known to thousands in Vancouver, Victoria and New Westminster, who for nearly a year was practically a cripple from rheumatism. He was so troubled with the disease that he found it difficult to even furn over in bed. His heart appeared so weak that he could hardly get up stairs. Last June, he received a sample of "Fruit-a-tives." He used them and dates his recovery from that time. To-day there is no other man in Vancouver enjoying better health. He was building a house this fall and shingled a good part of the roof in a driving rain storm without suffering any bad effects.

Broved their taste. He approved, in fact, of everything, about or connected, with Anne—her father, who liked him, her conservative buildog who was impartial, old Mary, the cook, who detested him because he was a suitor for Anne's pretty brown hand—and, very especially. Anne herself, who was airily and firmly friendly, but whose real heart's opinion of him was evidently not to be come by easily.

There was, however, an item in the surroundings of Anne, which he very thoroughly hated. This was Mr. John Mackintosh, who was apparently in the lead of the girl's not brief procession of lovers.

Every housewife who uses flour must be interested in ROBIN HOOD "the flour that is different."

You hear it makes a bigger loaf, that the loaf is sweeter-flavored, more nutritious, more easily assimilated than bread made with other flours.

We can tell you why ROBIN HOOD Flour makes that kind of a loaf, but what ought to interest you more than "why it does" is that "it does." You can prove what we say as true at no risk of

loss to yourself. It is largely a matter of making up your mind to use "Robin Hood."
