

SERMON ON RELIGION

IT IS THEM OF CHRIST'S GARMENT, SAYS PROF. LAW.

Who Preached at Cooke's Church on Sunday—The Great Need for Christianity in Our Every Day Life—How to Make a Christian City and Community.

"Religion is the hem of Christ's garment. The hem of that garment is among us this morning—it is within reach of all of us. Christ is here, knocking at the door. God grant that we may all hear Him."

Thus spoke Prof. Robert Law, D.D., of Knox College, Toronto, during the course of a very strong and forceful sermon, in Cooke's church, Sunday morning. Prof. Law preached, morning and evening in Cooke's church, and on both occasions, he was greeted with a very large congregation. Prof. Law is a fine speaker, and his discourses were listened to with great eagerness. He has a way of keeping one's attention from start to finish, and is a most interesting speaker.

In his morning sermon, Prof. Law dealt with the history of religion, and read three passages of scripture by his text, as follows: "I will build my temple at Jerusalem, shall Kings bring presents unto thee?" I Corinthians, chapter 3; verse 16: "Know ye not that ye are the temple of God, and that the spirit of God dwelleth in you?" Revelations, 21st chapter, Psalm 68; verse 29: "Because of verse 22: 'And I saw no temple therein; for the Lord God Almighty and the Lamb are the temple of it.'"

The speaker pointed out that a temple was not only a place erected for worship, but that it was a residence of the house of God. "Ye are the temple." We must think of what we are. Was our temple kept like that of Paul's? Paul, prayed without ceasing. His spirit never altered his dependence on God. Was it so in the temple of our lives? That was the glory of spiritual religion. With this religion, a person would not change. No matter in what occupation, or circumstances, a person would not change. We should take God with us into the common places, into the home, into business, into recreation and into politics. And what of the final outcome of all this? Human life began in the garden, and ended in the city. Regarding this city, strange things were said. There would be no more sickness, pain nor sin there. And there would be no temple there. Every house, street and market place, in the New Jerusalem would be a temple. There would be no need of Sundays for a rest. Work itself would be rest. There would be no need for a Lord's table as every table would be for the Lord. There would be no communion season, as it would be always communion season.

"And what is religion? Religion is not a thing here, and not outside here to-day, and not to-morrow. Religion is a certain spirit in a man, in everything he does. In whatever he does, he makes it religious. He never needs a temple. He carries the atmosphere of a temple with him, and he helps other lives as well as his own. We cannot understand these things perfectly, because we are not religious enough. I trust that we are spiritual enough to see that it is good which it is lending. When we get the city without a temple, God's work will have been finished."

NEW BOATS FOR 1914

THE DAVIS COMPANY HAS A NUMBER OF ORDEES.

It is Furnishing a Boiler for the Cuban Government—A Yacht for a Pittsburg—Man Will Cost \$10,000.

The Davis Dry Dock company is having a very busy time building several boats, engines and boilers, also gasoline motors. It has some good contracts on hand and has between fifty and sixty men employed, most of whom are skilled mechanics. The company has under construction a composite steamer, 100 feet long, 12 foot beam, 6 1/2 foot deep, equipped with Fitzgibbon's boiler and fore and aft compound engine. This boat is to be used on the Rideau canal running between Smith's Falls and Kingston, and will run two or three trips a week. In addition to the passenger service this boat will engage in carrying freight. It will be capable of a speed of eleven miles an hour and will have every accommodation for day service. The boat will be completed and ready for the route on May 1st. It is owned by Capt. A. Foster, of Smith's Falls, who is well-known in this city.

The snowball fiend was more in evidence last evening than ever, and judging from the wrathful expressions which escaped passers-by as they got out of range, there will be trouble. There were three or four gangs at work, last night. One at the corner of Princess and Barrie streets, one at the corner of Princess and Clergy, and a huge gang numbering about thirty at the corner of Union and Barrie streets. The gang at the corner of Princess and Barrie streets was surprised in the midst of its fun to see a policeman come in sight and immediately vanished until the officer was out of sight.

Home From the Convention. Joseph McGrath was in the city on Saturday having just returned from the big convention of the Eastern Ontario Dairyman's Association held at Perth. Mr. McGrath says that the convention was well attended and that he gathering was a most interesting one. The meetings were held in the opera house and at each session the seats were filled. The spirit of the convention could not but have the effect of giving a fresh impetus to the dairy industry of Eastern Canada.

Sun Life of Canada. The new business of the Sun Life Assurance company, of Canada, for the year just closed is the largest in the history of the company. The total applications for assurance amounted to \$29,337,554.69, which is \$2,632,638.68 in excess of the business of 1909. This large volume was secured in the ordinary course of business through the company's agencies.

He is Recovering. Canon Starr was unexpectedly called to Trenton to take the services there yesterday. Rural Dean Armstrong, rector, was seized with an alarming fever on Wednesday evening and was unable to take any duty. The rural dean is, we are pleased to state, recovering rapidly.

BOY SCOUT MOVEMENT

There Are Now Four Corps in Kingston.

The Boy Scout movement is becoming active in Kingston. The latest corps to be organized is at Princess street Methodist church. The Scout will be under the leadership of Archibald Gates and Clifford Pierce. The boys have been contemplating the formation for some time, but it was only made known to the scholars at the Sunday school on Sunday afternoon. At boys between the ages of eight and eighteen, who care to join, will be cordially welcomed. The important thing about the movement "Obedience," was explained to the boys by the superintendent.

This makes four distinct corps in the city, the largest of which is the Y.M.C.A., numbering about eighty. St. George's, organized early in the summer, while St. Andrew's street was organized early in the fall by Mr. Ward. It will not be long before there will be others who will be organizing.

WAS IN SAD FLIGHT

A Man Collapsed in a Grocery Store.

People who happened to be in a grocery store on King street, early Saturday afternoon, were given quite a shock when a man who walked into the store, suddenly fell on the floor. Over-indulgence in strong drink was the cause. He was helped and a call was sent to the police. Constables Mullinger and Dawne answered the call and they were obliged to secure a sleigh to take the man to the police station, where he was given time to sober up and be ready for the police court Monday morning.

Investigates Osteopathy.

In the British Medical Journal for September 3rd, 1910, Alexander Bryce, M.D., Glasgow, D.P.H. Camb., gives the results of his investigation of the science of Osteopathy for which purpose he made a special visit to America. He says: "I came to the conclusion that there must be some virtue in a method which had such vitality as to spread all over a continent in a few years, and at its present rate of progress had fair to travel all over the world. I was hardly surprised at this, as my own experience in its practice had at least disclosed the fact that it was of striking benefit in selected cases. I do not hesitate to plead for the admission of this new form of scientific bone-setting among the recognized methods of treatment practiced by the medical profession. My success in the following cases is entirely due to the study. I have made of the subject, and I am sure I would have failed to be of service to any of the patients without a knowledge of osteopathic methods. 'I might go on quoting cases of a similar kind which have occurred in my practice, but I have described a sufficient number to show that slight deformities can be present in the bony frame capable of giving rise to severe pain, and which are liable to be overlooked by medical men.'"

MISS LENA ASHWELL, The distinguished English Actress in "Judith Zarina," at the Grand, on Thursday, January 12th.

INCIDENTS OF THE DAY.

News Paragraphs Picked Up by Reporters on Their Rounds.

J. D. Allen, and two daughters, of Mississippi, are the guests of Mrs. F. Clarke, Gore street.

Archbishop Gauthier was in Brockville over Sunday and spoke at high mass in St. Francis Xavier church.

Fireman Donald Craig, was in Glenora, Sunday, paying a visit to his father, William Craig, who is very ill. The Y.M.C.A. Boy Scouts are practicing for a concert which they intend holding during the first part of February.

Kingston, London, Halifax and Berlin stood about equal in the amount of building work done in the month of December.

Mr. and Mrs. G. D. C. Valteau and daughter, Miss Lois, Rochester, N.Y., are visiting her sister, Mrs. J. A. Williams, Nelson street.

January weather is entitled to the 'cake.' For extremes changes it cannot be beaten. Two big thaws in a week and a liberal share of zero weather is somewhat unusual.

Mrs. George Maxwell and Mrs. James Rutan left for their home, Sandusky, Mich., on Wednesday afternoon, the holiday at South Lake, the guests of Mr. and Mrs. Wellington Maxwell.

The Snowballing Nuisance.

The snowball fiend was more in evidence last evening than ever, and judging from the wrathful expressions which escaped passers-by as they got out of range, there will be trouble. There were three or four gangs at work, last night. One at the corner of Princess and Barrie streets, one at the corner of Princess and Clergy, and a huge gang numbering about thirty at the corner of Union and Barrie streets. THE SPORT REVIEW

QUEEN'S WON A POOR GAME WITH TORONTO A.A.C.

The Score Was 9 to 8—The Ice Was Soft and the Play Poor—Queen's Regarded it as a Work-out Game for its Recruits—Toronto Team Late in Arriving.

Eight hundred patient, peaceful, good-natured hockey fans waited one hour after scheduled time for the Queen's-Toronto Athletic club exhibition hockey match at the covered rink Saturday night. The spectators from the Queen city were delayed sixty minutes by a demoralized train service.

The performance was put on in three acts of twenty minute periods with James Sutherland in the role of stage manager and referee. Queen's won by nine goals to eight. At half time Queen's led by 3 to 0. On the whole it was a very mediocre exhibition of the winter game. The wretched soggy condition of the ice prevented consistent combination play; time after time players on both sides would overtake the puck, and had it not been for the able outstanding work of the George brothers, it would be described as a poor affair from the spectators' viewpoint. However, it was a practice game for the Presbyterians, and an opportunity to try out the available material. Twelve Calvinists aspired to first team honors, but several of the lads will require substantial seasoning before they are fast enough for senior company.

"Ed" Elliott, who has figured so prominently on the second team for several seasons past, was worked out at point. He checked and skates well, and clearly demonstrated that he is well qualified for the position, although he allowed several of the long shots to get past him. "Ed" Elliott, who has figured so prominently on the second team for several seasons past, was worked out at point. He checked and skates well, and clearly demonstrated that he is well qualified for the position, although he allowed several of the long shots to get past him.

Blakely was also tried at point; he, too, is possessed of considerable avoidpuck, and is a player of promise. His individual rushes brought him into prominence on more than one occasion, a practice in which he perhaps inclined to indulge too frequently, leaving the defence in a crippled condition.

Of the new material tried out on the forward line Meikle, Smith, and McKinnon are easily the choice. Meikle's ability is known by his splendid work on last year's second team. He is steady, a good shot and always on the aggressive. McKinnon, the Renfrew lad, although light, is certainly speedy; in spite of the heavy goal he had little trouble eluding his check, and when his opponents were in possession of the puck he worked back with the spirit of the Trojan. Box, the other Renfrew hopeful, is fast, but hardly heavy enough to stand the pace. Macdonnell is a hard worker, and a speedy skater, but with a knowledge of the family history he looks more like a defence man than a forward. Fraser and Goodwin were also given a trial. The teams lined up as follows:

T.A.A.C.—Goal, Addison; point, Burkart; cover, McCreath; rover Dion; forwards, Brown, Burkart and Swan. Queen's—Goal, Gilbert; point, Elliott; cover, Basil George; rover, G. George; forwards, McKinnon, Meikle and Smith.

The scoring was done as follows: 1, Queen's, G. George; 2, Queen's, G. George; 3, Queen's, Elliott; 4, T.A.A.C., Swan; 5, T.A.A.C., Dion; 6, McKinnon; 7, Queen's; 8, Queen's; 9, T.A.A.C., Burkart; 10, Queen's; 11, T.A.A.C., Swan; 12, Queen's; 13, Queen's; 14, T.A.A.C., Dion; 15, Queen's, Goodwin; 16, T.A.A.C., McCreath; 17, T.A.A.C., Brown.

Glenburnie Beat Cataragi.

The Jovenship Hockey Association's first league game of the season, was played at Glenburnie, on Saturday afternoon, between Glenburnie and Cataragi. The ice was in fairly good condition, considering the bad weather and snow of the past week. The league has a comfortable dressing-room. William Laird, of the city, refereed in a manner satisfactory to both teams. The game started at 2.30 o'clock, and proved fast and exciting from start to finish. It was a nice clean and gentlemanly contest. The score at half time was 4 to 0, and at full time 7 to 1, in favor of Glenburnie.

It was by no means as one-sided as the score would indicate. Cataragi fought like tigers till the last minute, but could not break through the Glen's defence, but they took their defeat like true sports. Taking into con-

City Hockey Executive. There will be an executive meeting of the City Hockey League this evening for the purpose of considering proposals which were entered at the opening of the hockey league last Thursday evening. Some of the players were not aghast to play with the Irishmen, according to the statement made by some of the Granite players.

The Granites Defeated. The second local team of the City Hockey League to go down in defeat before an outside team, were the Granites, who went down from the city, on Saturday, to have a friendly brush with the Gananoque Hockey Club. They were defeated by one point, the final score being 4 to 3 in favor of the Gananoque Canoe Club. Although it was supposed to have been a minor game, the Granites had four junior men on their lineup, while the Canoe Club had three on theirs. The half time score was 2 to 0 in favor of Gananoque, the local boys getting their three goals in the last half. The condition of the rink was anything but satisfactory. It is a new one and was not ploughed before flooding, consequently there were several humps to skate over. There was a large crowd on hand to witness the game, and the gate receipts amounted to \$32, of which the local team got \$12. The Canoe Club has some good men on its lineup, one of the fastest being the goal-keeper. Time and again the Granites shot at their opponents' goal, only to be driven back.

CLASH ON PRINCESS STREET Between Salvation Army Bandmen and Horseman. There was a bit of a scrap on Princess street in front of the Y.M.C.A. building on Sunday afternoon about 1.15 o'clock, in which a local horseman and several members of the Salvation Army band were participants. The horseman claimed that the band had proceeded up the street taking up nearly the whole road, and that he was unable to drive past. He followed up as far as the Y.M.C.A. building, and there decided to drive through the procession, which he did, and then followed a short conflict. When the horseman drove through, knocking a couple of the bandmen aside, one of the Salvationists grabbed the horse by the head to hold him back, and received a cut across the head with a whip. Another grabbed the whip, breaking it, and received a jab from the horseman's fist. The man with the flag gave the horseman a blow on the side of the jaw as he drove his horse on his, and the driver wrenched off the top of the flag as a trophy. The bandmen say that there was room enough for the horseman to pass at the left side of the roadway. It is not likely that a police court case will result, although the horseman states that he is quite willing to answer for his actions.

The Travel Increased. The travelling from Pittsburg to Kingston, via Kingston Mills, has vastly increased since the tolls have been taken off the Storrington and St. Regis township roads.
