In Chorus Cried, Give Us Newbro's Herpicide. This word of late has been in everyone's mouth, and many are wondering what the word signifies, though no one has yet been found, who will deny that NEWBRO'S HERPICIDE does the work. Well, for the information of thousands of people who like to know about a good thing, we would say that HERPICIDE means, a destroyer or killer of "Herpes." Now "Herpes" is the family name of a disease caused by various vegetable parasites. A similar microbe causes dandruff, itching scalp, and falling hair, this is the microbe that NEWBRO'S HERPICIDE promptly destroys, after which the hair grows.

IN 1898 The London Lancet, after a careful examination of Scott's Emulsion reported that "the preparation fulfills ALL the requirements and presents ALL the conditions of a very satisfactory emulsion. In appearance and consistency it is not unlike cream and under the microscope the fat globules are seen to be perfectly regular and uniformly distributed. So well has the oil been emulsified that even when shaken with water the fat is slow to separate. The taste is decidedly unobnoxious and the Emulsion should prove an excellent food as well as a tonic." We believe no other preparation of Cod Liver Oil has received such weighty commendation and if the same high authorities were to examine it now they would find it even finer, more digestible, more palatable and more satisfactory in every way; in fact, SCOTT'S EMULSION has so long been the one satisfactory and perfect Emulsion that it is accepted as the standard by medical practitioners all over the world, by the public and by hundreds of imitators, for it is the one and only Emulsion imitated. The imitations are in name only for no other preparation of Cod Liver Oil is so pure, so perfect and so beneficial. SCOTT'S EMULSION has become the world's Standard Body-Builder because of the perfect purity of its ingredients, its absolute freedom from ALCOHOL or any other harmful substance and because the results from it are uniform and far greater than from any other preparation.
