winnipeg first asked for a grant the government said they would probably give \$2,000,000 provided that Winnipeg raised a similar amount. Estimates on railways, the city, the provincial government and private citizens the amount has been raised.

OH, MR. LANCASTER!

Conservative M.P. Withdraws Support From Whitney.

St. Catharines, Dec. 7.—At a meeting of the executive of the Conservative Association of Lincoln county, E. A. Lancaster, M.P., declared that, owing to the hydro-electric power policy of the Whitney administration, he no longer is a supporter of the Ontario government.

He claimed that that policy had made conditions such that it would be almost impossible for him to again be elected in this county.

A BRUTAL MURDER.

Woman's Throat Cut From Ear to Ear.

Vancouver, Dec. 7.—Complix, a saw-mill town eight miles east of Arrowhead, in the scene of a reported brutal murder. Fanny St. Clair is the victim. Her body was found on Monday, in the kitchen of her home, her throat cut from ear to ear, and a carving knife with which the deed was done lying on her breast. The rooms show evidence of her struggle to defend herself, but so far no trace of her assassin has been found.

BACILLUS BREEDING

NEW CURE FOR COLDS COMES RATHER HIGH.

Method of Inoculation Used in London Hospitals Which Costs \$25 Per Month.

London, Dec. 7.—If the ordinary Londoner can afford \$25 a month he need have no cold. This sum, says a well-known doctor attached to a city hospital, is the price that is charged by specialists for the minor operation of inoculation against colds caused by bacteria.

This is a new treatment that has recently been largely experimented with only at the hospital to which the doctor is attached, but also at two other London hospitals.

"Now is the time when colds, catarrh, and influenza are getting seriously to work," he said, "but I am afraid that the new treatment is not for the poor man, for the usual charge made is \$25, and the effect of the inoculation wears off in about a month."

"The serum used to inoculate people is made by growing the bacilli that cause the ailment in a sort of broth. The germs multiply very rapidly, and in the process of so doing produce the poisons which, when the germs develop in the blood, give rise to the symptoms of illness."

"When these symptoms—or toxins—have been reared in the broth, it is sterilized by heat, so that the germs are killed."

"A small quantity of this broth, now called a serum, is injected into the blood, which immediately responds by producing antitoxin substances, which wage war on the poison. These antitoxins are capable of dealing with any catarrh germs which may obtain entry into the circulatory system; but in about a month, our experience shows, the antitoxins disappear, so that, if one would remain immune from colds, one must again be inoculated, at the cost of another \$25."

"I am afraid that the man who cannot afford \$300 a year for inoculation will have to pay upon the old methods."

"There are, of course, some people who are constantly the victims of colds. Perhaps in their case it would be well if they made an effort to pay for the treatment, for a long course of it should tend to establish a more permanent immunity."

What Makes Power Dear.

London Advertiser.

London buys energy at Niagara for \$2 per horsepower per annum, and it costs \$14.50 extra per horsepower to transmit the energy from the Falls to London. This \$14.50 represents, chiefly, interest on the cost of the transmission lines, and a sinking fund provision to wipe out the cost in thirty years. The amount is necessarily added to the price of power. If the government would pay for the cost of transmission, a flat rate would be practicable and equitable, the municipalities merely paying for the cost of generating. The government could charge somewhat higher than the cost price of power, and the increased demand for it under the flat rate system would go a long way toward paying the interest on the cost of building transmission lines. If the demand became such that it could not be wholly supplied by the Ontario Power Company, the government need not hesitate to expropriate just to bondholders and shareholders the other power companies upon holders.

Slayer Declared Insane.

Canton, O., Dec. 7.—Katie Manz, the sixteen-year-old Massillon girl, facing trial for murder in the first degree, charged with poisoning her sister, Elizabeth, was found insane by a jury. She will be confined in the state asylum at Massillon.

Killed by Fall From Tree.

Quebec, Dec. 7.—Pierre Braun, a rich farmer of St. Augustin, was instantly killed by a fall from a tree, last Saturday. He was a brother of Lady Langley, wife of the chief justice of Quebec superior court.

Merton Pierce and Miss Margie White, Alexandria Bay, N.Y., were married on June 17th, in Gananoque. The affair was kept a secret until it was announced to a host of friends on Thanksgiving day.

THEY GROW.

Good Humor and Cheerfulness from Right Food and Drink.

Anything that interferes with good health is apt to keep cheerfulness and good humor in the background. A Washington lady found that letting coffee alone made things bright for her. She writes:

"Four years ago I was practically given up by my doctor and was not expected to live long. My nervous system was in a bad condition. "But I was young and did not want to die, so I began to look about for a cure. I used to have nervous spells which would exhaust me and after each spell it would take me days before I could sit up in a chair. "I became convinced my trouble was caused by coffee. I decided to stop it and bought some Postum. "The first cup, which I made according to directions, had a soothing effect on my nerves and I liked the taste. For a time I nearly lived on Postum and ate little food besides. I am to-day a healthy woman. "My family and relatives wonder if I am the same person I was four years ago, when I could do no work on account of nervousness. Now I am doing my own housework, take care of two babies one twenty-two the other two months old. I am so busy that I hardly get time to write a letter, yet I do it all with the cheerfulness and good humor that comes from enjoying good health. "I tell my friends it is to Postum I owe my life to-day." Read "The Road to Wellville," plus "There's a Reason." Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

VEILS THAT ARE FASHIONABLE.

With two-thirds of our feminine population wearing veils it is not surprising that there should be some very attractive things on the counters this season. Sometimes they look very charming in the hand, but get them over the face and presto! the veil looks entirely different and the wearer is scarcely recognizable. The prettiest of the new meshes and withal the most becoming are those made veils with lace borders and a Chantilly bordered on both sides and the ends. It is so draped that it hangs straight from the edge of the chapeau to the shoulders and the ends hang in graceful folds half down the back.

LIVE STOCK MARKETS.

The Prices Paid at the Various Centres.

Montreal, Dec. 5.—About 1,400 head of butchers' cattle, 200 calves, 600 sheep and lambs, and 1,200 pigs, were offered for sale at the Point St. Charles stockyards this forenoon. The offerings of live stock at this market during the week were 2,200 cattle, 300 calves, 1,250 sheep and lambs, and 1,500 pigs. Trade was fair with a little higher price paid for the best cattle, but other kinds of stock sold at about former rates. A few of the best northwest cattle sold at from \$3c. to \$5c. per pound; pretty good animals, \$2c. to \$3c.; and the common stock, \$1c. to \$2c. per pound. Grass fed calves sold at \$3c. to 5c. per pound, good veals at \$4c. to 7c. do. Sheep sold at about \$1c. per pound. Good lots of hogs sold at 7c. to 7 1/2c. per pound.

Chicago Live Stock.

Union Stock Yards, Ill., Dec. 5.—Hogs—Receipts, 32,000; market steady; mixed and butchers, \$7.05 to \$7.45; good heavy, \$7.05 to \$7.50; rough heavy, \$7.05 to \$7.20; light, \$7 to \$7.40; pigs, \$6.50 to \$7.40.

Cattle—Receipts, 32,000; market steady, 10c. lower; beefs, \$4.45 to \$7.40; cows and heifers, \$2.20 to \$6.15; stockers and feeders, \$3.25 to \$5.10; Texans, \$4.15 to \$5.40; calves, \$7 to \$9.

Sheep and Lambs—Receipts, 45,000; market 10c. lower; native, \$2.25 to \$4.20; western, \$2.60 to \$4.15; lambs, \$4.25 to \$6.30; western, \$4.50 to \$6.30.

Buffalo Live Stock.

East Buffalo, Dec. 5.—Cattle receipts 5,000 head; market fairly active, steady to easy; prime steers, \$6.25 to \$6.50; butcher grades, \$4.25 to \$6; heifers, \$3.50 to \$3.75; bulls, \$3.50 to \$5; cows, \$3.50 to \$5.

Calves receipts, 1,200 head; market fairly active, 25c. higher; cull to choice \$5.75 to \$10.50.

Sheep and lambs receipts 26,000 head; market slow, steady to easy; choice lambs, \$6 to \$6.25 cull to fair, \$3.25 to \$3.50; yearlings, \$4.50 to \$5; sheep, \$2.75 to \$4.25.

Hogs receipts 17,000; market active, steady, shade lower; yorkers, \$7.60 to \$7.85; pigs, \$7.50 to \$7.90 mixed \$7.60 to \$7.65; heavy, \$7.60 to \$7.65; roughs, \$6.25 to \$6.50; stags, \$6 to \$6.50.

NOW IT'S "TYPHOID JOHN."

Adirondack Guide, Discovered to Have Spread Fever.

New York, Dec. 6.—The case of a man who is a typhoid carrier, just about "Typhoid Mary" was, is gathering the New York milk committee and to a lesser extent the state health department. The case was discovered through an epidemic of typhoid last summer in an Adirondack camp. There were thirty cases of typhoid in this camp. The water supply was above suspicion, so was the carefully sterilized milk. Both were tested and found pure. The last person to handle the milk was John, an Adirondack guide. He was found to be a typhoid carrier.

Dr. Charles E. North of the New York milk committee wants to treat John with Metchnikoff cultures and Dr. Nathaniel Bowditch Potter has agreed to furnish the treatment. There is a problem now as to where the man shall be kept during treatment, which in these cases—they are not rare—has so far been unsatisfactory.

Cream Shipments From Canada.

Ogdensburg, N.Y., Dec. 7.—Shipments of cream from Canada villages along the St. Lawrence river are attracting much attention from the Canadian dairymen and the matter will be brought to the attention of the Dominion parliament, now in session. From one little village, Aultsville, during the past three months, 32,700 gallons of cream, weighing 261,600 pounds and valued at \$25,230, have been exported, together with 144,173 pounds of casein, valued at \$4,290; 25,309 gallons of whole milk valued at \$2,907, 11,431 gallons of skimmed milk valued at \$262. Of this \$3,239 in duties were collected.
