## END STOMACH TROUBLE.

Indigestion, Gas, Dyspepsia and Heartburn: Go in Five Minutes.

As there is often some one in your family who suffers an attack of indigestion or some form of Stomach trouble, why don't you keep some Diapasin in the house handy? This harmless blessing will digest anything you can eat without the slightest discomfort, and overcome a sour, gassy Stomach five minutes after.

Tell your Pharmacist to let you read the formula, plainly printed on these 50-cent cases of Pape's Diapasin, then you will readily see why it makes Indigestion, Sour Stomach, Heartburn and other distress go in five minutes, and relieves at once such miseries as Belching of Gas, Eructations of sour, undigested food, Nausea, Headaches, Dizziness, Constipation and other Stomach disorders.

Some folks have tried so long to find relief from Indigestion and Dyspepsia or an out-of-order stomach with the common, every-day cures advertised that they have almost made up their minds that they have something else wrong, or believe there is a case of Nervousness, Gastritis, Catarrh of the Stomach or Cancer.

This, no doubt, is a serious mistake. Your real trouble is what you eat, does not digest; instead, it ferments and sours, turns to acid, Gas and Stomach poison, which putrefy in the digestive tract and intestines, and, besides, poison the breath with nauseous odors.

A hearty appetite, with thorough digestion, and without the slightest discomfort or misery of the Stomach, is waiting for you as soon as you decide to try Pape's Dyspepsia.

Finlayson, Queen's. Quite a number from here attended L.O.L., 1032, at Terborne, on the 1st for installation of the officers: Bro. A. Kennedy, W.M.; Bro. J. Dermott, D.M.; Bro. David Bridgen, William Kennedy, James Kish, committee. The young people are practicing for the Christmas entertainment to be held on the 21st at the schoolhouse. Miss Jennie Miller of Napawan has been visiting her uncle, George Bertram, and has gone to Renfrew to visit friends there. The government fishermen are taking out a lot of ling, which has been destroying the other fish. Visitors: John Warren, Miss Jennie Miller of Napawan, has been visiting her uncle, George Bertram, and has gone to Renfrew to visit friends there. #### Notes on Football and Other Field Events.

The Eastern Baseball League meeting has been postponed to the 13th inst. Championship demands the right to name the referee in the event of his signing to fight Owen Moran. Manager Frank Chabon says that he is not going to quit playing first base to direct the Chicago Cubs from the bench. Owen Moran received \$3,275 for defeating Nelson, and the Battle got \$5,240 for taking a lovely beating from the Englishman. Hockey is spreading with leaps and bounds, across the border. Now Cleveland is to have an amateur league, the teams of which will play their games on the ponds in the public parks.

#### Toronto News.

Some time ago it was decided to drop Cobalt and Baileybury from the N.H.A. It would be surprising now to see the players, some of them at least, go back to these centres and organize teams. Hans Holmer, of Halifax, who now calls himself the greatest long distance runner of the age, will soon sail for Edinburgh, to take part in the famous Powder Mill Marathon there on January 1st. He will leave on December 17th. The Canadian Rugby Football Union has decided that the Hamilton Alerts and Hamilton III must play the semi-final next Saturday, in Hamilton, the winner to go to Montreal a week later, and meet the Lambs in the final game for the junior championship of Canada. Tommy Burns will turn over his fighting dates in England to Lester, who is the guest of Burns' proteges. An injury to his knee in a recent game in the course of Burns' retirement. He has called to Hugh McIntosh that he has turned over the dates to Lester. "Poney" McFarland, candidate for honors in the lightweight class, has accepted terms for a ten-round bout with Abe Attell before the Fairmont Athletic Club, of New York, on December 19th. The terms call for McFarland to receive \$2,500, with a privilege of thirty-five per cent of the gross receipts. The weight is to be 135 pounds. These are stormy days for Eastern Canada hockeyists. The formation of a new league to fight the National Association is now really imminent. The Wanderers have been assured good backing at Montreal, while offers of support are pouring in to the Ottawa players. The scheme is to admit the Ottawa Wanderer, Montreal and Brockville clubs, and the players believe that they can withstand the big obstacle, viz., the securing of rink.

#### When Frank Gotch.

When Frank Gotch, the champion wrestler, announced his retirement a year or so ago, it was because he thought the wrestling game was dead. But it seems that his retirement has nothing at all to do with it. He has brought out all the other heavyweights and will eventually result in Gotch coming back to the game. There are no less than six big fellows travelling about the country now wrestling and every one of them is showing big growth, so that Gotch will have good reason for coming back before long.

Miss Helena Mills, of Frankford, is visiting her grandparents, Charles Willman and family are moving to Glen Ross, Maple Grove school is preparing for its public examinations, on 16th inst. text time you don't feel just right, let us buy a 50-cent bottle of Psychine from your druggist to give you to cure your indisposition and prevent worse ailments.

This being ill is curious business. It usually commences in a subtle fashion, almost unconsciously. Yet if you do not check your illness, it grows and grows. And one fine day you find you're sick.

The greatest scavengers of the body are the white corpuscles, or phagocytes in the blood. These white corpuscles attack and eat up every germ of disease that invades the body. That is when they are strong enough and in sufficient numbers. If they're not strong enough, then they were an unequal warfare until they are finally overcome by their more powerful enemies. The body becomes steadily sicker and sicker until actual disease sets in.

Now we have had all sorts of so-called cures. And a great many people have seriously endangered their health experimenting with them. But years ago—before even science was able to tell we had the right treatment for disease—viz., herbs, nature's own remedies. Now that science can tell to an absolute certainty, we know why certain herbs cure disease. Because they strengthen and increase the white corpuscles or phagocytes.

A third of a century ago Psychine made remarkable cures. To-day it is making remarkable cures. In the interim, millions of bottles of Psychine have been sold. Hundreds of thousands of people made well and kept well. Why? Because Psychine is largely made up of those herbs that scientists now know increase and strengthen the white corpuscles, the phagocytes. That's why we have received hundreds of thousands of unsolicited testimonials, that's why we can afford to buy and give away hundreds of thousands of 50-cent bottles of Psychine, that's why Psychine benefits these diseases:

## Itching Scalp Falling Hair

To prevent dry, thin and falling hair, remove dandruff, slay itching and irritation of the scalp, and promote the growth and beauty of the hair, frequent shampooing with Cuticura Soap, assisted by occasional dressing with Cuticura Ointment, succeed when other methods fail. Cuticura Soap and Ointment have been equally effective in the treatment of itching, disfiguring scalp humors and the alarming loss of hair which so often results in premature baldness. George E. Jefferson, 1516 Reed St., Philadelphia, tells of his remarkable case.

"My disease started with a little pimple on my head. Then it began to itch. The more I would scratch, the worse it grew until it spread all over my head. So I went to the doctor. But my head grew worse and worse. My hair began to fall out as fast as a piece of beef. My hair came out in bunches. So I changed doctors. But I could not get it to stop. Then I was told to go to the hospital. They began to treat it but it improved very slowly. For over three years I was a sufferer from this disease but I thought I would never be cured. I was told that Cuticura Soap was the best. I tried it and it cured me. I had tried the Cuticura Soap and Ointment. I was told to use it as often as I could. I did so and I was cured. I had a full head of hair. I can truly say that I was entirely cured to the use of the Cuticura Remedies."
