

HOW THIN FOLKS CAN GET FLESHY

New Accidental Discovery Gives Startling Results—Puts Flesh on Thin People and Rounds Out Imperfect Figures.

Simple Prescription Given.

For women—and men, too, for that matter—who can never appear stylish with anything they wear, because of abnormal thinness and angularity, this remarkable prescription is destined to solve the problem. As a beauty maker for the figure it is simply wonderful while it adds brightness to the eyes and color to the cheeks and lips. It requires no particular dieting, but acts as an aid to nature by its peculiar action on the nerves and blood supply. The blood and nerves distribute over the body all the nourishment or flesh building elements obtained from the food. The trouble with thin people has always been that they do not absorb or retain enough of the fleshy matter to make them gain in weight even to a normal extent; but this new discovery of blending certain harmless drugs is a revelation to science, and hundreds have gained from ten to forty pounds in a few weeks. There is no danger of becoming too fat. When you get the right weight then stop using.

The general health and strength is greatly improved in anyone from the age of sixteen to ninety. Women soon get plump, with well rounded arms and full bust, and men become straight, strong looking and healthy.

In a half pint bottle get three ounces of essence of rhubarb, then add one ounce compound essence cardiac shake and lot stand two, three weeks. There is one ounce tincture cadomene compound (not cadomene). Take a teaspoonful before and after meals, and weigh before beginning.

Wah Long's Laundry First-class work guaranteed. Drop me a card and I will call promptly for your laundry. 185 WELLINGTON ST. between Brook and Clarence Sts.

COAL! The kind you are looking for is the kind we sell. Scranton Coal is good coal and we guarantee prompt delivery.

The British Whig Publishing Co., Ltd. TORONTO OFFICE. Suite 19 and 20 Queen City Chambers, 32 Church St., Toronto, H. E. Smallegange, J.P., representative.

Daily Whig.

CARNEGIE'S LAST GIFT. Mr. Carnegie has commanded attention once more by handing over to trustees of his own choosing securities to the value of over ten millions of dollars for the promotion of peace.

What a contract these men have undertaken. This work will be educational, of course, and they can, with the endowment placed in their hands, do a great deal towards converting the people from the error of their ways. Their first assignment will be to cultivate in the governments of Europe a faith in each other.

This faith appears to be entirely wanting at present. Germany protests that she has no designs upon England, and the statesmen of the mother country answer the profession by building more bigger monsters of the deep. This want of faith may be justified by the action of German specialists who have been giving to England's defences a lot of attention and to England's enemy a criticism of the severest kind.

And the attitude of these nations is the attitude of most powers. In every direction there is the spirit of distrust and it is this spirit which Mr. Carnegie hopes to remove by the erection of his new trust. Success to him and his plans. One cannot help remarking, in passing, upon the origin of that fund. The Carnegie millions were made in large part, from the manufacture of armour plate, the plate that has been going into the battleships that menace the peace of the world.

The peace movement may, therefore, be a kind of atonement for the business, a return of the profits to the people and for beneficent purposes.

GREAT ISSUES AT STAKE. A conservative paper, whose editor does not see that the western movement has in it some embarrassments for the opposition as well as the government—describes the premier's reply to the delegation as chilly. The Whig calls it candid and courageous.

Sir Wilfrid Laurier heard all that the delegates had to say, and said the representations would be duly and seriously considered. There was no attempt to shelve the petition, because it expressed the mind of the west on a variety of subjects. It impressed all who heard it, the members of the opposition as well as the members of the government, with its particular urgency.

The tariff was the central theme, and the premier said it would receive the attention it deserved. Just how far the prayer of the western farmers can be met, it is difficult to see. There are two sides to every issue, and there are two sides to this, the side of the consumer and the side of the producer. Both sides will be heard before any radical change will be made in the tariff schedules, and it is possible that a tariff commission may be appointed to collect the evidence on which the changes will be based.

Then the other questions, of transportation, of elevator service, of terminals, demand more than a passing thought. Herein is a problem of the greatest moment. Public ownership is a popular theme, but is it practicable? The Intercolonial railway is an object lesson of what could be done with a great work which had its origin in political contentions and continues to have them in its operation still.

The programme of the western delegation is a large one, and involves many many millions in its development. The wants of the west must, of course, be met as far as possible, but the premier is discreet in not promising anything which he has not had time to fully investigate and study. Eventually there will be an attempt, reasonably, to reconcile the interests of the west and east, of the producers and transporters, of the farmers and manufacturers. It will not be an easy undertaking, but the government will be equal to it. Of that one is quite certain.

QUESTION BEFORE THE PEOPLE. The city, rather than its power department, is interested in the passage of a by-law which is now before the people and which has for its object the better lighting of the streets. Upon this by-law only the qualified voters can exercise the franchise, and it is well that these voters should be fully conscious of the responsibility that rests upon them. They can pass the by-law, if they will, unanimously, or they can defeat it. The \$123,000, which is involved in the transaction, becomes a liability of the light and power department, and it is very apparent that it is a debt which can be incurred on the city's interest.

It is proposed to "scrap" about one hundred 9.6 Ampere lamps, which were purchased, by arbitration, with the plant owned by the former lighting company, in 1904, at \$14 each.

They have been in use for twenty years, are really worn out, have to be carboned every day, and are of inferior luminosity though they can save a larger amount of electricity. In their place it is proposed to put one hundred Magnette lamps, which take their name from the magnetic stick which is used in them and has a life of 150 hours with each trimming. The lower Magnette burns for 1,000 hours, the magnetic stick, encased in a copper tube, being made of different metals, chemically treated. The inner globe (in use in present lamps), is dispensed with and therefore there will be no shadows caused by the lamp. It burns for ampere of current as against 9.6 ampere required by the old lamps, or 310 watts in place of 480 watts within a given time.

The fifty-five lamps purchased in 1906, Alternating Current, enclosed arcs, are in fairly good shape, and will be used on one circuit. Each burns for ninety hours with one trimming. In addition to the new lamps, there is provision in the by-law for a larger transformer and control supply at the central station, for an extension of the lighting system, so that later fifty more lamps can be installed, twenty-five Magnettes and twenty-five Tungstens, at a cost of \$45 and \$15 respectively. If there can be a saving of current, from the old circuits, to meet the demands of the new, well and good. The city in that event will be getting more light without an increase of the cost. If there is a larger consumption of power the city will have to meet it in the annual appropriation, for the light department cannot, on business grounds, afford to give the city any more than the individual something for nothing.

The Whig will return to this question again. It will be one of the live issues in the elections, and the plan of every elector should be to inform himself on the subject and make sure as to its meaning before undertaking to endorse or kill the project.

EDITORIAL NOTES. No use writing to Santa Claus now. Might catch him by wireless message, seeing that this year he is travelling by aeroplane.

The question before the people will be to secure better street lighting without extra cost? Who would not go for that scheme?

The shop windows are worth seeing these nights. Some of the contrivances for advertising the wares are really ingenious.

Some pretty large stockings are being passed over the store counters these days. No one surely thinks of hanging them on.

Congress has abolished the pension agencies, thousands of them, and the saving will be \$500,000 a year. It could without doing any injustice abolish some of the pensions and save a still larger sum annually.

The power question is coming to stay. The eastern municipal union may play with the question for a while, but it won't be long. The people who want electric energy at a low rate will have to be accommodated sooner or later.

Lloyd-George calculates, (and he's a mighty man with figures), that it costs \$2,250,000,000 annually to preserve the peace. My what a waste of good money, and it must go on until the great nations become really wise.

Senator Dandurand estimates that in twenty-five years international peace will have arrived. That will be about twenty-five years before Mr. Bourassa hopes all Eastern Canada will be converted to his way of thinking and some people will be ready to attend his coronation.

Reginald Ellsworth, of Manitoba, has gone to England to spend the Christmas holidays, and hear some real British songs. He can't hear them in the west because the Yankees are trooping in and they have no ear for patriotic airs. What's the matter with a phonograph?

Senator Young, of Iowa, a newspaper man, made the members of the upper chamber sit up when he addressed them as "boys." The venerables tried to merit the compliment, and they could not forgive Young when he said it was the editors, not the legislators, that ruled the country. As Hoff Mr. Derbyshire, one of our senators, would remark, "We like his style."

Milwaukee Stands Anything. Owing Times. Mary Garden and her company produced Salome, in Milwaukee, in all its artistic and horrible completeness, and in the presence of a large delegation of Chicago people, who were denied seeing it in their own city.

One critic describes the Salome dance as reminding him irresistibly of a "sausage dancing on a red hot gridle," another as a "flame-dancing over the pit of hell." The Milwaukee authorities found nothing in the play to call for the interference of the municipality. The music is described as the most wonderful ever heard.

PATHETIC APPEAL

REV. T. MCKINSEY WANTS DEATH BY THE ELECTRIC CHAIR.

Has Been Blind All His Life and is Now Losing His Voice—Says That He Finds It Impossible to Earn a Living.

Detroit, Dec. 19.—Claiming that society has demanded his death, the Rev. Thomas McKinsey, of Battle Creek, who all his life has been hopelessly blind, and is now in danger of losing his only remaining asset, his voice, has appealed to the governors of four states to grant him legal execution by means of the electric chair.

McKinsey has been singing in the streets and earning a precarious livelihood by this method for some time, but is now losing his voice, and has been compelled to resort to the selling of little articles. The public, he says, refuses to buy and tells him that he ought to kill himself and end his troubles. He is sent to the almshouse, he considers, would be worse than death. As he does not believe in self-destruction, and seeks a less painful death than starvation, he asks the aid of the governors of Ohio, New York, New Jersey and West Virginia, where the electric chair is used in executions.

THERE'S A BIG DEMAND. For Athens Young Ladies as Brides This Winter.

Athens, Dec. 17.—Dr. W. G. Peat is moving to the Green property which he recently purchased. E. D. Wilson has vacated the Gamble house, the popular hostelry which he has been conducting, and has moved to A. R. Brown's house, Willis street. Mr. and Mrs. Rev. J. H. Church street, have moved to Eugene Howard's, Glen Morris, for the winter.

Born on the 3rd inst., to Mr. and Mrs. Levi Wilson, a daughter. Born on the 3rd inst., at Moose Jaw, Saskatchewan, to Mr. and Mrs. N. L. Massey, a son. For ten years, Mr. Massey was principal of the local high school.

Methodist anniversary services took place on the 11th inst. Rev. F. A. Reel, Pieton, conducted both services. Collections for the day amounted to \$315. In addition a cheque of \$25 was received from Miss Ada Hunt, of New York, to be used as the pastor deems wise. Rev. Westell, pastor of the Baptist church, was in Toledo on Sabbath last, preaching anniversary services for Rev. Uncle. Rev. J. Lake, Berrington, preached in the Holiness Movement church last Sunday afternoon. Special services were conducted this week in that church.

At the regular practice of the Methodist choir last night Miss Keitha Brown was presented with a beautiful silver casserole in honor of her marriage, on the 26th inst.

Invitations are out for the marriage on the 25th, of Miss Chrystal Rappell, daughter of Mrs. John A. Rappell, to John C. Hawley, Alexandria, N.Y. They will reside in Syracuse. The choir of the Methodist church, of which Miss Rappell was a member, hearing that she was at Mrs. Wilbur's, Toronto, on Friday evening dropped in to spend a social evening and say farewell to the bride-to-be. The evening was pleasantly spent in music and social intercourse, and on behalf of the choir an address was read and a casserole, similar to the one presented to Miss Brown, was presented to Miss Rappell. Refreshments were served at the close.

The engagement is announced of Miss Ethel Slack, daughter of Mrs. Philip Slack, and Kenneth C. Berney, B.Sc., Hamilton, son of T. Berney, of this place.

Benjamin Cornell, who has spent the past year and a half with his uncle, Leonard Robinson, C.E., Fort William, arrived home Friday evening. Miss Jean Katley arrived from Ottawa Normal School Friday evening, and Miss Jennie Doolan from Toronto Normal, on Saturday, to spend the holidays at home. Mrs. Eugene Robinson, Boston, is a guest of her mother, Mrs. H. H. Arnold. Milton Mansell returned last week from Maple Creek, Sask.

How the Change is Made. Montreal Gazette. It has been assumed by some newspapers that an amendment of the British North America act would be required to give to Prince Edward Island the six members in the House of Commons which it demands. Such a supposition is only right if the case of the little province is to be made a special one and the spirit of the B. N. A. act ignored. By section 52 of that act, parliament is given the power to increase the number of members of the House of Commons, provided the proportionate representation of the provinces is not disturbed. Prince Edward Island could be given six members by legislation at Ottawa, but at the same time this province would have to be given 125 or more, and a bold Quebec would be something to appal the stoutest hearted of the politicians.

Graft Reaches the Grave. Oswego Palladium. In New York graft does not stop even at the grave. Preachers and sectarians are said to be in cahoots with undertakers. The Rev. Frederick Lynch, of the Pilgrim Congregational church, started his congregation by saying: "Graft runs through the business system of New York from top to bottom. It even extends to the undertaker. I had been in New York hardly a month as a pastor when an undertaker came to me and offered me a rake-off on every funeral I would get him. Of course, they go to sextons as well. I do not know whether they have an agreement with the doctors."

It has been discovered that the "solid gold medal," given to President Taft by the Brotherhood of Railroadmen in Worcester, Mass., on April 11, was brass, plated with gold, and was engraved by convict labor. Mirrors, 50c to \$5, at Best's. Honestly earned calico bought never to be ashamed.

None of us are any too eager to return kindness. Silk initial handkerchiefs at Deyer's.

KINGSTON BUSINESS COLLEGE (LIMITED) HEAD OF QUEEN STREET. "Highest Education at Lowest Cost"

Twenty-sixth year Fall Term begins January 1st. Course in Bookkeeping, Shorthand, Telegraphy, Civil Service, and English. Our graduates get the best positions. Within a short time after leaving school, our graduates are in the employ of the largest railway corporations in Canada. Enter any of these, or write for information to H. F. METCALFE, Principal.

NEW SCIENTIFIC PROCESS. A Preparation Discovered That Will Destroy the Dandruff Germ.

For some time, it has been known that dandruff is caused by a germ that digs up the scalp into the little white holes, and by sapping the vitality of the hair at the root, cause falling hair, and "hot" coronas. Finally, baldness. For years there have been all kinds of hair stimulants and scalp tonics on the market, but there has been no permanent cure for dandruff until the discovery of a preparation called Newbro's Herpicide, which destroys the dandruff germ. Destroy the cause, the effect will cease to exist. Kill the dandruff germ, and you'll have no dandruff, no itching scalp, no falling hair.

Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. \$1 bottle guaranteed. Jas. B. McLeod, druggist, special agent, Kingston, Ont.

Incarcerated House. Judge McDonald, addressing the grand jury at the session in Brockville Tuesday, referring to prisoners in the counties jail on charges of drunkenness, said he did not believe short terms in jail were any preventive of the habit, but rather increased the thirst for liquor. He was an advocate of a government-owned institution where inebriates could be treated, and cited institutions in England where the work of reforming the drunkard is carried on. He hoped at no distant date the government of Canada would take up the matter.

Fur-lined gloves, regular \$3.50, now \$2.50, at Hunt's, Brock street. While-bearing friends cause more broken hearts and more divorces than infidelity, cruelty, and non-support all put together. There are some laws still needed in this country; back to the ducking stool.

NINE YEAR OLD BOY Cured of Bed Wetting by Booth's Kidney Pills. Mrs. J. Tall of Denmark St., Meaford, Ont., says: "Our nine year old boy has suffered severely with kidney weakness or bed wetting for over two years. Several remedies have been used to cure the trouble, but none gave any relief until he used Booth's Kidney Pills. This medicine went right to the cause of the trouble, reduced same, and to-day the boy is practically devoid of all kidney complaint. I wish all mothers knew of this excellent curative remedy and am glad that Booth's Kidney Pills were brought to my notice."

Booth's Kidney Pills cure backache, dull, aching, shooting pains, thick and cloudy urine, gravel or stones, rheumatism and all diseases of the kidney, bladder, and bladder.
